

Degree Works Quick Reference Guide Controller

This Quick Reference Guide is a brief summary to assist you in updating and maintaining your Degree Works environment. Additional training through the Ellucian Customer Center or GeorgiaBEST is also available.

What is Controller?

- Controller has been introduced to replace DWShell. DWShell end of life is December 2020 due to the deprecation of Adobe Flash.
- Controller offers the same functions as DWShell, although the layout is somewhat different.
- Shepentry and Surecode are integrated into 3 categories: Users, Groups, and Configuration
- Users accessing Controller must have the CONTROL group added to their keyring

Degree Works Quick Reference Guide

Where Do I Find?

Function	Controller Tab
User Permissions	Users
User Passports	Users
Group Permissions	Groups
System Settings	Configuration
UCX Tables	Configuration

Where can I get more information?

- [Degree Works Controller Administration Guide](#)

Please note that this documentation was first published for Degree Works version 5.0.3. If you are on Degree Works 5.0 – 5.0.2, you will need to access the 5.0.3 documentation for Controller.

To access these Ellucian resources, you must first be logged in to the [Ellucian Customer Center](#). If you do not have an Ellucian account, you may request one by completing the [login request form](#).
