Introduction to the Financial Aid Reporting System

Over the past three years, the System Office has been working in conjunction with institutional financial aid directors on a new data collection effort to track student financial aid information. Previous data collection efforts were survey-based and concentrated on aggregated institution-level data. However, current System needs require a more granular approach—one that permits analysis of student-level data. With this new database, the System Office will be able to answer financial aid policy questions with much greater accuracy. Research questions include the effects of need and non-need based financial aid on student retention and graduation and the performance of students receiving various forms of HOPE scholarships. Financial aid data will be collected annually on an award year basis beginning in Fall 2001.

Each data element in this dictionary contains the following fields:

Element Title and Definition: Describing the data to be collected.

Codes and Categories: Describing the element size and valid codes and formats for the data.

Banner Reference: A description of the Banner forms and tables from which the data are drawn. Institutions not using Banner will be given a database layout file to submit their data.

Comments/Examples: Where relevant, an explanation of what is to be included in the data elements.

Record Type: The financial aid database will be an annual extraction of financial aid award year data. However, in order to facilitate comparability with the Student Inventory Reporting System (SIRS), some data will be collected for each term that the student is enrolled in the award year. Data defined as ‘Year’ record types are collected once for each student. Data defined as ‘Term’ record types are collected for each academic term the student is enrolled for that award year.

Date Issued, Date of Last Update and Notes on Changes: Provide an audit trail for changes to data elements in the dictionary.

### CODES AND CATEGORIES:

1. **Element Size:** 4

### BANNER REFERENCE:

ROAINST--ROBINST_AIDY_CODE

### COMMENTS/EXAMPLES:

Note that an academic year as defined by the Board of Regents may differ from the ‘award year’ defined by the institution. The BOR academic year calendar includes Summer-Fall-Spring, while most institutions define an award year as Fall-Spring-Summer.

The System Office defines an award year as the Fall-Spring-Summer semesters.
