Rise to the Top!

“Rise to the Top” is a powerful presentation that will create confidence and build a strong sense of team spirit. In less than an hour you will gain a perspective to rise and succeed through the daily challenges of life. “Rise to the Top” is based on the principles that have stood the test of time.

The message is based on the simple truth that all of us experience times of difficulty and turmoil. Success is not based on outward circumstances. The secret lies in how you choose to respond to the difficulties in life. “Rise to the Top” presents five attitudes and five actions that will help you prepare for and rise through the times of difficulty that you will face.

We live in a time of rapid change. A shift in the economy, changes in leadership, new technology, outsourcing, and reorganization are facts of life that everyone faces on a daily basis. “Rise to the Top” will help you prepare yourself and grow even in the midst of uncertain and difficult days.

About the Presenter

Don Cole has over 25 years experience in leadership and is the President and CEO of RTT Associates, Inc. Don holds the Project Management Professional certification by the Project Management Institute. He has served in lead management roles in city and county government. He has led successful software development and implementation projects in state government, manufacturing, telecommunications, and defense.

Don is a member of the Georgia Board of Human Resources and is the author of “Grassroots: Leading Others to Accomplish the Impossible”, a book about the election of Sonny Perdue as Georgia’s first Republican Governor since reconstruction. Don holds a Master of Public Administration degree from Georgia Southern University and a Master of Divinity degree from Southwestern Baptist Theological Seminary.

Don and his wife, Leslie, live in Cordele, Georgia where they are actively involved in community and church activities. They have a son who is a graduate of Savannah College of Art and Design.
