He then recognized the three SAC student leaders in attendance. **COMMITTEE OF THE WHOLE: STRATEGIC PLANNING**

Under the leadership of Chair Robert F. Hatcher, the Strategic Planning Committee, meeting as a Committee of the Whole, heard one presentation on Goal Three of the Strategic Plan. Increasing the production of healthcare professionals in the State of Georgia is an important objective of the Board’s strategic goal of increasing the System’s participation in research and economic development. The Associate Vice Chancellor for Planning and Implementation, Shelley C. Nickel, introduced the Executive Director of the Center for Health Workforce Planning and Analysis (the “Center”), Benjamin R. Robinson, who discussed the Center’s role in addressing this critical need. Mr. Robinson discussed the direction of the Center’s future work and the structure it will use to help ensure the state has a healthcare workforce that can meet the needs of all of Georgia’s citizens.

The state’s healthcare workforce currently confronts a variety of concerns in medicine, nursing, behavioral health, as well as in other areas. The University System of Georgia has moved to address these challenges, as is seen in the efforts of the Medical College of Georgia and the University of Georgia to expand medical education in Georgia, and in the System's increasing support for nursing education. The efforts with medical education are already under way and will produce a substantial increase in the number of physicians graduating from the System. For nursing, the System has already seen significant improvements in the education of new nurses for Georgia, having increased the number of nursing graduates by 18% since 2006. However, much work remains to be done to ensure ongoing progress in medicine and nursing and to ensure other healthcare professions also receive the attention they deserve.

The complex nature of health professions education, the role of specific outside accrediting bodies for each health profession, the high costs of running the programs to train these professions, and other unique attributes of health professions education will require the internal capacity to ensure that the University System can navigate the challenging landscape of health professions education. The Center is now in place to help ensure that the System takes a leadership position in addressing the health workforce needs of the state.

The committee recessed at approximately 11:00 a.m.

The Board approved a policy that establishes a statement regarding academic services and supports for students with disabilities. This statement would become a part of the Board of Regents Policy Manual Section 401.05, Students with Disabilities, effective November 10, 2008.

**Background and Rationale:** Currently, the Academic Affairs Handbook provides procedures for working with students with disabilities. The proposed statement would establish clear policy as it relates to access for and services provided to students with disabilities and would assure fairness and
equity across all USG institutions. In addition, this policy would support Appendix 5 C, Building Projects Procedures Manual that states that all government facilities after July 1, 1995 must comply with Americans with Disabilities Act Accessibility Guidelines (‘ADAAG’).

**Understandings:** The proposed policy will support institutional efforts in administering the necessary services and accommodations for students with disabilities as required by state and federal law. The proposed policy statement follows.

**Proposed Policy**

**401.05 Students with Disabilities**

The Americans with Disabilities Act (ADA) requires colleges or universities to make necessary modifications to ensure that the institution does not discriminate or have the effect of discrimination against a qualified student with a disability. The University System of Georgia is committed to providing equal educational opportunities to all students. USG offers students with disabilities a variety of services and accommodations to ensure that both facilities and programs are accessible.

The University System has established sets of common standards and procedures for evaluating and administering accommodations for students with disabilities which can be found in the Academic Affairs Handbook.

The policy is pursuant to the provisions of the American with Disabilities Act. The University System of Georgia is a “public entity” within the meaning of the ADA, 42 U.S.C. § 12131, and 28 C.F.R. § 35.104, and, therefore, subject to Title II of the ADA, and its implementing regulations, 28 C.F.R. Part 35. It is also a “recipient” of “federal financial assistance” within the meaning of Section 504, 29 U.S.C. § 794, and 34 C.F.R. § 104 and is therefore subject to Section 504 and the relevant implementing regulations, 34 C.F.R. Part 104.

   The Board authorized Project No. BR-71-0901, Library Renovation and Speaker Tom Murphy Office, University of West Georgia (“UWG”), with a total project budget of $8,000,000 to be funded from Fiscal Year 2009 State General Obligation Bonds.

   The library, built in the 1960’s, had an addition in 1980, and totals 40,160 square feet.

   According to most recent standards for library planning, preliminary studies indicates major deficiencies exist for seating and studying space. To serve strategic priority needs of UWG, the library renovation will include expanding seating and studying space and addition of information commons.

   The project includes partial renovation of the ground floor (basement) to accommodate materials that are not part of the browsing collection, and renovation of the main floor including renovation to seating and studying space, and the reproduction of the Speaker Tom Murphy office for display of his political collections and memorabilia.

   The estimated construction cost for this project is $6,000,000.

   The project is consistent with UWG’s master plan.

   The University System Office staff and UWG will proceed with design and construction of the project in accordance with Board of Regents procedures.
2. **Authorization of Project No. BR-70-0901, Renovation of Langdale Residence Hall, Valdosta State University**

The 105,000-square-foot 5-story Langdale Residence Hall was constructed in 1967. The original plumbing system and fixtures will be renovated. High efficiency fixtures will permit considerable water savings. A new five-stop hydraulic elevator will also be installed.

The estimated construction cost for this project is $1.5 million.

The project is consistent with VSU’s master plan.

The University System Office staff and VSU will proceed with design and construction of the project in accordance with Board of Regents procedures.

5. **Authorization of Project Modification, Infrastructure-Gas Fire Boiler, University of Georgia**

The Board authorized the Central Utility Plant - Northwest Precinct, University of Georgia, ("UGA") with a total project budget of $6,400,000 to be funded from State General Obligation Bonds.

The Board also modified the Capital Improvement Plan ("CIP") approved at the August 2008 meeting to redirect the funding for the Infrastructure-Gas Fire Boiler project to the Central Utility Plant – Northwest Precinct project.

UGA’s anticipated increased steam capacity has been reduced due in part to recent lower than projected actual use and campus wide energy saving measures enacted to mitigate higher energy costs in newly constructed facilities.

UGA has explored alternative energy sources, including biofuel applications, and has recently completed an independent study that concludes a central utility plant for the Northwest precinct would provide the lowest life-cycle cost for heating and cooling.

This central utility plant is UGA’s top infrastructure priority due the reduction in the need for additional steam capacity and a greater strategic need for additional infrastructure capacity in the Northwest Precinct’s approved and proposed academic and support facilities.

The requested Utility Plant will deliver greater energy savings, contribute to a reduction in required mechanical space in new buildings, reduce energy usage by utilization of higher energy efficiency systems, and reduced water consumption through elimination of cooling towers.

The estimated construction cost for this project is $5,000,000

The University System Office staff and UGA will proceed with design and construction of the project in accordance with Board of Regents procedures.
6. **Authorization of Project List and Appointment of Program Management Firms, Georgia Higher Education Facilities Authority (GHEFA)**

The Board was informed that further action would be required to effectuate the transaction.

These sub-ground leases of portions of the ground leased premises and rental agreements will allow development of student housing facilities for three fraternal organizations recognized by UGA. Further action by the Board may be required to effectuate transactions to allow development of additional student housing facilities for fraternal organizations recognized by UGA on the remainder of the ground leased premises.

9. **Acquisition of Real Property, 90 Martin Luther King Jr. Boulevard, Warner Robins, Macon State College**

The Board authorized the purchase of approximately 3.05 acres of improved real property located at
90 Martin Luther King Jr. Boulevard, Warner Robins, from the Macon State Foundation (the “Foundation”) for $300,522 for the use and benefit of Macon State College (“MSC”).

The above-referenced real property is subject to a reversion to the United States Department of the Air Force (the “Air Force”) in the event that the real property is sold, without consent of the Air Force, or ceases to be used by MSC to expand their off-campus site in Warner Robins.

The acquisition of this real property is subject to completion of an environmental assessment of the real property indicating no significant problems or, if environmental problems are indicated, said problems be mitigated before the real property is acquired.

The acquisition of this real property is subject to completion of a facility condition analysis indicating no significant maintenance, repair or replacement issues.

Acquisition of this real property is consistent with the MSC master plan for Warner Robins. This real property is improved with a 2,996-square-foot one-story frame and stucco building built in 1979, a paved parking area, a fenced playground area, and a lighted basketball and tennis court.

The building will be used by MSC for student activities and storage.

This real property was acquired by the Foundation in August 2008 for $300,522.

Three independent appraisals of the real property are as follows:

10. **Ground Lease and Rental Agreement, Student Housing, Georgia Southwestern State University**

The Board declared an approximately 1.735 acre tract of unimproved real property on the campus of Georgia Southwestern State University (“GSWU”), no longer advantageously useful to GSWU or other units of the University System of Georgia but only to the extent and for the purpose of allowing this real property to be ground leased to the GSW Housing Foundation II, LLC (the “LLC”), for the purpose of providing student housing facilities containing approximately 300 student housing beds, 293 parking spaces, and site amenities.
The Board authorized the execution of a ground lease, including necessary access, use, and construction easements and encroachments, between the Board of Regents, Lessor, and the LLC, Lessee, for the above-referenced approximately 1.735 acres of real property on the campus of GSWU for a period not to exceed 32 years (not to exceed 30 years from the date the LLC obtains a certificate of occupancy for 300 student housing beds and 293 parking spaces and providing a construction period of not more than two years), with an option to renew for up to an additional five years should there be debt outstanding at the end of the original ground lease term, for the purpose of providing student housing facilities containing approximately 300 student housing beds, 293 parking spaces, and site amenities.

The Board authorized the execution of a rental agreement between the LLC, Landlord, and the Board of Regents, Tenant, for the above-referenced student housing facilities, parking, and site amenities for the period commencing on the first day of the first month after the LLC obtains a certificate of occupancy for 300 student housing beds and 293 parking spaces but not earlier than August 1, 2009, and ending the following June 30 at a rent not to exceed $500,000, with an option to renew for one year at a rent not to exceed $900,000, with further options to renew on a year-to-year basis for up to 28 consecutive one-year periods (the total not to exceed 30 years from the date the LLC obtains a certificate of occupancy for 300 student housing beds and 293 parking spaces), with rent increasing no more than 3% for each further option period exercised.

The Board authorized the execution of a site license between the LLC, Licensee, and the Board of Regents, to allow early site access to mobilize and install erosion control, commence site work including clearing and grading, and relocating utilities.

In October 1997, the Board passed a student housing policy that requires the preparation of a comprehensive plan for student housing together with a financial plan to support housing program objectives. GSWU has developed a comprehensive housing plan that is consistent with the policy. The housing market study contained in the comprehensive housing plan indicates demand to support this housing.

In August 2008, the Board authorized the demolition of Complex III on the campus of GSWU. In October 2008, the Vice Chancellor for Facilities, Linda M. Daniels, presented an information item to the Board on a proposed new student housing project to be built on the site of Complex III.

The anticipated schedule is for the LLC to have a bond closing by the end of December 2008, and commence construction immediately thereafter. Construction of 300 student housing beds and 293 parking spaces is expected to be complete in July 2009 to allow occupancy by GSWU at the beginning of Fall Semester 2009.

At the end of the term of the ground lease, the real property, all improvements, and any accumulated capital reserves will become the property of the Board of Regents.
11. Demolition of Ajax Building, 881 Hemphill Avenue, Georgia Institute of Technology

The Board declared the building at 881 Hemphill Avenue on the campus of the Georgia Institute of Technology (“GIT”), to be no longer advantageously useful to GIT or other units of the University System of Georgia and authorized demolition and removal of this building.

The Board will request the Governor to issue an Executive Order authorizing the demolition and removal of this building from the campus of GIT.

This building was constructed by Lester Maddox in 1947 as an ice cream parlor and grill. It later became known as the Pickrick Restaurant. The restaurant was targeted with sit-ins during the civil rights movement. Mr. Maddox sold the building to the Board of Regents for the use of GIT in October 1965. GIT has used the building as a job placement center and for GIT Campus Police Annex.

GIT is adhering to the requirements of the Georgia Environmental Policy Act (“GEPA”) and the appropriate State Stewardship Review.

A hazardous materials survey and assessment has been conducted and has identified recommendations for the proper management and disposal of asbestos-containing materials, lead based paint, and other hazardous materials during demolition to ensure compliance with environmental regulations.

While the building is eligible for listing on the National Register of Historic Places, the demolition of the building is in accordance with the GIT master plan as part of expansion of the GIT Eco-Commons, a master plan objective to manage storm water runoff and increase the amount of open green and recreational space opportunities.

The Board adopted the Resolution prepared by the Revenue Division of the Department of Law covering the issuance of 2008C and 2008 D General Obligation Bonds (“G. O. Bonds”) by the State of Georgia through the Georgia State Financing and Investment Commission for use in funding projects for the University System of Georgia.

13. **Executive Session: Acquisition of Real Property**

At approximately 10:41 a.m. on Monday, November 10, 2008, Chair Benjamin J. Tarbutton, III called for an executive session for the purpose of discussing possible real property acquisitions. With motion properly made and variously seconded, the Regents who were present voted unanimously to go into executive session. Those Regents are as follows: Chair Benjamin J. Tarbutton, III, Vice Chair William H. NeSmith, Jr., and Regents William H. Cleveland, Felton Jenkins, James R. Jolly,
Donald M. Leebern, Jr., and Willis J. Potts, Jr. Chair of the Board, Richard L. Tucker, and Vice Chair of the Board, Robert F. Hatcher the Senior Vice Chancellor for External Affairs, Thomas E. Daniel, the Vice Chancellor for Facilities, Linda M. Daniels, the Director of Real Estate Services, Joseph J. Fucile, the Assistant Vice Chancellor for Legal Affairs, Daryl Griswold, the Associate Vice Chancellor, Development & Administration, Peter J. Hickey, the Executive Director of Real Estate ventures, Marty Nance, and the Chief Operating Officer, Robert E. Watts. Kennesaw State University President Dan Papp, Kennesaw State University Vice President for University Advancement, Wes Wicker, Kennesaw State University Marcus Professor of Public History & Holocaust Studies, Dr. Catherine Lewis, Georgia State University President Carl Patton, Georgia State University Senior Vice President for Finance & Administration, Jerry Rackliffe, Georgia State University Assistant Legal Advisor E. Neal Bateman III, Georgia State University Senior Vice President for External Affairs Tom Lewis were also in attendance during a segment of the meeting. In accordance with H.B. 278, Section 3 (amending O.C.G.A. § 50-14-4), an affidavit regarding this executive session is on file with the Office of the Secretary to the Board.

At approximately 11:17 a.m., Chair Tarbutton reconvened the committee meeting in its regular session and announced that no action had been taken in executive session.

The Board approved the acquisition of real property discussed in executive session.

14. Information Item: Update of Authorization of the Chair of the Real Estate and Facilities Committee to Approve Amended Rent Amounts

The Vice Chancellor for Facilities, Linda M. Daniels, updated the Committee on the authorization granted by the Board at the October 2008 meeting for the Chair of the Real Estate and Facilities Committee to approve amended rent amount for the Armstrong Student Union project to $800,000 for the initial term, and to $1,450,000 for the first renewal term.

15. Disposition of Real Property, Georgia Institute of Genetics

Walk-on: The Board declared up to approximately 3.30 acres of unimproved real property located on the South side of Highway 20 to be no longer advantageously useful to the University System of Georgia (“USG”) but only to the extent and for the purpose of allowing the conveyance of this real property to Bartow County for development of a shared storm water detention facility.

The Board authorized the conveyance of the above-referenced real property to Bartow County, subject to a reversion of the property should the property no longer be used by Bartow County for a shared storm water detention facility.

In June 2008, the Board approved the sale of up to 26 acres of unimproved real property to Bartow County for development of a civic center.

Design of the civic center and further refinement of the land use plan confirms that less than 26 acres
is needed for the civic center if alternatives for separate storm water detention are provided.

Bartow County has agreed to maintain a shared storm water detention facility that would serve the storm water detention needs of the Institute of Genetics real property. This shared facility will enhance the value of the remainder of the Institute of Genetics property and will reduce the need for separate storm water detention facilities for each incremental future potential development.

Consideration for this conveyance is the development, at no cost to the Board of Regents, of a shared storm water detention facility, and the enhanced valuation it will provide to the remaining property.

The committee meeting adjourned at approximately 11:21 a.m.

**CHANCELLOR’S REPORT**

In brief remarks, Chancellor Erroll B. Davis, Jr. stated that the System would continue to focus on the Board’s strategic agenda and make measured responses to the economy. He noted they will need to reassess and potentially slow some of the System’s initiatives, but any short-term changes would still support long-term objectives. Chancellor Davis highlighted several activities being held including Georgia Apply to College week, National Distance Education Week and the upcoming International Education Week. He noted the National Distance Education Week would draw attention to the Georgia ONmyLINE program, and the national recognition that the System’s study abroad efforts have received. The Chancellor also mentioned two other System developments, the appointment of Dr. Mark Becker as the president-elect of Georgia State University and the System’s enrollment increases. The System’s fall 2008 enrollment set another record: 282,978 students, up 4.8 percent from last fall, and its full-time enrollment (“FTE”) is up 5.1 percent, to 247,168. A copy of the full report is on file in the Office of Research and Policy Analysis.

**UNFINISHED BUSINESS**

There was none.

**NEW BUSINESS**

The Board approved the request of President Timothy S. Mescon that Columbus State University be authorized to award an Honorary Doctorate of Humane Letters to Maxine Schiffman at the university’s December 2008 commencement.

The Board authorized Chancellor Erroll B. Davis, Jr. to take any actions necessary to protect the interests of the Board between the June meeting and the scheduled January 2009 meeting on behalf of the Board, with such actions to be ratified by the Board in January.

Regent Kenneth R. Bernard, Jr., who served as a judge advocate general in the U.S. Marine Corps, took an opportunity to salute to all veterans in honor of Veteran’s Day.
Chairman Tucker appointed a Regents’ Committee to review five possible sites for the shared services center. Those Regents are Regents Elridge W. McMillan, Chair, James R. Jolly, and Allan Vigil.

PETITIONS AND COMMUNICATIONS

The Secretary to the Board announced that the next regular meeting of the Board is scheduled for January 13-14, 2009, in Atlanta.
