#### What about Web Tailor and all the functions it provided in 8? What has replaced it in 9?

Listed below are the current Banner Self-Service Web Tailor 8 menu options and how they have transformed in Self-Service 9. Please note that Banner Self-Service 9 has a different technology stack and there will be variations in what existed in 8 with what is now available in 9.

- Web Menus and Procedures: Web Menus were moved to Banner Self-Service Menu Maintenance (GUASMNU). Procedures
  were replaced by Page Builder.
- Menu Items: Menu Items were moved to Banner Self-Service Menu Maintenance (GUASMNU).
- Information Text: Info text can be accommodated on Informational Messages (GUAINFO) and Interactive Translation Manager (GMATRAN).
- User Roles: User Roles are now found on Maintain Self-Service User Roles (GUAUSRL).
- Web Rules: Web Rules are located on Banner Applications Configurations (GUACONF) under GLOBAL application name.
- Web Modules: This module is not applicable in 9. Each application will control the creation of modules within their specific self-service applications as needed. Theme Editor replaces the css feature and other features are not applicable in 9.
- Global User Interface Settings: This module has been replaced by Theme Editor in 9.
- WebTailor Parameters: Institutions that need to add custom configurations should be leveraging Banner Applications Configurations (GUACONF) under GLOBAL application name.
- Graphic Elements: For background image, logo, and favicon, the Theme Editor tool in 9 can be used. The other items that were in Graphic Elements were not moved because they are no longer applicable in 9. For example, there were images for
