The purpose of this e-mail is to announce the completion of PeopleSoft HRMS Release 3.28a, which includes 1) a script to insert new premium rates for Plan Year 2008, which will replace the manual data entry for annual foundation table changes; and 2) the addition of two new earn codes: QME - Qualified Moving Expenses and NME - Non Qualified Moving Expenses.

A foundation table spreadsheet showing how to set up the Earnings Program table for utilizing the new earn codes has been posted to the HRMS website, along with a spreadsheet containing a complete listing of the model Flat Rate and Age Graded Tables changes. Those two spreadsheets are now available on the GaFirst HRMS Website, <http://www.usg.edu/gafirst/hrms/>. They can be accessed at: <http://www.usg.edu/gafirst/hrms/releases/current/> .

Note: Users are responsible for the updating of ALL non-model Benefit Plans.
