

GeorgiaFIRST Query Training

Using Web Query in PeopleSoft Financials v8.9 for Advanced Users

When:

Wednesday, November 17, 2010; 9:00 a.m. – 4:30 p.m.

Where:

OIIT, 2500 Daniells Bridge Road, Building 300, Athens, GA 30606

Session Description:

This course is an advanced course on how to use Web Query in PeopleSoft Financials v8.9. The Web Query tool is accessed through the “BOR Reporting Instance” menu selection in the production database. This course is designed for individuals who have previous experience using PeopleSoft Web Query as part of PSFIN or PSHRMS, or for those individuals who have completed the Beginner’s Web Query course. This course covers how to create advanced queries, how to build run-time prompts, how to use aggregate functions, and how to create queries using multiple tables.

Objectives:

- Use the “is null” condition type in a query
- Use the “in tree” condition type in a query
- Group and reorder criteria
- Define and apply run-time prompts for a query
- Identify the different aggregate function types
- Specify “having” criteria
- Create a Record Hierarchy Join
- Create a Related Record Join
- Create an Any Record Join
- Create a Left Outer Join
- Define Union
- Define Expression

Prerequisites:

- “Using Web Query in PeopleSoft Financials v8.9 for Beginning Users”, or
- Previous experience using Web Query in PSFIN or PSHRMS

To Register:

You must register for this class no later than November 10, 2010. All classes have a minimum registration of six participants, and a maximum of 16 participants. All registered participants will receive training materials one week prior to the class.
