

## GeorgiaFIRST Financials 6.08 & Augusta University 2.06 RELEASE NOTES

GeorgiaFIRST Financials Release 6.08, and Augusta University Financials Release 2.06, which are scheduled to be applied on September 12, 2025, include the following updates:

- Application of PeopleTools Patch 8.61.13.
- Resolved Known Issue: 9.2.174\_Other: Problem with “Notify” Button Functionality

### Release 6.08 & Release 2.06

#### General Information

##### Known Issue Information

##### Resolved Known Issue:

KI9.2-174\_Other-Issue with “Notify” Button Functionality

**RESOLUTION:** The issue with the “Notify” button was resolved through a fix that addressed the underlying Oracle bug. Users should now be able to access and use the “Notify” functionality across all affected pages without encountering errors.

**ORIGINAL KNOWN ISSUE:** Following Release 6.00, an Oracle bug exists that affects the "Notify" button, which is present on many pages across the system. The button is not functioning on any of these pages and displays the message: "You are not authorized for this page."

## Table Changes- N/A

Sometimes releases include table changes that may affect third-party integrations. ITS recommends that all institutions using institution-specific integrations such as SAS, Business Objects, or other reporting software test these integrations prior to the release.

Institution resources responsible for local integrations and reporting may notice the new fields (table columns) in the database. ITS is not changing any business process or PeopleSoft Financials functionality as a result of these table changes.

### Maintenance Downtime

GeorgiaFIRST and Augusta University PeopleSoft Financials will be unavailable from **11:00 p.m. on Friday, September 12 until 12 p.m. on Saturday, September 13, 2025**, for the application of Releases 6.08 for GeorgiaFIRST and 2.06 for Augusta University.

The following applications will not be available during this scheduled maintenance window:

- GeorgiaFIRST PeopleSoft Financials production (FPROD)
- Augusta University PeopleSoft Financials production (AUFPROD)
- PSQUEST access
- GeorgiaFIRST Marketplace access
- Expenses and ePro Self-Service Portal
- Health eShop access

NOTE: ITS recommends all users clear their Temporary Internet Files (browser cache) before logging back into the system. It is highly recommended all users clear their browser cache often, especially after an update is applied to the Production database. For more information on how to clear browser cache, click [here](#).

## Module Specific Information

## Travel and Expenses

### **Paid expense reports autosaving in FLUID changing accounting date**

**Navigation:** Employee Self Service Homepage > Expense Report History Tile

**Issue:** ITS identified an issue where viewing an attachment from a paid expense report accessed via the Expense Report History tile on the Employee Self Service homepage caused the expense reports "Last Saved Date" and "Accounting Date" to update to the current date when the user clicked Done on the attachment pop-up.

**Solution:** Following the PTOOLS 6.08 release, this page will no longer autosave when users view attachments through this navigation path, preventing unintended date updates.

## Other Notes

### **Next Scheduled Releases**

TBD - PSFIN 6.10/AUFIN 2.08

You will receive a reminder when these updates occur.
