KI8132: ISSUE WITH THE G1 WHEN RUN BY POSITION

An issue has been identified with the Budget Prep report G1 (BORBUSG1), Detail of Personal Services, when the report is run by the sort order of Position or Account Code.

FUNCTIONAL IMPACT

When this report is run by Position or Account Code, the Proposed Salary and Proposed Budget fields for the first employee in the report is shown incorrectly as zero.

FUNCTIONAL WORKAROUND

ITS is recommending that this report be run by Name as this sort order does not produce the zero proposed salary and proposed budget amounts for the first employee in the report.

This issue will be resolved in a future release.
