Announcement

TO: PeopleSoft Financials Users

POSTED: March 25, 2016

SUBJECT: eProcurement & Purchasing Module Enhancement Review Session

One of the benefits of the PeopleSoft Financials 9.2 upgrade and Oracle’s continuous release delivery methodology is gaining the availability of new features and functionality without having to do a major application upgrade. The GeorgiaFIRST Financials support team is reviewing the functionality and enhancement options that have not yet been made available within each module.

To ensure that our Operational Roadmap is aligned with the priorities of the institutions we support, we are planning to host a series of in-person Module Enhancement Review Sessions. These sessions should be attended by institutional module experts and decision makers.

The focus of these sessions will be to:

- Review 9.2 configuration or functionality available, but not yet implemented
- Review upcoming configuration or functionality that will become available with the next Annual Oracle Maintenance Release (Fall 2016)
- Measure institutional interest
- Prioritize desired functionality

The results and deliverables from these sessions will allow us to develop a Module Roadmap and implementation plan.

The first Module Enhancement Review Session is currently being planned as follows:

**Module(s):** eProcurement & Purchasing  
**Date:** April 20, 2016  
**Location:** Information Technology Services (ITS), 2500 Daniels Bridge Rd, Bldg. 300, Athens, GA 30606  
**Rooms:** 104 & 105  
**Time:** 9:00 am to 4:00 pm (classroom opens at 8:30)

We encourage all institutions to have representation at this session so that interest in and prioritization of functionality discussed can be accurately measured.
