# How and When to use Prompts

**All\* queries will prompt you to enter an Employee ID.**

The screenshot shows a dialog box titled "BOR\_HISTORICAL\_JOB". Below the title is a horizontal line. Underneath the line is a text label "Empl ID" followed by an empty rectangular input field. At the bottom of the dialog box are two buttons: "OK" on the left and "Cancel" on the right.

\*Except for the BOR\_HISTORICAL\_NAMES Query. It has three optional prompts:

1. Empl ID
2. First Name (Like)
3. Last Name (Like)

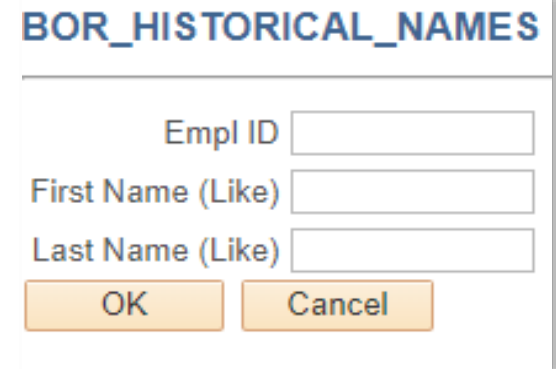

# Locate Employees Without their Employee ID

## BOR\_HISTORICAL\_NAMES – Prompts

Use this query for the following purposes:

1. If you **do not** have the employee's ID.
  - a. Use the First Name (Like) prompt
  - b. Use the Last Name (Like) prompt
  
2. If you **do** have the Employee's ID but would like to confirm that it is indeed the correct employee.
  - a. Enter the Employee ID in the Empl ID prompt and confirm that it is associated with the employee you are searching for.
  - b. If the name doesn't match, use the First and Last Name prompts to locate the correct Employee ID.

The screenshot shows a dialog box titled "BOR\_HISTORICAL\_NAMES". It contains three input fields: "Empl ID", "First Name (Like)", and "Last Name (Like)". Below the input fields are two buttons: "OK" and "Cancel".

# Locate Employees Without their Employee ID

## **BOR\_HISTORICAL\_NAMES – Prompts (continued)**

3. The First Name and Last Name prompts can be used one at a time (individually) or at the same time.

**Example:** If you are looking for an employee named John Doe, you have the option to:

- Enter Only 'John' in the First Name (Like) prompt
- Enter Only 'Doe' in the Last Name (Like) prompt, or
- Enter the two above at the same time and run the query.

4. For employees who only worked prior to ADP, you will need to use this query to retrieve their seven (7) digit Employee ID.

**Note:** Old PeopleSoft/Pre-ADP employees used a six (6) digit employee ID. However, they were still assigned a seven (7) digit employee ID, which you will need to use for the prompts and can be found here.

# Locate Employees Without their Employee ID

## **BOR\_HISTORICAL\_NAMES – Prompts (continued)**

### **Additional Notes**

#### 1. Pre-ADP / Old PeopleSoft Employees

- 6 Digit Employee ID
- Data from 1998 (sometimes 1997) through July 2009

#### 2. ADP Employees

- 7 Digit Employee ID
- Data from August 2009 – date of Conversion to PeopleSoft (dependent upon institution's cohort)

#### 3. Name Prompts are Case-Sensitive

- Values have to be exact, including names with apostrophes, hyphens, accent marks, etc.
- If you enter both names at once and the query doesn't yield any results, try only using one name prompt and then sort through the results returned to find the name you are looking for.
