Augusta University Financials release 2.04, which is scheduled to be applied on June 7, 2025, includes the following updates:

- Application of PeopleTools 8.61.11.
- Updates to nVision reports.
- Resolved Known Issue: 9.2.173.Other: Issue When Using Type Ahead/Autocomplete Functionality.

Release 2.04

General Information

Known Issue Information

Resolved Known Issue:

KI9.2-173_Other– Issue When Using Type Ahead/Autocomplete Functionality

RESOLUTION: As of Release 6.06, dated June 7, 2025, an Oracle fix was applied to resolve this issue. PeopleSoft will now display accurate results when utilizing a search field for data containing a comma.

ORIGINAL KNOWN ISSUE: Following Release 6.00, an Oracle bug exists that affects the Type Ahead/Autocomplete functionality for search fields containing a comma. When utilizing a search field containing a comma, PeopleSoft will display ::: characters instead of the comma. If users select the search result, an error message may display, or the search result may return a "No matching values were found" message.

Table changes- N/A

Sometimes releases include table changes that may affect third-party integrations. ITS recommends that all institutions using institution-specific integrations such as SAS, Business Objects, or other reporting software test these integrations prior to the

release.

Institution resources responsible for local integrations and reporting may notice the new fields (table columns) in the database. ITS is not changing any business process or PeopleSoft Financials functionality as a result of these table changes.

Maintenance downtime

GeorgiaFIRST and Augusta University PeopleSoft Financials will be unavailable from **11:00 p.m. on Friday, June 6 until 10 a.m. on Saturday, June 7, 2025** for the application of Releases 6.06 for GeorgiaFIRST and 2.04 for Augusta University.

The following applications will not be available during this scheduled maintenance window:

- GeorgiaFIRST PeopleSoft Financials production (FPROD)
- Augusta University PeopleSoft Financials production (AUFPROD)
- PSQUEST access
- GeorgiaFIRST Marketplace access
- Expenses and ePro Self-Service Portal
- Health eShop access

NOTE: ITS recommends all users clear their Temporary Internet Files (browser cache) before logging back into the system. It is highly recommended all users clear their browser cache often, especially after an update is applied to the Production database. For more information on how to clear browser cache, click [here](#).

Module Specific Information

nVision

Navigation: Reporting Tools > PS/nVision > Define Report Request
