Sources for institution-specific data and USG data

1. Be in touch with your Institutional Research (IR) Office
   IR contact information can be found here:
   [http://www.usg.edu/academic_partnerships_accreditation/committees/view/institutional_research_planning](http://www.usg.edu/academic_partnerships_accreditation/committees/view/institutional_research_planning)

2. Complete College Georgia data files have been distributed to all institutions from the System Office. These files include data related to enrollment, retention, graduation, credit hours attempted and earned, degrees conferred in STEM fields, progress in learning support courses. Much of this data is broken out by several student populations: race, gender, adults, full-time/part-time, Pell recipients, first generation status (from 2015 only), and military status (from 2014 only). Contact your CCG point of contact to inquire about accessing these files.

3. USG123 or USG by the Numbers: [www.info.usg.edu](http://www.info.usg.edu)

4. Research and Policy Analysis reports: [www.usg.edu/research](http://www.usg.edu/research)

5. System data in the Qlik portal: [wwwqliksense.itos.uga.edu](http://wwwqliksense.itos.uga.edu)
   Contact your IR office about gaining access to the Qlik portal.

Sources for state and national data

1. Governor’s Office of Student Achievement: [https://gosa.georgia.gov/downloadable-data](https://gosa.georgia.gov/downloadable-data)
   A variety of data files are available related to high school and postsecondary students in Georgia.

   Here you can find information related to education attainment and income by state and by county.

3. Western Interstate Commission on Higher Education: [http://knocking.wiche.edu/data](http://knocking.wiche.edu/data)
   Projections of high school graduates by state and race/ethnicity.

4. College Board: [https://trends.collegeboard.org/](https://trends.collegeboard.org/)
   Provides national trends in college pricing and financial aid.

   Provides national and state data on a variety of topics related to higher education.

6. Integrated Postsecondary Education Data System: [https://nces.ed.gov/ipeds](https://nces.ed.gov/ipeds)
   Institution-level data; allows you to make comparisons with other institutions outside of GA.
