

## **Birds of a Feather: Technicians Roundup**

Presented by: Macon State College Office of Technical Support

This is an open forum for the discussion of current hardware and software topics concerning classroom and faculty computing environments. Example expected topics include migration to Office 07, the testing and implementation of Windows Vista, and the continued growth of audio/video equipment needs in classrooms. All are welcome to attend and join in on the discussions. This will be a great opportunity to voice concerns and share advice.
