6:00pm-6:30pm  Check-in

6:30pm-6:50pm  Welcome

President Tricoli and Student Government President Jean-Francois Koly Onivogui, Georgia Perimeter College-Clarkston

A welcome and introductions were given by Student Government President, Jean-Francois Koly Onivogui. Mr. Koly Onivogui introduced the President of Georgia Perimeter College, Anthony Tricoli. Mr. Tricoli also welcomed the SAC students to the Georgia Perimeter College campus and talked a little bit about what has been happening at GPC and the changes he has been able to make at GPC since becoming the President.

6:50pm-7:15pm  Introductions/Icebreakers

Angela Avery-Jones, Georgia Perimeter College-Clarkston

7:15pm-8:15pm  Question and Answer with Chancellor Davis

Chancellor Erroll B. Davis Jr.

Chancellor Davis spoke briefly about how happy he was to be at the SAC conference and how glad he was to have the opportunity to meet with the SAC students again this year. He opened up the floor for questions and several topics were discussed including: having a student representative on the legislative budget committee, the energy management initiative being headed up by President Adams from UGA as part of the Chancellor’s strategic projects and how the initiative will be funded, how students can be leaders on the topic of energy on their own
individual campuses, the University System of Georgia restructuring of the core curriculum (according to the strategic plan), the new state purchasing card regulations and how those regulations have the potential to affect retention and lastly will the system be planning to open more new campuses to help with the projected enrollment (strategic plan goal #2) or will the system attempt to help smaller campuses in the system get larger.

8:15pm-9:00pm  Review of 2007-2008 SAC Goals/Committee Work
Jeff Jacobs, Clayton State University

Mr. Jacobs broke up the students into their goals committees and then asked the committee chairs to provide a brief report of what each committee had been working on since the fall SAC meeting. More time was given for committees to meet on Saturday.

Saturday, January 26, 2008

8:45am-9:30am  Teambuilder
Eddie Howard, Augusta State University

9:15am-9:45am  2007-2008 SAC Goals/Committee Work

9:45am-10:00am  Break

10:00am-10:45am  SAC Committee Reports
Iris Shanklin, Atlanta Metropolitan College

Each committee gave an update about what they had accomplished so far this semester, what they are currently working on and what they anticipate working on for the remainder of the academic year. Please see the SAC Goals 07-08 document for updates.

Also, Anu Parvatiyar and Eddie Lovett discussed their experiences of attending the Board of Regents meeting in January.

10:45am-11:30am  Strategic Plan Application/Feedback
Wes Thomas, North Georgia College & State University

Students were provided with a copy of the USG Strategic Plan document (http://www.usg.edu/regents/strategic/strategic_plan2007.pdf)

Regent Potts asked for feedback specifically on the following topics:
- Financial Aid
- Class Availability
- Retention

Mr. Thomas suggested following up with the university president’s on campus if they are chairing one of the system-wide projects for the University System of Georgia to get an update on that system-wide project that you can bring to the April SAC meeting. There is a list of the system-wide projects in the Strategic Plan document. One of the system-wide projects not listed
in the Strategic Plan document is the student behavioral and mental health committee being chaired by the president of Clayton State University.

**11:30am-12:30pm  Question and Answer with Regent Potts**  
*Regent Willis Potts*

Regent Potts talked about the goals and objectives SAC has; Regent Potts believes the goals and objectives SAC has are good. He also talked about how the goals and objectives of SAC tie into the USG strategic plan in ways such as transferability and increased enrollment. Regent Potts asked students to share stories about issues on USG campuses regarding financial aid. He also asked those students who have had good experiences with their financial aid offices to email Tonya Lam those experiences ([Tonya.Lam@usg.edu](mailto:Tonya.Lam@usg.edu)).

Regent Potts asked each SAC student to communicate with him why their individual campus is a great institution and what they like about their campus in an effort to publicize institutions other than the research institutions as the system needs to publicize the other great systems in the state.

Regent Potts talked about and presented the assignment he gave SAC this fall: to dig up data about where the USG institution’s tuition rates fall among the 16 southern state’s public institution’s tuition. The data proves that Georgia has the lowest average tuition rate (for in-state undergraduate tuition) among the 16 southern state’s public institutions. One of the students found information that claimed the state of Georgia is ranked 8th in the nation in the lowest average tuition rate.

Regent Potts again asked SAC to gather data about all of the anecdotal information and complaints they have in an effort to legitimize their goals.

**12:30pm-1:30pm  Lunch/Institutional Round Tables**  
*Al Harris, Armstrong Atlantic State University*

SAC broke up into institutional sizes and discussed issues common to their institutions in an effort to make students aware of the issues faced by each institution size.

**1:30pm-2:30pm  Legislative Update/Academic Freedom Presentation**  
*Tom Daniel and Sandra Stone, Board of Regents of the University System of Georgia*

Mr. Daniel provided handouts of the Governor’s Recommendations for the FY 2009 Budget. He said this information is what the Board of Regents of the University System of Georgia will be presenting and advocating for during this year’s legislative session. For more information please refer to the memorandum written by the Chancellor and handed out at the conference.

Mr. Daniel also spoke about the recent Board of Regents January retreat, and said there was a lot of discussions focused on how to address the needs of students within the university system. He talked about how the Board of Regents strategic plan is focused on current and future system students. Mr. Daniel also talked about how Chancellor Davis makes time when he visits
camps to meet with students and how that is a real testament to his ability to be a great Chancellor. He also noted that he personally has had many interactions with individuals in state government who previously served on SAC and how great it is that students on SAC are on SAC.

In terms of legislation, Mr. Daniel spoke about the following:

- Intellectual diversity bill: House Bill 154; not in favor of the bill (chancellor and BOR); are interested in the idea of intellectual diversity, the BOR will be dealing with it internally/administratively instead of asking the general assembly to dictate it for them; wants to limit the general assembly’s dictation of how the BOR runs the USG institutions (i.e. the state is trying to dictate what should be happening/creating policies for higher education and the BOR does not want that to happen).
- Carry-forward legislation: legislation addressing being able to carry-forward technology funds and continuing education fees that the BOR does now; the BOR wants to continue to carry-forward those funds
- Optional retirement plan: affects USG employees
- Firearms on campus bill: appears this legislation will not move forward for university system campuses
- A legislative proposal change from age 62 to age 60 regarding: if space is available, institutions allow adults ages 62 and above to attend any USG institution for free (excludes professional schools, currently)
- Following a bill created by the Speaker of the House: about the bridge program: dual diploma (for the 9th graders that begin this year, there is one diploma track); the USG will be following that
- International Baccalaureate-adopt a policy (the BOR will be asked to look at it at the next meeting)

Ms. Stone spoke about academic freedom and asked students to share what experiences they have had on their campuses with the issue of academic freedom or whether or not they have had any issues. Ms. Stone also provided several handouts talking about what the USG currently has as policies about academic freedom and what the American Council on Education has asked institutions to adopt regarding a stance on academic freedom.

2:30pm-2:45pm Break
