Next Generation Accuplacer Test Scores

Introduction

Beginning January 28, 2019, the classic Accuplacer tests will no longer be available. The Next Generation Accuplacer Quantitative Reasoning, Algebra & Statistics test will replace the Accuplacer Elementary Algebra test. The Next Generation Accuplacer Reading test will replace the Accuplacer Reading Comprehension test. The Accuplacer WritePlacer test is remaining the same. This change in testing format will require all University System of Georgia (USG) institutions to establish new Banner validation codes for the new tests.

Description

The Next Generation Accuplacer Quantitative Reasoning, Algebra & Statistics test and Reading test will replace the Accuplacer Elementary Algebra and Reading Comprehensions tests used for determining Learning Support placement or exemption status.

Purpose

The procedures recommended in this business practice are designed to provide the steps required to store the Next Generation Accuplacer test scores in Banner. Test codes must be created in Banner and these codes are used when entering the test scores per student on the Test Score Information Page (SOATEST).

Beginning with Spring 2019 Midterm, these test scores will be collected by the Academic Data Collection (ADC). This business practice includes instructions for translating the Banner test codes to the valid values collected by the ADC.

Target Audience

Administrators and data entry staff responsible for creating and maintaining Accuplacer test scores.

Purpose and Scope of Document

This document explains how to enter test scores and includes the following topics:

- Creating test codes
- Entering test scores
- Translate on SOAXREF for the ADC

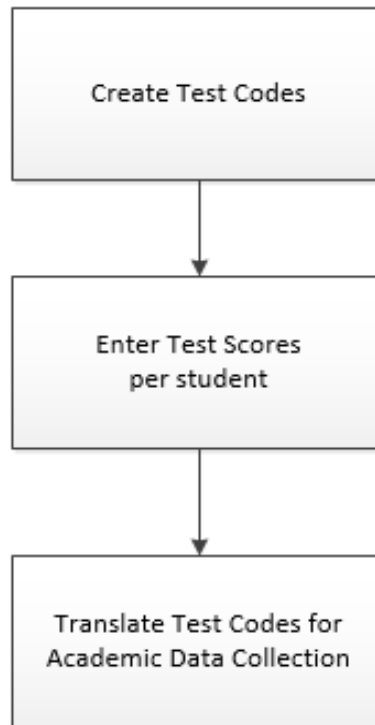

More Information and Support

For emergency, business interruption or other production down situations, immediately call the ITS Helpdesk at (706) 583-2001 or 1-888-875-3697 (toll-free within Georgia). For noncritical issues, log in with your username and password at <https://usg.service-now.com/usgsp> to submit a ticket.

Resources

Information on ITS Service Level Guidelines and the maintenance schedule can be found at http://www.usg.edu/customer_services/service_level_guidelines. The operational status of USG IT systems and services can be found at <http://status.usg.edu>.

Process Flow

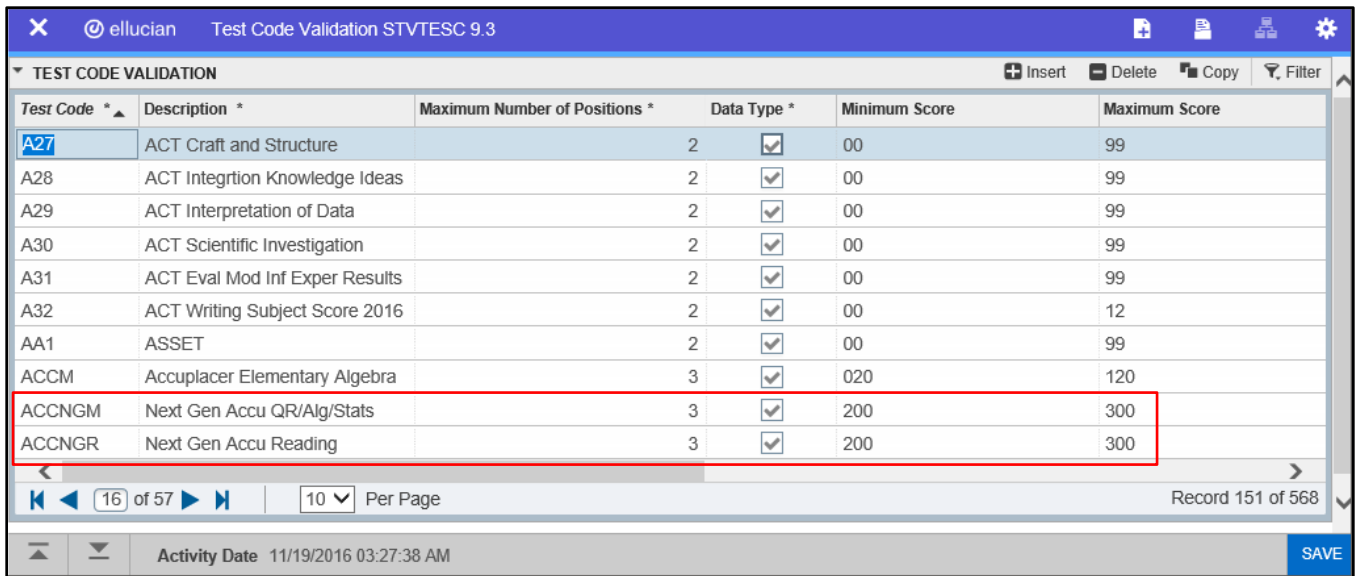

Entering Accuplacer Test Scores

Create test codes (STVTEC)

Create the test codes in the Test Code Validation Form (STVTEC). Refer to the Required Values table below.

Check the Data Type indicator to indicate that these are numeric test scores.

Test Code *	Description *	Maximum Number of Positions *	Data Type *	Minimum Score	Maximum Score
A27	ACT Craft and Structure	2	<input checked="" type="checkbox"/>	00	99
A28	ACT Integration Knowledge Ideas	2	<input checked="" type="checkbox"/>	00	99
A29	ACT Interpretation of Data	2	<input checked="" type="checkbox"/>	00	99
A30	ACT Scientific Investigation	2	<input checked="" type="checkbox"/>	00	99
A31	ACT Eval Mod Inf Exper Results	2	<input checked="" type="checkbox"/>	00	99
A32	ACT Writing Subject Score 2016	2	<input checked="" type="checkbox"/>	00	12
AA1	ASSET	2	<input checked="" type="checkbox"/>	00	99
ACCM	Accuplacer Elementary Algebra	3	<input checked="" type="checkbox"/>	020	120
ACCNGM	Next Gen Accu QR/Alg/Stats	3	<input checked="" type="checkbox"/>	200	300
ACCNGR	Next Gen Accu Reading	3	<input checked="" type="checkbox"/>	200	300

Required Values

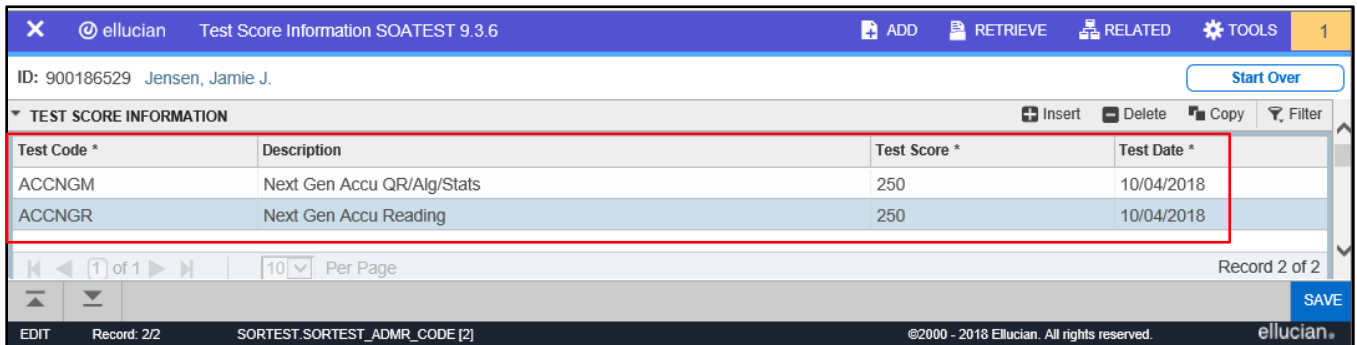

Code	Description	Max. Number of Positions	Data Type	Minimum Score	Maximum Score
ACCNGM	Next Gen Accu QR/Alg/Stats	3	Checked	200	300
ACCNGR	Next Gen Accu Reading	3	Checked	200	300

Enter test scores for a student (SOATEST)

Use the test codes to enter test scores on the Test Score Information Page (SOATEST) for individual students.

On SOATEST, enter the student's ID number and perform a Next Section function.

Populate the Test Code, Test Score and Test Date fields. Other fields may be populated based institutional business practices. Save the record.

The screenshot shows the 'Test Score Information' page for student ID 900186529, Jamie J. Jensen. The page includes a 'Start Over' button and a table with the following data:

Test Code *	Description	Test Score *	Test Date *
ACCNGM	Next Gen Accu QR/Alg/Stats	250	10/04/2018
ACCNGR	Next Gen Accu Reading	250	10/04/2018

Below the table, there are navigation controls including '1 of 1' pages, '10' items per page, and 'Record 2 of 2'. A 'SAVE' button is located at the bottom right of the table area. The footer of the application shows 'EDIT Record: 2/2 SORTEST.SORTEST_ADMR_CODE [2] ©2000 - 2018 Ellucian. All rights reserved. ellucian.'

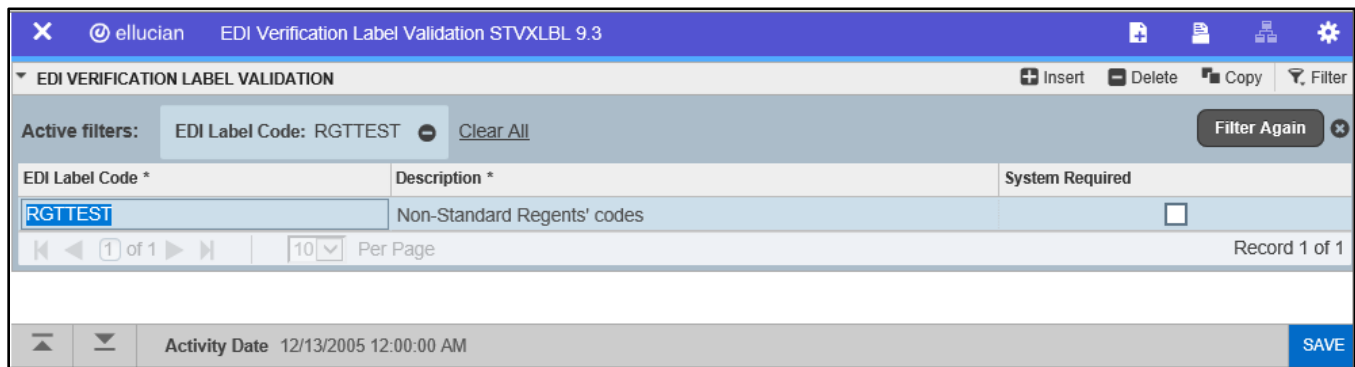

Translate Non-Standard Codes

Any non-standard test codes must be translated to values defined within the Data Element Dictionary (DED) for the ADC.

Confirm that cross reference labels exist (STVXLBL)

Confirm that the cross reference label for test exist on the EDI Verification Label Validation Page (STVXLBL).

Code	Description
RGTTTEST	Non-Standard Regents' codes

Translate non-standard codes (SOAXREF)

The list of codes provided in this document are the current Next Generation Accuplacer tests required for ADC reporting. Refer to the ADC Data Element Dictionary for any changes to the reporting requirements.

If the test code used on SOATEST for a test does not match the required standard value for ADC reporting, the code must be translated on the EDI Cross-Reference Rules page (SOAXREF) for Cross-Reference Label RGTTTEST. Do not translate non-standard test codes to the standard test codes if the score range established on STVTESS does not match.

In the Electronic Value field, enter the required value for ADC reporting. In the Banner Value field, enter the institutional code used on SOATEST for this test. If multiple Banner values equate to a single

Electronic Value, populate the Electronic Qualifier field with a value such as "0001."

Electronic Label *	Electronic Qualifier	Electronic Value *	EDI *	Web *	XML *	Banner Value	Description
RGTTTEST		GED3	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	GED3	GED Science (New)
RGTTTEST		GED4	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	GED4	GED Literature & Arts (New)
RGTTTEST		GED5	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	GED5	GED Mathematics (New)
RGTTTEST		GED6	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	GED6	GED Total Score (New)
RGTTTEST		GED7	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	GED7	GED Average Standard Score
RGTTTEST		GEDL	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	GEDL	GED Literature & Arts
RGTTTEST		GEDM	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	GEDM	GED Mathematics
RGTTTEST		GEDN	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	GEDN	GED Science
RGTTTEST		GEDS	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	GEDS	GED Social Studies
RGTTTEST		GEDT	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	GEDT	GED Composite Score
RGTTTEST		GEDW	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	GEDW	GED Writing Skills
RGTTTEST		HELA	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>		GAHS - English Language Arts
RGTTTEST		LR	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	LR	SATII - Literature
RGTTTEST		M1	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	M1	SATII - Math Level I
RGTTTEST		M2	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	M2	SATII - Math Level II

Collection of Accuplacer Test Data

The Academic Data Collections (ADC) collects the Banner data related to students taking the Next Generation Accuplacer test for USG reporting purposes. Refer to the ADC Data Element Dictionary (https://www.usg.edu/research/reporting_resources) for any changes to the reporting requirements, valid values, and potential errors that could be encountered during the ADC submission for the following data elements:

- Next-Generation Accuplacer Quantitative Reasoning, Algebra and Statistics Test Score (STR181)
- Next-Generation Accuplacer Reading (STR182)
