Continuous Audit Annual Report (BORIF03M): this report has been modified to report the full jobcode for clarification during reconciliation.

Continuous Audit Quarterly Load Process (BORIF03A) – This process has been modified to pull earnings based on pay end date, consistent with the annual process.

Continuous Audit Temp Table Load Process (BORIF03J) - This process has been modified to report all earnings for each employee in single row. The jobcode applied to the row is the jobcode under which the employee had the greatest earnings for the year. The process has been modified to pull all earnings based on pay end date, consistent with the process in 7.5 per a decision by the Department of Audits and Accounts. The process has been modified to load the table with a complete jobcode.

Edit Continuous Audit Temp Table Page – This page is now accessible, a correction of an issue discovered in release 3.02a.

ERS/DEFCON Temp Table Page – This page was modified to display the name on all records, and to fix the issue posted in KI0005 regarding inserting new rows.
