

## PO.020.220 – CREATING A PURCHASE ORDER CHANGE ORDER

<b>Purpose</b>	To create a Purchase Order Change Order.
<b>Description</b>	A Change Order allows users to update information on a purchase order that has already been sent to a supplier. Change Orders can be created manually for any field on a purchase order or automatically when a Dispatched PO requires modifications as defined on the Change Order Template.
<b>Security Role</b>	<b>BOR_PO_MAINTAIN</b>
<b>Dependencies/Constraints</b>	<ul style="list-style-type: none"> <li>• Purchase Order must be in a Dispatched status for the system to create a Change Order.</li> <li>• Change orders cannot be created once a purchase order has been sourced to a Voucher.</li> <li>• Security Administrators need to set up the user's role and appropriate user preference.</li> </ul>
<b>Additional Information</b>	Once a change order is created, the purchase order cannot be sent to the supplier via a dispatch method of EDX (used for GeorgiaFIRST Marketplace Purchase Orders). Users will need to reach out to the supplier directly via some other method to dispatch the changed purchase order.

## Procedure

Below are step by step instructions on creating a Change Order for a purchase order.

Step	Action
1.	Click the <b>NavBar</b> icon.
2.	Click the <b>Menu</b> icon.
3.	Click the <b>Purchasing</b> link.
4.	Click the <b>Purchase Orders</b> link.
5.	Click the <b>Add/Update POs</b> link.
6.	Click the <b>Find an Existing Value</b> tab.
7.	Enter or search for an existing purchase order. The system navigates to the Add/Update POs page.
8.	<p>Click on the <b>Change Order</b> icon next to the PO Status to initiate a manual change order. The system opens purchase order fields to edit. Users can modify one or more of the following fields on the PO Header:</p> <ul style="list-style-type: none"> <li>• Billing Location</li> <li>• Buyer</li> <li>• Contact</li> <li>• <b>Add Comments*</b></li> <li>• Currency Code</li> <li>• Purchase Order Reference</li> <li>• Payment Terms ID</li> <li>• <b>Ship Via*</b></li> <li>• <b>Add ShipTo Comments*</b></li> <li>• Tax Exempt</li> <li>• Tax Exemption Number</li> </ul> <p><b>* Updating these fields will automatically create a change order</b></p> <p><b>Note:</b> The Supplier ID cannot be changed when a PO is Dispatched because a purchase order is specific to a supplier. If users need to create a PO for a different supplier, first cancel this PO and then create a new purchase order with the different supplier. For more information, see <a href="#">PO.020.260 – Cancelling a PO/PO Lines</a>.</p> <p><b>Note:</b> If a user selects the Send to Supplier checkbox for a comment after a purchase order was dispatched, this will automatically create a change order.</p>

Step	Action
9.	<p>Under the <b>Details</b> tab, users can modify one or more of the following fields:</p> <ul style="list-style-type: none"> <li>• <b>PO Quantity*</b></li> <li>• <b>Category*</b></li> <li>• <b>Price*</b></li> <li>• Line Status</li> <li>• Buy Agree ID</li> <li>• Buying Agreement Line Number</li> <li>• More Information</li> <li>• Item ID</li> <li>• Supplier Item ID</li> <li>• Manufacturer ID</li> <li>• RFQ ID</li> <li>• RFQ Line</li> <li>• Unit of Measure</li> </ul> <p><b>*Updating these fields will automatically create a change order</b></p> <p><i><b>Note:</b> If a user selects the Send to Supplier checkbox for a comment after a purchase order was dispatched, this will automatically create a change order.</i></p>
10.	<p>Under the <b>Ship To/Due Date</b> tab, users can modify one or more of the following fields:</p> <ul style="list-style-type: none"> <li>• <b>Due Date*</b></li> <li>• <b>Ship To location*</b></li> <li>• <b>Price*</b></li> </ul> <p><b>*Updating these fields will automatically create a change order</b></p>
11.	<p>On the <b>Statuses</b> tab, users can cancel items that are no longer needed by clicking the red 'x' next to each item.</p> <p><i><b>Note:</b> If a user attempts to cancel a line or a schedule that was received (even partially), the system adjusts the quantity of the line or schedule and creates a change order.</i></p>
12.	On the <b>Attributes</b> tab, users can modify the Amount Only checkbox.
13.	<p>After all edits have been made, click the <b>Save</b> button.</p> <p><i><b>Note:</b> The purchase order may need to go through approval workflow and budget checking again prior to being able to dispatch it.</i></p>

Step	Action
14.	<p>Verify a sequence number appears next to Change Order in the header.</p> <p><b>Note:</b> <i>A change sequence number tracks the sequence of changes made within each purchase order at the header, line, and schedule levels. After the initial dispatch of a purchase order, a change sequence number is assigned to each change.</i></p> <p><i>Each time changes are made to the header, line and/or schedule values, the sequence number increases by 1. These sequence numbers do not appear on the purchase order to the supplier but appear in the purchase order history.</i></p>
15.	Click the <b>Dispatch</b> button. The Dispatch Options window appears.
16.	Click <b>OK</b> .
17.	The system will ask “Would you like to wait for confirmation that the PO Dispatch process has completed?” Select Yes or No depending on preference.
18.	<p>Generate a copy of this purchase order to send to the supplier. For more information, see <a href="#">PO.020.210 – Printing Purchase Orders</a>.</p> <p><b>Note:</b> <i>information on the purchase order that was modified as part of the change order now displays on the printed version in bold.</i></p>
