## Using Self-Service Retrieve ID

### Introduction to Self-Service Retrieve ID functionality

**Purpose** As part of the Student System Consolidation Project, ITS provided an enhancement for retrieving a student's institutional ID via Self-Service Banner. With the conversion to unique IDs instead of Social Security Numbers as the student's institutional ID came the need to provide the institutional ID to the student in a secure manner. Students must obtain their institutional ID in order to log into Student Self-Service Banner and use other institutional services. The Self-Service Retrieve ID page allows the user to enter identifying data to retrieve the institutional ID.

**Target Audience** Institutional staff that are responsible for distributing Banner institutional IDs.

**Purpose and Scope of Document** This document explains how to activate the Retrieve ID button and retrieve a student's institutional ID via Self-Service Banner.

**Graphics** Graphic cues used in this document assist with labeling of steps and items that are particularly important.

Steps for recovery or support.

For additional information, see references.

Exercise caution.

Warning: an error here is critical.

**References** For information about the baseline product, see Ellucian *Banner Student and Student Self-Service User Guides*.

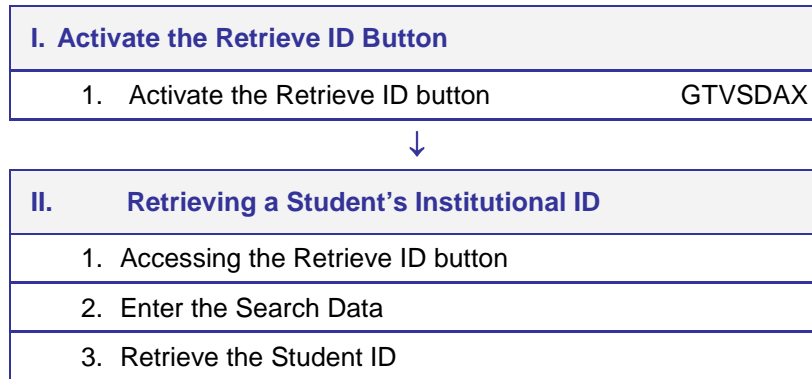

**Support** **MORE INFORMATION and SUPPORT:** For an URGENT BUSINESS IMPACT issue, contact the ITS Helpdesk immediately at 706-583-2001 or 1-888-875-3697 (toll free within Georgia). For a NON-URGENT issue, contact the ITS Helpdesk via (1) the Self-Service Support website at [http://www.usg.edu/customer\\_services](http://www.usg.edu/customer_services) (User ID and password required. Contact ITS Helpdesk to obtain login credentials.) or (2) Email [helpdesk@usg.edu](mailto:helpdesk@usg.edu). For ITS product and service status updates, go to: <http://status.usg.edu/>. Additional information is available at the ITS Service Level Guidelines and Maintenance Schedule: [http://www.usg.edu/customer\\_services/service\\_level\\_guidelines/](http://www.usg.edu/customer_services/service_level_guidelines/).

## Self-Service Retrieve ID Process Flow

**Description** The Self-Service Retrieve ID enhancement allows the user to enter the name, birth date and last 4 digits of the Social Security Number to retrieve the institutional ID for a specific student. This functionality is available via a Retrieve ID button on the secure login page and institution can deactivate the button via GTVSDAX.

**Overview of Self-Service Retrieve ID** Complete the following steps to implement and access the Retrieve ID button and enhancement in Self-Service Banner.

## Implementing Self-Service Retrieve ID

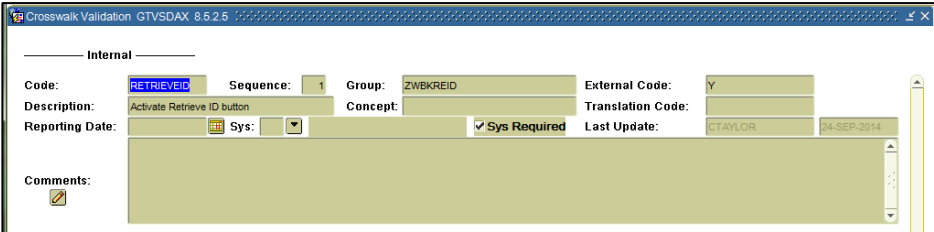

### I. Activate the Retrieve ID Button

#### Overview

Use GTVSDAX to activate the Retrieve ID button for display on the Self-Service secure area login page. This functionality allows the institution to determine if the functionality should be available for use.

#### Activate the Retrieve ID button (GTVSDAX)

The Retrieve ID enhancement is controlled by the “RETRIEVEID” rule on the Crosswalk Validation form (GTVSDAX.). The functionality is activated when the External Code is “Y” and deactivated when the External Code is “N”. Deactivation means that the Retrieve ID button is not available in Self-Service Banner.

The screenshot shows a web browser window titled "Crosswalk Validation GTVSDAX 8.5.2.5". The form is for an "Internal" rule. The "Code" field is "RETRIEVEID", "Sequence" is "1", and "Group" is "ZWBKREID". The "External Code" is "Y". The "Description" is "Activate Retrieve ID button". The "Reporting Date" is empty, and "Sys Required" is checked. The "Last Update" is "CTAYLOR" on "24-SEP-2014". There is a "Comments" section with a small icon.

Note: ITS delivered a script the GTVSDAX rule for the RETRIEVEID. The default External Code is “Y”.

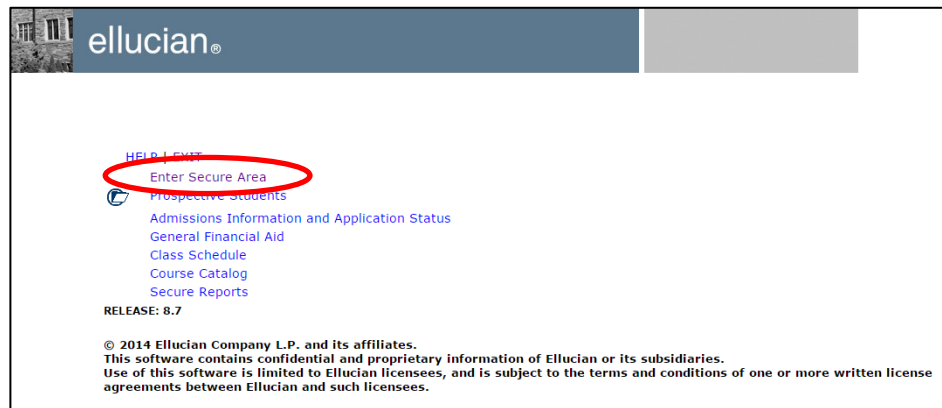

## II. Retrieving a Student's Institutional ID

### Overview

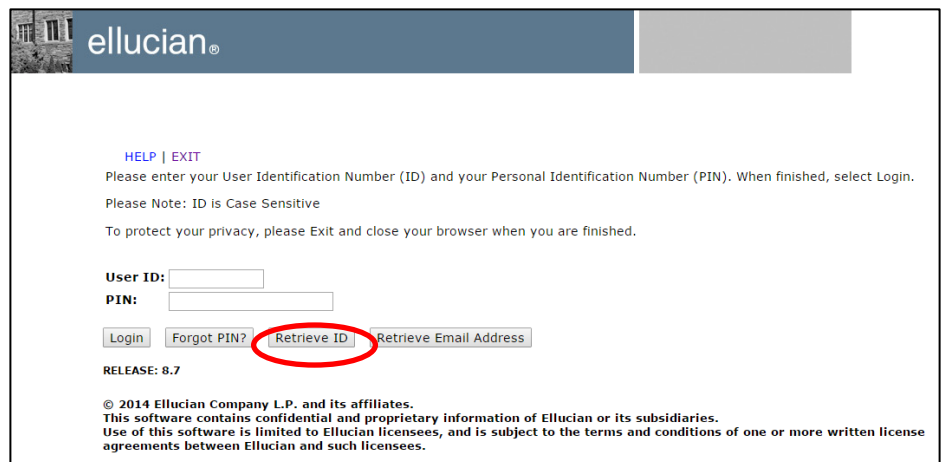

The Retrieve ID button is available on the Self-Service secure area login page. Enter all required fields to retrieve an existing student institutional ID. If no match or multiple matches are discovered, the student is directed to contact the appropriate institutional office.

### 1. Accessing the Retrieve ID button

On the main menu of Self-Service Banner, select “Enter Secure Area”.

Select the “Retrieve ID” button.

### 2. Enter the Search Data

All fields on the Retrieve ID page are required.

The screenshot shows the ellucian self-service ID retrieval form. At the top left is the ellucian logo. Below it are links for [HELP](#) and [EXIT](#). The main instruction reads: "To retrieve your institutional unique ID, please enter the required information. \*\*Be sure to enter the name the institution has on record for you." The form contains four input fields: "First Name" with the value "Nero", "Last Name" with the value "Wolfe", "Birth Date: MM/DD/YYYY" with the value "09/07/1983", and "Last 4 Digits of SSN" with the value "\*\*\*\*". Below the fields are "Search" and "Reset" buttons. At the bottom, it says "RELEASE: 8.7" and "© 2014 Ellucian Company L.P. and its affiliates."

Enter the student's first name, last name, birth date in MM/DD/YYYY format, and last 4 digits of the SSN. The SSN data is masked upon entry.

Incomplete data entry or incorrect formatting of the birth date field must be corrected prior to running the search.

This screenshot shows the same form as above, but with the "First Name" field empty. A red arrow points to the empty field with the error message "First Name is required." The other fields ("Last Name", "Birth Date", "Last 4 Digits of SSN") and the "Search" and "Reset" buttons remain the same. The footer text is also identical.

This screenshot shows the same form as above, but with the "Last Name" field empty. A red arrow points to the empty field with the error message "Last Name is required." The other fields ("First Name", "Birth Date", "Last 4 Digits of SSN") and the "Search" and "Reset" buttons remain the same. The footer text is also identical.

The screenshot shows the top of the ellucian search interface. The header includes the ellucian logo and a grey navigation bar. Below the header, there are links for 'HELP | EXIT' and a prompt: 'Please enter your birth date.' The form contains four input fields: 'First Name' with 'Nero', 'Last Name' with 'Wolfe', 'Birth Date: MM/DD/YYYY' which is empty, and 'Last 4 Digits of SSN' which is also empty. A red arrow points to the empty birth date field with the text 'Birth Date is required.' Below the fields are 'Search' and 'Reset' buttons. At the bottom, it says 'RELEASE: 8.7' and '© 2014 Ellucian Company L.P. and its affiliates.'

This screenshot shows the same ellucian search interface but with the 'Birth Date' field filled in with '09/07/1983'. The 'Last 4 Digits of SSN' field remains empty. A red arrow now points to this empty field with the text 'SSN is required.' The 'First Name' and 'Last Name' fields remain 'Nero' and 'Wolfe' respectively. The 'Search' and 'Reset' buttons are still present. The footer text is identical to the previous screenshot.

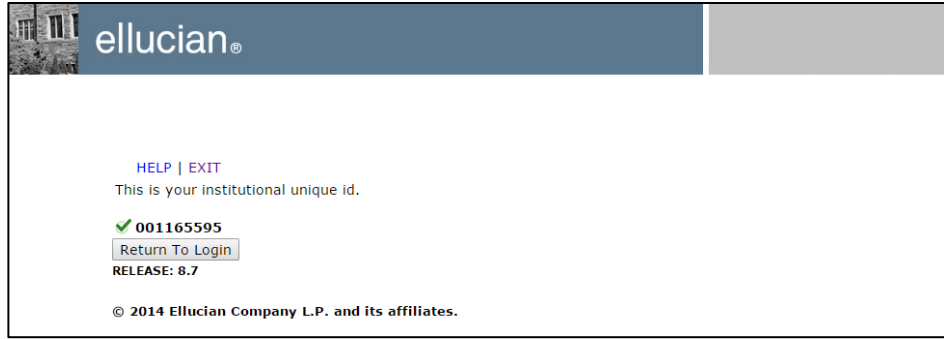

The Reset button removes data from all search fields.

Selecting the Search button activates the student institutional ID search.

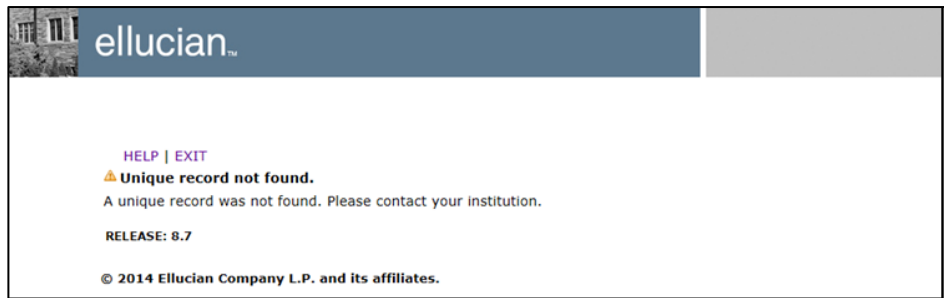

### 3. Retrieve the student ID

The search utilizes the Name Translation Rules form (GORNAME) if the student enters the shortened version of their name or nickname, such as Ben for Benjamin. The search also uses the Preferred First Name from the General Person Identification form (SPAIDEN) if the field is populated for the student.

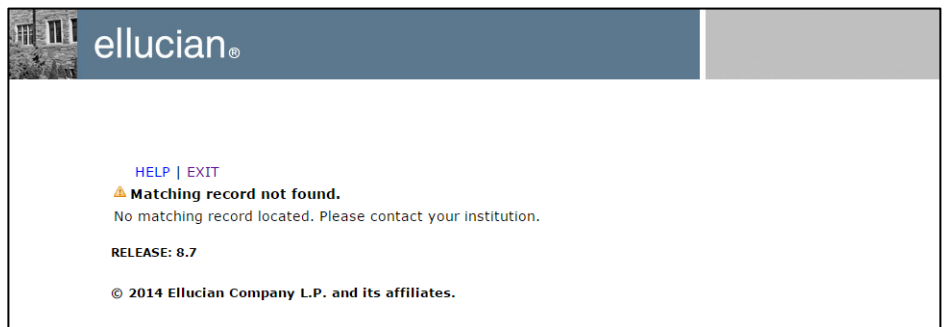

A successful search will result in the student's institutional ID being displayed.

If multiple matches are located by the search and the Preferred First Name field on SPAIDEN is populated, a “Unique record not found” error message will be displayed to direct the student to contact the institution.

If no Banner record matches the search data, a “Matching record not found” error message will be displayed to direct the student to contact the institution. This message is also displayed if multiple matches are located and the Preferred First Name field on SPAIDEN is blank.

## Appendix A: Document History

This section details the history of the document and updates made for each modification.
