Reply To: USG OIIT HelpDesk <[helpdesk@usg.edu](mailto:helpdesk@usg.edu)>

The purpose of this e-mail is to announce the completion of PeopleSoft HRMS Release 3.33b, which includes the modifications to the Create ERS/DEFCON Temp Table (BORIF28A), Create VALIC ORP File (BORI039D); and the Populate TRS/ORP Temp Table (BORIF04A) programs.

1. Create ERS/DEFCON Temp Table (BORIF28A) - This process is modified to allow the process to run to Success when populating August payroll data. Prior to the modifications, certain scenarios which are not present in all databases would cause the process to error out.
2. Create VALIC ORP File (BORI039D) - This process is modified to add code to get the maximum effective dated row for the appropriate name and address types.
3. Populate TRS/ORP Temp Table (BORIF04A) - This process is modified to exclude SUM earnings not processed in the current month in response to Known Issue KI0098. Prior to the modifications, SUM earnings were being included in the TRS/ORP Temp Table regardless of the month of processing, this resulted in erroneous data being included in the TRS/ORP File (BORIF04D) and in some cases resulted in negative amounts as prior month adjustments.

ADDITIONAL OIIT RESOURCES and SUPPORT: Contact the OIIT Helpdesk at [http://www.usg.edu/customer\\_services](http://www.usg.edu/customer_services) (self-service support request) or e-mail [Helpdesk@usg.edu](mailto:Helpdesk@usg.edu). For emergency, business interruptions, or production down situations, call the OIIT Helpdesk immediately (706-583-2001; or toll free within Georgia 1-888-875-3697).
