## Implementing the High School XML Transcript

### Introduction to High School XML Transcript

**Purpose** As part of the High School XML transcript project, several Georgia Enhancements have been created to allow for the loading of Department of Education course codes, the calculation of high school GPAs, and the update of College Preparatory Curriculum (CPC) requirements.

**Target Audience** Institutional staff that are responsible for loading and maintaining High School transcript information.

**Purpose and Scope of Document** This document explains how to setup and utilize the Georgia Enhancement components designed for the utilization of High School XML transcripts.

**Graphics** Graphic cues used in this document assist with labeling of steps and items that are particularly important.

Steps for recovery or support.

For additional information, see references.

Exercise caution.

Warning: an error here is critical.

**References** For information about the baseline product, see *Using SCT Banner User Manual for Accounts Receivable, Financial Aid, and Student*.

**Support** For additional ITS resources and support, contact the ITS HELPDESK:

## High School XML Transcript Introduction

### Description

As part of the High School XML transcript project, several Georgia Enhancements have been created to allow for the loading of Department of Education course codes, the calculation of high school GPAs, and the update of College Preparatory Curriculum (CPC) requirements. This document lists the steps to set up and use each of these enhancements.

### Overview of High School XML Transcript

Complete the following steps to implement the High School XML Transcript in Banner.

<b>I. Set Up for High School XML Transcript</b>		
1.	Load STVSBJC using the High School Subject Validation Table Loader	load_stvsbjc .ctl
2.	Build rules in the CPC Fulfilling High School Courses Rules Form	ZOACPCH

↓

<b>II. Post Load Processing Steps for High School XML Transcript</b>		
1.	Update Academic Requirements using the CPC Requirement Update process	ZORCPCH
2.	Calculate High School GPAs in Batch	ZORHSBG

## Implementing the High School XML Transcript

### I. Set Up for High School XML Transcript

#### Overview

This section will go through the setup required before a high school XML transcript can be loaded and utilized into Banner. All of the following steps must be completed first.

#### 1. Load STVSBJC using the High School Subject Validation Table Loader

A Technical Representative or local Database Administrator will need to run the load\_stvsbjc.ctl table loading script. This script populates the High School Subject Validation table (STVSBJC) with courses from the Department of Education (DOE).

Enter the STVSBJC form. Check to verify that all the data has been loaded. The loader should populate the first six digits of the Course Code and the corresponding description. There should be no decimals in the Code field.

Code	Description	Activity Date
010510	Cooperative Agribusiness Sales	27-OCT-2008
010520	Cooperative Agribusiness Sales	27-OCT-2008
010980	Co-op/Internship I	27-OCT-2008
010990	Co-op/Internship II (AG-GH/PS)	27-OCT-2008
011510	Cooperative Agribusiness Sales	27-OCT-2008
011520	Cooperative Agribusiness Sales	27-OCT-2008
011980	Co-op/Internship I	27-OCT-2008
011990	Co-op/Internship II (AG-GH/PS)	27-OCT-2008
012510	Cooperative Agribusiness Sales	27-OCT-2008
012520	Cooperative Agribusiness Sales	27-OCT-2008
012980	Co-op/Internship I	27-OCT-2008
012990	Co-op/Internship II (AG-GH/PS)	27-OCT-2008
013120	Marketing Agricultural Commodi	27-OCT-2008
013510	Cooperative Agribusiness Sales	27-OCT-2008
013520	Cooperative Agribusiness Sales	27-OCT-2008
013980	Co-op/Internship I	27-OCT-2008
013990	Co-op/Internship II (AG-GH/PS)	27-OCT-2008
014110	Agriculture Business and Manag	27-OCT-2008
014210	Agricultural Mechanics Technol	27-OCT-2008
014220	Agricultural Mechanics Technol	27-OCT-2008
014230	Agricultural Mechanics Technol	27-OCT-2008
014240	Agricultural Metals Fabricatio	27-OCT-2008
014250	Agricultural Power and Machine	27-OCT-2008

This will only add DOE values. Any existing codes in STVSBJC will remain.

**2. Build rules in the CPC Fulfilling High School Courses Rules Form**

The CPC Fulfilling High School Courses Rules form (ZOACPCH) is for building rules for satisfying College Preparatory Curriculum (CPC) requirements with high school courses. Enter ZOACPCH and build rules based on CPC requirements. These rules are designed to be used with the corresponding CPC HS Requirements Update Process (ZORCPCH) to satisfy CPC requirements placed on the Georgia Requirements Form (ZOAGARP).

**NOTE:** Added new Credit Hour column on the CPC Fulfilling High School Courses Rules Form (ZOACPCH). Default value is set to 1 credit hour for all previously created NCRQ code rules in ZOACPCH.

The screenshot shows the 'CPC Fulfilling High School Courses Rules Form: ZOACPCH 8.19' window. It is divided into two main sections: 'Non-Course Requirement Code' and 'High School Courses'.

**Non-Course Requirement Code**

NCRQ Code	Description
<input checked="" type="checkbox"/> CPCE	CPC - English
<input type="checkbox"/> CPCF	CPC - Foreign Language
<input type="checkbox"/> CPCM	CPC - Math

**High School Courses**

NCRQ Code	And/Or	( Subject )	Subject Code	Credit Hours	Minimum Grade
CPCE	<input type="checkbox"/>	(	230610 Ninth Grade Literature/and Com	1.5	D
CPCE	<input type="checkbox"/> A	<input type="checkbox"/>	230630 World Literature/Composition	.5	D
CPCE	<input type="checkbox"/> A	<input type="checkbox"/>	230510 American Literature/Compositio	1	D
CPCE	<input type="checkbox"/> A	<input type="checkbox"/>	230520 English Literature/Composition	1	D
	<input type="checkbox"/>	<input type="checkbox"/>			
	<input type="checkbox"/>	<input type="checkbox"/>			
	<input type="checkbox"/>	<input type="checkbox"/>

	<input type="checkbox"/>	<input type="checkbox"/>			

## II. Post Load Processing Steps for High School XML Transcript

### Overview

Once a high school XML transcript has been loaded or manually data entered into Banner, the following processes can be used to satisfy CPC requirements and calculate high school GPAs for a group of students or an individual.

### 1. Update Academic Requirements using the CPC HS Requirement Update process

The CPC HS Requirements Update process is used to satisfy CPC requirements. Enter ZORCPCH via the Go To field of the General Menu (GUAGMNU) or the Process Submission Controls form (GJAPCTL).

Enter the status code, hold end or remove and a population selection or term. This process will satisfy any CPC requirements placed on the Georgia Requirements form (ZOAGARP) based on rules entered on the CPC Fulfilling High School Courses Rules form (ZOACPCH). The process will also end or remove holds from the Hold Information form (SOAHOLD).

This process can be run multiple times for a population selection, a term, or a specific student.

Process Submission Controls: GJAPCTL 8.3.0.2

Process: ZORCPCH CPC HS Requirements Update Parameter Set:

Printer Control  
 Printer: DATABASE Special Print: Lines: Submit Time:

Parameter Number	Parameters	Values
01	Status Code	SH
02	End or Remove Holds?	E
03	Hold End Date	26-FEB-2013
04	Selection Identifier	
05	Application Code	
06	Creator ID	
07	User ID	
08	Term	

LENGTH: 2 TYPE: Character O/R: Required M/S: Single  
 Enter requirement satisfied status code.

Submission  
 Save Parameter Set as Name: Description:  Hold  Submit

**Parameters:**

Number	Description	Help	Default	Required
01	Status Code	Enter requirement satisfied status code	SH	Yes
02	End or Remove Holds?	Enter E to End Holds, R to Remove Holds.	E	Yes
03	Hold End Date	Enter Hold End Date if holds are to be ended (DD-MON-YYYY)	SYSDATE	No
04	Selection Identifier	Enter selection Id if population is to be used.		No
05	Application Code	Enter application code if population is to be used.		No
06	Creator ID	Enter creator if population is to be used.		No
07	User ID	The User ID of the sub-population, if applicable.		No
08	Term	Term to process if not using population selection. Otherwise header info.		Yes
09	Report Print Mode	Print (A)ll, or (C)ompleted-requirement satisfied only, on report.	A	Yes
10	Run Mode	(A)udit or (U)pdate Mode.	A	Yes
11	Graduation Year	Enter High School Graduation Year for 4 Unit CPC Science Requirement	SYSYEAR	Yes

**Sample .lis file:**

```

Once the process is successfully executed in Update mode, verify that CPC requirements were updated on ZOAGARP and holds ended or

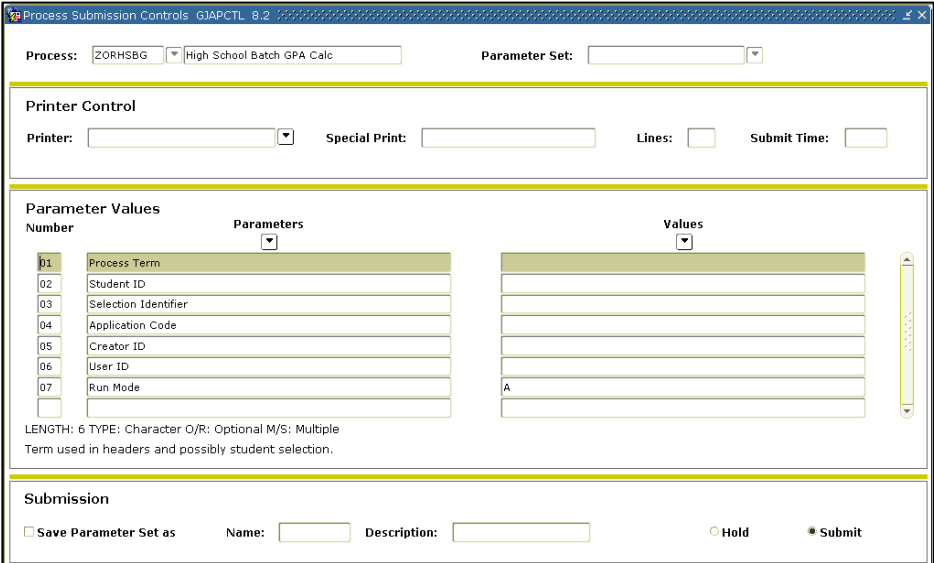

removed on SOAHOLD.

## 2. Calculate High School GPAs in Batch

The High School Batch GPA Calc process is used to calculate Grade Point Averages (GPAs) in batch or for an individual. Enter ZORHSBG via the Go To field of the General Menu (GUAGMNU) or the Process Submission Controls form (GJAPCTL).

Enter a term, student ID or population selection. This process updates the High School Detail Information form (ZOAHS CD) in the same way the Recalculate High School GPA indicator is used in the form.

This process can be run multiple times for a population selection, a term, or a specific student.

Process Submission Controls GJAPCTL 8.2

Process: ZORHSBG High School Batch GPA Calc Parameter Set:

Printer Control

Printer: Special Print: Lines: Submit Time:

Parameter Values

Number	Parameters	Values
01	Process Term	
02	Student ID	
03	Selection Identifier	
04	Application Code	
05	Creator ID	
06	User ID	
07	Run Mode	A

LENGTH: 6 TYPE: Character O/R: Optional M/S: Multiple  
Term used in headers and possibly student selection.

Submission

Save Parameter Set as Name: Description:  Hold  Submit

**Parameters:**

Number	Description	Help	Default	Required
01	Process Term	Term used in headers and possibly student selection.		
02	Student ID	The Student ID for one student select.		
03	Selection Identifier	Enter selection Id if population is to be used.		
04	Application Code	Enter application code if population is to be used.		
05	Creator ID	Enter creator if population is to be used.		
06	User ID	The User ID of the sub-population, if applicable.		
07	Run Mode	(A)udit or (U)pdate Mode.	A	Yes

**Sample .lis file:**

```

Once the process is successfully executed in Update mode, verify that the High School GPA is populated on the High School Detail Information form (ZOAHS CD).

## Introduction to High School Information Georgia Testing ID (GTID)

**Purpose** As part of the ongoing High School XML Transcript Load project, USG institutions need to store the Georgia Testing ID (GTID) assigned to each applicant into Banner. Received by the USG institutions from the High School XML transcript, the GTID is a 10 digit identification number that is designed to follow Georgia public education students from kindergarten through college. Once entered into Banner, the GTID will primarily be used for reporting purposes.

**Target Audience** Institutional staff responsible for entering data for applicants.

**Purpose and Scope** This section explains how to populate the High School Information Georgia Testing ID (GTID).

## High School Information Georgia Testing ID (GTID)

**Overview** Use the following form:

Descriptive Title	Name
High School Detail Information Form	ZOAHSCD

**Overview of High School Georgia Testing ID**

I. Access the Georgia Academic Requirements Menu	
Access the Georgia Academic Requirements Menu from the Main Georgia Enhancement Menu	*REQUIRED

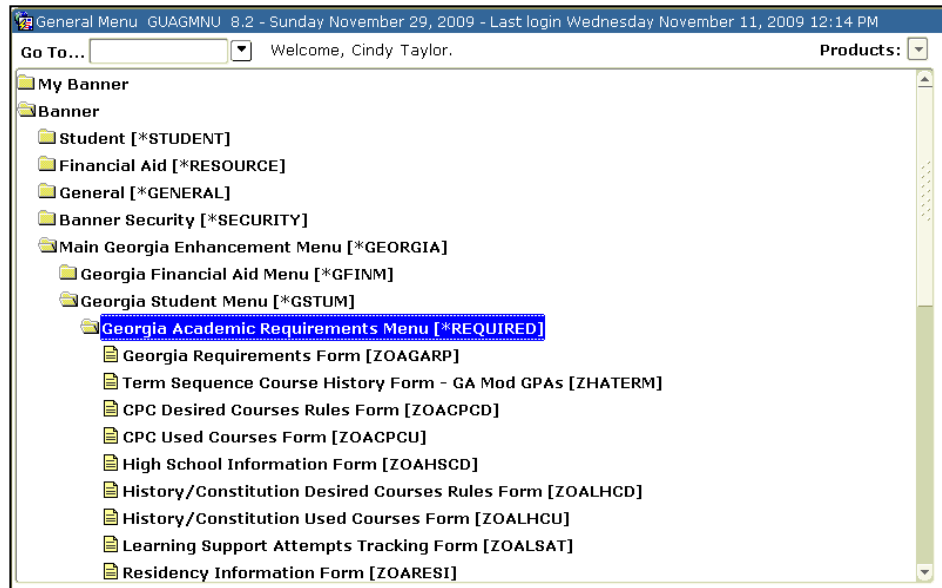

II. Populating the Georgia Testing ID	
Enter GTID for the individual student	ZOAHSCD

## Using the High School GTID

### I. Accessing the Georgia Academic Requirements Menu (\*REQUIRED)

#### Access Georgia Academic Requirements Menu (\*REQUIRED)

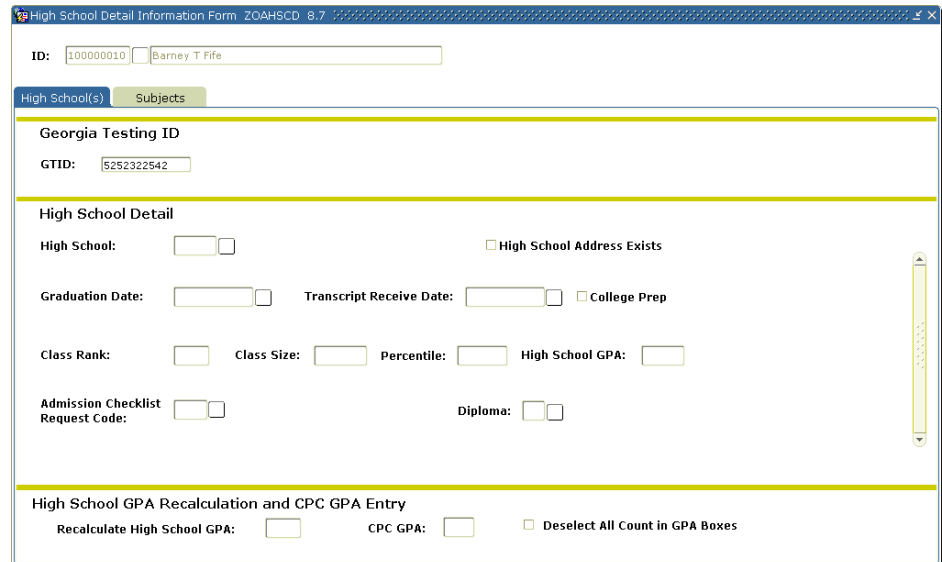

Access the Georgia Academic Requirements Menu (\*REQUIRED) from the Main Georgia Enhancements Menu.

### II. Populating the Georgia Testing ID

#### 3. Populating the GTID on ZOAHS CD

The GTID can be manually entered into ZOAHS CD. An upload process is also available using SSD's Axiom.

## Appendix A: Document History

This section details the history of the document and updates made for each modification.

<b>Release and Date</b>	<b>Form/Process</b>	<b>Page</b>	<b>Update Description</b>
Georgia Enhancements 7.18, February 13, 2009	NA	NA	Original
Georgia Enhancements 8.0, March 31, 2010	NA	All	Updated screenshots for 8.0 Added Appendix B
Georgia Enhancements 8.6, December 17, 2010	ZOACPCH, ZORCPCH	All	Added new column in ZOACPCH for HS credit hours for 8.7 Updated the ZORCPCH process to verify the credits hours entered on ZOACPCH for 8.7
Georgia Enhancements 8.7, March 31, 2011	ZOAHSCD	9-11	Updated screenshot for 8.7 Added GTID information.

## Appendix B: Process Flow
