

Fiscal Affairs Accounting and Reporting Update

September 2016

Claire Arnold, CPA

Reporting Entity

As defined by Official Code of Georgia Annotated (O.C.G.A) § 20-3-50, the Institution is part of the University System of Georgia (USG), an organizational unit of the State of Georgia (the State) under the governance of the Board of Regents (Board). The Board has constitutional authority to govern, control and manage the USG. The Board is composed of 19 members, one member from each congressional district in the State and five additional members from the state-at-large, appointed by the Governor and confirmed by the Senate. Members of the Board serve a seven year term and members may be reappointed to subsequent terms by a sitting governor.

-

Reporting Entity

The Institution does not have the right to sue/be sued without recourse to the State. The Institution's property is the property of the State and subject to all the limitations and restrictions imposed upon other property of the State by the Constitution and laws of the State. In addition, the Institution is not legally separate from the State. Accordingly, the Institution is included within the State's basic financial statements as part of the primary government as defined in section 2100 of the Governmental Accounting Standards Board (GASB) Codification of Governmental Accounting and Financial Reporting Standards.

Reporting Entity

The accompanying basic financial statements are intended to supplement the State's Comprehensive Annual Financial Report (CAFR) by presenting the financial position and changes in financial position and cash flows of only that portion of the business-type activities of the State that is attributable to the transactions of the Institution. They do not purport to, and do not, present fairly the financial position of the State as of June 30, 2016, the changes in its financial position or its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Reporting Entity

- Institution Audited Financial Statements are considered a departmental report.
- GASB does not issue specific guidance related to stand-alone departmental audited financial statements.
- Beginning in Fiscal Year 2016, the State of Georgia is mandating that affiliated organizations (foundations) be reported as component units in the individual institution's audit financial statements and the Consolidated Annual Financial Report for the USG.

Reporting Entity

This new mandate is being phased in as follows:

- Fiscal Year 2016 – All institutional audit reports that have foundations in the CAFR must include these foundations in their individual reports as a component unit.
- Fiscal Year 2017 and Future Periods – All institutional audit reports must include all significant foundations as component units in their individual reports as a component unit. These additional component units must be included at the State of Georgia reporting level in the CAFR.
