Georgia*FIRST* Financials V8

Announcement

UPDATE: August 7, 2009

STATUS: OIIT has completed the updates to the Accounting Entry Templates for the ITEQP and LPURC asset categories.

We apologize for any inconvenience this has caused our users. Any tickets that have been submitted for this issue will be closed.

UPDATE: August 7, 2009

STATUS: OIIT has determined that the institutions do not have the necessary security to make the changes to their Accounting Entry Templates using the instructions provided below. Therefore, since this is a change to the Foundation table, OIIT will make the necessary updates instead. You will be notified when these changes are complete.

Institutions will NOT need to make these changes as previously requested.

POSTED: August 7, 2009

SUBJECT: AM Prior Depreciation Period Journal Mask Correction

PURPOSE: To notify users at all institutions using Georgia*FIRST* PeopleSoft Financials Version 8.9 in the individual Production databases that a correction to the Asset Management Prior Depreciation Period Journal mask is needed for the ITEQP and LPURC asset categories with a Trans Type of PDP.

FUNCTIONAL IMPACT: OIIT has discovered that Prior Depreciation Period accounting entries with an asset category of ITEQP or LPURC and a Trans Type of PDP are incorrectly assigned a mask of DEPR upon journal generation. The correct mask is PDP. This can create confusion if users look to the Journal mask to identify PDP entries. Users should use the following procedure to correct the Accounting Entry Templates for the ITEQP and LPURC asset categories.

1. Select Set Up Financials/Supply Chain⇒Product Related⇒Asset Management⇒Financials⇒Accounting Entry Templates. The Accounting Entry Templates – Find an Existing Value page displays.

	^									
D Security		Accounting Entry Templates Enter any information you have and click Search. Leave fields blank for a list of all values.								
▷ Upgrade										
Business Unit Related										
Common Definitions		/ Find an Existing Value V Add a New Value								
Set Management										
 Depreciation 		SetID:	= 🗸	33000	Q					
		Asset Category:	begins with 🗸

- Allocation Basis		Find an Existing Value Add a New Value								

- 2. Enter LPURC in the Asset Category field.
- 3. Enter **PDP** in the **Transaction Type** field.

4. Click on Search . The Accounting Entry Template page displays.

Accounting Entry Template							
Accounting Entry Template							
SetID:	33000						
Asset Category:	LPURC		Leased Purchases				
Cost Type:							
Transaction Type:	PDP		Prior Period Depreciation
