

Satisfactory Academic Progress: *Changing with the Current...*

Valerie Alexander-Spicer
Columbus State University
Thursday, September 20, 2007
Exhibit Hall, 9:30 am

Session Etiquette

- Please turn off or set all cell phone/pagers to vibrate.
- If you must leave this session early, please do so quietly.
- Please avoid side conversations during this session.

Thank you for your cooperation!

Topics for Discussion

- Satisfactory Academic Progress (SAP)
- Background on Columbus State University's (CSU) SAP Issue
- CSU's Recommendation
- OIIT's Recommendation
- Resources/Questions

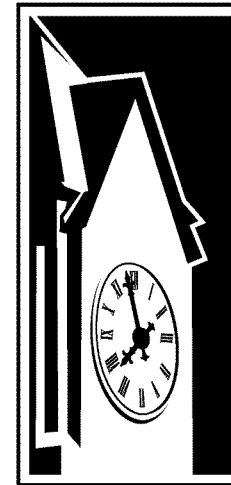

SAP at a glance...

- The Georgia Banner Financial Aid Satisfactory Academic Progress (SAP) process calculates transfer and institutional hours and GPA to determine student eligibility for financial aid.

- **Steps in processing with GAMods SAP:**
 - ZOBSGRP (SAP Group Assignment Process) – place students in appropriate SAP groups
 - ZOBSAPR (SAP Process)

- ***At CSU:***

- SAP is processed each term
- SAP is processed on all enrolled students at the end of spring term
- SAP is processed on targeted groups at the end of fall and summer terms

COLUMBUS STATE
UNIVERSITY

CSU's Issue...

- During the spring term processing of SAP, it was discovered that a significant population of students were mysteriously not being processed!
 - ***Why not?***

- Enrollment was cited as the issue!
 - In our research we found that parameter #20 which processes the enrolled students needed to be “tweaked”.

Oracle Developer Forms Runtime - Web: Open > GJAPCTL

Parameter Values

Number	Parameters	Values
14	Applicant ID	
15	Application Code	
16	Selection Identifier	
17	Creator ID	
18	User ID	
19	Run Mode	
20	Process Enrolled Only (Y/N)	
21	Effective Rorsapr Term Code	

LENGTH: 6 TYPE: Character O/R: Required M/S: Single
Enter valid term code for effective term for SAP code

Submission

☐ Save Parameter Set as Name: Description:

- In **ZOBSAPR**, the select statement for Parameter #20 looked at the following:
 - *WHERE SFBETRM_ESTS_CODE IN (SELECT STVESTS_CODE FROM STVESTS WHERE STVESTS_CODE = SFBETRM_ESTS_CODE AND STVESTS_EFF_HEADCOUNT = 'Y') AND SFBETRM_PIDM = TO_NUMBER(:pidm) AND SFBETRM_TERM_CODE = :term;*
 - This is how it considers the student enrolled for the term

- **CSU's rationale for suggesting coding changes and the expansion of search criteria for enrolled students:**
 - *Using SFBETRM_ESTS_CODE was not acceptable because not all students who have an ESTS code are actually registered!*

- **CSU's suggested the following coding changes:**
 - *Use of ROAENRL to be used instead*
 - *OllT identified the following challenge:*
 - *Not all schools freeze hours, so not all will have a ROAENRL record*

- **OIT's suggestion for an enhanced select statement:**
 - *Modifying ZOBSAPR for to look at SFRSTCR where SFRSTCR_RSTS_CODE IN (SELECT STVRSTS_CODE FROM STVRSTS WHERE STVRSTS_CODE = SFRSTCR_RSTS_CODE AND STVRSTS_INCL_SECT_ENRL = 'Y') AND SFRSTCR_PIDM = TO_NUMBER(:pidm) AND SFRSTCR_TERM_CODE = :term.*

- ***OllT's alternate recommendation:***
 - *Use of the SFRSTCR_RSTS_CODE instead of SFBETRM_ESTS_CODE*
 - *This eliminates the original problem and will work for all schools regardless of whether or not they freeze hours*

In essence:

- The new logic will check status codes that have a “Count in Enrollment” checked on the Course Status Validation form.
 - STVRSTS
- It also looks at SFASLST

- When can you look for this enhancement to the GAMods SAP Process?
 - *The new version of ZOBSAPR will be released in GAMods 7.9.*
 - *OllT released the GAMods 7.9 on September 17th!*
