

Perfection

- No this is not a perfect solution to all housing needs but it is better than manual entry on each student account, or keying students in TSAMASS, or paying high costs for a third party servicer to lease housing for each institution.
- The processes will still charge the individual that moves out and releases the room to someone else—manual entry is still going to be necessary on the withdrawn or released rooms on each student account.

Access and modify status must be obtained in
Banner Baseline to set-up Rules, Validation tables
& Control forms

Rules	Validation	Controls	Housing Module	GJAPCTL Job Submission	Other
GLRSLCT	TTVDCAT	SLALMFE	SLARASG	SLRFASM	
	STVRRCD	ZSADETC	SLARMAP	TSRLATE	
	STVHAPS	SLATERM	SLAASCD	ZSRCBIL	
	STVMRCD		SLAMSCD		
	STVARTP				
	STVTERM				
	STVASCD				

Control Forms

1. ZSADETC--establish **charge** detail codes and the accounting associated with each type of room available (C201 & C402).
2. ZSADETC--establish a **payment** detail code to collect housing deposits (HDEP) and the accounting associated with the deposit.
3. ZSADETC—establish **payment** detail codes to be used on TSADETL (HDCR—housing deposit credit card, HDCA—housing deposit cash, HDCK—housing deposit check and HDMO—housing deposit money order).
4. TGADEPC—Set-up and use the the detail code created in ZSADETC for the collection of housing deposits. The detail code used in TGADEPC will later be shown on the student account when released. HDEP on the payment column of the student account will indicate your institution owes a refund to the student.

SLALMFE

[illegible]

Don't forget!

ZSADETC & SLRFASM

- Don't forget to change the description of month in ZSADETC before changing the fees in SLALMFE.
- After the fees have been adjusted on SLALMFE for the next month run SLRFASM again using the same parameters.

SLATERM

- Dates entered on SLATERM will determine the date of the original charge of the first assignment that will be recorded on the student account record.
- Be cautious when entering fall term—this term is usually coded with the new fiscal year.

SLARMAP

- Every student eligible for housing must be assigned in SLARMAP with an application.
- Students that only want to be charged a full meal plan can also be coded in this validation table. The validation table STVARTP must be set-up first.

SLALMFE

- Use extreme caution in this area.
- Only code the month you want to charge with the dollar amount indicated.
- Next step is to run the Batch Room/Meal/Phone assessments--SLRFASM.
- After a certain deadline has passed--Next step would be to run the ZSRCBIL process for the TSRLATE process to work correctly.

STVARTP

- STVARTP must be validated with any type application the student is interested in.
- You can code a meal plan in the validation table to a commuting student if the institution is interested without having the worry of the student being issued a room assignment.

SLARASG

- Once the student is coded in SLARASG you must select to process assessments by clicking in the blank space within the room assignment form of the second block to see if the fee is going to be correct on the student account. If not, you have a chance to correct SLALMFE before moving on to the next student.
- SLRFASM is the next step.

Next Month Rolls Around

Update the following before running SLRFASM.

ZSADETC must reflect the month change on the detail code used C201 or C402 in the description field.

SLALMFE rates must be updated to include the new month. Add August rent for 1216.00 and September rent for 522.00 together and update the fee only. The fee should reflect 1738.00.

SLRFASM

- SLRFASM must be run to update the student account with the new charge for September for \$522.00.

ZSRCBIL

- ZSRCBIL must be run on the 6th day of the month or whatever day you decide to charge late fees for late housing assessments for a particular month.
- Next you will need a report or a pop-selection of students to be able to charge late fees.
- Suggestion would be to look at TGIACCD to compare the data from the pop-selection for accuracy.

TGIACCD

- This form would be easy to allow you to see the students that have a remaining AR on the account by choosing:
- 1. Tab to the Detail code field and enter detail code.
- 2. Tab to the balance column and enter <>0 (this is a zero not an O).
- 3. Tab to the term field and enter term you interested in.
- 4. This can be run to excel once populated. This was presented at the Georgia Summit 2006.
