### INGRESS Releases

**INGRESS Release 6.1**
- Add course sections to the LMS as soon as they are transferred to INGRESS using Valence.
- Add Student Email Address to the Attendance Verification & Grades Report.
- Add a data file for the Attendance Verification & Grades Report.
- Make Last Date of Attendance mandatory for F grade.
- Transfer Preferred Name to the LMS.

**INGRESS Release 6.2**
- Provide the ZSRGDIS .lis report on the INGRESS Admin Console for INGRESS Administrators.
- Notify INGRESS Administrators by email about fatal ZSRGDIS errors.
- Add a new report, not limited by term, that lists all the enrollments for each student, and all the assignments for each instructor.
- Allow international characters in first and last names.
- Remove international and some special characters from email addresses prior to updating the LMS.
- Enhance the report search feature to process special characters.
- Provide System administrators with a feature to generate emails for a particular INGRESS administrator or the entire group at an institution.

**INGRESS Release 6.3**
- Distribute a new notification “Request to inactivate receiving sections because the sending section needs to be inactivated” to INGRESS Administrators at partner institutions that have related active receiving sections.
- Enable administrators to search reports for multiple items at the same time by using the pipe character.
- Select the report datafile, Excel report or both for display and download.
- Convert PHP functions to PL/SQL and update the version of phpEXCEL.
- Banner connectivity improvements.

**INGRESS Release 7.0**
- Add a user role for those who need to access home students' information only at sending institutions.
- Provide a feature on the Admin Console for registrars and their designees to submit requests to add, deactivate and delete Campus Administrator accounts for their institutions.
- The application ceases to generate XML records to update the LMS.
- Convert PHP functions to PL/SQL.

**INGRESS Release 7.1**
- Modify the Seat Balancer to not change the Available Seat Count in Banner to zero while it is running.
- Add indicators to the Class Billing Report to identify Dual Enrollment, 62+ Waiver, Tuition Assistance Program (TAP), and Military students.
- Make the INGRESS Not Processing Report available to Campus Administrators.
- Enable Campus Administrators to update the Maximum Seat Count for multiple course sections at the same time.
- Add additional course section details to the Section that was on-hold has been processed successfully notification.
- Convert PHP functions to PL/SQL.

### Georgia Enhancements
- Identify fatal errors that prevent course sections, student enrollments, and instructor assignments from being extracted.
- Extract Preferred Name.
- Apply the Last Date of Attendance to Banner Baseline.
