In the Release Notes for HRMS Release 3.02 (for Group 1 schools), a couple items were mis-stated:

1) The Age Monthly Maintenance Report (BORR019B) and Employee Count by Paygroup Report (BORR074) were not included in Release 3.02; these will be included in the next release.

2) The Refresh Benefit Snapshot Process (BEN100A) was released, and not documented in the release notes. This process was modified to correct an error regarding COBRA participants.

3) The Continuous Audit Annual Report (BORIF03M) was fixed, but it was not the BORIF03M that was corrected, it was the BORIF03J – Load Continuous Audit Annual Temp Table Process.
