## Resolved: Known Issue - KI9.2-116\_BP HCM Import Calculates J Paygroup Budgets Incorrectly

**UPDATED:** April 5, 2019

**STATUS:** Resolved

---

**NAVIGATION:** BOR Menus > BOR Budget Prep > Budget Prep Processing > HCM Import

An issue was identified which caused the HCM Import process to calculate J Paygroup budgets incorrectly. The calculation needed to be based on the “10M Hours per Year” field, but the calculation was using the 12 month “Hours per Year” field.

**RESOLUTION:** An ad Hoc Release applied to production this morning fixed Known Issue KI9.2-116\_BP. The HCM Import process was updated to correct J Paygroup Calculations. As of today, affected positions can be re-imported and budgets will calculate correctly.

**ORIGINALLY POSTED:** April 4, 2019
