

GeorgiaFIRST Financials V8

Announcement

POSTED: July 6, 2009

SUBJECT: Querying Banner Records from PeopleSoft Financials

PURPOSE: To notify users at all institutions using GeorgiaFIRST PeopleSoft Financials Version 8.9 regarding the querying of Banner records from PeopleSoft Financials.

FUNCTIONAL IMPACT: Effective July 1, 2009, the individual institutional PeopleSoft Financials databases have been consolidated into one database, and the Banner links were changed from each institution's individual database to the new consolidated database, as noted in the **Banner Changes Needed for Consolidated Financials System** announcement that was posted on June 24, 2009. This consolidation required changes to links and related packages each institution has from their Banner database to the Financials database in order to access the proper data in the new consolidated environment.

If your institution has developed queries that need to access Banner records, you will no longer be able to run these queries within your individual database. In order to access query and run your Banner queries within the consolidated database, you will now need to use the new **BOR Reporting Instance** functionality, via the [BOR Reporting Instance](#) link, as shown below:

You will also need to be aware that the following Banner view/record names have changed in the consolidated environment (**old** ⇒ **new**, where ## are the first two characters of your Business Unit):

- **BOR_BNR_ZURGFTT** ⇒ **BOR_BNR_ZUFG##**
- **BOR_BNR_SPRIDEN** ⇒ **BOR_BNR_SPRID##**
- **BOR_BNR_TBBMISC** ⇒ **BOR_BNR_MISC##**
- **BOR_BNR_TBBMISD** ⇒ **BOR_BNR_MISD##**
