GeorgiaVIEW INGRESS Banner Components for INGRESS Training	<p>●</p> <p>INGRESS Release 10.0</p> <ul style="list-style-type: none"> Additional search parameters and/or details have been added to the User Report, Class Roster Report and INGRESS Not Processing Report. The email notifications have been made large enough to accommodate for multiple receiving institutions. An enhancement has been made to stop INGRESS from sending user records to the LMS if the user no longer has any active enrollments. INGRESS performance and productivity improvements. 	<p>●</p> <p>INGRESS Release 11.0</p> <ul style="list-style-type: none"> The INGRESS Course Crosswalk feature has been implemented. Both receiving and sending course section codes/titles will be added to INGRESS reports. Section Report - An option for displaying the sending sections that have been setup with 0 Maximum Seat Count values will be available. Additionally, an option to search for both sending and receiving sections that belong to the home institution(s) has been added. Class Roster Report, Attendance Verification & Grades Report and Student Analytics Report - An option to search using the student's Home Institution is available. Unprocessed New Course Sections - On-hold Report - Lists new course sections that INGRESS has been unable to process successfully. It has been separated from the INGRESS Not Processing Report which displays the course sections that were previously processed successfully by INGRESS that are encountering issues. Faculty Console - The course section and CRN for each student's home institution are displayed. This information has been added to the Class Roster Excel Report also. INGRESS performance and productivity improvements. 	<p>●</p> <p>INGRESS Release 11.1</p> <ul style="list-style-type: none"> Additional student and advisor details have been added to the Student Analytics Report. Reports - First and Last names are separated in the data files. The LMS role will be updated automatically for students who become instructors. INGRESS performance and productivity improvements. 	<p>●</p> <p>INGRESS Release 12.0</p> <ul style="list-style-type: none"> Crosswalk - A modification has been made to reject duplicate enrollments if a student or an instructor is enrolled in multiple sections in Banner and those sections are combined into one Crosswalk course section in INGRESS. Campus Administrators will be notified in these cases. INGRESS Reports: Unprocessed New Course Sections On hold and Enrollment Count Summary reports - The course section status has been added to the data files for accessibility purposes. Student Analytics Report - The Date of Last Attendance column heading has been updated to include Attendance, Midterm Grade or Final Grade. Additionally, enrollment information has been added to the Update Date, First LMS Export Date, and Last LMS Export Date. INGRESS Salesforce Automation - The Student Analytics datafile for specific terms will be provided at scheduled times daily for the eCampus/Salesforce solution. INGRESS performance and productivity improvements.
