XE Roadmap and Student Success

USG & Ellucian Partner meeting – July 13, 2013

Presented by: Ed Hauser

Director for Enrollment & Student Services

Jamie Chambron

Vice President * Management Consulting & Education Services

Agenda Slide

- Ellucian XE
- Banner XE & Roadmap
- Ellucian XE Architecture
- XE Applications Available Today
- XE Development Partners
- XE Applications in Process
- Ellucian On-Demand Subscription Library
 - Technical Training Week
- Q & A

Roadmap Framing and Confidentiality

This information provides a general strategic view of Ellucian's anticipated future offerings. The information in this document is confidential and proprietary to Ellucian and neither the document nor its contents can be disclosed to anyone without a written obligation of confidentiality in place with Ellucian.

The information in this document is not a commitment, promise or other obligation to deliver any material, code or functionality, and it should not be relied upon in making any purchase decision. The document and its contents are subject to change, without prior notice, at the sole discretion of Ellucian.

Ellucian XE

Ellucian Extensible Ecosystem (XE)

- A vision for how we help institutions thrive during a time of dynamic change
 - An extensible and evolving ecosystem of solutions and services
 - An architectural strategy grounded in common principles and standards
 - A portfolio approach that accelerates innovation
 - A better way for customers to evolve their technology environments and protect their investments

Revenue Pressures and Austerity

Engaging Students

Education Access and Readiness

Accountability and Outcomes

Global

Transformative Technology

Resulting Higher Education Challenges

Funding Pressures

- Revenue management: recruitment, retention, fundraising
- Increasing enrollment, capacity, revenue generation
- Tuition pressures and affordability

Operational Efficiency

- Optimizing resources, containing costs
- Process transparency, agility, improvement
- Financial visibility, discipline, controls, metrics

Student Success

- Services and tools to keep learners on track
- Diverse, flexible pathways to learning
- Improving learning outcomes (retention, completion, etc.)

Accountability

- Timely, reliable, useful information for each stakeholder
- Measuring and documenting performance, outcomes, compliance
- Data-driven decisions and discovery-based planning

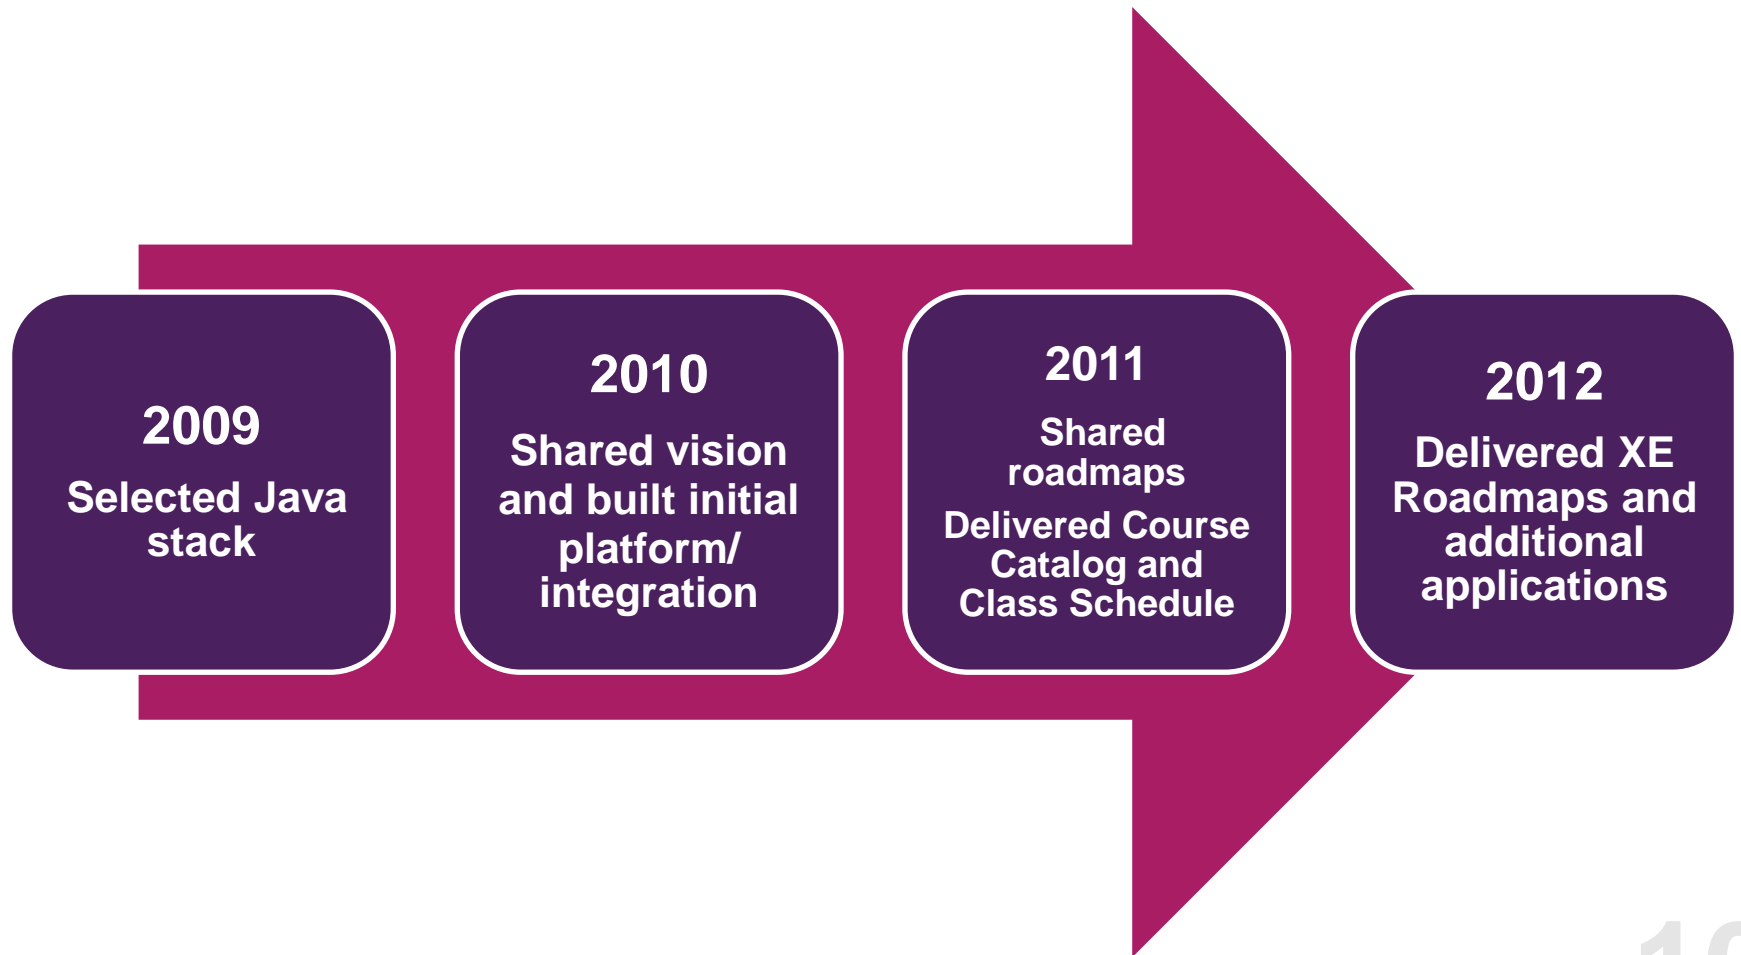

Constituents' Expectations

- Faster, more flexible access to information and services
- Managing and keeping up with pace of technology change
- Education experiences that set your institution apart

Engaging the Community

- Cultivating relationships with constituents of all types
- Partnerships with donors, peer institutions, industry, etc.
- Shared services, community source, resources, information, best practices

Investments in Banner XE Doubling as Result

Ellucian Roadmap Legend

Investment Category: Helps to group targets for any release into primary investment categories:

Confidence Level Legend: See definitions and disclaimers on next slide

Target deliverable: features, capabilities, architectural enhancements, etc. Color indicates confidence level

Release Theme: Summary level description of release scope or theme

Preview/Theme	Technology	Quality	Features	APIs
	- This release is focused on architectural enhancements	- This release is focused on quality	- This release is focused on features and functions	- This release is focused on APIs

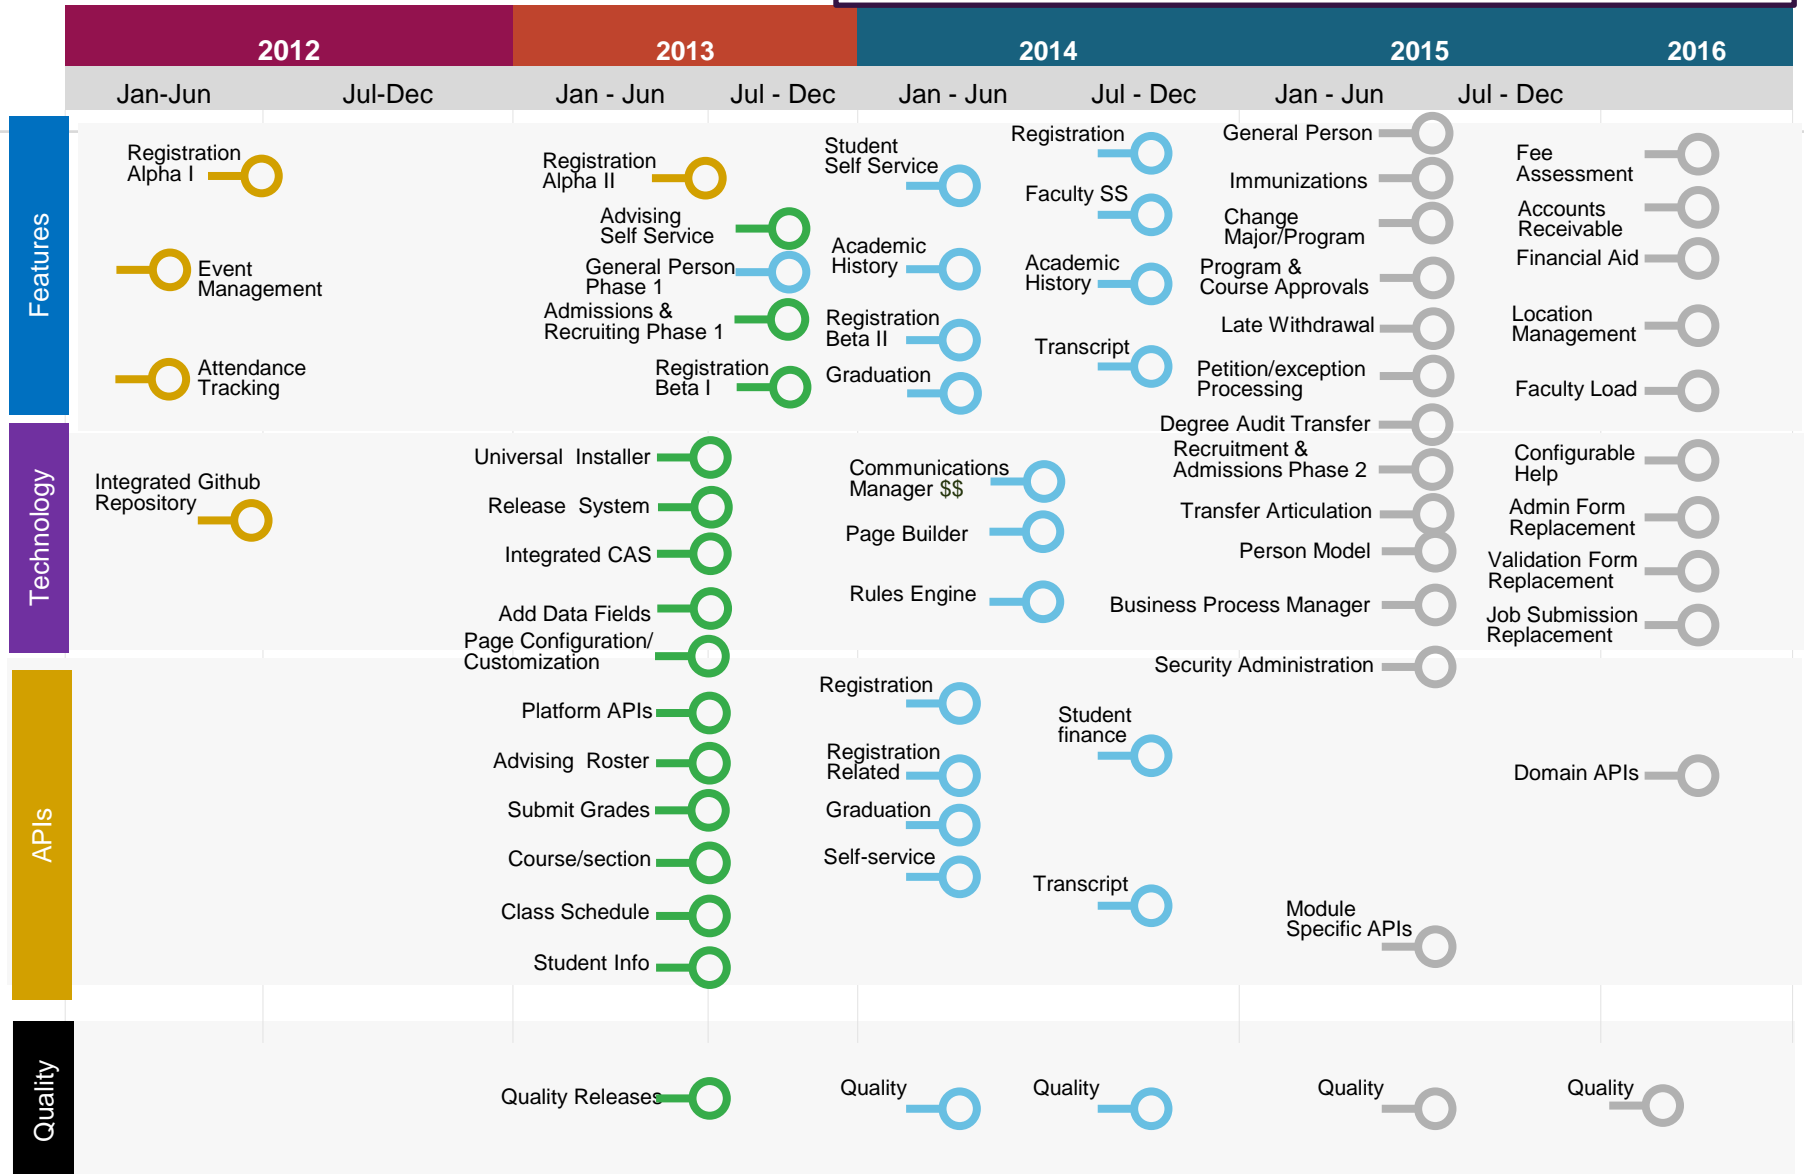

Confidence Level Definitions

We use the term **confidence level** to describe the likelihood that the items on the roadmap will be delivered at the dates shown on the timeline. There are many factors that impact our ability to predict delivery including but not limited to:

- **Customer priorities** – Our releases are driven by customer feedback and prioritization. Sometimes the priorities change due to any number of external factors. At any time, we may change the priorities in any given future release to better reflect our customers' interests.
- **Quality Targets** – Each of our product releases undergoes a stringent quality assurance process prior to release. Should a particular capability not meet our quality targets, we may choose to defer that specific capability to a future release or not complete the development of that capability at all.
- **Design Constraints** – In response to customer feedback, we attempt to provide visibility beyond the next product release. In doing so, we share capabilities that reflect customer requests but have not gone through the technical design phase. In some cases, the technical design phase will reveal a larger level of effort and dependencies that make the original timeframe infeasible. Further, the design phase could reveal that the capability is not technically feasible at all or not cost effective resulting in abandonment of effort.
- **Budget Cycles** – For roadmaps that might include visibility beyond the current Ellucian fiscal year budget, all items are subject to financial progress against goals and the availability of funds for that particular project in future budget cycles.
- **Engineering Forecasting Accuracy** – All roadmap items are subject to some level of forecasting accuracy imprecision resulting in certain functionality pushing out to later releases on a roadmap timeline.

The further out the release date, the higher the likelihood that one or more of these factors will impact the accuracy of our roadmaps. That is why we clearly indicate less than 100% confidence for our next release even though it may be scheduled to be released in the short-term, and why we use decreasing confidence levels for items that are further out on the roadmap.

Banner XE Student

Timing is Everything

- First half of the roadmap is designed to impact learning and student success:
 - Self Service for Advisors, Faculty, and Students
 - All Academic Administrative functions
- Second half of the roadmap is designed to have greater impact on efficiencies and student financial management
 - Business Process Management and Automation
 - Fee Assessment, Financial Aid, A/R

The logo consists of a square with a vertical gradient from dark purple at the top to a lighter magenta at the bottom. The word "ellucian" is written in a white, lowercase, sans-serif font, centered within the square.

XE Projects in Development

XE Projects in Development

- XE Registration
 - CR 1 – Q4 2013
 - GA – Q4 2014
- XE Admissions & Recruiting – Q4 2013
- XE Advising – Q4 2013
- XE Academic History – Q4 2014
- Banner Communications Management – Q2 2014

XE Registration

Banner XE Registration Objectives

New Registration and Advising Experience

- Enhanced user experience
 - Students, Advisors and Administrators

Options for Multiple Registration Models

- Supports Search & Select, Block and Structured Registration

Incorporates Degree Planning Information

- Option to include CAPP or DegreeWorks data
 - As part of the registration planning process

Advising and Registration Models

- New registration summary and calendar metaphor
- New Registration & Degree plan function
 - DegreeWorks Student Education Plans (SEP)
 - Registration – create term registration plans
 - Course or section
 - Create registration plan from DW SEP
 - Projected or suggested courses
 - Must write output to Ellucian web service and APIs
 - CAPP and Other degree audit systems
- Enhanced Block Registration
 - Structured blocks of classes defined by each customer
- Structured or Programme Based
 - UK, Ireland and Australian model
 - Compulsory modules are prescribed
 - Optional and Elective module choice

Admissions/Recruiting Development Partners

Advisor Self Service

Purpose:

- Enable Advisors, Tutors, Mentors, AND Students to view (phase one) and work with (phase two) a profile of key institutional information to inform the best decisions and directions possible.

Status:

- Kicked off in April 2013
- Development Partner Group formed.

Deliverables

- Advising Roster, with key student data available at first glance
- Student profile with 2 dozen default data elements
- Step one in rationalizing the notes/comments/interactions functionality

Time Frame

- Alpha – Sept. 2013
- Controlled Release – Oct. 2013
- GA – November 30, 2013

Advisor Self Service Development Partners

Academic History – Phase 1 – Started in May

Academic History 9.0 – Beta (Controlled Release) - Jun 2014

- Forms conversion for the administrative processes and any related Self Service functionality for 'End of Term' processing
 - Grades and Grading
 - Roll to Academic History and Grade Maintenance
 - Repeat Processing
 - GPA Calculation
 - Academic Progress
 - Transcript requests
 - &
 - Academic Standing

Global

- Enhanced Electronic Grade Book - ESC

Academic History – Phase 2

Academic History 9.0 – GA (scheduled for Dec 2014)

- Forms conversion for the administrative processes and any related Self Service functionality for 'End of Term' processing
 - Graduation Processing
 - Graduation Ceremonies
 - Awarding Degree

Banner Communication Management

Purpose

- Enable tactical and operational communications associated with administration functions

Status:

- Kicking off in August 2013
- Development Partner selection in July 2013

Preliminary Scope

- Multi Channel Communication with Students
- Ability to communicate with other constituents (Faculty, Parents, Administrators)
- Communication Capability in XE Technology

Technical Approach

- UI and Usability Improvements consistent with Banner XE
- Security/IDM/I18N infrastructure that is consistent with Banner XE
- Common table naming conventions and other protocols consistent with Banner Student XE
- MEP support

APIs

- APIs are delivered as RESTful Web Service
- Process will start by exposing the APIs for delivered XE applications
- Provide institutional developers with developers guide and standards to develop and support APIs

Education Services

Ellucian On-Demand Subscription Library

Technical Training Week

Jamie Chambron

*Vice President * Management Consulting & Education Services*

The Importance of Continuing ERP Education

“ERP systems constantly change due to upgrades, additional features, or addition of new functionalities. In addition, **knowledge leakage due to employee attrition can be as high as 25% in any given year.** Consequently, **ERP training is an ongoing business requirement and not a one-time event.** Best practices suggest **providing recurring refresher training to all system users.** Also, **to ensure ongoing knowledge retention,** many of our clients make the successful completion of appropriate training courses **part of the employees’ annual performance evaluation.”**

Learning Solutions Magazine
5 Tips for a Successful ERP Training Program

Training is Becoming Difficult!

- We can't travel to attend training classes.
- We can't afford to be tied up in training classes for long periods of time.
- We need on-demand, just in time knowledge to increase efficiency and productivity.
- We need a quicker way to bring new employees up to speed.
- We need to equip our experienced users with tools for augmenting their expertise.

The Ellucian On-Demand Subscription Library

24x7 eLearning on Ellucian Solutions

- Features

- Access Anytime and Anywhere
- Updated Continually

- Employee View

- Be More Efficient by Staying Continuously Trained on Solution Functionality
- Reduce Time Away from Day Job by Consuming Short Snippets of Education (20 minutes average) versus Days of Training
- Access Training Just in Time to Do Something Different

- Manager/Institution View

- Bring New Employees Up to Speed Quickly on Ellucian Systems
 - Track Employee Progress and Completion of Training
 - Enable Schools to Stay Current on Ellucian Solutions and Avoid the “Value Gap”
 - Provide Cost Effective End User Training
- Free up time for IT to focus on technology management not end user training

Ellucian On-Demand Subscription Library

- Subscription-based library of eLearning courses available to your institution's entire staff
- Primarily video-based training averaging **20 minutes per course**
- Over **4,000 courses** across **5 course collections...** and growing monthly

Meet the Recruiting and Admissions Team
Rollover each person to find out about their challenges and the role they play.

Kaitlyn Baker,
Director of Admissions

Shawn Diaz,
Admissions Counselor

Andrew Kline,
Admissions Counselor

Shawn Diaz is an Admissions Counselor at Ellucian University. Her primary focus is on interacting with top prospects and coordinating on-campus events.

Her biggest challenge is responding to individuals and responding to the same question from multiple individuals. She also needs to organize and prioritize her tasks so that the on-campus events are a success.

In this course, you will see how Shawn Diaz uses Ad-hoc activities to plan tasks and communicate with her top prospects.
