

How Do I Clear Cache in Internet Explorer?

Navigation

1. After opening Internet Explorer, click the **Tools** icon (or press **Alt + X**).
2. Select **Safety**.
3. Click **Delete Browsing History**.
4. Ensure the **Temporary Internet files and website files** selection is checked.
5. Ensure the **Cookies and website data** selection is checked.
6. Check any other options you wish to delete.
7. Click the **Delete** button.
8. Your cache is now cleared.
