Click "Install"

Internet	Explorer - Security Warning	-	×	
Do yo	u want to install this software?			
	Name: SwiftView Tools Installer			
	Publisher: SwiftView, Inc.			
× N	ore options	Install	Don't Install	
While files from the Internet can be useful, this file type can potentially harm your computer. Only install software from publishers you trust. <u>What's the risk?</u>				

Chose the option "use my default browser with SwiftView plugin/ActiveX"

Configure SwiftView Viewing Mode
How do you want to view a local file when double-clicking in Windows Explorer?
C Reuse an existing standalone SwiftView window
O Open a new standalone SwiftView window
Use my default browser with SwiftView plugin/ActiveX
C I don't know (use existing standalone)
Note: You can always right-click on a file to open it another way, change the default action from Windows ExplorerToolsFolder OptionsFile Types, or change the default action to match your installed SwiftView license by rerunning this installer.
Note that some versions of Internet Explorer trigger security dialogs when opening a local file in the browser, so you may prefer to use standalone SwiftView.
Restart Browser
You may need to close and restart your browser (Firefox) to update the list of plugin
Ok
SwiftView Tools Install

SwiftView Tools successfully installed

Ok

Now the image on the right side of the page will appear:

Register the software

Return to the URL above, and then click on the hyperlink for "registering SwiftView"

NOTE: If you have a 64-bit Windows 7 Operating System, you must use the "Register 64-bit SwiftView" link.

When the following message box appears, click on "Open"

File Download				
Do you want to open or save this file?				
Name: sview_wan.zip				
Type: Compressed (zipped) Folder, 384 bytes				
From: dfs-fs.gafirst.usg.edu				
Open Save Cancel				
Always ask before opening this type of file				
While files from the Internet can be useful, some files can potentially harm your computer. If you do not trust the source, do not open or save this file. <u>What's the risk?</u>				

The file should unzip using your default zip utility.

Double-click on the file "dfs-fs_swiftview"

When the following message box appears, click "Run"

Open File	- Security Warning			
The publisher could not be verified. Are you sure you want to run this software?				
B	Name:p\Temp1_sview_wan[1].zip\dfs-fs_swiftview.reg Publisher: Unknown Publisher Type: Registration Entries From: C:\Users\mbarnwel\AppData\Local\Temp\Temp1			
	Run Cancel			
8	This file does not have a valid digital signature that verifies its publisher. You should only run software from publishers you trust. <u>How can I decide what software to run?</u>			

You may get a warning message asking you if you want to continue, if so, click "Yes".

You will then get a confirmation message saying the changes have been successfully added to the registry.

Set SwiftView to be the default program for LIS files

Right click on an LIS file and choose "**Open With**". Make sure the checkbox for "**Always use the selected program to open this kind of file**" is checked.

Click "Browse"

This will open the **Program Files** folder (see image below). Open the **SwiftView** folder, and double click on **sview**. This is the executable file for SwiftView. Now, anytime you choose to open a LIS file, it will use SwiftView to open the file.
