## Introduction

This User's Guide is designed for Requesters who will be using the eProcurement module in the PeopleSoft Financials system, as well as the GeorgiaFIRST Marketplace. In this User's Guide, you will find an overview of what the eProcurement module does, as well as what the function of the GeorgiaFIRST Marketplace is. You will learn how to create an ePro Requisition from a GeorgiaFIRST Marketplace shopping cart, as well as how to create a Special Request Requisition. You will also learn how to create your own Shopping Carts in the GeorgiaFIRST Marketplace.

Topics covered in this user's guide:

- Overview of eProcurement and the GeorgiaFIRST Marketplace
- Basic Procurement Policies
- ePro Requisition Basics
- Accessing and Navigating the GeorgiaFIRST Marketplace
- Retrieving an Assigned Shopping Cart and Creating a Marketplace Requisition
- Creating a Special Request Requisition
- Working with Requisitions
- Desktop Receiving
- Requester Notifications
- Searching for Items in the GeorgiaFIRST Marketplace
- Shopping for Items in the GeorgiaFIRST Marketplace
- GeorgiaFIRST Marketplace Favorites
- User Profile in GeorgiaFIRST Marketplace

## Chapter 1: eProcurement and GeorgiaFIRST Marketplace Overview

### **What are eProcurement and the GeorgiaFIRST Marketplace?**

eProcurement (ePro) is a module in PeopleSoft Financials that has a primary function of creating electronic requisitions and routing them for approval. In this PSFIN module, ePro is used to create requisitions for goods and services. A requisition is simply an official request to purchase goods and services.

Previously, you may have used paper requisitions, or some other form, to request an item to be purchased. That hardcopy requisition then had to be routed for approval signatures, and then sent to the Purchasing Office. The Purchasing Office then rekeyed the information into the system to create a Purchase Order to send to the vendor.

With ePro, much of this is completely automated. A requisition is created within ePro and then electronically routed for approval. The approval chain is dependent on the Chartstring charged and item type, among other things. Finally, after the last electronic approval is made, the requisition can be copied into, or sourced into an official Purchase Order that is dispatched to a vendor.

The GeorgiaFIRST Marketplace takes the use of ePro to another level. The GeorgiaFIRST Marketplace is an online shopping site that is accessed from PeopleSoft Financials. Through this online shopping site, users can shop online for contract items from a variety of state and institution approved vendors. Users can select items by placing them in an online shopping cart. They assign these shopping carts to a designated requester when ready, and the requester then turns their shopping cart into an ePro requisition.

### **Benefits of ePro and the GeorgiaFIRST Marketplace**

With this new system of online shopping and electronic requisitioning, you will see some immediate benefits, including:

- Reduction in paper forms routing through different offices
- Online browsing and shopping for items
- Comparison shopping
- You only need one login to shop from multiple vendors
- You can request goods from multiple vendors through one shopping cart
- All items in the GeorgiaFIRST Marketplace are contractually approved items

- Faster routing for approvals
- Ability to save items as ‘favorites’ in the GeorgiaFIRST Marketplace

### **Types of Roles Involved**

In order for the ePro and GeorgiaFIRST Marketplace functionality to work properly, users are set up with specific roles and responsibilities. They include:

- Shoppers: These users are the ones who select items in the GeorgiaFIRST Marketplace and place them into shopping carts to be assigned to their Requester.
- Requesters: These users take the shopping carts created by Shoppers and turn them into ePro Requisitions. Requesters can also build their own shopping carts, just like Shoppers.
- Approvers: These users are set up to approve ePro Requisitions.
- Buyers: These users are responsible for ensuring approved requisitions are sourced into a Purchase Order and dispatched to the vendor.
- AP Personnel: The AP office processes the resulting invoice from the vendor.
- ePro Administrator: This user monitors the approval workflow, to make sure requisitions are worked in a timely fashion
- Local Security Administrator: This user is responsible for setting up all users in their appropriate roles.

As a Requester, you are primarily responsible for creating ePro requisitions from shopping carts created in the GeorgiaFIRST Marketplace either created by you or by Shoppers to whom you are assigned. In addition, you are responsible for creating Special Requisitions, which are requisitions containing non-contract/non-catalog items and therefore, not initiated from a GeorgiaFIRST Marketplace shopping cart. Finally, you may be responsible for receiving items in the ePro system so that vendor invoices resulting from ePro requisitions can be paid.

### **Role Setup**

In order for PeopleSoft Financials and the GeorgiaFIRST Marketplace to know what actions you can and cannot perform in the systems, each role requires a specific setup. While role setup is accomplished in the PeopleSoft Financials system which transfers to the GeorgiaFIRST Marketplace, the PS assigned roles inherit permissions within the GeorgiaFIRST Marketplace. In this section, we are going to discuss the setup involved. It includes Security Roles, Requester Assignment, and User Preferences. There is also some manual setup required by Shoppers within GeorgiaFIRST Marketplace, such as Requester Assignment.

## Security Roles

Your Local Security Administrator assigns specific security roles to each user. These Security Roles authorize you to access certain pages within PeopleSoft and when assigned to a GeorgiaFIRST marketplace user, that user inherits certain permissions within GeorgiaFIRST Marketplace. This is why you may be able to see eProcurement in the menu, but not see Accounts Payable, or you can assign a cart within GeorgiaFIRST Marketplace but no issue a requisition, for example.

Role Name	Description	Dynamic	
BOR PeopleSoft User - no exp	BOR PeopleSoft User - no exp:	<input type="checkbox"/>	Route Control
BOR_AD_HOC_APPROVE	[WF] Ad Hoc Approver for Reqs	<input type="checkbox"/>	Route Control
BOR_AP_INQUIRY	Accounts Payable Inquire	<input type="checkbox"/>	Route Control
BOR_AP_REPORTS	Accounts Payable Reports	<input type="checkbox"/>	Route Control
BOR_EP_BUYER_CENTER	Buyer Center	<input type="checkbox"/>	Route Control
BOR_EP_CHG_REQUEST	Change Request	<input type="checkbox"/>	Route Control
BOR_EP_INQUIRY	Requisition Inquiry	<input type="checkbox"/>	Route Control
BOR_EP_MAINT_REQ	Requisition Add, Maint, Copy	<input type="checkbox"/>	Route Control
BOR_EP_PROCESSES	ePro Processes	<input type="checkbox"/>	Route Control
BOR_EP_REQUESTER	ePro Requester	<input type="checkbox"/>	Route Control

## Requester Assignment

In order to create a requisition in the system, you must be set up as a “Requester” in the system. Someone such as your Local Security Administrator or ePro Administrator will create you as a “Requester”. It is through this Requester Setup that the following Defaults are set:

**Requester Setup**

Requester: j \*Status: Active

---

**Requisition Defaults**

ShipTo SetID: 27000	Ship To: RECEIVING	<input type="checkbox"/> Use Only Assigned Catalogs	<b>Requisition Status</b> <input type="radio"/> Open <input checked="" type="radio"/> Pending
*Location Set ID: 27000	*Location: PROC	<input checked="" type="checkbox"/> Price Can Be Changed on Order	
PO Origin SetID: 27000	Origin:	<input type="checkbox"/> Defaults Inventory BU	
Currency:	Phone:	Fax:	

---

GL Unit: 27000	Account:	Fund: 10600	Dept: 1063200	Program: 16300	Class: 11000	Project:	Bud Ref: 2011
----------------	----------	-------------	---------------	----------------	--------------	----------	---------------

---

**Catalog Information**

Default	*SetID	*Catalog ID	Description
<input type="checkbox"/>			

**User Preferences**

In addition to being created or setup as a Requester in the system, a requester must have their user preferences established prior to creating requisition. Through User Preferences, allowable requisition actions are set up, such as canceling or closing a requisition. In addition, it is through the User Preferences that you can be authorized to create or update requisitions on behalf of other requesters.

**Requisition Authorizations**

User: SHL                                  Sh

**Allowed Requisition Actions**

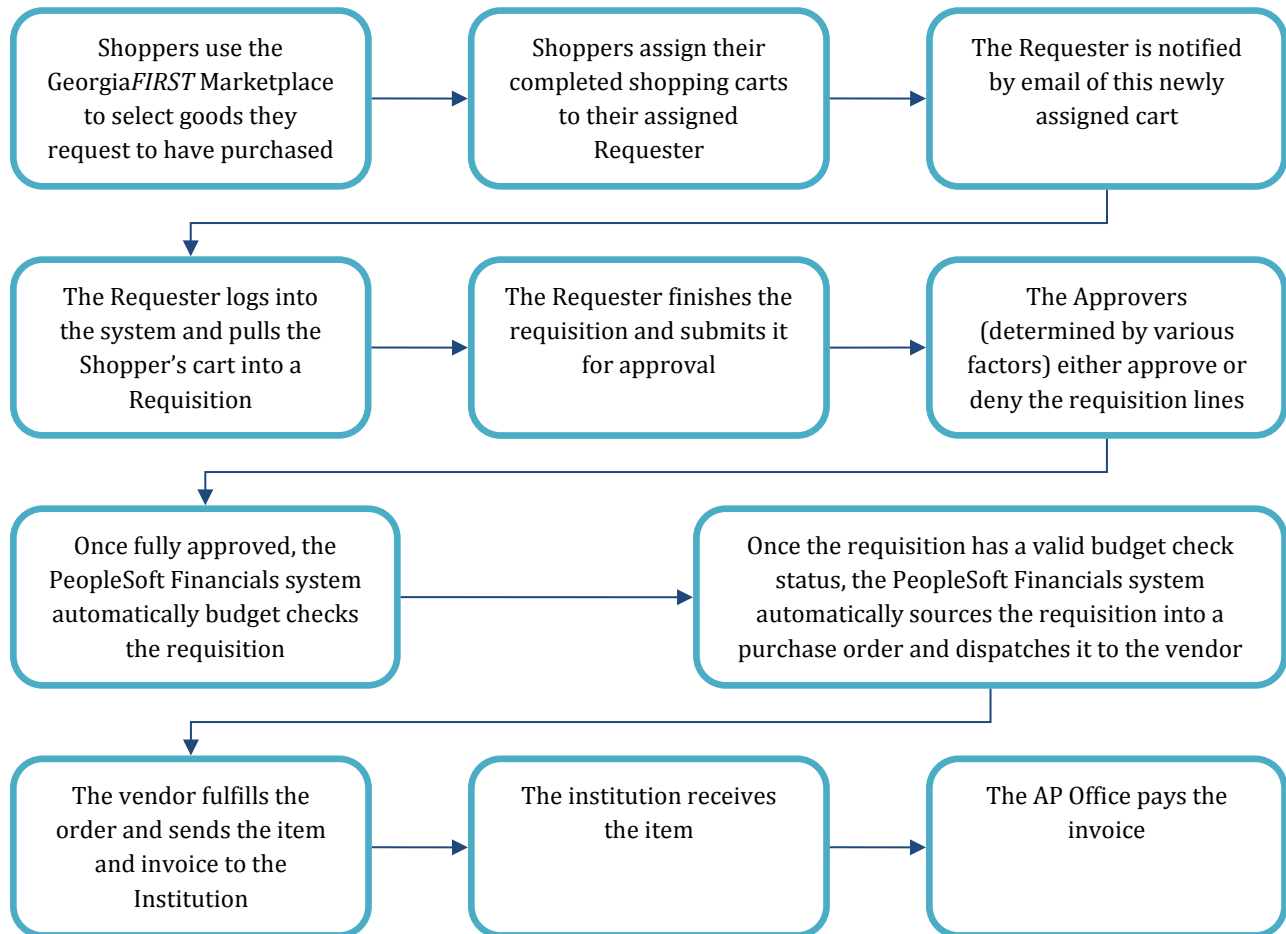

<input checked="" type="checkbox"/> Approval	<input checked="" type="checkbox"/> Can Work Approved Req's
<input checked="" type="checkbox"/> Cancel	<input type="checkbox"/> Full Auth for All Requesters
<input type="checkbox"/> Delete	<input checked="" type="checkbox"/> Override Preferred Vendor
<input checked="" type="checkbox"/> Close	<input checked="" type="checkbox"/> Override RFQ Required Flag
	<input type="checkbox"/> View/Override VAT Details

**Requesters User Authorization**      [Customize](#) | [Find](#) | [View All](#) | First 1 of 1 Last

Requesters User Auth For	Description	Add	Update	Cancel	Delete	Close		
SHL		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>		

**Process Flow**

Now that you know all of the roles involved, below is the process flow beginning with Shoppers and ending with the Accounts Payable office.

**How does PSFIN pass along user information to GeorgiaFIRST Marketplace?**

In order for you to begin using the GeorgiaFIRST Marketplace, your local security administrator first sets you up in the PeopleSoft Financials system, with the correct roles and authorizations. By using your PeopleSoft User ID and Password, you can access the PeopleSoft system. Once in PeopleSoft, you simply proceed to the GeorgiaFIRST Marketplace through a hyperlink.

By logging in through PeopleSoft, the system sends specific user information to the GeorgiaFIRST Marketplace, allowing you to log in only once and shop from multiple vendors. In addition, your

PeopleSoft User ID is used to store a set of default Chartfields that will be charged for your requested goods, unless otherwise specified.

### **How Do Approvals Work?**

As mentioned earlier, once the Requester builds the requisition in ePro from a GeorgiaFIRST Marketplace shopping cart, the Requester submits it for approval. In ePro, approvals are completed through Workflow. The ePro module looks at certain values in the requisition and automatically routes it to all necessary approvers. Approval routings are based on the individual lines in a requisition. Below is a quick summary of how approvals flow for requisitions originating from the GeorgiaFIRST Marketplace:

- First, all requisitions are routed to a Department Manager for approval. The correct Department Manager is determined by the Department Chartfield used on the requisition line.
- If a Project or Grant is indicated on the requisition line also, then the line is routed to the assigned Project Manager for approval as well.
- The following approval steps are customizable by institution. Therefore, not all of these steps will apply to your requisition line. Check with the ePro Administrator at your institution for configuration details.
  - Agency Fund Approval: If an agency fund is entered on a requisition line, the line will be routed to the approver responsible for approving agency fund transactions.
  - Amount Approval: If a requisition line is over a certain amount (i.e., \$10,000 or greater), it will be routed to a special approver responsible for approving these high-amount lines. This is specified by each institution.
  - Item Type Approvals: These approvals are determined by the type of item being requested through the requisition line account number, NIGP code, or both. The special item types include:
    - Assets
    - Audio Visual Equipment
    - Chemical Goods
    - Facilities Planning and Design
    - IT Hardware and Software
    - University Relations (i.e., anything for media contact, logo use, or copyright items)

For Special Requisitions (created for non-catalog/non-contract items not in the GeorgiaFIRST Marketplace), the approval chain can be slightly different. All requisitions are still routed to a Department Manager and Project Manager (if a project is indicated on the requisition line).

- The agency fund approval stage is optional by institution. If enabled, the requisition will route to your institution's agency fund approver if an agency fund is entered on the requisition distribution line.
- Amount Approval is optional for Special Requisitions.
- The next stage is the item type approvals, which are specific to each institution. This can also have institution-specific criteria defined.
- For Special Requisitions, the final approval stage is the Buyer Approval. This stage is also optional for each institution, and can also be used for Marketplace Requisitions. The Buyer is someone in the Purchasing Department, who is responsible for ensuring the purchase meets all State of Georgia purchasing standards. The Buyer approval step is necessary for Special Requisitions since these items are not from approved contracts in the GeorgiaFIRST Marketplace.

Once your requested items have been placed on a requisition and are routed for approvals, there are time limits in place in which each approver act on the requisition. This ensures that your requisition does not sit around waiting for a required approver for an indefinite amount of time.

When a requisition is submitted for approval, the system routes it to the appropriate approvers' Worklists accordingly, within PeopleSoft Financials. The Worklist is a queue which holds items waiting for approval. Once an approver works a transaction, it is removed from their Worklist.

Once the requisition hits an Approver's Worklist, that approver has 3 days to either approve or deny it, before they get a reminder notification from the system. If the requisition sits in an Approver's Worklist for 4 days without being approved or denied, the system removes the requisition from that Approver's Worklist, the transaction is escalated, and the ePro Administrator reassigns the transaction to another approver. After the Approver has approved the requisition, the system automatically moves it onto the next required Approver's Worklist. If an Approver denies a requisition, the system returns it to the Requester. Denied requisition lines can be edited and resubmitted for approval, or canceled if necessary.

If an approver will be out of the office for an extended period of time and will be unable to work the requisitions in their Worklist, they have the ability to assign an alternate to serve in their place. This way, their Worklist does not build up while they are out of the office, and requisition approval is not delayed.

## Chapter 2: Contract Types

Even though the suppliers and items in the GeorgiaFIRST Marketplace are all contractually approved, it is helpful to know what the contract types are. There are six types of contracts in the GeorgiaFIRST Marketplace. These contract types are automatically mapped to a Purchase Order Type in PeopleSoft Financials.

If a single Purchase Order includes two contract types, the PO type is sent to “MUL” for multiple.

Contract Type	Custom Catalog Attribute	Order of Precedence	Purchase Order Type	Contract Number
Intergovernmental Agreement	Intergovernmental	0	IGA	Goes to the PO Line Item
Mandatory State Contract	Mandatory State Contract	1	SWCM	Goes to the PO Line Item
Agency Contract	Agency Contract	2	AC	Goes to the PO Line Item
Statutory Mandatory	Statutory Mandatory	3	MAN	Goes to the PO Line Item
Convenience State Contract	Convenience State Contract	4a	SWCC	Goes to the PO Line Item
Statutory Preferred	Statutory Preferred	4b	PRF	Goes to the PO Line Item

## Chapter 3: eProcurement Requisition Basics

Before we learn about creating Marketplace Requisitions, we first need to understand how eProcurement requisitions are built and how they work. When building an eProcurement Requisition, there are three steps in the process: Defining the requisition, Adding items or services, and then reviewing and submitting. In this chapter, we will review each step.

Remember, there are two types of requisitions:

- Marketplace Requisition that is built from selected contract/catalog items in the GeorgiaFIRST Marketplace
- Special Request Requisition that is built from non-contract/catalog items without accessing the GeorgiaFIRST Marketplace

### **Creating a Requisition**

To begin creating an eProcurement Requisition, you will need to access eProcurement through the PeopleSoft Financials core system. Once in eProcurement, select Create Requisition.

### **Step #1 – Define Requisition**

Once you have started your requisition, you can select the “1. Define Requisition” link at the top of the page to complete this step. Step #1 is an optional step. Here you can specify defaults that will apply to all lines of the entire requisition. You will not be allowed to define requisition defaults for a Marketplace requisition. However, when creating a Special Request Requisition, setting up your requisition defaults may be useful.

On the Define Requisition page, you can specify a Requisition Name if you want to. If you do not specify a Requisition name, the Requisition ID will be populated in this field upon saving the requisition.

The Line Defaults section is used to enter values that will default to all lines added to the requisition. Once you begin building your requisition, you can override these defaults on the individual lines if necessary. When using the Line Defaults, keep in mind the following:

- If you have a Department ID populated on your User Preferences page, it will override the value you enter on the line defaults page.
- The account code defaults from the NIGP code. The account code defaulting from the NIGP code will override anything you enter on the line defaults.

Therefore, if you need to make changes to either the Department or Account on requisition lines, you will need to update those fields on step 3 and not on the step 1 defaults page.

**ORACLE**

**Menu**

- eProcurement
  - Buyer Center
    - Create Requisition**
    - Manage Requisitions
    - Approve Requisitions
    - Receive Items
    - Procurement Card Center
    - Reports
    - Administer Procurement
    - My Profile
    - Detail Jobcode/Role Definition
    - Requester Integration Defaults
  - Sourcing
  - Grants
  - Program Management

**Requisition Summary**

There are no lines on this request.

Please add new line in order to save this requisition.

Total Lines: 0  
Total Amount (USD): 0

**Create Requisition**

1. Define Requisition | 2. Add Items and Services | 3. Review and Submit

Specify requisition name, requester, and other information that applies to the entire requisition.

Business Unit: 71000 Georgia Perimeter College  
 \*Requester: AJL Ju  
 \*Currency: USD  
 Requisition Name:   
 Priority: Medium

**Line Defaults**

Note: The defaults specified below will be applied to requisition lines when there are no predefined values for these fields.

Vendor:  Vendor Location:   
 Buyer:  Category:  Unit of Measure:

**Shipping Defaults**

Ship To: RECEIVING  [Modify Shipping Address](#)  
 Due Date:  Attention:

**Accounting Default**

Chartfields 1 | Details | Asset Information | [Reset](#)

Location	GL Unit	Account	Fund	Dept	Program	Class	Project	Bud Ref	Budget Date
LAKESIDI	71000	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	2014	12/30/2013

Continue

The Line Defaults that you can specify on this page that will carry over to every requisition line you add includes:

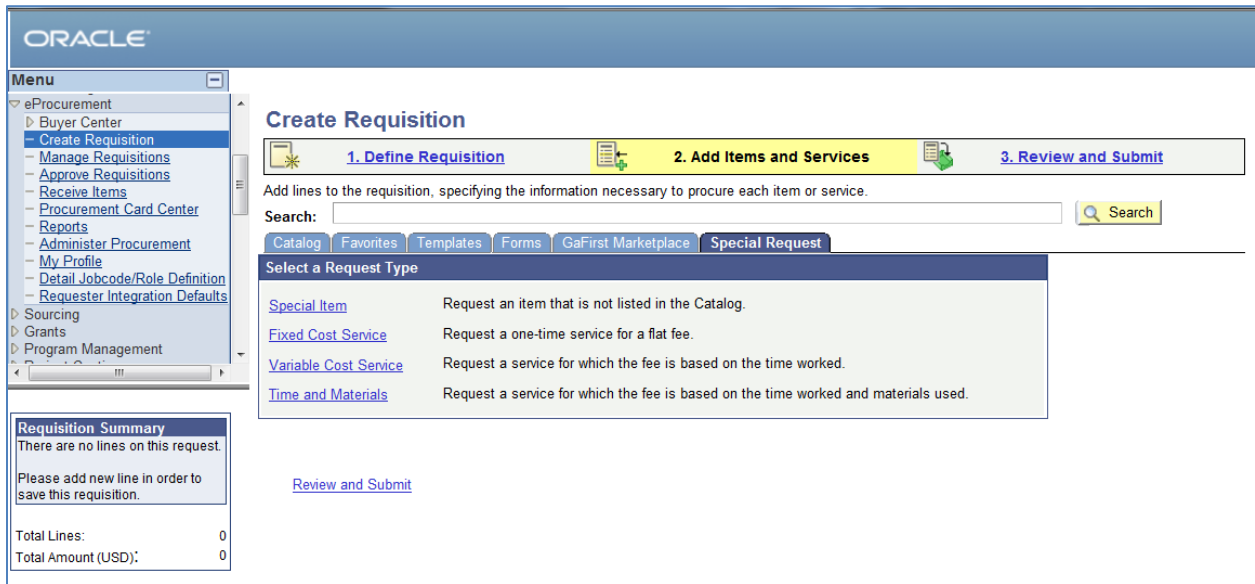

- Vendor ID
- Buyer
- Category (NIGP Code)
- Unit of Measure
- Ship To Code
- Due Date (N/A for GeorgiaFIRST Marketplace Requisitions)
- Attention To
- Chartfields

Once you are finished specifying defaults for the Special Request Requisition (remember, this is optional), you can proceed to Step #2, which is Adding Items and Services.

**Step #2 – Add Items and Services**

There are two ways to add requisition line items: Add them through a GeorgiaFIRST Marketplace or Add them manually for a Special Request. When creating a requisition, you cannot combine Marketplace Requisition items with Special Request Requisition items.

When creating a Marketplace Requisition, you will select the GAFIRST Marketplace tab. When creating a Special Request Requisition, you will select the Special Request tab. We will go into the details of each type of requisition later in this user guide. Here, we will just provide an overview.

Once you add items to your requisition, the Requisition Summary (or shopping cart) will indicate how many requisition lines have been added and what the total amount of the requisition is. As you add additional items, the Requisition Summary (shopping cart) will update. After you have added all requisition line items, you can proceed to Step 3, which is reviewing and submitting your requisition.

### Step #3 – Review and Submit

On the Review and Submit page, you can review all of your requisition lines and make any necessary changes. You can make changes manually to individual lines or to multiple lines through the “Modify Line/Shipping/Accounting” button. You can also enter comments or attach documents on requisition lines. Do not include any slashes (/) in the Comments field.

Before submitting the requisition for approval, you have the chance to save it and preview the approval path the requisition will follow. Also, when previewing the approval chain, you have the ability to insert additional ad hoc approvers when necessary.

Once you submit the requisition for approval, the requisition line status changes to “Pending”. And the requisition is routed to the first approver’s Worklist.

## Chapter 4: Accessing and Navigating the GeorgiaFIRST Marketplace

As a Requester, you have the ability to do the following:

- Create a Marketplace Requisition from a shopping cart assigned to you, and edit the shopping cart assigned to you, or if necessary, reassign the cart back to the original shopper
- Create a Marketplace Requisition from a shopping cart you created
- Create a Special Request Requisition that does not originate from the GeorgiaFIRST Marketplace

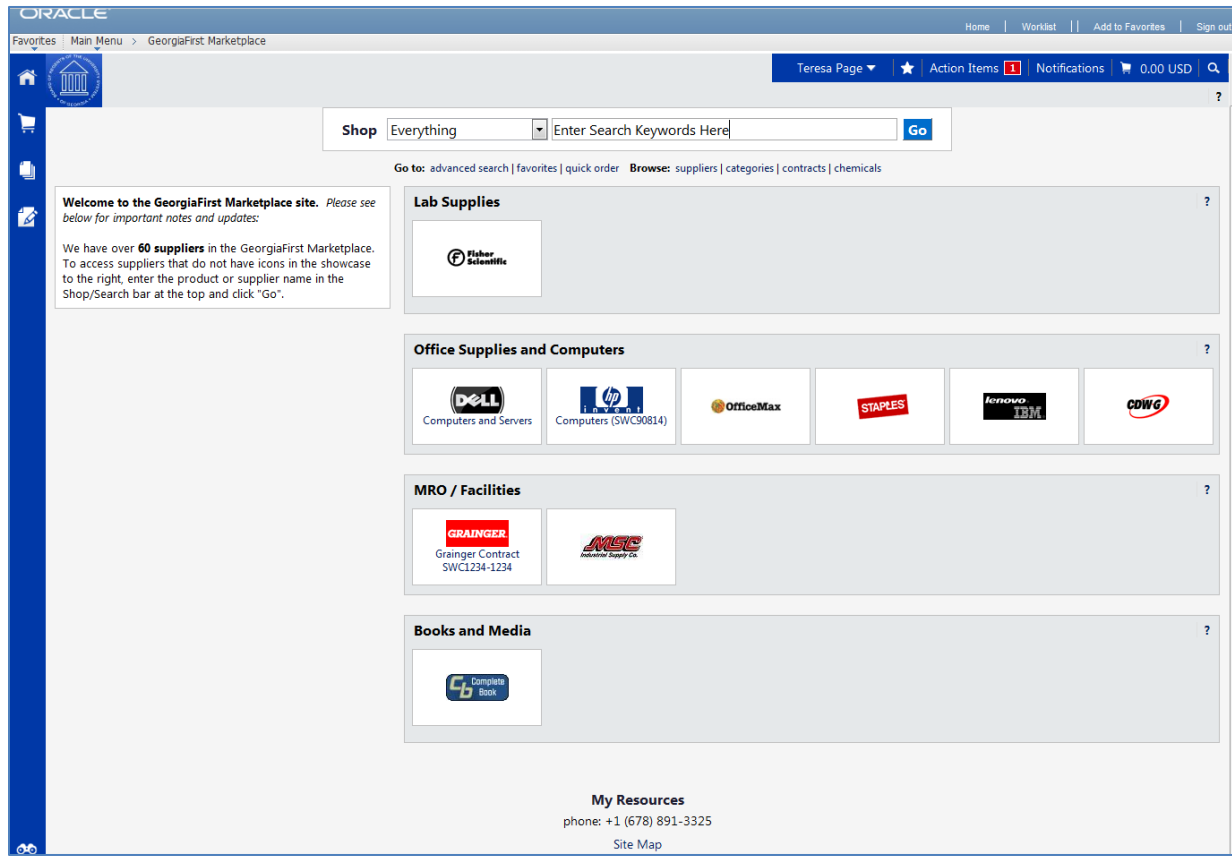

Because the GeorgiaFIRST Marketplace plays such a prominent role with the creation of requisitions, we are going to first explain how to access and navigate the GeorgiaFIRST Marketplace.

### **Logging into PeopleSoft Financials Core System**

As a Requester, you will access the GeorgiaFIRST Marketplace and the eProcurement module through the PeopleSoft Financials Core System. Depending on what you are doing, you will either go to the GeorgiaFIRST Marketplace through the eProcurement module in order to create or process a shopping cart assigned to you.

### **How To: Accessing GeorgiaFIRST Marketplace through PeopleSoft Financials Core System**

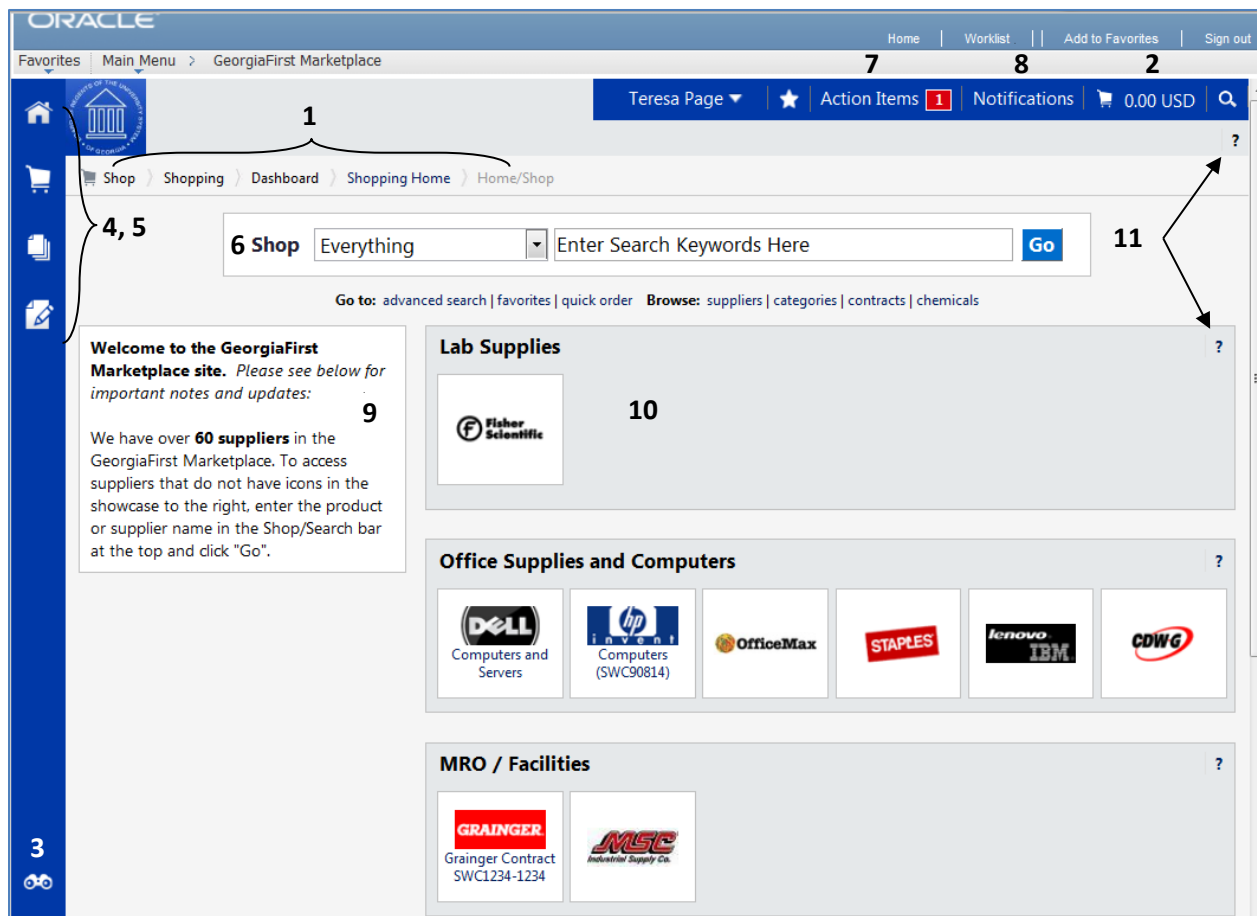

1. On the PeopleSoft Financials login page, enter your **User ID** and **Password**. Remember, both of these items are case sensitive. If you try to log in more than five times with an incorrect User ID and/or password, the system will lock you out.
2. Click the **Sign In** button.
3. Select **eProcurement** in the menu.
4. Select **Create Requisition**.
5. Select **Step 2 – Add Items and Services**.
6. Select the **GeorgiaFIRST Marketplace** tab.
7. Select the **GeorgiaFIRST Marketplace** link.

- Notice that the GeorgiaFIRST Marketplace is now displayed in your main window. You are now able to start navigating through the marketplace.

## GeorgiaFIRST Marketplace Home Page

The first step in using the GeorgiaFIRST Marketplace is knowing where things are located, and how to navigate the home page. Whenever you wish to return to the home page, simply click the Home icon. Or you can click the Institutional logo in the upper left corner to return to the home page. It is important to be able to navigate through the GeorgiaFIRST Marketplace so that you can build and process your own shopping carts, as well as edit those shopping carts that have been assigned to you by other shoppers.

1. **Navigation Breadcrumbs and Screen Title:** The screen title indicates the title of the current page that you are on.
2. **Cart Summary:** The upper right corner displays a summary of your shopping cart. Included is the cart name, the number of items in the cart, and the total cart amount. You can click on this shortcut to go directly to the cart page to review, update, and process your shopping cart.
3. **Quick Search:** This quick search feature allows for a variety of searches to be executed anywhere in the marketplace.
4. **Navigation Icons:** Down the left side of the GeorgiaFIRST Marketplace are the primary navigation icons. By clicking on an icon, the screen refreshes to display sub links for the topics or functions covered in that particular part of the Marketplace. The links that you see are dependent on your permissions.
  - o Home: This icon will return you to the Home page from any other parts of the application.
  - o Shopping Cart: This icon is used for shopping and provides quick access to other parts of the application. You can also View and modify the current shopping cart, create new carts, delete existing carts, and prepare the active cart for processing.

- Orders & Documents: This icon will allow you to search for documents that you have created.
  - Catalogs and Contracts: Contains a repository of various documents within the application.
5. **Navigation Sub-Links:** Once you select a link, additional sub-links may be available. If sub links are available, they will be located just beneath the primary navigation links.
  6. **Shop at the Top/Shop Quick Search:** You can access simple and advanced search from this feature. This is the primary area to perform item searches. We will cover search features later in this chapter.
  7. **Action Items:** Action Items are items that require some sort of action by the user logged in. The number of action items will be displayed in red to the right of the Action Item menu.
  8. **Notifications:** Certain action items will trigger Notification messages informing the user that action is needed. Notifications are clickable and take you to the appropriate area of the application, so that action can be taken. The number of notifications will be displayed in red to the right of the Notifications menu.
  9. **Organization Message:** This box is an important tool system administrators use to communicate with the GeorgiaFIRST Marketplace community. This message box is available to all users and is a common way to communicate important upcoming dates, information about new suppliers, links to training, and more.
  10. **Punch-Out:** A “punch-out” supplier is a site maintained by the actual suppliers. Catalogs in punch-out sites can still be customized for an individual institution. Punch-out suppliers can be accessed from this area of the screen.
  11. **Online Help:** Online Help is accessed by clicking on the question mark anywhere in the application or by clicking on hyperlink text. Text with associated Help is indicated by text that changes colors when mousing-over the text. Much of the text in the application can be selected and a secondary Help window displays.

### Leaving the GeorgiaFIRST Marketplace

When you are ready to leave the GeorgiaFIRST Marketplace and go to another menu selection in PeopleSoft, you can simply select that menu selection. When you are ready to close PeopleSoft, select the Sign Out link in the top right corner. You do not have to log out of the GeorgiaFIRST Marketplace since you accessed it through PeopleSoft, which remains open while you are in the marketplace.

Remember, PeopleSoft will automatically log you out for security purposes after 60 minutes of inactivity

## Chapter 5: Retrieving an Assigned Cart and Creating a Marketplace Requisition

As a Requester, your primary role is to retrieve the shopping carts assigned to you and then create a requisition from those shopping carts. In this chapter, you will learn how to build a marketplace requisition and submit it for approval.

### **Notification**

When a Shopper assigns a cart to you, you will be notified via email. In addition, when you enter the GeorgiaFIRST Marketplace, you will easily be able to see all of the shopping carts assigned to you.

Once you are notified of your assigned shopping cart, you can begin the process of building the Marketplace Requisition

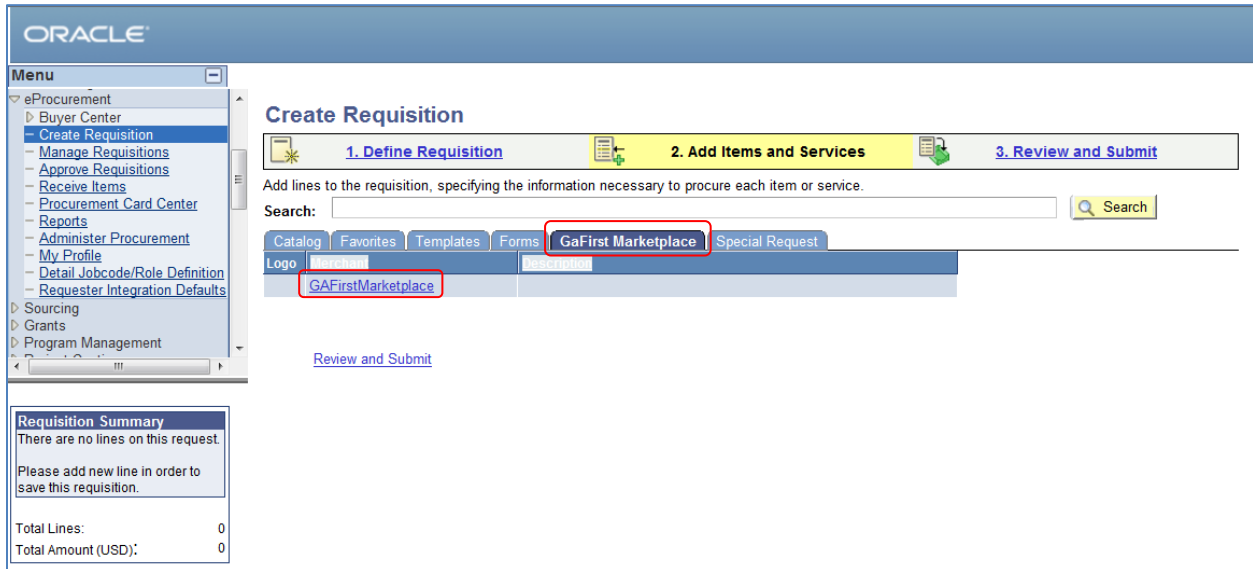

### **Create a Basic Marketplace Requisition**

To begin a Marketplace Requisition, you are going to start in the eProcurement module and create a new requisition.

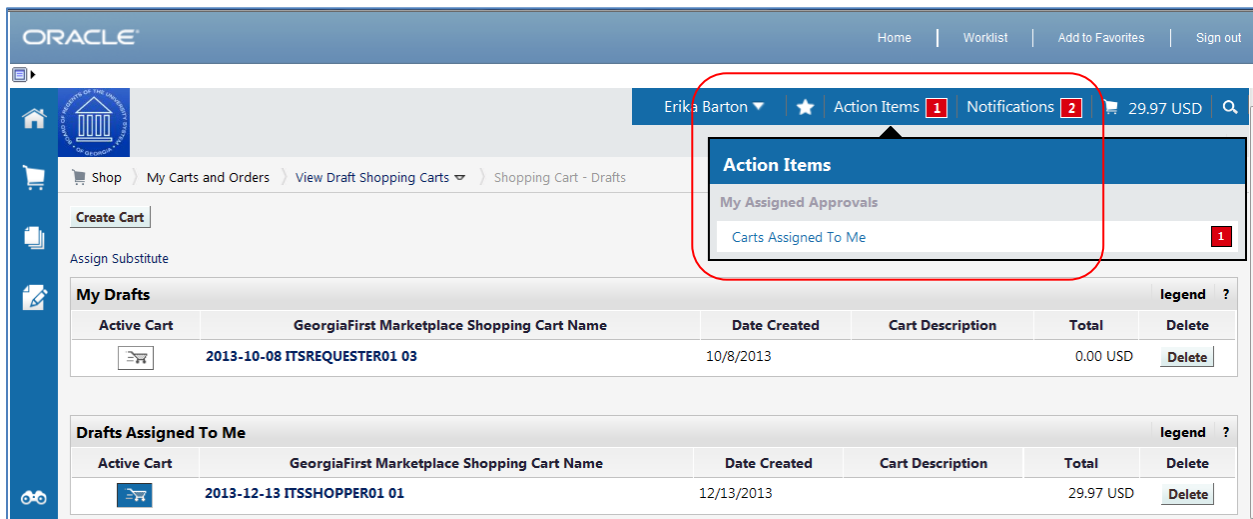

After logging into PeopleSoft Financials, go to eProcurement in the menu, and then select Create Requisition.

On “Step 2 – Add Items and Services”, you will need to select the **GeorgiaFIRST Marketplace** tab, and then the **GeorgiaFIRST Marketplace** link. By doing this, you will be creating this requisition from a GeorgiaFIRST Marketplace shopping cart.

Once you get into the GeorgiaFIRST Marketplace, there are two additional ways to see if any carts have been assigned to you. First, on the **home/shop** page, you can see in the Action Items section if you have any pending Action Items. Also, note that the Notifications section may also show pending messages.

Second, if you go to the **Shopping Cart** icon and select the **My Carts and Orders** link, then **View Draft Shopping Carts** link, you will see an area titled “**Drafts Assigned to Me**” if you have any carts assigned to you. If you select the link in the **Action Items** box, the system will bring you to this draft carts page.

The screenshot displays the Oracle eProcurement interface for 'Drafts Assigned to Me'. The page title is 'Shopping Cart - Drafts'. The breadcrumb trail is 'Shop > My Carts and Orders > View Draft Shopping Carts > Shopping Cart - Drafts'. The user is Erika Barton, and there are 1 Action Item and 2 Notifications. The total amount is 29.97 USD.

**My Drafts**

Active Cart	GeorgiaFirst Marketplace Shopping Cart Name	Date Created	Cart Description	Total	Delete
	2013-10-08 ITSREQUESTER01 03	10/8/2013		0.00 USD	<a href="#">Delete</a>

**Drafts Assigned To Me**

Active Cart	GeorgiaFirst Marketplace Shopping Cart Name	Date Created	Cart Description	Total	Delete
	2013-12-13 ITSSHOPPER01 01	12/13/2013		29.97 USD	<a href="#">Delete</a>

To begin reviewing the order, click on the shopping cart name. You are able to edit the shopping cart by changing quantities, removing and adding line items, and updating contract information if necessary. We will review how to do this later in the chapter.

When the shopping cart is ready to be pulled into an ePro Requisition, from the Shopping Cart, you can select the “**Proceed to Checkout**” button, and then select the “**Issue Requisition**” button. This pulls the Marketplace shopping cart into eProcurement.

The screenshot shows the Oracle eProcurement Shopping Cart interface. At the top, the user is identified as Erika Barton with 1 Action Item and 2 Notifications. The cart contains 3 items for a total of 29.97 USD. A red box highlights the "Proceed to Checkout" button. Below the cart items, the Fisher Scientific vendor information is displayed, including the fulfillment address: 3970 Johns Creek Court, Suite 500, Suwanee, GA 30024 US. The cart items are:

Product Description	Unit Price	Quantity	Total
Pouch, Webbed; Small Flashlight; Accessory to MSA ForceField Tango Tactical Body Armor; Webbed Molle-style pocket-type module: 1/EA	9.99 USD 1/EA, EA change price...	1	9.99 USD
Pouch, Webbed; Small Flashlight; Accessory to MSA ForceField Tango Tactical Body Armor; Webbed Molle-style pocket-type module: 1/EA	9.99 USD 1/EA, EA change price...	1	9.99 USD

The screenshot shows the Oracle eProcurement Requisition Summary interface. A yellow confirmation message states: "All done! The required information has been completed and this request is ready to be submitted. Once you have reviewed the details, you may continue by clicking the button at the top of the page." A red box highlights the "Issue Requisition" button. The summary section shows the following details:

Section	Field	Value
General	Cart Name	2013-12-13 ITSSHOPPER01 01
	PO Clauses	edit clauses...
	Business Unit	Georgia Gwinnett College (40000)
Vendor / Line Item Details	Vendor	Fisher Scientific
	Contract	SWC30747-5 more info...

Once your shopping cart has been pulled into eProcurement, the original Shopper is notified via email that their shopping cart is now being worked in ePro. From here, you should see your Requisition

Summary box on the left-side of the screen populate with your Marketplace line items. You will not be able to select the Special Request tab to add additional items.

The system automatically returns you to Step 3, which is reviewing and submitting your requisition. On this page, if you are creating a Shopper's requisition, you will insert the shopper's User ID in the Requester field. By completing this step, this enables the system to tie the requisition to the shopper so that they will receive all future notifications regarding the requisition. In addition, the shopper's defaults including Chartfields will be assigned to each requisition line item, which is used in the approval process.

Save & submit Save & preview approvals Cancel requisition Find more items

It is also here that you can update the requisition line distribution if needed. For example, if the Shopper indicates in their cart comments to you that a different department or project needs to be charged, you would update this information on step 3. This page is also where you can indicate whether the item needs to be identified as an asset. Finally, if you need to submit any header comments regarding this requisition, you can do so at the bottom of the page. You can also enter comments individually on the requisition lines. Do not include any slashes (/) in your comments.

After making any necessary edits, you will need to select the **“Save and Preview Approvals”** button. Here you will see the approval path this requisition will follow. The exact approval path depends upon the department and project charged, as well as other criteria specified by your institution. If you need to insert an additional ad hoc approver, you will do so on this page. When you are ready to submit your

requisition for approval, you click the **Submit** button. At this point the system routes the requisition lines to all required GeorgiaFIRST approver's Worklist.

The following “How To” lists the steps of creating a basic Marketplace Requisition. Subsequent sections in this User Guide will detail additional scenarios when creating Marketplace Requisitions.

### How To: Create a Basic Marketplace Requisition from an Assigned Shopping Cart

1. Log into PeopleSoft Financials Core System.
2. In the menu, select **eProcurement**.
3. Select **Create Requisition**.
4. On **Step 2 – Add Items and Services**, select the **GeorgiaFIRST Marketplace** tab.
5. Select the **GeorgiaFIRST Marketplace** link.
6. In the GeorgiaFIRST Marketplace, select the **Shopping Cart** icon.
7. Select the **My Carts and Orders** link.

8. Select the **View Draft Shopping Carts** link.
9. Under the **Drafts Assigned to Me** section, click on a cart to activate it.
10. Review the shopping cart and perform any necessary edits.
11. Select the **Proceed to Checkout** button.
12. Select the **Issue Requisition** button.
13. Confirm the Requisition Summary has the same number of line items as the requisition.
14. On **Step 3 – Review and Submit**, insert the Shopper’s User ID in the **Requester** field.
15. Name the requisition by populating the Requisition Name field if desired.
16. For each requisition line item, edit **Chartfields, Ship To Location, and Asset information** if necessary.
17. Add a comment on each requisition line if needed by clicking the “**call out**” (comment) icon at the end of the line.
18. Add a header comment to be attached to the requisition if needed, using the Justification/Comments section. Do not include any slashes (/) in your comments.
19. Click the **Save and Preview Approvals** button.
20. Review the approval path. Insert additional ad hoc approvers if necessary.
21. Click the **Submit** button to route the requisition for approval.

Now that you know how to create a basic Marketplace Requisition, we are going to review some different scenarios that you may encounter when creating this type of requisition.

### Editing an Assigned Marketplace Shopping Cart

There may be times when you need to edit a shopping cart that has been assigned to you. You can easily do this in the GeorgiaFIRST Marketplace. Some of the reasons why you may need to edit an assigned shopping cart include updating a quantity, specifying the correct contract, and adding or removing cart items. On occasion, a shopper may assign a cart to you and then realize the cart was incorrect. You can either assign the cart back to the shopper or make the edits yourself.

Once you pull up an assigned cart, you can make it active by clicking on the cart name hyperlink. Once it is an active cart, you can make any necessary edits. If the original shopper has requested that you change the quantity or delete an item, you can do that from an active cart. However, because the requisition built from the shopping cart will be tagged with the original shopper as the official requester, caution should be used when making changes to the shopping cart.

To update a cart created from Hosted content, you can change the Quantity in the field shown below, and then select the update button. If you need to delete a line, take that action, then select the Update button.

The screenshot shows the Oracle eProcurement interface for a shopping cart. The cart is titled 'Shopping Cart for Joshua Adams' and contains two items from Fisher Scientific. The first item is 'Pouch, Webbed; Medium Flashlight; Accessory to MSA ForceField Tango Tactical Body Armor; Webbed Molle-style pocket-type module: 1/EA' with a unit price of 9.99 USD and a quantity of 1. The second item is 'Pouch, Webbed; Small Flashlight; Accessory to MSA ForceField Tango Tactical Body Armor; Webbed Molle-style pocket-type module: 1/EA' with a unit price of 9.99 USD and a quantity of 1. The total for both items is 19.98 USD. A red box highlights the quantity field and the 'Update' button for the first item.

To update a cart created from Punch Out content, you will see different options, depending on the vendor. An example is below:

The screenshot shows the Oracle eProcurement interface for a shopping cart. The cart is titled 'Shopping Cart for Joshua Adams' and contains two items from CDWG. The first item is 'CDW 10 CAT5e or CAT5 RJ45 Patch Cable Blue' with a unit price of 1.50 USD and a quantity of 1. The second item is 'BELKIN 6FT CAT6 SHIELDED PATCH GREY' with a unit price of 6.23 USD and a quantity of 1. The total for both items is 7.73 USD. A red box highlights the 'Need to make changes?' link and the 'MODIFY ITEMS' button.

Another change that you may need to make is to specify the correct contract for an item. Some items that the shopper selects will be listed on multiple contracts. For example, there may be an item that is listed on a mandatory statewide contract, as well as on a convenience state contract. If the incorrect contract has been selected, you can specify the appropriate contract while processing the Shopping cart.

To update the quantity of an item on an active cart, simply enter a new quantity for the line item in the quantity field and select the Update button. To delete an item from a shopping cart, select the item's checkbox and then select Remove selected item from the dropdown menu.

Note: A user's ability to modify lines may be limited from a punch-out vendor.

#### How To: Change a Contract for an Item

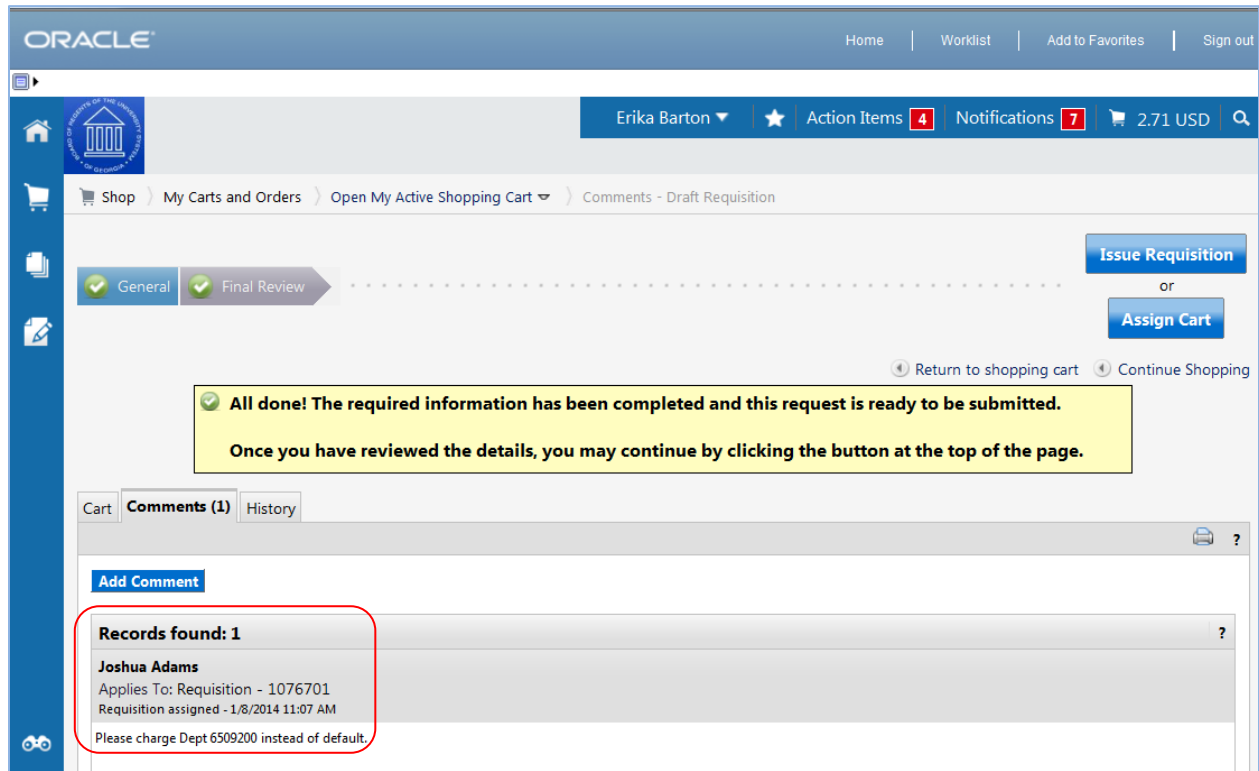

1. After entering the GeorgiaFIRST Marketplace from ePro – Create Requisition, select the **Shopping Cart** icon.
2. Select the **My Carts and Orders** link.
3. Select the **View Draft Shopping Carts** link.
4. Under the **Drafts Assigned to Me** section, click on a cart to activate it.
5. For the item you want to select a different contract for, select the **change...** hyperlink next to the contract name.
6. A pop-up box will appear with the contract choices. Select the appropriate contract by using the **radio button**.
7. Click **OK**.
8. After finishing all edits, select the **Proceed to Checkout** button.
9. Select the **Issue Requisition** button and then continue with creating the Marketplace Requisition within PeopleSoft.

#### Charging a Requisition Line Item to a Different Chartstring

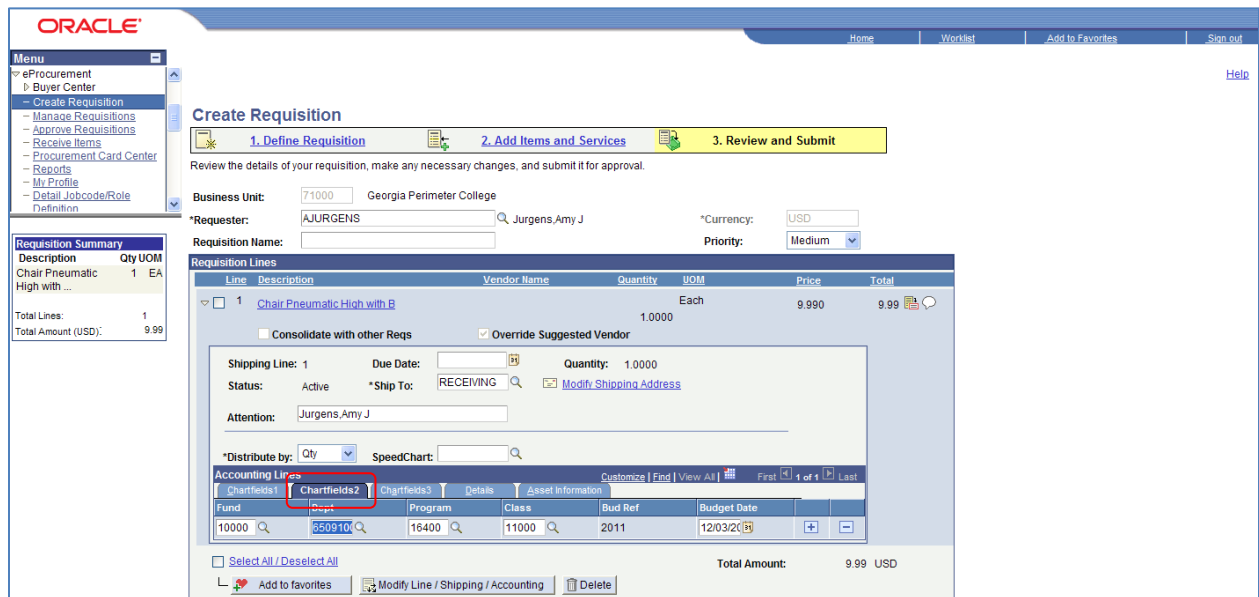

As we mentioned earlier, when you pull a marketplace shopping cart into a requisition, you indicate that the official requester was the shopper who built the shopping cart. This way, the requisition line distribution is automatically populated with the shopper's default Chartfields. These Chartfields, primarily the Department and Project, dictate the approval path the requisition line will take. On occasion, a shopper may need a different set of Chartstrings charged for a requisition line.

When this happens, the Shopper should include an assignee comment in the Shopping Cart indicating what the new Chartstring should be and which line items the Chartstring should apply to. These comments should be visible on the shopping cart as well within the notification email received when you were notified that a shopping cart was assigned to you.

To make the change in Chartfields, you will need to do so after pulling the shopping cart into the ePro requisition. On **Step 3 – Review and Submit**, you can individually edit each line or you can select and edit multiple lines at one time.

## How To: Charge a Requisition Line Item to a Different Chartstring

1. When you have pulled the GeorgiaFIRST Marketplace shopping cart into an eProcurement requisition, you are returned to **Step 3 – Review and Submit**.
2. Expand the line you want to modify by clicking on its **Expand Section** button.
3. Locate the **Accounting Lines** section.
4. Under the Chartfields 1 tab, the Account can be modified.
5. Go to the **Chartfields 2** tab to update the following if needed:
  - a. Fund Code
  - b. Department
  - c. Program
  - d. Class
6. Go to the **Chartfields 3** tab to update the following if needed:
  - a. Project
7. Make other necessary changes and then continue with the Marketplace Requisition by selecting the **Save and Preview Approvals** button.

**Requisition Summary**

Description	Qty	UOM
CDW 10 CAT5e or CAT5 RJ45 ...	1	EA
BELKIN 6FT CAT6 SHIELDED P...	1	EA

## How To: Charge Multiple Requisition Line Items to a Different Chartstring

1. When you have pulled the GeorgiaFIRST Marketplace shopping cart into an eProcurement requisition, you are returned to **Step 3 – Review and Submit**.
2. Select the lines you want to change distribution information for by placing a **checkmark** in their **select** boxes.
3. Select the **Modify Line/Shipping/Accounting** button.
4. In the Accounting Information section, enter the new **Chartfields Values** and then click **Apply**.

5. On the **Distribution Change Options**, to apply changes to all selected lines, select the option “**All Distribution Lines**” and click **OK**.
6. Make any other necessary changes and then continue with the Marketplace Requisition by selecting the **Save and Preview Approvals** button.

## Using Multiple Distributions for a Requisition Line

At times, it may be necessary for you to have multiple distributions for a requisition line. Once you pull the GeorgiaFIRST Marketplace shopping cart into a requisition, you can split the distribution for the line needed.

To set up multiple distributions for a requisition line, you first specify whether you want to distribute by quantity or by amount. Then, you can add a new distribution line. After adding the new distribution line, you will need to update the percentage or amount in the original distribution line first. Then, you can set the distribution percentage or amount for the new distribution line. On the Chartfields tabs, you can specify the new distribution Chartstring.

**Requisition Summary**

Description	Qty	UOM
CDW 10 CAT5e or CAT5 RJ45 ...	1	EA
BELKIN 6FT CAT6 SHIELDED P...	1	EA

Total Lines: 2  
Total Amount (USD): 7.73

**Create Requisition**

1. Define Requisition | 2. Add Items and Services | 3. Review and Submit

Review the details of your requisition, make any necessary changes, and submit it for approval.

Business Unit: 40000 Georgia Gwinnett College

1	CDW 10 CAT5e or CAT5 RJ45 P	CDW Government	1.0000	Each	1.500	1.50
2	BELKIN 6FT CAT6 SHIELDED PA	CDW Government	1.0000	Each	6.230	6.23

**Accounting Lines**

Line	Status	Dist Type	*Location	Quantity	Percent	Amount	GL Unit	Account
1	Open		1GGC10	0.5000	50.0000	0.75	40000	714100
2	Open		1GGC10	0.5000	50.0000	0.75	40000	714100

Total Amount: 7.73 USD

### How To: Split Distribution for a Requisition Line

1. When you have pulled the GeorgiaFIRST Marketplace shopping cart into an eProcurement requisition, you will be returned to **Step 3 – Review and Submit**.
2. Expand the line by clicking on its **Expand Section** button.
3. Choose whether to **Distribute by Amount** or **Quantity** through the drop down list.

4. Locate the **Accounting Lines** section.
5. At the end of the line under the **Chartfields1** tab, click the **Add a New Row** button (+).
6. If distributing by **Quantity**, continue. If distributing by **Amount**, go to step 7.
  - a. In the original distribution line, edit the **quantity** for the revised distribution.
  - b. **Tab** out of the Quantity field. The **Percent** field should adjust accordingly.
  - c. In the new distribution line, enter the **quantity** for the second Chartstring.
  - d. **Tab** out of the **Quantity** field. The **Percent** field will adjust accordingly.
  - e. Make the necessary **changes** to the second string of Chartfields on the Chartfields 1, Chartfields 2, and Chartfields 3 tabs.
7. If distributing by **Amount**, continue. Otherwise, go to step 8.
  - a. In the original distribution line, edit the **amount** for the revised distribution.
  - b. **Tab** out of the Amount field. The **Percent** field should adjust accordingly.
  - c. In the new distribution line, enter the **amount** for the second Chartstring.
  - d. **Tab** out of the Amount field. The **Percent** field will adjust accordingly.
  - e. Make the necessary **changes** to the second string of Chartfields on the Chartfields 1, Chartfields 2, and Chartfields 3 tabs.
8. Make any other necessary changes and then continue with the Marketplace Requisition by selecting the **Save and Preview Approvals** button.

### Entering Asset Information for an Item

If the item being requested is an asset needs to be tracked in the Asset Management module, you can specify this information on the requisition. By specifying the asset information on the requisition, the information will transfer to the Purchase Order, the Receipt, and finally the Voucher. After that, the information from the Purchasing and Accounts Payable modules can be interfaced into Asset Management.

Items that need to be tracked in Asset Management include any item valued over \$3,000. Fixed assets are those items valued at or above \$5,000. An item costing less than \$5,000, but more than \$2,999.99, are considered Small Value Property and must also be tracked in the Asset Management module. Finally, any item that must be tracked through the physical inventory process, such as fire arms, should be entered into the Asset Management module.

Total Amount: 7.73 USD

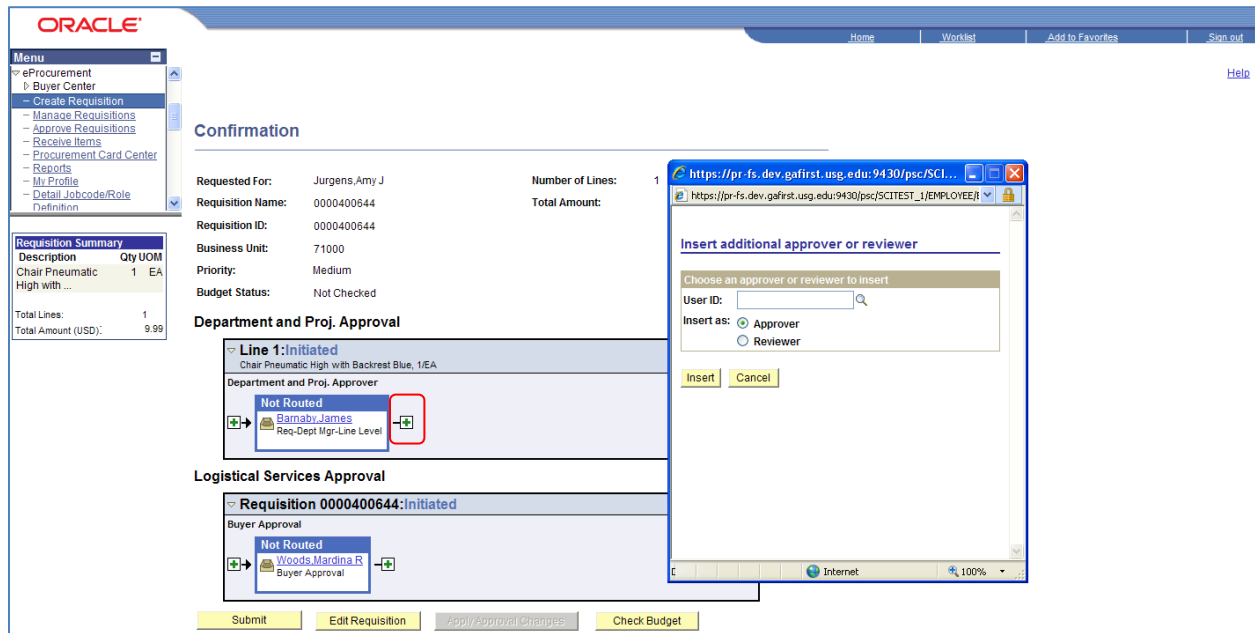

In order to enter the asset information for an item in the Marketplace Requisition, you need to be on **Step 3 – Review and Submit**. You will need to enter the AM Business Unit and Profile ID.

**How To: Enter Asset Information for a Requisition Line Item**

1. When you have pulled the GeorgiaFIRST Marketplace shopping cart into an eProcurement requisition, you are returned to **Step 3 – Review and Submit**.
2. Expand the line by clicking on its **Expand Section** button.
3. Locate the **Accounting** section.
4. Go to the **Asset Information** tab.
5. In the **AM Business Unit** field, enter or use the look up icon to select your institution’s business unit.
6. In the **Profile ID** field, enter or use the look up icon to select the asset’s Profile ID (i.e., SVP, AV05YR).
7. Make any other necessary changes and then continue with the Marketplace Requisition by selecting the **Save and Preview Approvals** button.

### Inserting Ad Hoc Approvers

The approval path is determined by the department and project charged on a requisition line along with other criteria specified by your institution, which may include line amount, item type, and agency fund. If you have reviewed the approval path and determine that you need to include another approver, you can do that through the Ad Hoc Approver functionality.

On the approval page, you can insert an ad hoc approver anywhere you see a green plus (+) button. You will need to know the User ID of the additional approver, or you will have to scroll through the list of names. In addition, you can specify the ad hoc user as an Approver or Reviewer. Choosing the Approver option will require the user selected to actually approve the requisition for it to progress onto the next step. Selecting the Reviewer option will place the requisition into the selected user's Worklist. However, they will not be required to take action on the requisition for it to move onto the next step. The Reviewer provides visibility only to the ad hoc user.

#### How To: Insert an Ad Hoc Approver

1. When you have pulled the GeorgiaFIRST Marketplace shopping cart into an eProcurement requisition, you will be returned to **Step 3 – Review and Submit**.
2. Make any necessary changes to the line item information on the requisition.
3. Select the **Save and Preview Approvals** button.
4. To insert an Ad Hoc approver, click the **green plus (+)** button where you want the approver to go.
5. Enter the **User ID** of the Ad Hoc approver, or use the look up button to select the User ID.

6. Select either the **Approver** or **Reviewer** radio button.
7. Click the **insert** button.
8. You should now see the additional approver in the approval chain.
9. To remove the Ad Hoc approver, select the **red** minus (-) button for that approver. Click **OK** when prompted.
10. Submit the requisition for approval by clicking the **Submit** button.

## Chapter 6: Creating a Special Request Requisition

In addition to creating requisitions built from GeorgiaFIRST Marketplace shopping carts, you can also create Special Request Requisitions. Special Request Requisitions are built by entering information directly into the requisition using the Special Request tab – Special Item link. Therefore, you create the individual requisition line items as opposed to originating from the Marketplace Shopping cart.

Outside of how you add the requisition lines to the requisition, much of the steps between a Marketplace Requisition and a Special Request Requisition are the same. In this chapter, we are going to detail how to create a Special Request Requisition.

### Creating a Special Request Requisition

To create a Special Request Requisition, you are going to start in the same way as you did with the Marketplace Requisition. You need to select the menu item Create Requisition from the eProcurement module.

Depending on the number of lines you need to add to your requisition, you may or may not find it useful to setup the defaults for your requisition. As we mentioned earlier by selecting the Step 1 – Define Requisition link, you can specify defaults that apply to the entire requisition so that you do not have to add them line by line. This is an optional step though. If you do set up requisition defaults, you should not include anything in the Account field. The item's NIGP code will determine the proper account.

After setting up your requisition defaults, if any, you can proceed to Step #2 – Adding Items and Services. Since this requisition will not be built from contract catalog items in the GeorgiaFIRST Marketplace, you will use the Special Request tab on this page. From the Special Request tab, you should select the Special Item hyperlink. This is how you enter line items directly into a requisition.

For each line item, you need to complete this page. If you entered any defaults in Step 1, that information will carry over to the appropriate fields here. The information that you will need to input is:

- Item Description – this is where you enter the description of the item you are requesting
- Price
- Quantity
- Unit of Measure
- Category – this is the NIGP Code
- Due Date
- Vendor ID – if you know the vendor you wish to use, enter that Vendor ID here; once the Buyer receives the requisition, they can modify the vendor if needed

- Additional Information – you can use the text box to enter comments regarding the requisition line item. You can also specify if you want those comments sent to the vendor, shown on the receipt, or shown on the voucher. Do not include any slashes (/) in the Additional Information field.

The screenshot displays the Oracle eProcurement interface for creating a Special Request Requisition. The main form is titled 'Create Requisition' and is divided into three steps: 1. Define Requisition, 2. Add Items and Services, and 3. Review and Submit. The current step is 'Add Items and Services', where a 'Special Item' is being defined. The form includes the following fields and values:

- Item Description:** Local Newspaper Ad
- Price:** 499.00000
- Quantity:** 1.0000
- Category:** 91571
- Vendor ID:** 0000026746 (Atlanta Advertising & Marketing Inc)
- Currency:** USD
- Unit of Measure:** EA
- Due Date:** [Empty]

At the bottom of the form, there is an 'Additional Information' text box and three checkboxes: 'Send to Vendor', 'Show at Receipt', and 'Show at Voucher'. The 'Requisition Summary' table on the left shows:

Description	Qty	UOM
Local Newspaper Ad	1	EA
Total Lines: 1		
Total Amount (USD): 499.00		

When you are finished entering your line item information, you have to select the “**Add Item**” button at the bottom of the page to add it to your requisition. Once you do, you should see the Requisition Summary box on the left side of the page update. To add another line item, simply begin entering the line information again. When you have finished adding all requisition line items, you can go to Step 3 – Review and Submit.

When you get to Step #3, this is where you can update the distribution information for each line, as well as the Ship To information. Just like a Marketplace Requisition, you can update this information for each line individually or multiple lines through the Modify Line/Shipping/Accounting button. If you need to include asset information for a line item, you can also do this on step 3. Finally, you can add comments and attachments to each line, as well as to the overall requisition. When all of your information has been added, you can preview your approvals by selecting the **Save & Preview Approvals** button.

The Confirmation page lists the Requisition ID and the number of lines on the requisition. It also lets you see the approval path for the requisition based on the distribution line and your institution specific Workflow setup. You will see an approval for each Requisition Line. If you need to insert additional approvers, you can do so using the Ad Hoc approver functionality. If you notice an error and need to edit your requisition, select the Edit Requisition button. When you are ready to submit your requisition for approval, click the Submit button. The requisition header is set to a Pending Status until all lines are fully approved.

### How To: Create a Special Request Requisition

1. In PeopleSoft Financials Core System, select **eProcurement** from the menu.
2. Select **Create Requisition**.
3. To enter Requisition Defaults, click the **1. Define Requisition** link. Otherwise, go to step 4.
  - a. If desired, enter a name for your requisition (if left blank, the Requisition ID will be listed here after saving).
  - b. Expand the **Line Defaults** section by clicking on the expand button.
  - c. To enter a default vendor for all requisition lines, enter the **Vendor ID** or select it using the Look Up icon.
  - d. To enter a default Buyer for all requisition lines, enter the **Buyer's User ID** or select it using the Look Up icon.
  - e. If all of your line items will have the same NIGP code, enter it in the **Category** field or select it using the Look Up icon.
  - f. If all of your line items will have the same **Unit of Measure**, enter it or select it using the Look Up icon.
  - g. To set a default **Ship To Address**, enter it or select it using the Look Up icon.
  - h. To enter a default **Due Date** for each line item, enter it or select it using the Calendar icon. The Due Date for a Requisition is typically within 30 days of the current date.
  - i. To enter a default "**Attention To**" for each line, enter in the Attention field.
  - j. In the **Accounting Defaults – Chartfields 1** tab, the Location, GL Unit, and Department originally default from your User ID. If needed, you can change the Fund Code, Department, Program, Class, and Project that are to be charged for each line item.
  - k. In the **Accounting Defaults – Asset Information** tab, you can enter the default AM Business Unit field and Profile ID that will appear on each requisition line item. This should only be set if all requisition line items are to be tracked in the Asset Management module, and each line item requires the same Profile ID.
  - l. Click the **Continue** button.
4. Click the **2. Add Items and Services** link.
5. Select the **Special Request** tab.
6. Select the **Special Item** link.
7. For each line that you want to enter, complete the following steps (some fields may have been completed through the requisition defaults – these defaults can be overwritten on this page if needed):
  - a. Enter an **Item Description**
  - b. Enter the **Price** of the item
  - c. Enter the **Quantity** requested
  - d. Enter or select the **Unit of Measure**
  - e. In the **Category** field, enter or select the NIGP Code for the item

- f. Enter or select the **Due Date** for the item
  - g. Enter or select the **Vendor ID** for the item if you have a preferred vendor
  - h. If you have any information that needs to be sent to the vendor, shown on the receipt, and/or shown on the voucher, enter it in the **Additional Information** field and select the appropriate checkboxes.
  - i. Select the **Add Item** button.
  - j. Confirm the **Requisition Summary** updated with your new requisition line.
  - k. To add an addition requisition line, complete steps 7a through 7k again.
8. Select the **3. Review and Submit** link.
  9. To update a requisition line's distribution information, click its **Expand** button and make necessary updates.
  10. To update multiple requisition line's information simultaneously, select the lines to update with a check mark and then select the **Modify Line/Shipping/Accounting** button. Make all necessary updates, and apply to all selected lines.
  11. To enter a **comment** on an individual requisition line, click that line's **call out** (comment) icon. Enter the comments and select where you want the comment to appear.
  12. Enter any justification or comments you wish to on the requisition header in the **Justification/Comments** field and select the appropriate checkboxes. Do not include any slashes (/) in your comments.
  13. Click the **Save & Preview Approvals** button.
  14. Insert any additional approvers if necessary.
  15. Click the **Submit** button.

Once items have been added through the Special Request tab, much of the functionality of a requisition is the same as a requisition created from items pulled from the GeorgiaFIRST Marketplace.

## Charging a Requisition Line Item to a Different Chartstring

When building a Special Request requisition, the Chartfields for each line item's distribution is determined by your User ID as the Requester. These default Chartfields, such as Department, are specified in your Requester setup. If you need to adjust the Chartfields for the line items, you can do this on Step 3 – Review and Submit. On this page, you can individually edit each line, or you can edit multiple lines at one time.

### How To: Charge a Requisition Line Item to a Different Chartstring

1. After you have added all Special Items to your requisition, go to **Step 3 – Review and Submit** by clicking its link.
2. Expand the line by clicking on its **Expand Section** button.
3. Locate the **Accounting Lines** section.
4. Under the **Chartfields 1** tab, update the Account if needed
5. Go to the **Chartfields 2** tab. Additional Chartfield values can be updated if needed:
  - a. Fund Code
  - b. Department
  - c. Program
  - d. Class
6. Go to the **Chartfields 3** tab to specify or modify the Project ID field
7. Make any other necessary changes and then continue with the Special Request Requisition by selecting the **Save and Preview Approvals** button.

## How To: Charge Multiple Requisition Line Items to a Different Chartstring

1. After you have added all Special Items to your requisition, go to **Step 3 – Review and Submit** by clicking its link.
2. Select the lines you wish to change distribution information for by placing a **checkmark** in their **select** boxes.
3. Select the **Modify Line/Shipping/Accounting** button.
4. In the Accounting Information section, enter the new **Chartfields** and then click **Apply**.
5. On the Distribution Change Options, to apply changes to all selected lines, select the option “**All Distribution Lines**” and click **OK**.
6. Make any other necessary changes and then continue with the Special Request Requisition by selecting the **Save and Preview Approvals** button.

## Using Multiple Distributions for a Requisition Line

At times, it may be necessary for you to have multiple distributions for a requisition line. After adding Special Request items, you can split the distribution for the line needed.

To set up multiple distributions for a requisition line, you first specify whether you want to distribute by quantity or by amount. Then, you can add a new distribution line. After adding the new distribution line, you will need to update the percentage in the original distribution line first. Then, you can set the distribution quantity or amount for the new distribution line. On the Chartfields tabs, you can specify the new distribution Chartstring.

Select All / Deselect All Total Amount: 499.00 USD

### How To: Split Distribution for a Requisition Line

1. After you have added all Special Items to your requisition, go to **Step 3 – Review and Submit** by clicking its link.
2. Expand the line by clicking on its **Expand Section** button.
3. Choose whether to **Distribute** by **Amount** or **Quantity** through the drop down list.
4. Locate the **Accounting Lines** section.
5. At the end of the line under the **Chartfields1** tab, click the **Add a New Row** button (+).
6. If distributing by **Quantity**, continue. If distributing by **Amount**, go to step 7.
  - a. In the original distribution line, edit the **quantity** for the revised distribution.
  - b. **Tab** out of the Quantity field. The **Percent** field should adjust accordingly.
  - c. In the new distribution line, enter the **quantity** for the second Chartstring.
  - d. **Tab** out of the Quantity field. The **Percent** field will adjust accordingly.
  - e. Make the necessary changes to the second string of Chartfields on the Chartfields 1, Chartfields 2, and Chartfields 3 tabs.
7. If distributing by **Amount**, continue. Otherwise, go to step 8.
  - a. In the original distribution line, edit the amount for the revised distribution.
  - b. **Tab** out of the Amount field. The **Percent** field should adjust accordingly.
  - c. In the new distribution line, enter the **amount** for the second Chartstring.
  - d. **Tab** out of the Amount field. The **Percent** field will adjust accordingly.
  - e. Make the necessary changes to the second string of Chartfields on the Chartfields 1, Chartfields 2, and Chartfields 3 tabs.
8. Make any other necessary changes and then continue with the Marketplace Requisition by selecting the **Save and Preview Approvals** button.

### Entering Asset Information for an Item

If the item being requested is an asset or needs to be tracked in the Asset Management module, you can specify this information on the requisition. By specifying the asset information on the requisition, the information will transfer to the Purchase Order, the Receipt, and finally the Voucher. After that, the information from the Purchasing and Accounts Payable modules can be interfaced into Asset Management.

Items that need to be tracked in Asset Management include any item valued over \$3,000. Fixed assets are those items valued at or above \$5,000. An item costing less than \$5,000, but more than \$2,999.99, are considered Small Value Property and must also be tracked in the Asset Management module. Finally, any item that must be tracked through the physical inventory process, such as fire arms, should be entered into the Asset Management module.

In order to enter the asset information for an item in the Marketplace Requisition, you need to be on Step 3 – Review and Submit. You will need to enter the AM Business Unit and Profile ID.

## How To: Enter Asset Information for a Requisition Line Item

1. After you have added all Special Items to your requisition, go to **Step 3 – Review and Submit** by clicking its link.
2. Expand the line by clicking on its **Expand Section** button.
3. Locate the **Accounting Lines** section.
4. Go to the **Asset Information** tab.
5. In the **AM Business Unit** field, enter or use the look up icon to select your institution’s business unit.
6. In the **Profile ID** field, enter or use the look up icon to select the asset’s Profile ID (i.e., SVP, AV05YR).
7. Make any other necessary changes and then continue with the Special Request Requisition by selecting the **Save and Preview Approvals** button.

## Inserting Ad Hoc Approvers

The approval path is determined by the department and project charged on a requisition line along with other criteria specified by your institution, which may include line amount, item type, and agency fund. If you have reviewed the approval path and determine that you need to include another approver, you can do that through the Ad Hoc Approver functionality.

On the approval page, you can insert an ad hoc approver anywhere you see a green plus (+) button. You will need to know the User ID of the additional approver, or you will have to scroll through the list of names. In addition, you can specify the ad hoc user as an Approver or Reviewer. Choosing the Approver option will require the user selected to actually approve the requisition for it to progress onto the next step. Selecting the Reviewer option will place the requisition into the selected user's Worklist. However, they will not be required to take action on the requisition for it to move onto the next step. The Reviewer provides visibility only to the ad hoc user.

### How To: Insert an Ad Hoc Approver

1. When you have pulled the GeorgiaFIRST Marketplace shopping cart into an eProcurement requisition, you will be returned to **Step 3 – Review and Submit**.
2. Make any necessary changes to the line item information on the requisition.
3. Select the **Save and Preview Approvals** button.
4. To insert an Ad Hoc approver, click the **green plus (+)** button where you want the approver to go.
5. Enter the **User ID** of the Ad Hoc approver, or use the look up button to select the User ID.
6. Select either the **Approver** or **Reviewer** radio button.
7. Click the **insert** button.
8. You should now see the additional approver in the approval chain.
9. To remove the Ad Hoc approver, select the **red minus (-)** button for that approver. Click **OK** when prompted.
10. Submit the requisition for approval by clicking the **Submit** button.

## Chapter 7: Working with Requisitions

Once your requisitions have been created and submitted, you may find it necessary to track a requisition's progress, edit a requisition, or cancel a requisition. In this chapter, we are going to detail the different ways you can work with your requisitions.

### Managing Requisitions

Once you have saved a requisition, it is easy to track what stage it is in by using the Manage Requisitions page. From this page, you can see the requisition status, review requisition details, edit requisitions, and take various actions on requisitions if needed.

To use the Manage Requisitions page, you will first have to search for the requisitions. You can search through the following parameters (leave a field blank to return all values):

- Requisition ID
- Date From/Date To (when was the requisition created)
- Requester (this is the Requester specified on the Requisition)
- Requisition Name
- Request Status (this is the status of the requisition)
- Entered By
- Budget Status (this is the budget checking status)
- PO ID (if the requisition has been sourced to a PO, this is the corresponding PO ID)

### Manage Requisitions

Search Requisitions

To locate requisitions, edit the criteria below and click the Search button.

Business Unit:

Requisition Name:

Requisition ID:

Request Status:

Budget Status:

Date From:

Date To:

Origin:

Requester:

Entered By:

PO ID:

The Requester specified has no Requisitions.

[Create New Requisition](#) [Inquire Change Request](#) [Inquire Receipts](#) [Requisition Report](#)

There are many statuses that a Requisition goes through during its lifecycle.

Requisition Status	Explanation
<b>Open</b>	The requisition has been entered and saved in the system, but it has not yet been submitted for approval.
<b>Pending</b>	The Requisition has been submitted and is awaiting approval.
<b>Approved</b>	The requisition has been fully approved and can become a PO.
<b>Denied</b>	The requisition was denied in the approval process.
<b>Canceled</b>	The requisition was entered and saved, but was canceled. A canceled requisition can be reopened within a certain number of days.
<b>PO(s) Created</b>	The requisition has been placed on a Purchase Order.
<b>PO(s) Dispatched</b>	The requisition has been placed on a Purchase Order, and the PO has been dispatched to the vendor.
<b>PO(s) Canceled</b>	The requisition has been placed on a Purchase Order which has been canceled.
<b>Received</b>	The requisition has been placed on a PO. The PO has been dispatched to the vendor, and the goods have been partially or fully received.
<b>Complete</b>	After the requisition is dispatched on a PO, the goods are received, and the vendor is paid. A background process identifies the requisition status as Complete. Canceled requisitions are also identified as Complete.

After a requisition has been approved, it must then go through the Budget Checking process. The possible Budget Statuses include Not Checked, Error, and Valid.

Budget Status	Explanation
<b>Not Chk'd</b>	The requisition has not had budget checking run on it yet.
<b>Error</b>	The requisition has gone through budget checking and failed; the budget checking error must be corrected before the requisition can be sourced into a purchase order.
<b>Valid</b>	The requisition has passed budget checking and is available to be sourced into a purchase order.

The more search criteria that you enter, the more narrow your search results will be. In your list of search results, you will see the following for each Requisition:

- Requisition ID
- Requisition Name
- Business Unit
- Date
- Status
- Budget
- Total
- Action Drop Down box and Go button

[Return to Previous Page](#)    [Return to Manage Requisitions](#)

The Line section contains all of the line items on a requisition. The Schedule section displays shipping information for the item, such as where the item is being shipped, when it is due, the quantity, the price, and the total amount of the line.

The Distribution section details the Chartfields and additional information. The Dist # displays the number the system assigned to the distribution. The system uses this numbering to distinguish between multiple distributions for a single requisition line. The distribution statuses include the following:

- Open: The distribution line is open
- Complete: the distribution line is closed
- Processed: the distribution line has been processed and is unavailable for sourcing
- Canceled: the distribution has been canceled

To get the detailed information for a requisition line, you can select the line hyperlink in the Description column under the lifespan or from the Requisition Schedule and Distribution page. Users will see an error when the item description link is selected for items originating from the GeorgiaFIRST Marketplace.

**Item Description**

Department Approval

Finally, you can select the Purchase Orders, Receipts, Invoices, and Payments icons after they are enabled to get the information regarding those specific documents.

The choices in the Action drop down box for each requisition will be specific to the stage that requisition is in. The choices that you as a Requester will use the most are “Edit Requisition,” “Cancel Requisition,” and “Check Budget” (depending on your institution setup). We will talk more about these choices later in this chapter.

### How To: Manage Requisitions

1. In PeopleSoft Financials Core system, select **eProcurement** in the menu.
2. Select **Manage Requisitions**.
3. Enter **search criteria** for your requisitions.
4. Click the **Search** button.
5. To see a requisition’s lifespan, click its **expand** button.
6. To see details about an active or completed stage in the lifespan, click on the lifespan icon.
7. To see the approval path for a requisition, click on the **Approvals** lifespan icon.
8. To see requisition line information, click on the **line description**.
9. To see requisition schedule and distribution information, click on the **Requisition lifespan** icon and then select the **Requisition and Schedule Information** link.

### Editing a Requisition

There will be times when you need to edit a requisition. This includes those requisitions that you have created and saved, but not yet submitted, as well as requisitions that have been denied and may need to be corrected. And, there may be a few occasions when you need to edit a requisition that has already been submitted for approval.

In order to edit a requisition, you can go through the Manage Requisitions page and search for the requisition in need of editing. When it is displayed in your search results, there will be the option of “Edit Requisition” in its action drop down list. If the requisition is no longer available for editing, that option will not appear in the drop down list. For example, once a PO is created from a requisition, that requisition can no longer be edited.

Once you select the choice of “Edit Requisition”, the system will take you to the Edit Requisition page. This page is the same type of page used when creating a requisition. From the Review and Submit page, to edit a line, click on the line description (for Special Request Requisitions only). This will bring up the page where you can edit the price, category, unit of measure, etc.

To edit a requisition line’s distribution and schedule information, click on the expand link for that line. The shipping information can be updated, and the Chartfields can be updated if necessary. After making

all of your edits, you can select the Save & Preview Approvals button. If you have made changes to a requisition that is already in the approval process, when you submit the edited requisition, it will reinitiate the approval process. Therefore, it may be helpful to add a comment explaining why an approver may be seeing the same requisition again. After previewing approvals, you can then submit the requisition.

### How To: Edit a Requisition

1. In PeopleSoft Financials Core system, select **eProcurement** in the menu.
2. Select **Manage Requisitions**.
3. In the search field, enter the **Requisition ID** that needs to be edited (you may need to clear some of the search fields).
4. Click the **Search** button.
5. In the Requisition ID's action drop-down list, select **Edit Requisition**.
6. Click the **Go** button.
7. To update the requisition line information, select the link under **Description**. Make the necessary changes and the return to 3. Review and Submit.
8. To update an individual requisition line Chartfield information, click its **expand** button. Make the necessary changes.
9. To update multiple requisition lines at one time, select the lines to be edited and the select the **Modify Line/Shipping/Accounting** button. Make the necessary edits.
10. Select the **Save & Preview Approvals** button.
11. If reinitiating the approval process, consider adding a **comment** to inform your approvers of this.
12. Insert any **ad hoc approvers** if necessary.
13. Click the **Submit** button.

## Delete a Requisition Line

You can delete a requisition line if needed, as long as the requisition line has not been budget checked. To delete a requisition line, you will again go through the Manage Requisitions page and select “Edit Requisition.” From the “**3. Review and Submit**” page, you can select the line to be deleted by placing a checkmark in its select box. You can select multiple lines at one time if needed. To delete the selected lines, simply click the Delete button. The system will ask you to confirm the deletion before proceeding. Since you have modified the overall requisition, you will need to Save and Submit the requisition again.

The screenshot shows the Oracle eProcurement interface for editing a requisition. The page is titled "Edit Requisition" and is in the "3. Review and Submit" step. The requisition details include Business Unit: 71000 Georgia Perimeter College, Requester: BCHAPMAN\_71 Chapman.Brian K, Requisition Name: 0000400645, and Priority: Medium. The "Requisition Lines" table is as follows:

Line	Description	Vendor Name	Quantity	UOM	Price	Total
1	Local Newspaper Ad	ATLANTA ADVERTISING & MARKETING INC	1.0000	Each	499.000	499.00
2	Local Magazine Ad	ATLANTA ADVERTISING & MARKETING INC	1.0000	Each	599.990	599.99

The "Local Magazine Ad" line (line 2) is selected with a checkmark in the select box. Below the table, the "Delete" button is highlighted with a red box. Other buttons include "Add to favorites", "Modify Line / Shipping / Accounting", "Check Budget", "Save as Template", "Save & submit", "Save & preview approvals", and "Cancel Changes".

### How To: Delete a Requisition Line

1. From the PeopleSoft Financials Core system, select **eProcurement** in the menu.
2. Select **Manage Requisitions**.
3. Enter the **Requisition ID** in the Search Criteria (you may need to clear some of the search fields).
4. Click the **Search** button.
5. In the Requisition ID’s action drop-down list, select **Edit Requisition**.
6. Click the **Go** button.
7. **Select** the line(s) you want to delete.
8. Click the **Delete** button.
9. To confirm the deletion, click the **OK** button.
10. Click the **Save and Submit** button.

## Canceling a Requisition

On occasion, you may find the need to cancel a requisition. If you need to cancel a requisition, you can do so as long as the requisition has not been sourced into a Purchase Order. Once it has been sourced into a purchase order, the requisition can no longer be canceled and you will have to work with the purchase order. To cancel a requisition, you will go through the Manage Requisitions page.

**Manage Requisitions**

Search Requisitions

To locate requisitions, edit the criteria below and click the Search button.

Business Unit: 40000    Requisition Name:

[Create New Requisition](#)    [Inquire Change Request](#)    [Inquire Receipts](#)    [Requisition Report](#)

## How To: Cancel a Requisition

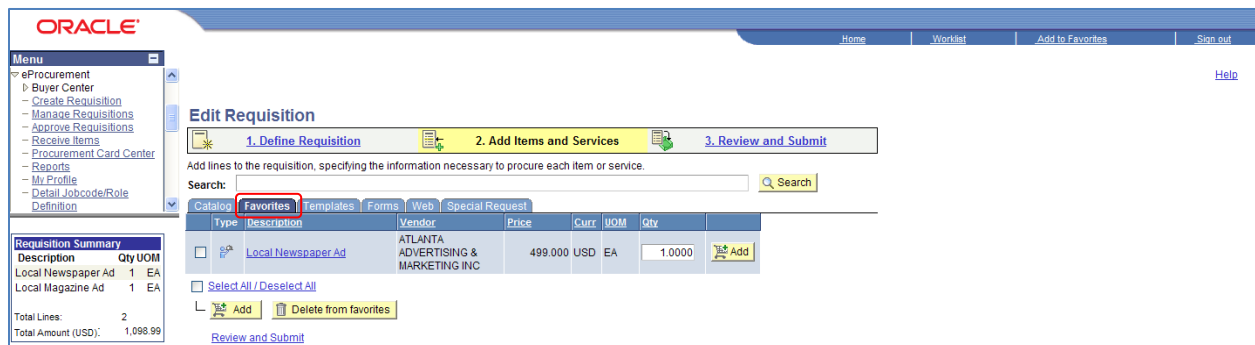

1. From the PeopleSoft Financials Core system, select **eProcurement** in the menu.
2. Select **Manage Requisitions**.
3. Enter the **Requisition ID** in the Search Criteria (you may need to clear some of the search fields).
4. Click the **Search** button.
5. In the Requisition ID's action drop-down list, select **Cancel Requisition**.
6. Click the **Go** button.
7. On the Requisition Details page, select the **Cancel Requisition** button.
8. On the Manage Requisitions page, the requisition status should change to Canceled.

**Saving Favorite Items for Special Request Requisitions**

If you find that you are constantly creating Special Request Requisitions for the same items, eProcurement gives you the ability to save these items as Favorites. The Favorites should only be saved for Special Request Requisitions. For GeorgiaFIRST Marketplace Requisitions, those items should not be saved as a favorite within eProcurement.

When you save favorites in eProcurement, only you are able to access them since they are saved under your User ID. You can save items as favorites as you are creating a Special Request Requisition. You can also add items to your Favorites list without saving and submitting your requisition. On the Review and Submit page of creating a requisition, you can save your items by selecting them and choosing the Add to Favorites button. You can then access your favorite items under the Favorites tab on the Add Items and Services page.

### How To: Save an Item as a Favorite for Special Request Requisitions

1. From the PeopleSoft Financials Core system, select **eProcurement** in the menu.
2. Select **Create Requisition**.
3. Select the **Special Item** link.
4. For each line that you want to enter, complete the following steps (some fields may have been completed through the requisition defaults – these defaults can be overwritten on this page if needed):
  - a. Enter an Item Description
  - b. Enter the Price of the item
  - c. Enter the Quantity requested
  - d. Enter or select the Unit of Measure
  - e. In the Category field, enter or select the NIGP Code for the item
  - f. Enter or select the Due Date for the item
  - g. Enter or select the Vendor ID for the item if you have a preferred vendor
  - h. If you have any information that needs to be sent to the vendor, shown on the receipt, and/or shown on the voucher, enter it in the Additional Information field and select the appropriate checkboxes.
  - i. Select the Add Item button.
  - j. Confirm the Requisition Summary updated with your new requisition line.
  - k. To add an addition requisition line, complete steps 4a through 4k again.
5. Select the link 3. **Review and Submit**.
6. Select the **line items** you want to save as **Favorite items** with a **checkmark**.
7. Click the **Add to Favorites** button.
8. Click **Close** in the Confirmation popup box.
9. Your favorites are now saved. You can either continue creating the Special Request Requisition, or you can exit the requisition by clicking another link in the menu or clicking the Home link.

### How To: Add a Favorite Item to Special Request Requisition

1. From the PeopleSoft Financials Core system, select **eProcurement** in the menu.
2. Select **Create Requisition**.
3. Click the **Favorites** tab.
4. To add an individual favorite item, update the **quantity** and click its **Add** button.
5. To add multiple favorite items, select each favorite item with a **checkmark**, update the quantities if necessary, and select the **Add** button.
6. Verify that the **Requisition Summary** updated with the new items.
7. To edit the information on a favorite added to a requisition, select the **3. Review and Submit** link.
  - a. Select the line item description link.

- b. Update the item fields as necessary.
- c. Click the **OK** button.
8. Continue creating the requisition.

### How To: Delete an Item from Your Favorites List

1. From the PeopleSoft Financials Core system, select **eProcurement** in the menu.
2. Select **Create Requisition**.
3. Click the **Favorites** tab.
4. Select the item(s) you want to delete with a **checkmark**.
5. Select the **Delete from favorites** button.

### Special Request Requisition Templates

In addition to saving favorite items for Special Request Requisitions, you can also create personal templates for a set of items for Special Request Requisitions. Again, templates should only be created for Special Request Requisitions and not for GeorgiaFIRST Marketplace Requisitions.

After creating a Special Request Requisition, but before saving and submitting it, you can name your requisition. This requisition name will also be used as the Template Name. After providing a name, select the Save as Template checkbox. All information that you entered for the requisition (except Due Date if it is in the past), will be saved under the template. This includes Chartfields.

**Save as Template**

Check Budget | Save & submit | Save & preview approvals | Cancel Changes | Find more items

To apply a Personal Template for a Special Request Requisition, you select the Templates tab. From there, you can indicate the quantity and add the template of items to your requisition. You can then make any necessary changes needed through the Review and Submit page.

The screenshot shows the Oracle eProcurement interface. On the left is a navigation menu with options like 'eProcurement', 'Buyer Center', and 'Create Requisition'. The main content area is titled 'Create Requisition' and features three numbered steps: '1. Define Requisition', '2. Add Items and Services', and '3. Review and Submit'. Below these steps is a search bar and a table with columns for 'Description' and 'Quantity'. The 'Templates' tab is highlighted in the navigation bar. A 'Requisition Summary' box on the left indicates 'There are no lines on this request.' and provides fields for 'Total Lines' and 'Total Amount (USD)'.

## How To: Create a Personal Template for Special Request Requisitions

1. In PeopleSoft Financials Core System, select **eProcurement** from the menu.
2. Select **Create Requisition**.
3. Select the **Special Request** tab.
4. Select the **Special Item** link.
5. For each line that you want to enter, complete the following steps (some fields may have been completed through the requisition defaults – these defaults can be overwritten on this page if needed):
  - a. Enter an Item Description
  - b. Enter the Price of the item
  - c. Enter the Quantity requested
  - d. Enter or select the Unit of Measure
  - e. In the Category field, enter or select the NIGP Code for the item
  - f. Enter or select the Due Date for the item
  - g. Enter or select the Vendor ID for the item if you have a preferred vendor
  - h. If you have any information that needs to be sent to the vendor, shown on the receipt, and/or shown on the voucher, enter it in the Additional Information field and select the appropriate checkboxes.
  - i. Select the Add Item button.
  - j. Confirm the Requisition Summary updated with your new requisition line.
  - k. To add an addition requisition line, complete steps 7a through 7k again.
6. Select the **3. Review and Submit** link.
7. Input a **requisition name** that will also serve as the **Template** name.
8. To update a requisition line's distribution information, click its **Expand** button and update the information.
9. To update multiple requisition line's distribution information, select the lines to update with a check mark and then select the Modify Line/Shipping/Accounting button. Make the necessary updates, which will update all selected lines.

10. To enter a comment to an individual requisition line, click that line's call out icon. Enter the comments and select where you want the comment to appear.
11. Enter any justification or comments you wish to attach to the requisition in the Justification/Comments field and select the appropriate checkboxes. Do not include any slashes (/) in your comments.
12. Select the **Save as Template** checkbox.
13. Click the **Save & Preview Approvals** button.
14. Your template is now saved. You can continue with the current requisition by submitting it.

### *How To: Apply a Personal Template to a Special Request Requisition*

1. In PeopleSoft Financials Core System, select **eProcurement** from the menu.
2. Select **Create Requisition**.
3. Select the **Templates** tab.
4. Enter the **quantity** of the template you wish to apply.
5. Click the **Add** button.
6. Select the **3. Review and Submit** link.
7. To update a requisition line's distribution information, click it's Expand button and update the information.
8. To update multiple requisition line's distribution information, select the lines to update with a check mark and then select the Modify Line/Shipping/Accounting button. Make the necessary updates, which will update all selected lines.
9. To enter a comment to an individual requisition line, click that line's call out icon. Enter the comments and select where you want the comment to appear.
10. Enter any justification or comments you wish to attach to the requisition in the Justification/Comments field and select the appropriate checkboxes. Do not include any slashes (/) in your comments.
11. Click the **Save & Preview Approvals** button.
12. Insert any ad hoc approvers as necessary.
13. Click the **Submit** button.

## Chapter 8: Desktop Receiving

For many items that are purchased, a receipt will be required before payment is issued by your Accounts Payable department. The receiving requirement is set on purchase orders. By creating a receipt in the system, your Accounts Payable Department can be sure that they are issuing payment for goods that have been received.

Some requesters will have the responsibility of performing Desktop Receiving, which is creating a receipt in the system. This receipt is tied into the Requisition, Purchase Order, and Invoice so that payment can be issued. Without the receipt, the payment cannot be issued.

Not all requesters will have this responsibility. Some shoppers may be responsible for their own desktop receiving. Check with your institution for your applicable business processes. If you do have the Desktop Receiving responsibility, continue with this chapter to learn how to create receipts in the PeopleSoft system.

### **Desktop Receiving**

Desktop Receiving is a function within the eProcurement module. It is a simplified version of what your Central Receiving department does on campus. Your Central Receiving Department will still be responsible for creating receipts in the PeopleSoft system for assets and other items that need to be inventoried. However, this eProcurement Desktop Receiving function will enable you to receive many of the goods ordered through ePro Requisitions. You will need the proper security setup to perform desktop receiving.

Desktop receiving is done through the PeopleSoft Core system, in the eProcurement module. On the Receive Items page, all of your requisitions that have not been fully received will be listed. Through the Receive Items page, you will be able to indicate whether you have received the full quantity requested, or just a partial quantity.

**Receive Items**

You have 3 lines open for receiving

and go to the Receive Form.

Desktop Receiving should not be used for Receipt of Assets. Request the appropriate staff on your campus to create a PO Receipt instead

[Return to Manage Requisitions](#)   [Return to Receiving](#)

**How To: Create a Desktop Receipt**

1. Log into the **PeopleSoft Core** system.
2. Select **eProcurement** in the menu.
3. Select **Receive Items** in the menu.
4. Location the **Requisition Line Item** you need to receive.
5. Select the requisition by placing a **checkmark** in its **Select** box (or to receive all line items, choose the Check All button).
6. Select the **Receive Selected** button.
7. If needed, change the **Received Date**. By default, the current date will be listed.
8. In the **Received Qty** field, enter the **quantity** received.
9. To review details about the actual purchase order, select the **Details...** icon.
10. To attach comments to the Receipt, select the **Comments** icon.
  - a. Here you can indicate the condition and input a comment if needed.
  - b. Do not include any slashes (/) in your comments.
11. Click the **Save Receipt** button.
12. Your Receipt Number will be listed on the “Receipt Saved Successfully” page.

If you have a Requisition line item that you previously received a partial quantity for, you will still be able to go back to this same page and receive additional quantities.

## Chapter 9: Requester Notifications

In order to help you manage requests for goods, the eProcurement and GeorgiaFIRST Marketplace systems employ the use of automatic emails to provide notifications to you throughout the process.

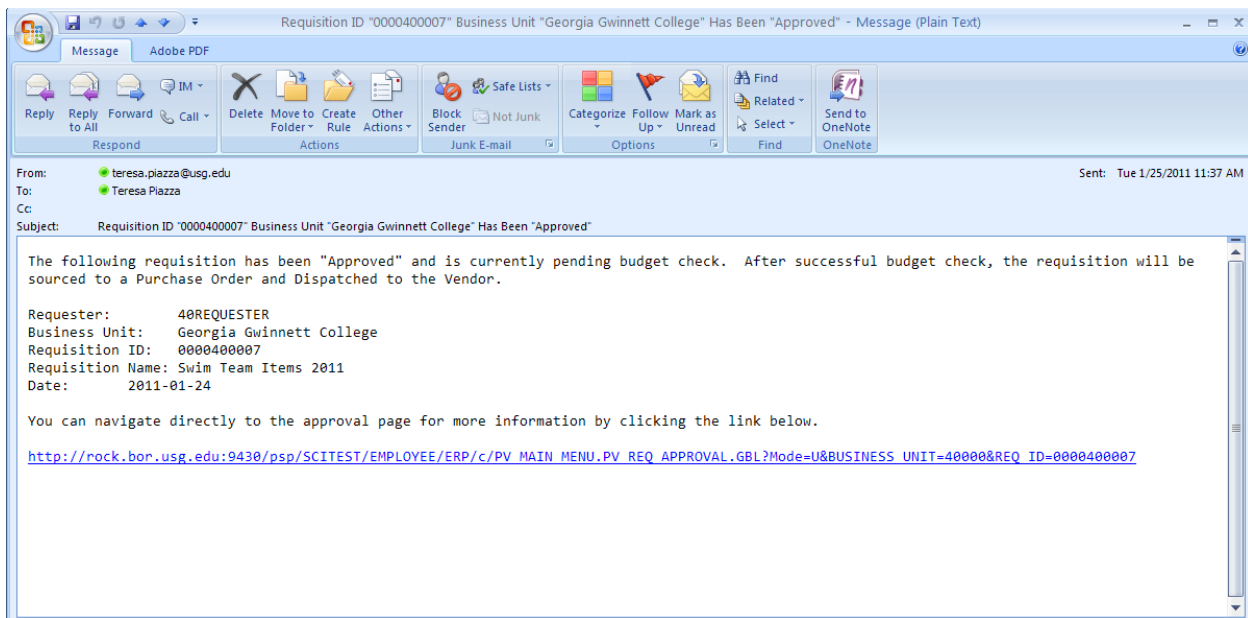

### **Requester Notification #1: You have been assigned a shopping cart**

The first notification that you will see is when a shopping cart has been assigned to you. After a Shopper has built a GeorgiaFIRST Marketplace cart and assigned it, the system notifies you via email. In that email, you will also see any comments attached to the shopping cart by the shopper.

### **Requester Notification #2: Your Requisition Has Been Approved**

If you are listed as the Requester on either a Special Request Requisition or a Marketplace Requisition, you will also receive an email notification once your requisition has been approved. Depending on your institutional setup for approvals, your requisition may be approved by one or more individuals. Once the last approver has approved your requisition, the system will notify you via email that your requisition has been fully approved.

Once your requisition has been approved, it will then be available for further automatic processing such as budget checking and sourcing into a purchase order. It is then dispatched to the vendor for order fulfillment.

Likewise, if your requisition (or a requisition line) is denied, you will also receive an email indicating this. If your Shopper receives notification that a requisition has been denied, they have been instructed to forward the message to you. Denied requisitions can be edited and resubmitted when necessary.

### **Notification #3: Your Requisition Items Need to be Received**

Once your requisition has been turned into a purchase order and dispatched to the vendor, the vendor can then fill your order. In addition to sending you the purchased items, the vendor will send an invoice to your Accounts Payable department for these items. Before Accounts Payable can pay an invoice, it will check to see if the items you purchased require a receipt before payment can be made. If a receipt is required and has not been entered into the system yet, you may receive an email indicating that you need to “receive” your items in the system.

Please note: You should not “receive” an item in the system unless you have actually received it. Do not enter a receipt just because you get this email. This system is in place to ensure that the institution only pays for goods that it receives.

## Chapter 10: Searching for Items in the GeorgiaFIRST Marketplace

As a Requester, there may be times when you need to create your own shopping cart in the GeorgiaFIRST Marketplace to pull into a requisition. In addition, you may need to occasionally edit an assigned shopping cart that you are working with. In order to effectively look for items in the GeorgiaFIRST Marketplace, you need to know how to use its search functions. Within the GeorgiaFIRST Marketplace, there are many ways that you can search or browse for items. In this chapter, we will review most of the search methods. However, after using the marketplace for a while, you will find the way that you are most comfortable.

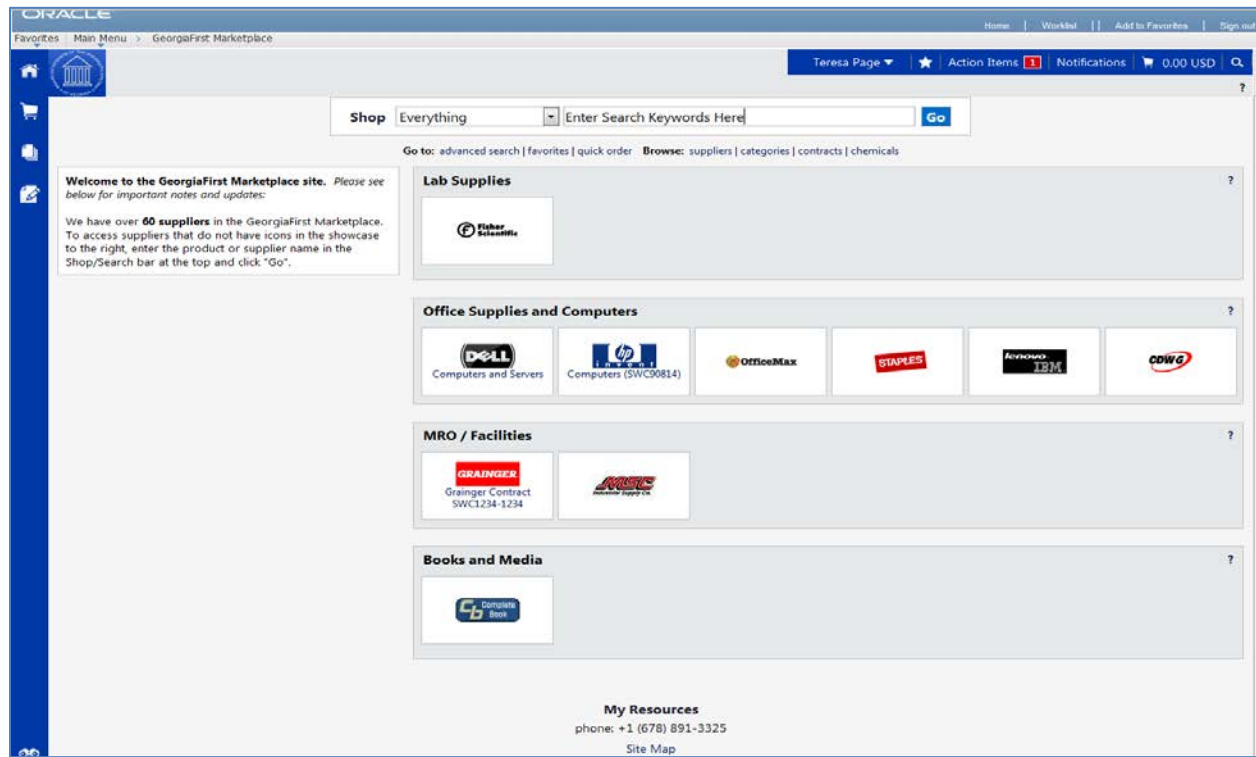

Before we discuss what search options are available, let's take a minute to review what is available to be searched. First, GeorgiaFIRST Marketplace has "hosted catalogs". A hosted catalog is an online version of a supplier's printed catalog. Hosted catalogs contain product data and details, along with pricing information for each item. When you perform a product search, the products in all of the hosted catalogs are searched.

Second, there are "punch-out catalogs". Punch-out catalogs are integrated external links to a supplier's web-based catalog. The Shopper enters the punch-out supplier's website through the GeorgiaFIRST Marketplace to search and select products from that supplier's web catalog (i.e., Dell's Government Catalog). The shopper then returns the items to the GeorgiaFIRST Marketplace shopping cart. Punch-out catalogs still maintain items and pricing specific to the University System of Georgia. In some cases, items and pricing in a punch-out are also specific to each institution.

Third, there are "self-managed" catalogs. These catalogs function very similarly to hosted catalogs, but the items and pricing are managed by the institutions, the University System Office, and the System Admin.

## Using Simple (Basic) Search

A simple search is similar to a “Google” search, where you enter a word, phrase, or keyword into a single text box for searching. By using a simple search, you can get results from hosted catalogs, self-managed catalogs, and contracts. Simple Search displays when you enter the GeorgiaFIRST Marketplace. With the Simple Search feature, you can search through everything or you can search by product category. By default, the search will occur across all product categories (“Everything”). All of the words that you enter in the keyword textbox must be found in the items displaying in the product search results. After entering the keywords, click the “Go” button or press “Enter” on your keyboard.

When performing a simple search, the system looks through many different things in order to find the most relevant search results. This includes looking through Keywords and Item information.

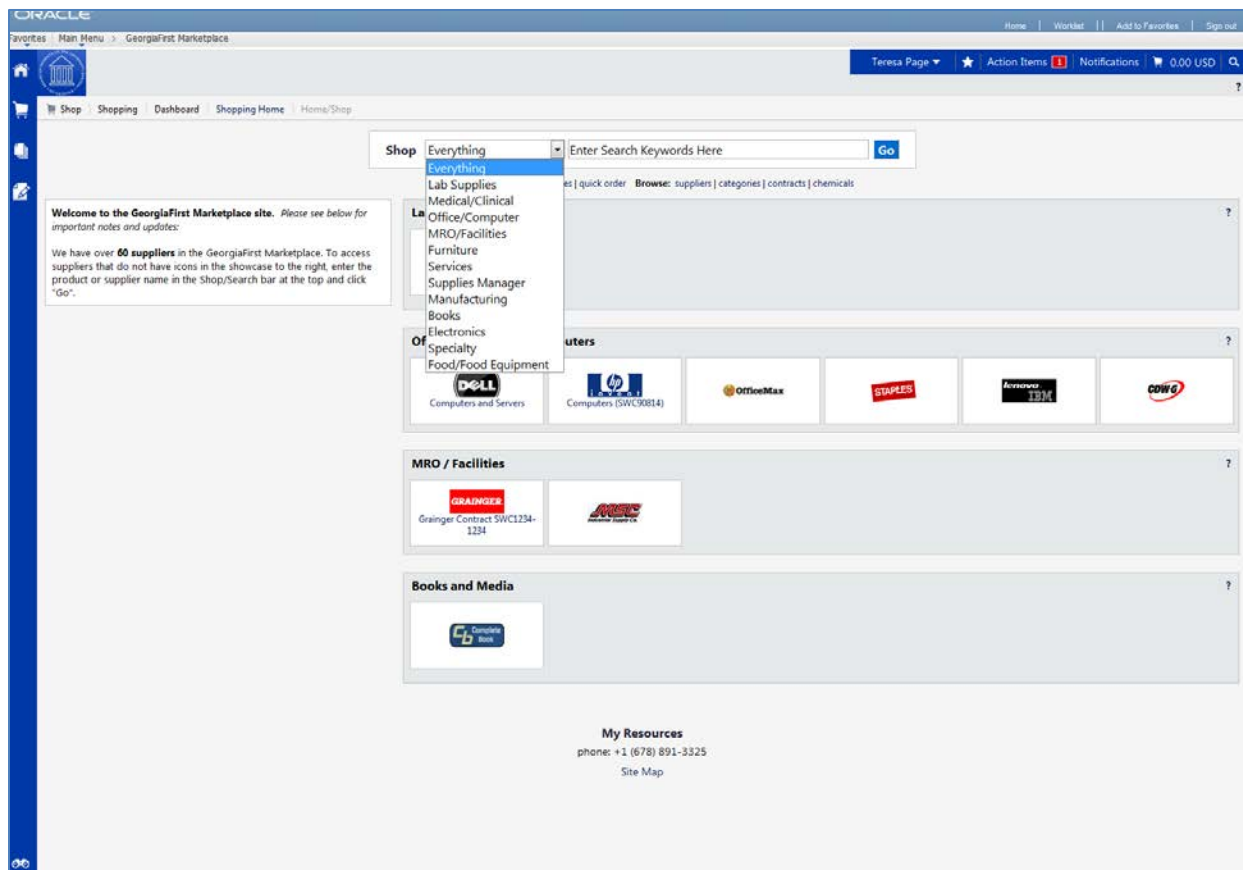

GeorgiaFIRST Marketplace System Administrators enter keywords to help guide users to the correct contract, supplier and favorite items. Item Information includes the following:

- Product Description
- Product Category/Sub Category
- Supplier (Vendor)
- Manufacturer Name and Manufacturer Part Number

- Unit of Measure/Product Size
- System Packaging and Size
- Alternate Name and Alternate Part Number(s)
- Client Catalog #
- Color
- Common Name
- MDL Number
- Molecular Formula
- Radionuclide
- UPC

One way to narrow down your search results is to only search in a particular product category. Searching by category helps reduce the number of products from appearing in the search results by filtering out those not in the selected category. When shopping by category, the data being search is limited. Available categories may vary by institution depending on the suppliers and items enabled. The Product Categories that you may see include:

- Lab Supplies: Products used in various research environments (i.e., reagents, glassware, analytical equipment, etc.)
- Medical/Clinical Supplies: Includes medical, surgical, clinical and dental products (i.e., gauze, needles, dental equipment, etc.)
- Office: Office supplies and consumables (i.e., files and folders, desk supplies, writing instruments, etc.)
- MRO/Facilities: Products related to maintenance repair and operation (i.e., tools, hardware, janitorial supplies, etc.)
- Furniture: All furniture products (i.e., desks, chairs, shelving, etc.)
- Services: Service-related items (i.e., lab services, legal services, training services, etc.)
- Manufacturing/Engineering: Major equipment purchases (i.e., Construction equipment, HVAC equipment, Pharmaceutical equipment)
- Books and Publications: Hardcopy documentation spanning all topics and interests (i.e., Books, Manuals, Magazines, etc.)
- Electronics/IT/AV: All electronic or computer-related equipment (i.e., computer hardware/software, AV equipment/accessories, communication equipment/accessories, etc.)
- Specialty: Miscellaneous Products (i.e., Sporting equipment, Clothing materials, Musical instruments, etc.)
- Food/Food Equipment: All food-related items (i.e., Commercial food preparation, storage, and serving equipment, Food consumables and supplies, Kitchen equipment, etc.)

It is recommended that when searching for an item, you first search by product category. If you do not find what you are looking for, then search “Everything.”

Once your search results are retrieved, you can use the filter options to further refine your results. Primarily, you can use the filter options for “Custom Attributes” to see those items on a state contract, agency contract, etc.

### How To: Perform a Simple Search

1. Start From the GeorgiaFIRST Marketplace **home/shop** page.
2. Select the appropriate **Product Category** (optional).
3. Enter one or more **keywords**.
4. Press the **Go** button.

## Using Advanced Search

By using Advanced Search, you are able to enter additional criteria to generate more specific search results than with Simple Search. The search criteria available depends on the product category selected and includes custom catalog attributes to identify contract type. By default, once you open the Advanced Search function after entering the GeorgiaFIRST Marketplace, it will remain open for subsequent searches, for the remainder of the shopping session.

To access Advanced Search, select the Advanced Search link from Simple Search (Shop at the Top).

When using Advanced Search, proper usage of the search criteria fields makes a huge difference in terms of the quality of search results. Users should take the time to understand how each of these fields work. Keep in mind that the search criteria fields available in Advanced Search are dependent on the product category selected.

Search Criteria Field	Description
<b>All of These Words</b>	This field functions in the same way that Simple Search does. Only products containing ALL the word entered in this field are returned in search results. The words do not need to be in the same order as listed, but all words must be found in the item data or keyword data.
<b>Part Number (SKU)</b>	Enter the catalog number or SKU (Stock Keeping Unit) for the required product(s). This may be the distributor's SKU or the manufacturer SKU.  For best results, the entire SKU should be entered. A partial match on part number returns the closest matching or similar results. This is a "begins with" match and at least four characters must be entered.

Search Criteria Field	Description
	<p>If multiple strings of text are entered (i.e., "123 456 798"), then all components of that string must be present in the part number for the item to be returned. For example, if "123 456 789" is entered into Product Search, the part numbers "123-456-789" and "123-456-789-000" would be returned, and "123-456" would not.</p> <p>When the Part Number field is used as part of the search criteria, only those fields related to the Part Number for items are searched. This includes Supplier Part Number, Manufacturer Part Number, Alternate Part Number, Client Catalog Number, and Custom Catalog Number.</p>
<b>CAS No.</b>	<p>This search field is available in the Laboratory Supplies category only. CAS numbers can be entered in any format using numbers, brackets, braces, parentheses, and dashes (any other characters are stripped). The search engine will convert the entered value to the appropriate format to return only products with the entered CAS number. Enter multiple CAS numbers to find all chemicals with matching CAS numbers. Note: The entered CAS No. is checksum validated to reduce errors.</p>
<b>Product Class</b>	<p>This field is only available for Lab Supplies and provides a more detailed level of categorical search.</p>
<b>Product Size</b>	<p>Enter the units for the product size and select the dimension of the units from the pull-down menu. For example, enter "500" for units and select "mL" from the pull-down for a product size of 500mL. This is available only in the Lab Supplies category.</p>
<b>Supplier Name</b>	<p>Enter the beginning of a supplier's entire name to find products from all suppliers that include the terms as part of their name, or begin typing and select from the drop-down list of suppliers to see products from a single specific supplier. When the Supplier Name field is used as part of the search criteria, only the supplier name is searched.</p>
<b>Manufacturer Name</b>	<p>To find products from a specific manufacturer, enter the name of that manufacturer here. Search Results will include products from all suppliers who have identified the manufacturer in the product information provided to the GeorgiaFIRST Marketplace. Enter multiple manufacturer names to limit results to a set of certain manufacturers. Only the manufacturer field is searched for matches.</p>
<b>Exact Phrase</b>	<p>Products containing the exact words in the ordered entered are returned. This is a very powerful search strategy if you know the precise way in which a supplier presents its information. If you are unsure – and looking for results from multiple suppliers – it is recommended that you use "All of These Words" option instead.</p>
<b>Exclude Words</b>	<p>Products including any of the words entered in this field are excluded from Search Results. Another search field must be used when using the exclude function. For example, you may be looking for all glove options that are not small or medium. You could enter "latex gloves" in the "must include the words" field and "small medium" in the "exclude the words" field.</p>
<b>Any of These Words</b>	<p>Search results will include products containing any of the words entered in this field. Products containing more than one word appear higher in search results than products</p>

Search Criteria Field	Description
	with only one. Keep in mind, the search results will not be as targeted as using the “must include the words” field.

You can also narrow down your results by using the Custom Attributes. These Attributes include:

- Mandatory State Contract
- Agency Contract
- Statutory Mandatory
- Convenience State Contract
- Statutory Preferred

Once your search results are retrieved, you can use the filter options to further refine your results. Primarily, you can use the filter options for “Custom Attributes” to see those items on a state contract, agency contract, etc.

When executing your search, select the “Hide Advanced Search on search results” checkbox if you would like the advanced search box to collapse and show the Simple Search after displaying results. To go back to using Simple Search, select the “simple search...” link.

### How To: Perform an Advanced Search

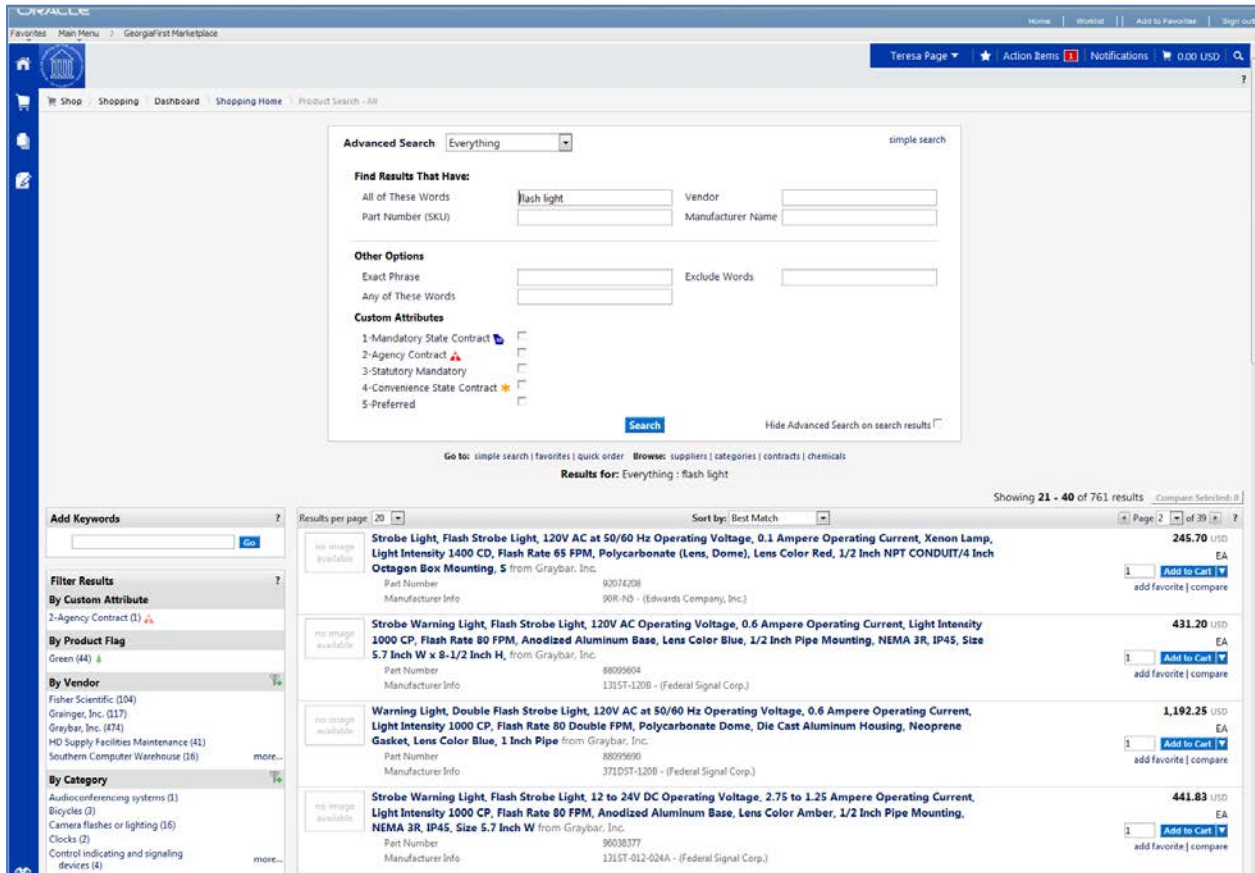

1. On the GeorgiaFIRST Marketplace **home/shop** page, select the **advanced search** link.
2. Select a **Product Category** in the Advanced Search drop down list.
3. In the **Find Results That Have:** section, use one or more of the following options:
  - a. All of These Words
  - b. Supplier
  - c. Part Number (SKU)
  - d. Manufacturer Name
  - e. CAS No. (Laboratory Supplies Category only)
  - f. Product Class (Laboratory Supplies Category only)
  - g. Product Size (Laboratory Supplies Category only)
4. In the **Other Options:** section, use these additional fields as necessary:
  - a. Exact Phrase
  - b. Exclude Words
  - c. Any of the Words
5. To search for items for a particular contract type, select the checkbox next to the appropriate **custom attribute/contract type**.

- a. For example, initially perform the search with **Mandatory State Contract** selected. If the search does not return the required item, repeat the search with **Agency Contract** selected.
6. Click the **Search** button

**Search Result Details**

Search results display below the Simple and Advanced Search.

Here are the detailed explanations for the **Search Results** user interface:

Search Results	Description
<b>Search Listing</b>	By default, items and recommended services, suppliers, etc., are presented in the Best Match “Order”. Hosted products are displayed with an image (if available), along with product description and product detail information.
<b>Showing</b>	After the search is performed, you can see how many items are displayed from the overall total of results.
<b>Sort By</b>	After the search is performed, you can choose to re-sort the data by part number, product description, price, etc.,
<b>Refining the Search through Keywords</b>	GeorgiaFIRST Marketplace allows you to filter the search results by adding additional keywords into the “Add Keywords” field, found on the left side of the screen.

Search Results	Description
<b>Refining the Search through Filters</b>	GeorgiaFIRST Marketplace allows you to filter the search results by selecting specific suppliers, product categories, supplier classes, manufacturers, units of measure, product flags, or custom attributes (contract type). These filter options are found on the left side of the screen.
<b>Icon Definitions</b>	Custom Attributes (used for contract type, supplier classes, and product attributes) are identified with icons below the product description. An item-specific legend is provided for product flags and supplier classes in the appendix.
<b>Comparing Items in Search Results</b>	From the search results, product details can be compared to determine which one should be ordered. This function is explained more in depth in the next chapter.
<b>Access Additional Pages and Changing Items per Page</b>	To change the number of items displaying per page, select the appropriate option from the "Items per page" drop-down at the top or bottom of the search results. To view items on a different page, use the arrow buttons or select a specific page number. This information is displayed above and below the search results.

### Filtering Results

Once you have searched for an item, you can use the **Filter Results** section on the Search Results page to further narrow down your results. After performing a search, you will see the Filter Results section appear, where you can filter by Custom Attribute (contract type), Product Flag, Supplier, Category, Packaging UOM, Result Type, and Manufacturer Name.

To apply a single filter, simply click on the option. To see additional options under a filter, select the **more...** link.

In addition, you can apply multiple filters under one filter option by selecting the add filter... icon (funnel with green plus sign). By selecting the add filter... icon, you can choose more than one filter option. Simply select the options you want through their checkboxes and then click the **Filter** button.

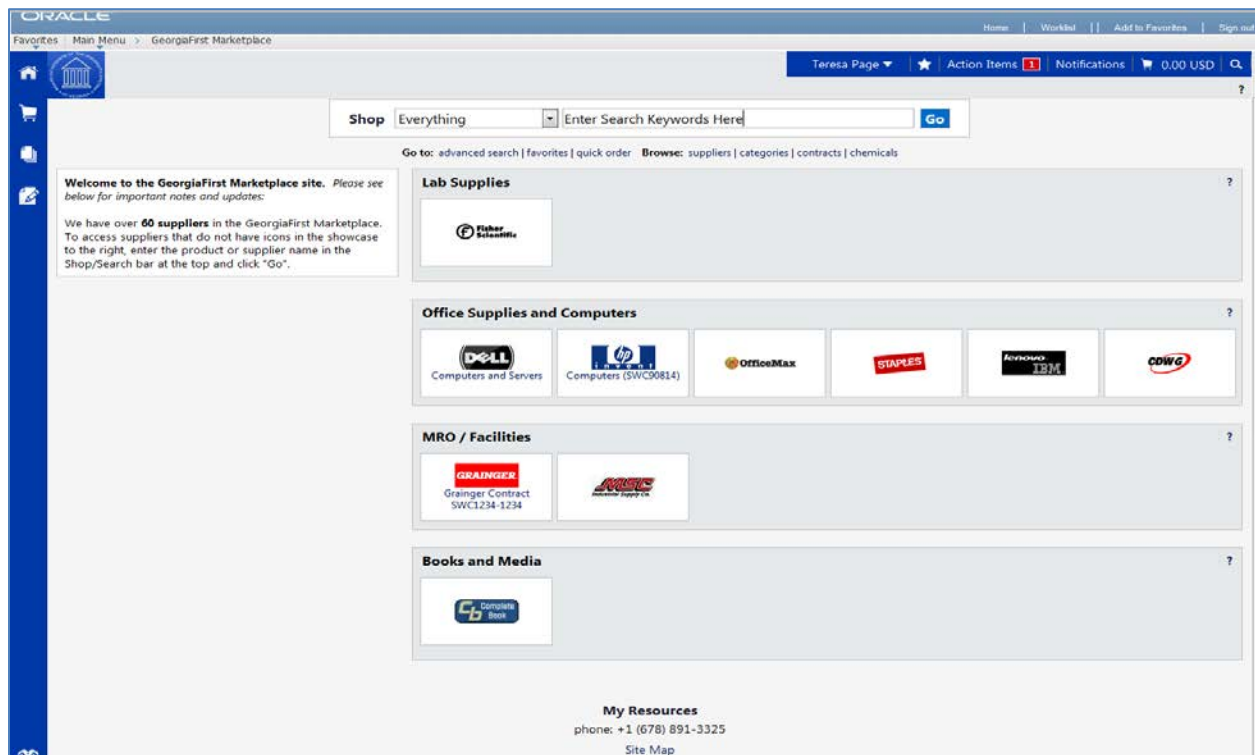

If you want to remove a filter, click the **remove selected filter** icon (funnel with red minus sign).

Over the next few pages, we will detail how to search using other methods.

## Searching from the Purchasing Showcase

The Purchasing Showcase is an area where specific suppliers are highlighted. Suppliers listed in the Purchasing Showcase may or may not have an icon attached to their name. Additionally, suppliers can have a caption indicating what the supplier offers or what special discounts they have or the contract number.

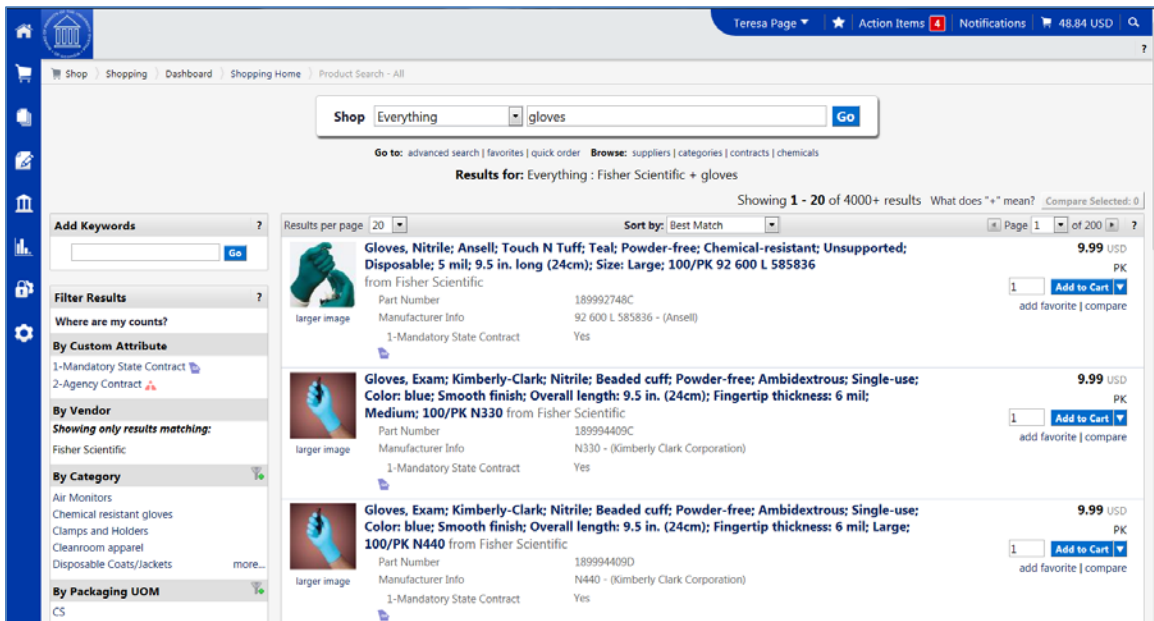

## How To: Search from a Showcased Supplier

1. From the GeorgiaFIRST Marketplace **home/shop** page, click on the **Supplier** name or icon in the Showcased Suppliers section. A pop-up displays that indicates how you can shop from the supplier. The options include a simple search. Depending on the system configuration, search by contract type may be available for some suppliers.

2. Enter **keywords** in the Search field and click the **Search** button.
3. The Search Results will appear and be formatted just how Simple Search and Advanced Search displays.

4. From these search results, you can narrow down your results by using **filter** options, re-sorting the results, or adding additional keywords.

## Browse by Supplier

The “Browse by Supplier” functionality is much like using a table of contents from a paper catalog. Once the desired chapter is found (product category), a single click takes you to all of the products provided by that supplier in that selected category. This functionality is different than selecting a specific supplier from the Showcase or through Punch-outs.

The screenshot shows the Oracle eProcurement interface for 'Browse by Supplier'. At the top, there's a navigation bar with 'Home', 'Worklist', 'Add to Favorites', and 'Sign out'. Below that, a breadcrumb trail shows 'Shop > Shopping > Browse By > Suppliers > Browse by Vendor'. A search filter box is open, showing 'Vendor' and 'Vendor Type' (set to 'All') with a 'Search' button. Below the filter, it says 'Showing 1 - 20 of 239 results'. A table of results is displayed, sorted by 'Best Match'. The table has columns for 'Vendor Name', 'Type', and 'Preference'. The results list various vendors like '1st Coast Printing', 'Advanced Business Supplies', 'Agilent Technologies, Inc.', etc.

Vendor Name	Type	Preference	Vendor Name	Type	Preference
1st Coast Printing	<input type="checkbox"/>		Advanced Business Supplies	<input type="checkbox"/>	
3 Order 2 Remit 2 bus and fax	<input type="checkbox"/>		Agilent Technologies, Inc. *	<input type="checkbox"/>	
A Legendary Event	<input type="checkbox"/>		Airgas South	<input type="checkbox"/>	
A&D Painting, Inc	<input type="checkbox"/>		Airgas South	<input type="checkbox"/>	
A. Daigger & Co.	<input type="checkbox"/>		All Star Screen Printing LLC	<input type="checkbox"/>	
ABC Sign Group	<input type="checkbox"/>		Allgood Pest Solutions	<input type="checkbox"/>	
Ace Glass Inc.	<input type="checkbox"/>		Alligare, LLC	<input type="checkbox"/>	
Activate the Space	<input type="checkbox"/>		Allmond, Sarah E	<input type="checkbox"/>	
Adrenalin Powerports, Inc.	<input type="checkbox"/>		American Facility Services	<input type="checkbox"/>	
Advanced Backflow Technologies	<input type="checkbox"/>		AMERIPRESS	<input type="checkbox"/>	

### How To: Browse for Items by Supplier

- From the GeorgiaFIRST Marketplace **home/shop** page, select the **Browse: suppliers** link.
  - By default, all suppliers display. Suppliers are listed in alphabetical order with preference suppliers displaying first.
- To search for a specific supplier, click on the **expand** icon (+) to the left of “Click to expand Search for Supplier Filter.”
- To view all suppliers click the **Search** button.
- To search by supplier name or supplier information, enter the appropriate information in the Supplier Name field. The supplier search allows for a “contains” name search.

5. From the **Supplier Type** drop down list, select to view **Hosted Catalog Suppliers**.
6. Click the **Search** button.
7. Select the supplier from the results by selecting the **Supplier Name**. The supplier information and categories display.
8. From the supplier category page, select the desired product category by clicking on its name or the **expand** icon (+) next to its name.
9. Continue drilling down into the categories until you locate the sub-category that you would like to view.
10. Final sub-categories (with items) are indicated with the word “view” next to it. Click the **view** button to view the items for the supplier in that particular category. You will be taken to the **Search Results** page, which is formatted like all other Search Results pages.

## Browse by Category

The “Browse by Category” functionality is similar to the “Browse by Supplier” functionality. The main difference is instead of viewing one supplier’s table of contents, all supplier tables of contents are shown. Using this functionality is equivalent to opening numerous paper catalogs from many suppliers to the same section.

Browse by Category provides a quick way to locate all item, across all suppliers, in a certain category.

### How To: Browse for Items by Category

1. From the GeorgiaFIRST Marketplace **home/shop** page, select the **Browse: categories** link.
2. A full list of available categories, across all hosted catalogs is presented. This represents your full table of contents.
3. Use the **expand (+)** and **collapse (-)** buttons to drill down to the category of your choice.
4. Final sub-categories (with items) are indicated with the word “view” next to it. Click the **view** button/link to view the items in that particular category. You will be taken to the Search Results page.
5. On the **Search Results** page, all items in the selected category are displayed from all suppliers. Use the **filter** results to narrow your search results down even further.

### Using Product Comparison

Side-by-side comparisons are a good way to determine which product is best suited for a particular need. The **Compare** function allows the selection of two or more products to do a direct side-by-side comparison of the product attributes of each. Products found across multiple pages of search results can now be compared to one another. Keep in mind that the product comparison feature can only be used to evaluate hosted catalog items. Items from punch-out suppliers do not display in the search results, and therefore cannot be part of the side-by-side comparison.

### How To: Compare Products Side-by-Side

1. From the GeorgiaFIRST Marketplace **home/shop** page, search for an item using your preferred search method.
2. From the search results, click the **compare** hyperlink for each item you want to include in the comparison. To remove an item from comparison, while on the **Search Results** page, select the **remove** hyperlink.
3. Note: Items across multiple pages can be selected. Once one or more items are selected, the **Compare Selected** button will activate.
4. Continue to select items for comparison. Once all items are selected, click the **Compare Selected** button at the top of the search results.

5. The **Product Comparison** page lists all of the products selected for comparison. Product attributes are shown on the left side of the page. Scroll down to review the information for each item/attribute.
6. To remove a product from the Product Comparison page:
  - a. Click the **check box** at the top of the product
  - b. Select the **Remove** action from drop down list
  - c. Click the **Go** button
7. Click on the **supplier** hyperlink for an item for more information about that supplier. Here you can see supplier and contract information.
8. Click the **more information URL** to view a detailed product description.
9. Click the **Add to Cart** icon to add the item directly to your shopping cart.
10. Click the **Back to Search Results** button to go back to your original search results and cancel the product comparison. From here, additional products can be selected for comparison.

### Searching from Punch-Out Suppliers

In addition to searching supplier-hosted catalogs that are loaded into the GeorgiaFIRST Marketplace, you can also search for items via punch-out suppliers. When accessing a punch-out supplier via the GeorgiaFIRST Marketplace, you are automatically authenticated to the supplier, so the supplier’s website knows which organization you are from. This enables the supplier to show the appropriate products and pricing.

### How To: Search from Punch-Out Suppliers

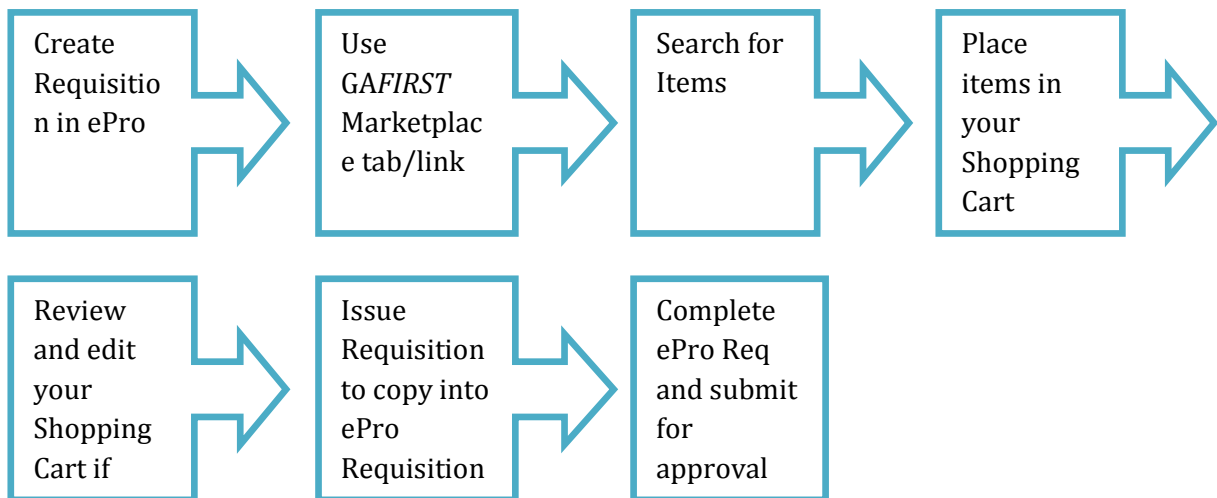

1. From the GeorgiaFIRST Marketplace **home/shop** page, click on the **Punch-Out supplier** from the Punch-Out section.
2. The system will redirect you to that supplier’s web-page.
3. If you decide that you did not want to search from the punch-out supplier, select the **Cancel Punch-out** button in the upper right corner of the screen. This will take you back to the GeorgiaFIRST Marketplace.
4. Search for your items through the Punch-out supplier’s website. The specific steps for searching and selecting items will be different for each punch-out supplier.
5. Select your items using the punch-out supplier’s tools (i.e., “Add to Cart,” “Add Item,” etc.).

6. After selecting your items, proceed to the punch-out supplier's checkout. Check out of the punch out site. Checking out will be different for each supplier. For example, in the Dell punch-out site, when you are ready to pull your selected items into your GeorgiaFIRST Marketplace shopping cart, you select the "Create Order Requisition" button within the Dell punch-out site, and then choose "Submit Order Requisition". This action places the items you selected into your GeorgiaFIRST Marketplace shopping cart. An order is NOT placed with the supplier when checking out of a punch-out site.
7. After checking out of the punch-out supplier's website, you are returned to the GeorgiaFIRST Marketplace where you can add additional products to your shopping cart from other punch out vendors, as well as hosted catalog vendors.

## Chapter 11: Creating Your Own Marketplace Requisition

As a Requester, you most often create Marketplace requisitions from the shopping carts that Shoppers have assigned to you. On occasion, you may be creating your own Marketplace Requisitions. Now that you know how to search for items, you are ready to begin building your shopping cart in the GeorgiaFIRST Marketplace.

The process that you will follow is shown here:

### Active vs. Draft Carts

There are two types of carts you can have in the GeorgiaFIRST Marketplace: Active Cart and Draft Cart. An Active Cart is the shopping cart you are currently working with or editing. A Draft Cart is a cart that you have created, but are not currently working with.

If you have started creating a cart, you can locate it within the **Shopping Cart** icon, then **My Carts and Orders** link, then **Open My Active Shopping Cart** link. You can locate all of your carts under the My Carts and Orders link, and then under the “View Draft Shopping Carts” sub-link. Even your active cart will be listed here. The current active cart will have a colored background with its shopping cart icon.

You can create new carts whenever necessary. Additionally, draft carts can be created for future use. Creating draft carts may be useful for setting up orders that are similar or that might be used later. Initially, we will only work with one cart. Later in this chapter, we will talk about working with additional draft carts. Remember, your active cart is the shopping cart you are actively working with by adding items and assigning to a requester.

## Adding an Item to a Cart

Shopping carts represent items selected that you wish to purchase. Shopping carts contain line items that represent goods or services being requested through the GeorgiaFIRST Marketplace. There are multiple ways to add an item to your shopping cart depending on where you are in the Marketplace. You can add items to your shopping cart from the search results page, product description pop-up, product comparison, etc.

### How To: Add Items to your Shopping Cart from the Product Search Results Page

The screenshot shows the Oracle GeorgiaFIRST Marketplace interface. At the top, there's a navigation bar with 'Home', 'Worklist', 'Add to Favorites', and 'Sign out'. Below that, a user profile for 'Teresa Page' is visible along with 'Action Items' (1), 'Notifications', and a shopping cart icon showing '0.00 USD'. The main content area shows a search bar with 'legal pad' entered and a 'Go' button. Below the search bar, there are links for 'Go to: advanced search | favorites | quick order' and 'Browse: suppliers | categories | contracts | chemicals'. The search results are displayed as follows:

Results for: Everything : legal pad		Showing 1 - 6 of 6 results	
<p>no image available</p> <p><b>PAD YELLOW LEGAL RULED</b> from VWR International</p> <p>Part Number TX982820 (EA)</p> <p>Manufacturer Info AMP20020 - (STAPLES BUSINESS ADVANTAGE NO)</p>	<p>1.60 USD</p> <p>EA</p> <p>1 <input type="button" value="Add to Cart"/></p> <p>add favorite   compare</p>		
<p>no image available</p> <p><b>PAD LEGAL WIDE RULE 50SHEETS [W B MASON CI/COUNV20630ALK]</b> from VWR International</p> <p>Part Number COUNV20630ALK (EA)</p> <p>Manufacturer Info UNV20630 - (W B MASON CI)</p>	<p>0.01 USD</p> <p>EA</p> <p>1 <input type="button" value="Add to Cart"/></p> <p>add favorite   compare</p>		

1. From the GeorgiaFIRST Marketplace home page, **search** for the item using your preferred search method.
2. From the search results, locate the item you wish to add.
3. For that item, enter the **quantity** you wish to request.
4. Select that item's **Add to Cart** button.

## How To: Add Items to your Shopping Cart from the Product Description Pop-Up

[Close](#)

Fax No.	+1 (610) 436-1761
Web Site URL	<a href="http://www.vwrsp.com">www.vwrsp.com</a>

1. From the GeorgiaFIRST Marketplace home page, **search** for the item using your preferred search method.
2. Click on an item's **Product Description** (item description hyperlink) to open its Product Details Pop-Up.
3. Enter the desired **quantity**.
4. In the drop down list, select **Add to Active Cart** and click the **Go** button.
5. Click the **Close** button after receiving the "Added Successfully" message.

## How To: Add Items to your Shopping Cart from Product Comparison

1. After searching for items and selecting items for comparison, open the Product Comparison page by selecting the **Compare Items** button.
2. From here, you can add items to your shopping cart in one of two ways:
  - a. Enter the **Quantity** and click the **shopping cart** icon, or
  - b. Place a **check** in the desired items Select checkboxes, and choose **Add to Active Cart** in the **Action** Dropdown list.

## How To: Add Items from a Punch-Out Supplier

1. From the GeorgiaFIRST Marketplace home page, select the **Punch-Out supplier** by clicking on its name or icon in the Punch Out section.
2. The marketplace redirects you to the supplier's punch-out site.
3. Search for products and add products to the cart in the supplier's punch-out (this process varies from punch-out to punch-out).
4. Use the supplier's mechanism to return products to the GeorgiaFIRST Marketplace (this process again varies from punch-out to punch-out).
5. Upon returning to the GeorgiaFIRST Marketplace, the selected items will have been placed in the active shopping cart and you will be on the Shopping Cart page.

## Shopping Cart Page

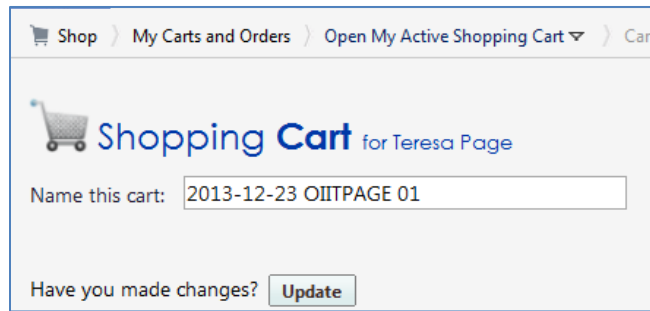

From anywhere in the Marketplace, when you are ready to review your shopping cart, you can select the Cart Summary link in the upper right corner of the screen. You should see your active cart name (by default, this is your user name, the date, and sequential order number for the day), the number of items in the cart, and the total cart amount. Click this shortcut to go directly to the cart page where the cart details can be reviewed and updated.

The screenshot displays the Oracle eProcurement & GeorgiaFIRST Marketplace Shopping Cart page. The page header includes the Oracle logo and navigation links like Home, Worklist, Add to Favorites, and Sign out. The breadcrumb trail shows: Shop > My Carts and Orders > Open My Active Shopping Cart > Cart - Draft Requisition. The cart is titled 'Shopping Cart for Teresa Page' and shows 1 item(s) for a total of 1.60 USD. A text box allows naming the cart, with the current name '2013-12-23 OIITPAGE 01'. Below the cart name, there are buttons for 'Update', 'Empty cart', and 'Perform an action on (0 items selected)...'. The cart item is 'PAD YELLOW LEGAL RULED' with a unit price of 1.60 USD and a quantity of 1, totaling 1.60 USD. The item details include Part Number TX982820 (EA) and Manufacturer Info AMP20020 - (STAPLES BUSINESS ADVANTAGE NO). The page also shows the fulfillment address for VWR International: 1310 Goshen Pkwy., West Chester, PA 19380 US.

## Shopping Cart Name

Once you begin adding items to your shopping cart, the system gives your shopping cart a default name. This default name is a combination of your user name, the date, and the sequential order number for that date. For example, a shopper with the user name of MJones, creates her first cart of the day on March 23, 2011. This cart is given a default name of "2011-03-23 MJones 01." If this user creates another cart on March 23<sup>rd</sup>, then the second cart is named "2011-03-23 MJones 02."

You can easily rename your cart though. To do so, simply retrieve your Shopping Cart.

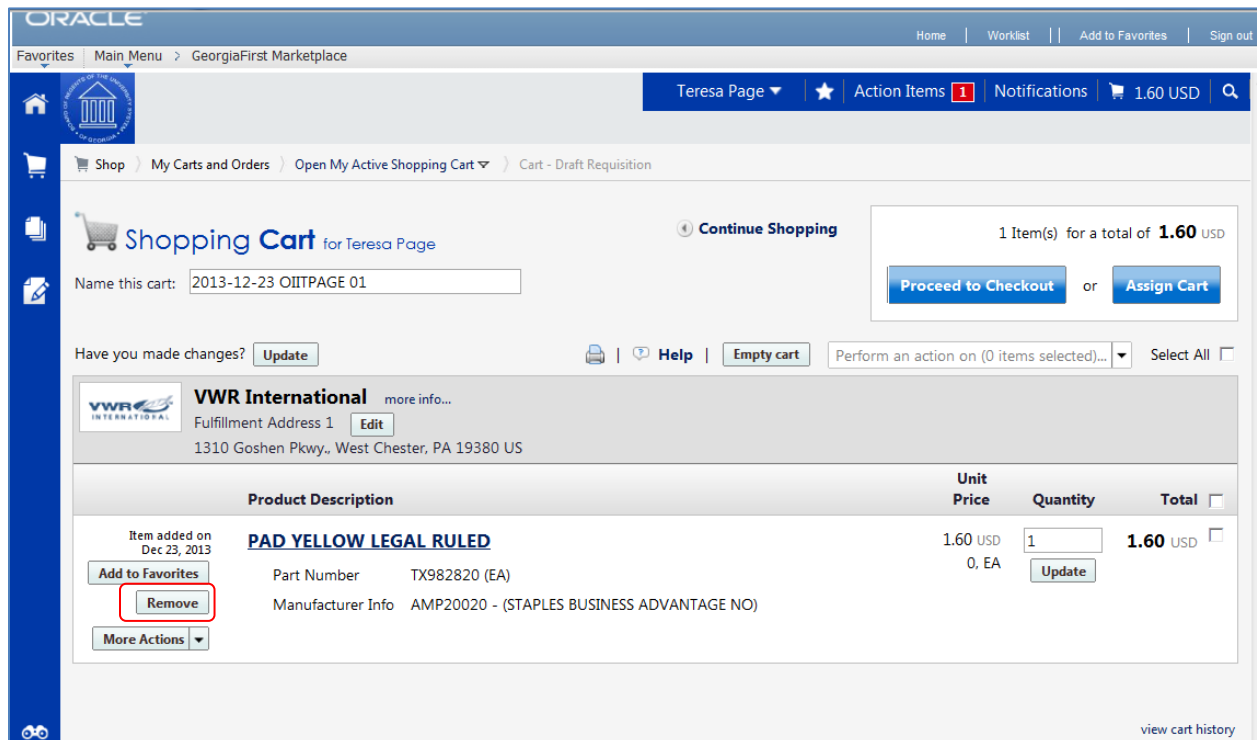

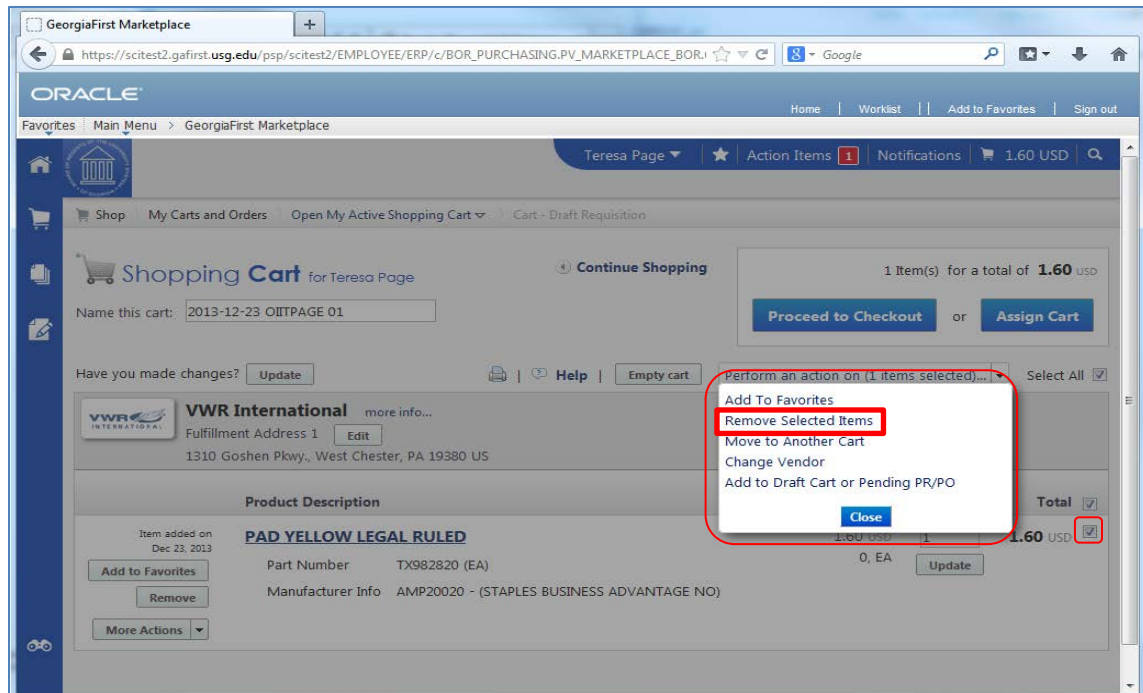

### How To: Rename Your Shopping Cart

1. Retrieve your shopping cart.
2. Input your new shopping cart name in the 'Name this cart' box.
3. Click the **Update** button directly below the cart name.

### Removing Items from the Cart

You can remove items from a shopping cart either individually or all at once. GeorgiaFIRST Marketplace allows the removal of items from the cart, regardless if the item is from a punch-out supplier or hosted catalog item.

### How To: Remove Selected Items from a Cart

1. Go to the **Shopping Cart**.
2. To remove multiple items:
  - a. In the cart, select one or more items to remove by placing a checkmark in its **Select** checkbox.
  - b. Click in the **action** drop down list.
  - c. Select **Remove Selected Items**.
3. To remove a single item:
  - a. On the item line, select the **Remove** button.
4. The selected items are then removed from your shopping cart.

## How To: Remove All Items from a Shopping Cart

The screenshot shows the Oracle eProcurement interface. At the top, there's a navigation bar with 'Home', 'Worklist', 'Add to Favorites', and 'Sign out'. Below that, a user profile bar shows 'Teresa Page' and 'Action Items' with a red notification icon. The main content area is titled 'Shopping Cart for Teresa Page' and shows '1 Item(s) for a total of 1.60 USD'. A table lists the item: 'PAD YELLOW LEGAL RULED' with a unit price of 1.60 USD and a quantity of 1. The 'Empty cart' button is highlighted with a red box. Other buttons include 'Proceed to Checkout', 'Assign Cart', 'Update', 'Add to Favorites', 'Remove', and 'More Actions'.

1. Go to the **Shopping Cart**.
2. Select the **Empty Cart** button.
3. To remove all items, click the **OK** button to proceed.
4. Your active shopping cart should now be empty.

## Updating the Quantity of Items in a Cart

Once you have added items to your shopping cart, you may find it necessary to change the quantity requested. You can update the quantity when adding an item to your shopping cart or after the item has been added to your shopping cart.

## How To: Update Quantity of Items in a Cart

1. Go to the **Shopping Cart**.
2. For the item you want to update, go to the **Quantity** field in that row.
3. Enter the desired quantity.
4. Click the **Update** button directly under the Quantity field.
5. If you are making updates to more than one item, you can enter the desired quantity for all items and then select the **update** button directly below the Shopping cart name to update all quantities at one time.

### **Selecting the Applicable Contract for an Item**

Some items that you select will be listed on multiple contracts. For example, you may have an item that is listed on a mandatory statewide contract, as well as on an convenience state contract. If you are unsure as to the correct contract being selected, you can select the appropriate contract while in the Shopping cart.

### **How To: Select a Contract for an Item**

10. Go to the **Shopping Cart**.
11. For the item you want to select a different contract for, select the **change...** hyperlink next to the contract name.
12. A pop-up box will appear with the contract choices. Select the appropriate contract by using the **radio button**.
13. Click **OK**.

## Selecting Fulfillment Addresses (applies only to fax or email suppliers)

In instances where a supplier has multiple fax numbers or email addresses, for example by region, the GeorgiaFIRST Marketplace will have multiple fulfillment addresses for that supplier. When an item from a supplier with multiple fulfillment addresses is added to the shopping cart, an **edit** button is displayed next to the current default fulfillment address.

The screenshot shows the Oracle eProcurement GeorgiaFIRST Marketplace interface. At the top, there's a navigation bar with 'Home', 'Worklist', 'Add to Favorites', and 'Sign out'. Below that, a user profile bar shows 'Teresa Page' and 'Action Items' (1). The main content area is titled 'Shopping Cart for Teresa Page' and shows '1 Item(s) for a total of 1.60 USD'. The item is 'PAD YELLOW LEGAL RULED' with a unit price of 1.60 USD and a quantity of 1. The fulfillment address is '1310 Goshen Pkwy., West Chester, PA 19380 US' and the 'Edit' button is highlighted with a red box. The cart also shows 'Add to Favorites', 'Remove', and 'More Actions' buttons for the item.

By clicking on the **edit** button, the user may select a different fulfillment address for this item. Note also that a user may click the **save as my preferred** checkbox to update this as the default fulfillment address.

The screenshot shows a 'Shopping Cart' interface with a 'Supplier / Line Item Details' section. A modal dialog box titled 'Change fulfillment address' is open for 'Carolina Biological Supply Co.'. The dialog box contains a 'Select fulfillment address' dropdown menu with the selected option 'Fulfillment Address 1: 2700 York Rd., Burlington, NC 27215 US'. Below the dropdown, the address details are listed: 'Fulfillment Address 1: 2700 York Rd., Burlington, NC 27215 US'. A checkbox labeled 'save as my preferred' is present and is highlighted with a red box. The dialog box also has 'Save' and 'Cancel' buttons. In the background, a table shows 'Packaging' and 'Unit Price' for 'EA' at '12.99'. At the bottom of the dialog, there is a note: 'Shipping, Handling, and Tax charges are calculated and charged by each supplier. The values shown here are for estimation purposes, budget checking, and workflow approvals.'

### How To: Select Fulfillment Address

1. Go to the **Shopping Cart**.
  - a. Note: If a supplier has multiple fulfillment addresses, an **edit** button will appear below their name on the Shopping Cart. If there is no **edit** button, there is only one fulfillment address for the supplier.
2. Select the **edit** button below the supplier name.
3. Using the drop down list, select the fulfillment address you wish to use.
4. To save the supplier's fulfillment address as the preferred address you always want to use, select the **save as my preferred** checkbox.
5. Click the **Save** button.

## Deleting a Shopping Cart

On occasion, you may find it necessary to delete your shopping cart. You can delete entire shopping carts with one click. Once you delete a shopping cart, it is permanently removed.

The screenshot shows the Oracle GeorgiaFIRST Marketplace interface. The user is logged in as Teresa Page. The navigation menu includes 'Shop', 'My Carts and Orders', 'View Draft Shopping Carts', and 'Shopping Cart - Drafts'. The 'My Drafts' table is displayed with the following data:

Active Cart	GeorgiaFirst Marketplace Shopping Cart Name	Date Created	Cart Description	Total	Delete
	2013-12-23 OIITPAGE 01	12/23/2013		1.60 USD	<input type="button" value="Delete"/>
	APRIL	7/12/2011		402.99 USD	<input type="button" value="Delete"/>

Below the 'My Drafts' table is the 'Drafts Assigned To Me' table:

Active Cart	GeorgiaFirst Marketplace Shopping Cart Name	Date Created	Cart Description	Total	Delete
	2012-01-10 BFILTZ 01	1/10/2012		44.94 USD	<input type="button" value="Delete"/>

### How To: Delete a Shopping Cart

1. Select the **Shopping Cart** icon.
2. Select the **My Carts and Orders** sub-link.
3. Select the **View Draft Shopping Carts** sub link.
4. Locate the cart you want to delete.
  - a. Your current (or active) cart will have an icon with a colored background.
  - b. Draft carts have an icon with a white background.
5. Press the **Delete** button on the right side of the screen.
6. After selecting Delete, the system deletes the cart immediately. Once a cart is deleted it is permanently removed and it cannot be restored.

## Creating ePro Requisition from Your Cart

As you have seen, because you are a Requester, you can build your cart in the GeorgiaFIRST Marketplace. You will have the same access to the Marketplace as a shopper does. The primary difference is that you will not need to assign your cart to a Requester. You can pull your shopping cart directly into eProcurement by selecting the “Issue Requisition” button.

### How To: Create an ePro Requisition from Your Own Shopping Cart

1. Log into PeopleSoft Financials Core System.
2. Select **eProcurement** in the menu.
3. Select **Create Requisition**.
4. Select the **GeorgiaFIRST Marketplace** tab.
5. Select the **GeorgiaFIRST Marketplace** link.
6. Build your **shopping cart** (or retrieve one that you built and saved earlier) by searching for and adding items.
7. Select the **Proceed to Checkout** button.
8. Here you perform a final review of your shopping cart. If you need to make any updates, you can select the appropriate edit button and make changes. You can also select the **Return to shopping cart** link in the upper right corner of the page.
9. Select the **Issue Requisition** button.
10. Confirm the **Requisition Summary** within ePro has the same number of line items as the GeorgiaFIRST Marketplace cart.
11. Name the requisition if desired.
12. For each requisition line item, edit **Chartfields** and **Ship To** Location if necessary.
13. Add a comment on each requisition line if needed by clicking the “**call out**” (**comment**) icon at the end of the line.
14. Add a **header comment** to be attached to the requisition if needed within the **Justification/Comment** box.
15. Click the **Save and Preview Approvals** button.
16. Review the approval path. Insert additional ad hoc approvers if necessary.
17. Click the **Submit** button to submit the requisition.

## More about Draft Carts

Earlier, we discussed the difference between an active cart and a draft cart. Remember, an active cart is the shopping cart you are actively working on. You can, however, create additional carts whenever necessary. Additionally, draft carts can be created for future use. Creating draft carts may be useful for setting up orders that are similar or that might be used later. For example, you can have draft carts for different standing orders.

Under the **Shopping Cart** icon, you will see a link for **My Carts and Orders**. Within that link you will see a link for **Open My Active Shopping Cart** and a link for **View Draft Shopping Carts**. Under the **Active cart** link will be the current shopping cart that you are working with. Under the **Draft carts** link are all of the carts you have created. The shopping cart that you are current working with, or your active cart, will have a colored background in its shopping cart icon. Draft carts will have a white background.

Let's imagine that we have three draft carts – one for office supplies, one for furniture, and one for camera accessories.

Active Cart	GeorgiaFirst Marketplace Shopping Cart Name	Date Created	Cart Description	Total	Delete
	Camera Accessories	12/26/2013		19.98 USD	<a href="#">Delete</a>
	Furniture	12/26/2013		738.99 USD	<a href="#">Delete</a>
	Office Supplies	12/26/2013		76.22 USD	<a href="#">Delete</a>

As you can see in the picture above, our current active cart is Office Supplies because its icon has a colored background. If we were to select the 'Open My Active Shopping Cart' link, we would see the Office Supplies cart.

The screenshot shows the Oracle eProcurement interface. At the top, there's a navigation bar with 'Home', 'Worklist', 'Add to Favorites', and 'Sign out'. Below that, a user profile for 'Teresa Page' is visible. The main content area shows a 'Shopping Cart' for 'Teresa Page' with a total of 76.22 USD. The cart contains two items:

Product Description	Unit Price	Quantity	Total
<b>Hammermill Copy Plus Premium Copy Paper, LETTER-Size, 92/104+ US/Euro Brightness, 20 lb., 8 1/2 H x 11 W, 5,000 Sheets/Ct</b> Part Number: 122374 Manufacturer Info: HAM105007CT - (Hammermill) Contract: 99999-SPD-G20100809-001 more info... Office Supplies change...	36.04 USD CT	1	36.04 USD
<b>Domtar EarthChoice Office Paper, LETTER-size, 92/104+ US/Euro Brightness, 20 lb., 8 1/2 x 11, 5,000 Sheets/Ct</b> Part Number: 674747 Manufacturer Info: 40475 - (Domtar) Contract: 99999-SPD-G20100809-001 more info... Office Supplies change...	40.18 USD CT	1	40.18 USD

Whenever needed, you can create a new draft cart. To make a different draft cart active, simply click on that cart's icon so that it has the blue background. Your active cart will always be listed in the Cart Summary in the upper right corner of the screen.

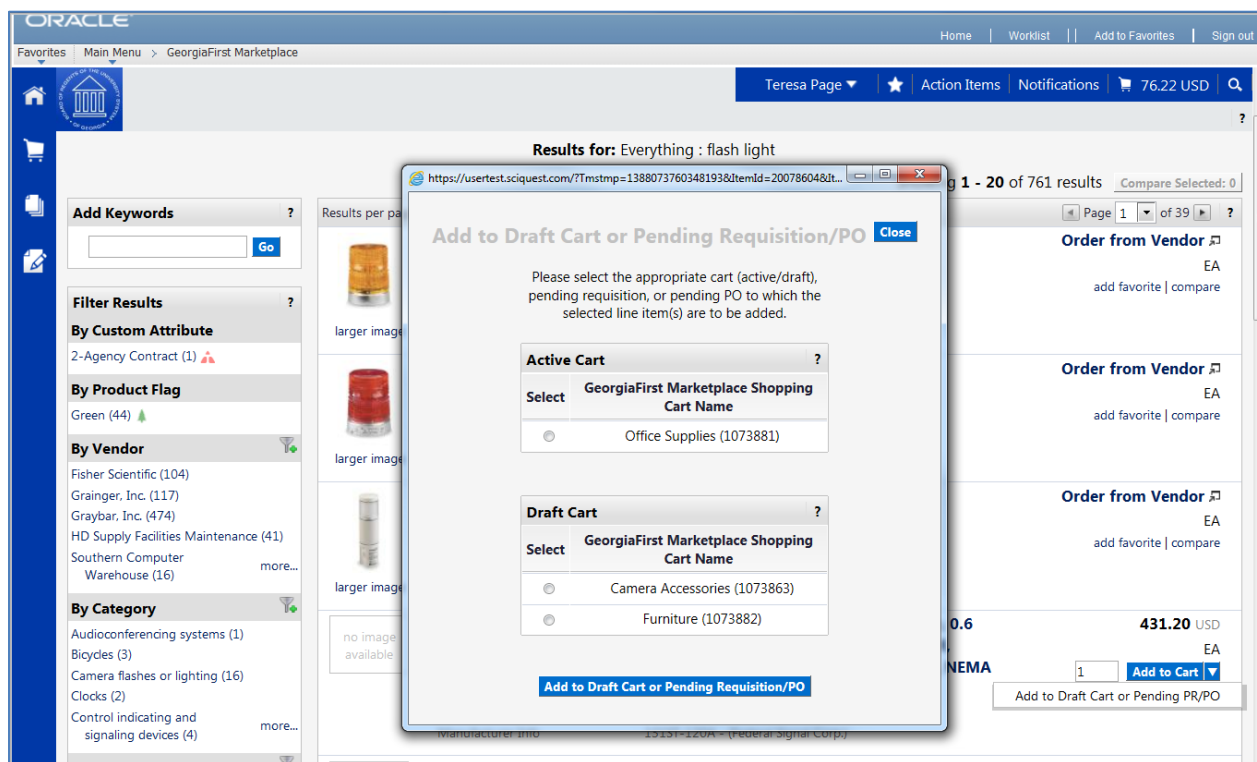

### How To: Create a New Cart

1. Select the **Shopping Cart** icon.
2. Select the **My Carts and Orders** sub-link.
3. Select the **View Draft Shopping Carts** sub-link.
4. Select the **Create Cart** button.
5. In the **Name this cart** field, you can replace the system default cart name with a different one if desired. Then click the **Update** button.

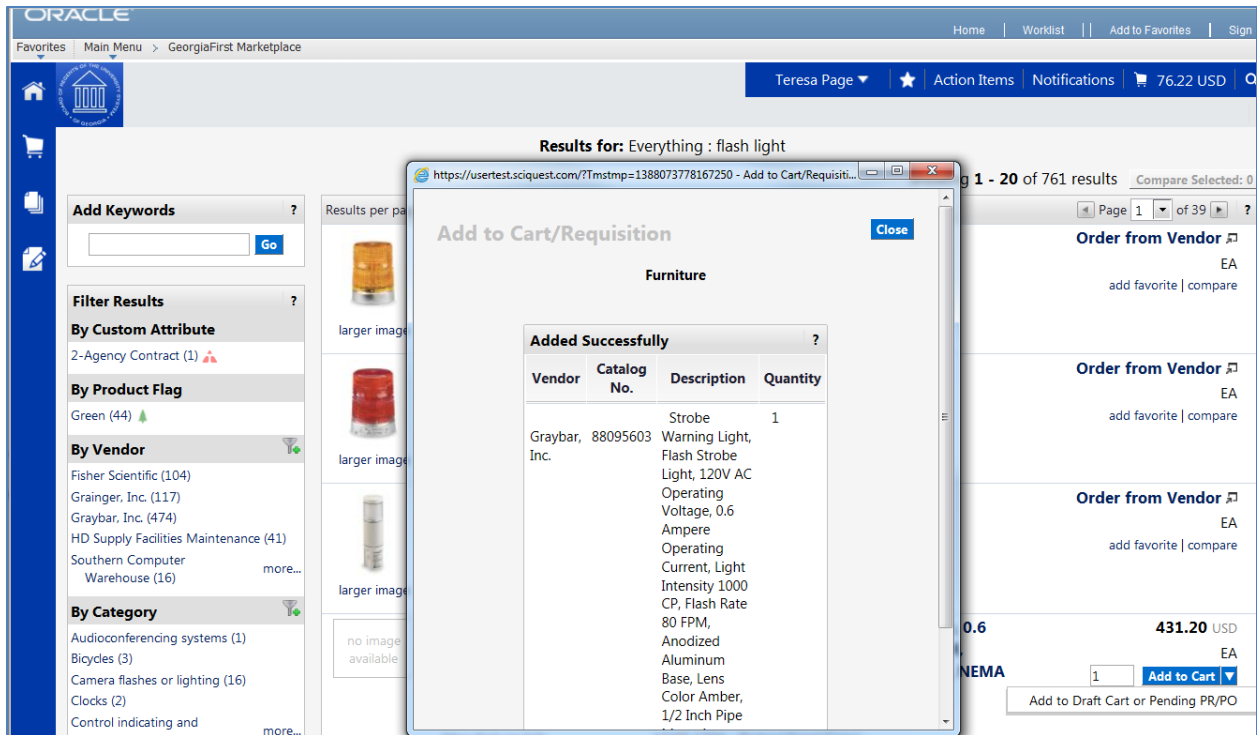

## Adding Items to a Draft Cart

Generally, when you add an item to a cart as we explained earlier, that item is added to your active cart. If you want to add an item to a draft cart without making that cart active, you can do so.

- To add an item to a draft cart from the Product Search Results page, select the arrow next to the Add to Cart button. Choose “Add to Draft Cart”. You will then get a pop-up box asking which draft cart you want to add the item to. Select the appropriate cart by clicking its radio button. Then select the Add to Draft Cart button.
- This can also be accomplished by selecting the item description link, then selecting the “Add to Draft Cart” option in the drop down menu.

- You will then see an “Added Successfully” message. You have not changed which cart is currently active though.

You will follow this same procedure whenever you want to add an item to a draft cart without making it your active cart. Wherever you add an item, there will be some sort of drop down allowing you to select “Add to Draft Cart”.

### Reviewing Line Item History

The Line Item History feature allows users to view all purchases of the same item within a date range specified by the organization. Having the ability to see other recent purchases may prevent unnecessary external purchases. To perform this task, you must have the “View Line Item History” permission assigned.

#### How To: Review Line Item History

1. In order to review line item history, you must first **add the item** to your cart.
2. Access your **shopping cart**.
3. For the item you want to review history for, select the **More Actions** drop down list.
4. Select **Line Item History** and then click **Go**.
5. The Line Item History pop-up box appears.
  - a. Previous Purchases Found: An item having previous purchases that fall within the search criteria will display the item’s description and details regarding those previous purchases, including quantity, date, User ID, and User email address.
  - b. No Previous Purchases Found: An item having no previous purchases meeting the organization’s timeframe, department, and custom field criteria (if any) will display the item’s description and a message that no items were found.

## Chapter 12: GeorgiaFIRST Marketplace Favorites

As a Requester who creates your own shopping carts, you can set up favorites in the GeorgiaFIRST Marketplace to easily retrieve items that you order frequently. By setting up favorites, you spend less time searching for items that you will order again in the future.

### **Favorites**

There are two types of ‘favorites’ in the GeorgiaFIRST Marketplace. There are Personal Favorites and Shared Favorites. Personal favorites are those items that you identify as a favorite. Only you can see your personal favorites. With personal favorites, you create folders and sub-folders to manage these items. You have full control over the items in your personal favorites.

Shared favorites and folders are set up by administrators and can be set up for viewing and use for your institution or department. Shared favorites typically represent frequently ordered products or suggested products for purchase. Your institution will notify you of any shared favorites available for your use.

Each institution has a “Custom Configuration” shared favorites folder which can be used to highlight or specify particular items and configurations standard or recommended by the institution procurement department.

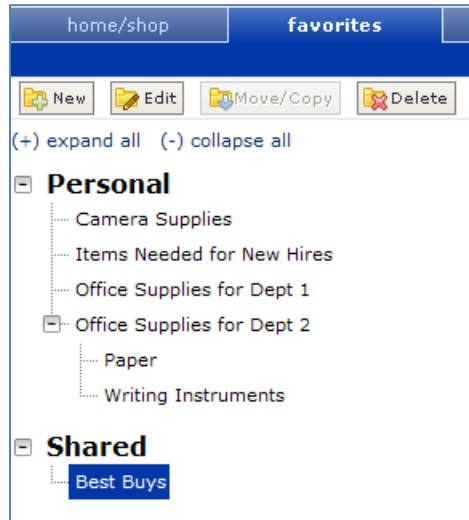

Recommendation: Only save items from hosted catalogs as favorites. Punch-out Items can be saved as a favorite, however, the pricing tied to the favorite will not be updated when the supplier updates that item’s price.

### **Creating Favorites Folders**

Folders and sub-folders are used to house favorite items. There are two types of folders – personal and shared. Personal folders are only viewable by the user and are most commonly used. Shared folders are used to house favorite items to be used for the institution or department.

You can create any kind of folder structure. You can create a structure as simple as one folder named “favorites” to creating several folders to separate favorite item types. In order to save a favorite item, you will need to create at least one personal folder. Below is an example of a folder structure:

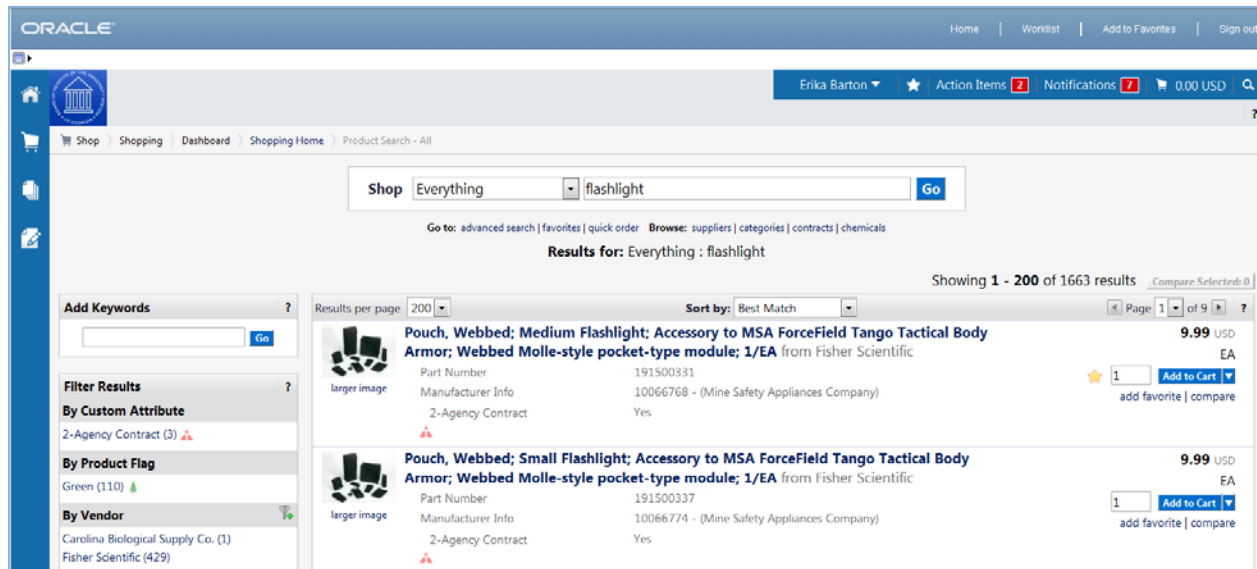

#### How To: Create a Personal Folder or Sub-Folder

1. Select the **Shopping Cart** icon
2. Select **Shopping**.
3. Select **View Favorites** in the Go To section.
4. On the left side of the window, the Personal and Shared headings display, as well as any existing folders. For new users, you should start by creating at least one Personal folder.
5. To add a top-level folder, click the **New** button.
  - a. Select the option **Top level personal folder**
  - b. Enter a folder name and description.
  - c. Click **Save**.
6. To add a sub-folder, select the **top-level folder** you want to add the sub-folder to by clicking on it.
  - a. Click the **New** button.
  - b. Select the option **Subfolder of selected folder**.
  - c. Enter a folder name and description.
  - d. Click **Save**.

## Adding Items as Favorites

You can add personal favorites from the Product Search Results page or from a cart. Adding favorites is a fairly simple process. Once an item is saved as a favorite, it is identified in search results by a star icon.

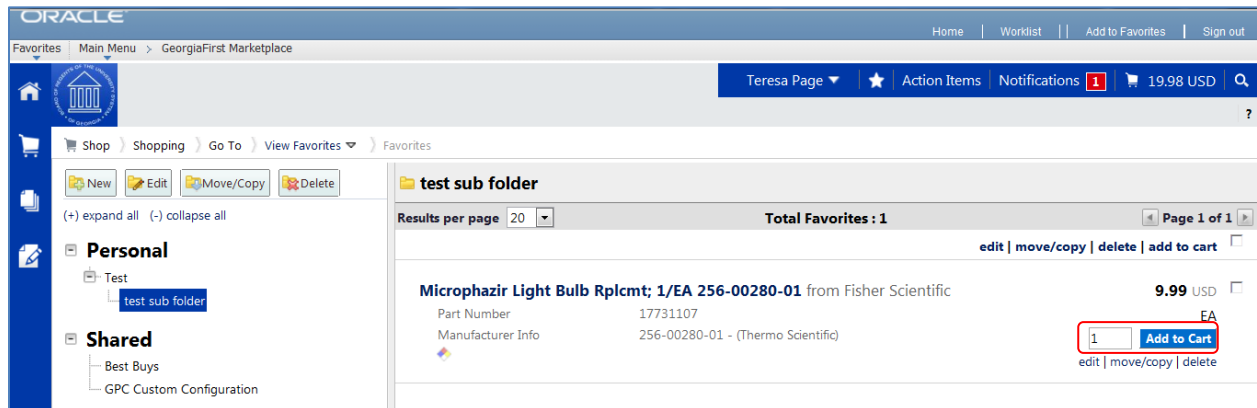

### How To: Add an Item as a Personal Favorite

1. **Search** for items using your preferred method in the GeorgiaFIRST Marketplace.
2. From the search results, locate the item you want to add as a favorite.
3. Directly under that item's "Add to Cart" button, click on the **add favorite** hyperlink. The **Add to Favorites** popup displays.
4. In the **Item Nickname** field, you can enter a name to reference the item. If you do not enter a nickname here, the supplier's description will remain.
5. In the **Quantity** field, you can enter the standard quantity that will be ordered for this item. Once you add a favorite item to your cart, the quantity can be updated there as well.
6. Select the **Destination Folder**.
  - a. If you already have folders created, you will see your Personal Folders listed.
    - i. Select the **folder** you want to add your favorite item to, so that it is highlighted.
    - ii. Click the **Submit** button.
    - iii. Click the **Close** button.
  - b. If you do not have any Personal folders created, you will need to create at least one personal folder in order to save an item as a Favorite.
    - i. Click the **New** button.
    - ii. Select the option **Top level personal folder**.
    - iii. Enter a folder name and description. Click **Save**.

- iv. The new folder displays in the list and is automatically selected for the favorite item.
      - v. Click **Submit** to save the item.
      - vi. Click **Close**.
7. After an item is added as a favorite, it can be accessed via the **favorites** link.
8. To add an item as a Favorite from a cart, select the **Add to Favorites** button on the item line within the cart.
  - a. Give the item a nickname and update the quantity if desired.
  - b. Select a **folder**.
  - c. Click **Submit**.
  - d. Click **Close**.

## Adding Favorite Items to Your Cart

The Favorites functionality allows shoppers to store items that are referenced or ordered on a regular basis. Once items are added to Favorites, they can be added to a shopping cart from either of two places: from the Favorites link or from the Product Search results page (if favorite items are listed in the search results). Favorite items are designated with a star icon on the search results and can be added like any other item.

### How To: Adding Favorite Items to Your Cart from the Favorites link

1. From the GeorgiaFIRST Marketplace, select the **favorites** link.
2. Select the appropriate **folder**.
3. The items for the selected folder will display on the right side of the screen.
4. To add an individual item to your cart, select its **Add to Cart** button.
5. To add multiple items to your cart, select the items with a **checkmark**, and then click **add to cart** at the top of the list.
6. Your selected favorite items are now in your cart.

## Moving and Copying Items Between Folders

Within GeorgiaFIRST Marketplace, you can move items from one folder to another, as well as copy items from one folder to another. These features may be useful if you create a sub-folder for a specific type of item and need to move favorites added earlier, or when creating “repeat” items for multiple folders.

The screenshot shows the Oracle GeorgiaFIRST Marketplace interface. The top navigation bar includes 'Home', 'Worklist', 'Add to Favorites', and 'Sign out'. The user is logged in as 'Teresa Page' with a balance of '19.98 USD'. The main content area is titled 'test sub folder' and shows a list of three items. Each item has a quantity selector (set to 1), an 'Add to Cart' button, and a 'move/copy' link. A red box highlights the 'move/copy' link for the first item, 'Microphazir Light Bulb Rplcmnt; 1/EA 256-00280-01 from Fisher Scientific'.

### How To: Move and Copy Items Between Folders

1. From the GeorgiaFIRST Marketplace, select the **favorites** link.
2. Select the appropriate **folder** from the left pane and locate the item(s) on the right pane.
3. To move or copy one item to a different folder, click the **move/copy** link directly under its “Add to Cart” button.
  - a. Select the **folder** (so that it is highlighted) that you want to move or copy the item to.
  - b. Select either the **move** or the **copy** button.
  - c. Click **Close** in the confirmation window.
4. To move or copy multiple items to a different folder, select the items with a **checkmark**.
  - a. Click the **move/copy** link at the top of the list.
  - b. Select the **folder** (so that it is highlighted) that you want to move or copy the items to.
  - c. Select either the **move** or the **copy** button.
  - d. Click **Close** in the confirmation window.

## Editing Favorite Items

After adding a favorite item to a Personal Folder, you may need to update the item periodically. This includes the item's nickname and quantity.

The screenshot shows the Oracle eProcurement Favorites page. The left sidebar shows a folder structure under 'Personal' with a sub-folder named 'test sub folder'. The main content area displays a list of three favorite items under the heading 'test sub folder'. Each item has an 'edit' link highlighted with a red box. The items are:

Item Description	Price	Quantity	Action
Microphazir Light Bulb Rplcmt; 1/EA 256-00280-01 from Fisher Scientific Part Number: 17731107 Manufacturer Info: 256-00280-01 - (Thermo Scientific)	9.99 USD	1	edit   move/copy   delete   add to cart
Strobe Light, Flash Strobe Light, 12V DC Operating Voltage, 0.5 Ampere Operating Current, Xenon Lamp, Light Intensity 1000000 CD, Flash Rate 65 FPM, Polycarbonate Lens, Plastic Base, Lens Color Amber, Magnetic Mounting, Size 4-9/32 Inch Dia x 4-7/32 Inch from Graybar, Inc. Part Number: 92074338 Manufacturer Info: 99BA-E1 - (Edwards Company, Inc.)	117.50 USD	1	edit   move/copy   delete   add to cart
Strobe Light, Flash Strobe Light, 24V DC Operating Voltage, 0.3 Ampere Operating Current, Xenon Lamp, Light Intensity 300000 CD, Flash Rate 65 FPM, Polycarbonate Lens, Plastic Base, Lens Color Red, 1/2 Inch Conduit Mounting, NEMA 4X, Size 4-9/32 Inch Dia from Graybar, Inc. Part Number: 97211607 Manufacturer Info: 98BR-G1 - (Edwards Company, Inc.)	127.20 USD	1	edit   move/copy   delete   add to cart

### How To: Editing Favorite Items

1. From the GeorgiaFIRST Marketplace, select the **favorites** link.
2. Select the appropriate **folder** from the left pane, and locate the item on the right pane.
3. Click the **edit** link directly under the “Add to Cart” button.
4. Make any necessary changes to the item and click the **Submit** button.
5. Click the **Close** button.

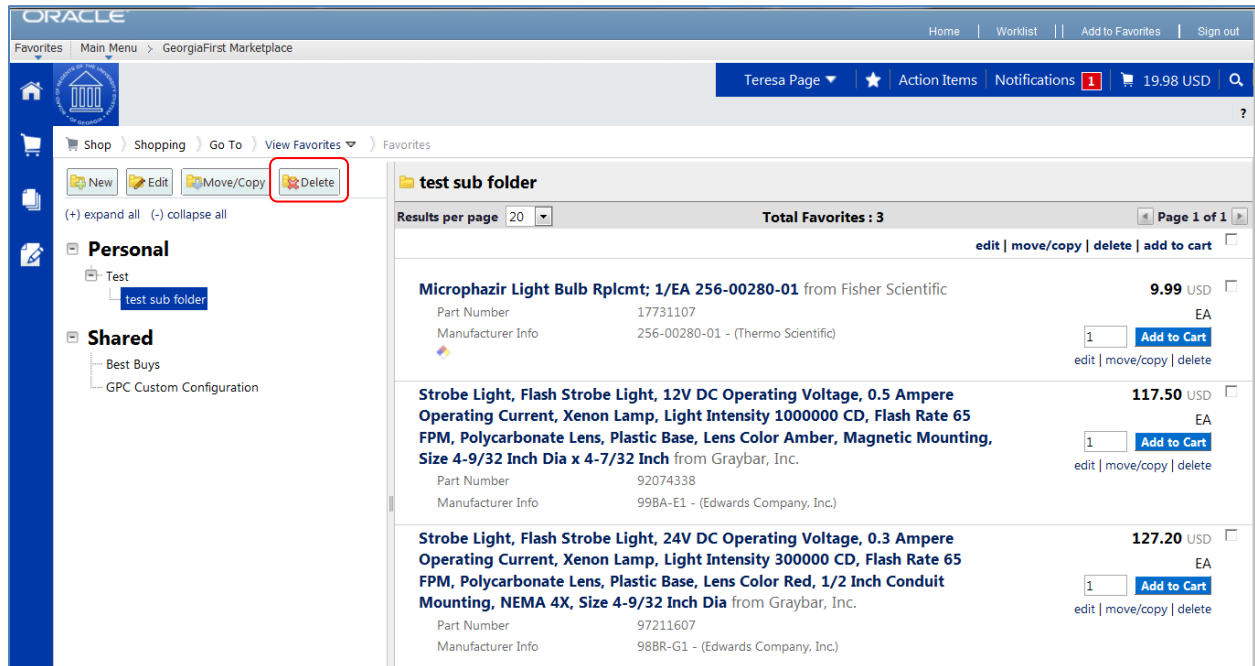

## Deleting Favorite Items and Folders

In Favorites, items and folders can be deleted as necessary. When you delete a folder, you delete those items saved in that folder as favorites also.

### How To: Delete an Item from Favorites

1. From the GeorgiaFIRST Marketplace, select the **favorites** link.
2. Select the appropriate **folder** from the left pane, and locate the item(s) in the right pane.
3. To delete one item, click the **delete** hyperlink directly under its “Add to Cart” button.
  - a. Click the **OK** button to confirm the deletion.
4. To delete multiple items, select the items with a **checkmark**.
  - a. Click the **delete** link at the top of the list.
  - b. Click the **OK** button to confirm the deletion.

**How To: Delete a Folder from Favorites**

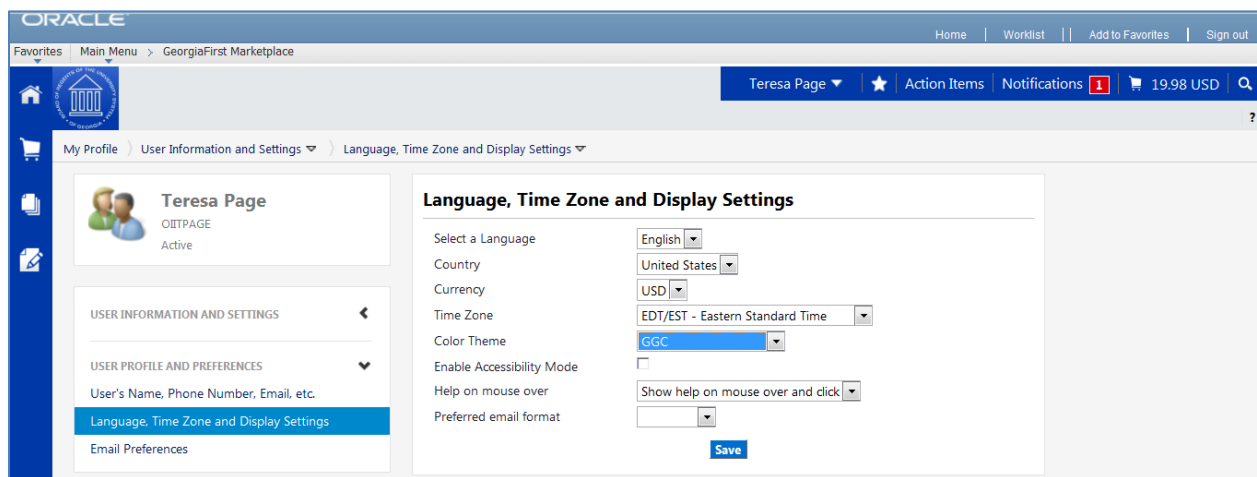

1. From the GeorgiaFIRST Marketplace, select the **favorites** link.
2. Select the appropriate **folder** from the left pane.
3. Click the **Delete** button at the top of the folder list.
4. Click **OK** to confirm the deletion.

## Chapter 13: User Profile in GeorgiaFIRST Marketplace

Your User Profile in the GeorgiaFIRST Marketplace includes identification, purchasing abilities, and site accessibility. Almost every item in your User Profile will be read-only. For those items that are editable, you want to be very careful before making any changes to your user profile. Changing your settings may have a direct impact on receiving notifications, access to certain catalogs, and access to view contracts.

The first time you enter the GeorgiaFIRST Marketplace, you will need to verify some information on your User Profile. Make sure that your email address, phone, Business Unit, and Department are correct. If they are not, inform your ePro Administrator.

When you enter the GeorgiaFIRST Marketplace for the first time, you may notice that the color scheme in the Marketplace doesn't match your institution's logo. You can change this by going through the Profile – User Settings – Personal Settings. To change the color, select your institution in the Color Theme drop down list.

### How To: Update Color Theme to Match School Logo

1. In the GeorgiaFIRST Marketplace, click on your **Name**, found in the banner at the top of the page.
2. Under the **User Information and Settings** section, select the **Language, Time Zone and Display Settings** link.
3. Select your institution in the **Color Theme** drop down list.
4. Click the **Save** button.
