What is TILT and why is this important?
Are expectations clear for ALL students?

“All of us in the academy and in the culture as a whole are called to renew our minds if we are to transform educational institutions—and society—so that the way we live, teach, and work can reflect our joy in cultural diversity, our passion for justice, and our love of freedom.”

– bell hooks

What common questions do students ask about how to succeed or get an A? (Write your answer in the chat.)
What makes an assignment transparent?

- Real-world connection(s)
- Career connection(s)
- College performance
- Larger concept connection(s)

- How it applies to the real world or their own lives (now & later)
- How it builds skills for their careers
- How it helps their overall academic performance
- How it helps their progress in the course
- How it addresses the Learning Outcomes for the activity and/or the course

Course outcomes
What makes an assignment transparent?

- Real-world connection(s)
- Career connection(s)
- College performance
- Larger concept connection(s)

- how it builds skills for their careers
- how it helps their overall academic performance
- how it addresses the Learning Outcomes for the activity and/or the course
- how it helps their progress in the course
- how it applies to the real world or their own lives (now & later)
What makes an assignment transparent?

**PURPOSE** articulated.
- Relevance to students’ lives
- Connection to learning outcomes

**TASK** defined.
- Students know what to do
- Students know how to do it

**CRITERIA** clear.
- Checklist or rubric
  - Examples of excellence

Congratulations! Your assignment is transparent.
Based on the transparency criteria, how transparent do you think your assignments are at the moment?

Math Test

1. Bob has 36 candy bars. He eats 29. What does he have now?

- Diabetes
- Bob has diabetes.
Objective: Students will demonstrate proficiency with the narrative mode, the four major grammar errors, and purpose and development.

Directions: Students will write an essay of no fewer than 400 words that tells a story of an experience they have had with a particular social problem. Think about the essays covered in class. The essay will be graded using the Narrative Rubric.

Tips: Essays should
- be focused on a single problem or issue and the narrative should be organized around an attempt to relate an experience with issue or problem to the reader.
- be chronologically sound and should focus on a single instance or incident.
- be well-developed and should feature relevant details.
- be edited carefully.
- adhere to MLA formatting (Harbrace Essentials).

Due Date: Sunday, 5 February at midnight. All submissions must be made through Vista, as attachments (.doc, .docx, or .rtf). Please save all files using the following convention: Firstinitial_Lastname_assignment (An example for John Doe: J_Doe_Essay1.docx)
Objectives: Students will write a narrative that identifies a specific local problem. Students will proofread and edit texts and correct errors in mechanics and grammar in accordance with standard written English. Students will recognize and utilize the elements of effective writing including active voice, concrete nouns, precise word choice, strong verbs, and use of descriptive details.

Purpose: Your purpose for this narrative is to tell a compelling story that introduces us to a particular localized problem. Stories are essential to how we learn and how we make change in the world around us. When you address a problem in life, you often do that by telling a story that frames the issue. This is important for establishing logos, ethos, and pathos of your work. Being able to tell a story about a problem can be one of the first steps in solving the problem. Telling a story can allow you to collect data about and analyze the problem. Telling a story can allow you to solicit help and to ensure that the problem gets a voice, whether the problem is a malfunctioning vehicle, an issue at your child’s school, or a local ordinance that you want to see addressed. Tell us a story about a problem in your community.
**Task:** Students will write an essay of roughly 400-750 words that tells a story of an experience they have had with a particular problem in their local context (in their community or area). Essays should be focused on a single problem or issue and the narrative should be organized around an attempt to relate an experience with issue or problem to the reader. Essays should focus on a single event or a set of related events. Essays should feature relevant details and that make certain aspects of the story matter. Essays should be edited carefully. Essays should adhere to MLA formatting. Please save all files using the following convention: Firstinitial_Lastname_assignment. (An example for John Doe: J_Doe_Essay1.docx)

**Criteria:**
The essay will be graded using the Narrative Rubric (linked document). Please see the examples linked in the rubric. Successful essays will 1) identify the problem, 2) show a clear purpose for the story, and 3) feature relevant details that are organized in a clear pattern.
Why is it even more important online?

Online there are questions, Woody

What? Why? How?

Questions everywhere...
Online Assignment Review

Breakout session:
Identify opportunities to make your own assignment more transparent.

Think back to your online assignment. What could you modify to make it fully transparent?
Peer Review, 2016

AAC&U and TILT Higher Ed Collaboration with 7 minority-serving institutions, 1800 students, & 35 faculty:
- 425 first-generation students
- 402 non-white students
- 479 low-income students
- 297 multiracial students

Faculty made just TWO assignments transparent.

**What are the benefits of transparency?**

**RESULTS**

- Academic confidence
- Sense of belonging
- Skills valued by employers
- Student retention
- GPAs

(Winkelmanes et al., 2016; Winkelmes, Tapp, & Boye, 2019)
Envision the future
