

Identity Protection from InfoArmor

Protecting your identity and personal information is more important today than ever. USG's identity protection plan — called **PrivacyArmor Plus**, and offered through InfoArmor — is more than simple credit monitoring; it's the most comprehensive identity protection plan available.

You'll receive:

- Identity monitoring and alerts
- Full-service remediation
- Identity theft reimbursement†
- Access through an app (iOS and Android)

The value of identity protection

InfoArmor's identity protection services make it easier and more affordable to prevent and recover from fraud or identity theft.

Allstate Digital Footprint™

All the incredible things you do online require something from you: your data. Our new tool shows you the data you leave behind that could expose your identity — your "digital footprint" — and helps you secure it, to stop identity theft before it starts.

Real-time identity monitoring

The PrivacyArmor Plus plan monitors your **credit scores and reports** for any changes or errors, and helps you move quickly to make corrections. **Social media monitoring** flags questionable content on your linked accounts and looks for signs of account takeover. And, you can **view, manage and clear alerts in real time** using the app.

"More signal, less noise"

You can **reduce solicitation attempts by opting out** of credit card offers, telemarketing calls, commercial mail and email, and unrequested coupons.

Customizable banking alerts

Set up notifications about **cash withdrawals, balance transfers** and **large purchases** from any linked bank account, so you can act fast in the event of unauthorized activity.

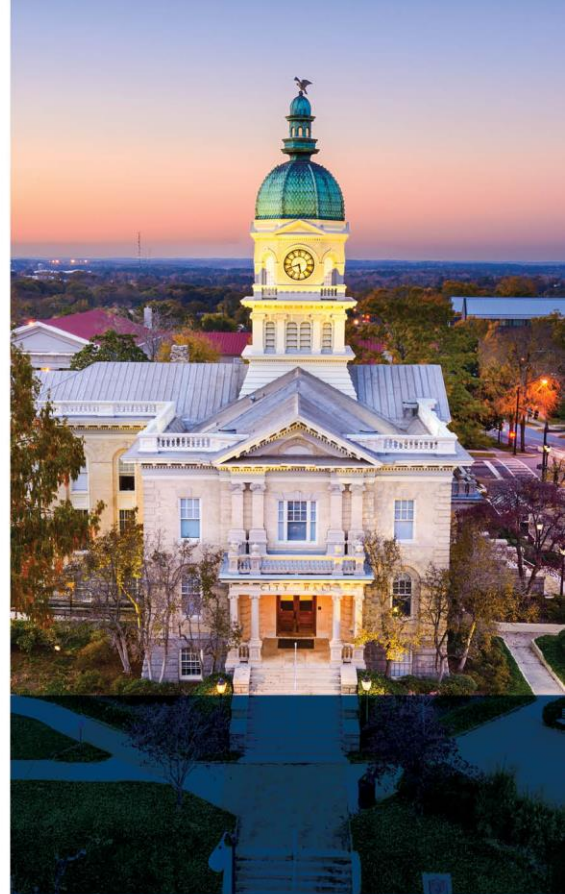

Cutting-edge biometric ID

The iOS and Android apps support biometric authentication (e.g., fingerprint and/or face recognition).

Help, when disaster strikes

If you fall victim to identity theft, you can get reimbursed for stolen 401(k) and HSA funds.†

† Identity theft insurance is underwritten by insurance company subsidiaries or affiliates of Assurant. See reverse side for full disclaimer.

WHO CAN BE COVERED?

- You
- Your spouse
- Your unmarried dependent children,* including stepchildren, legally adopted children, children placed in the home for adoption and foster children who are primarily dependent upon the employee for support

*Credit monitoring is currently not available for children under 18 years old.

How it works

1. **Enroll in PrivacyArmor Plus.** You're protected starting on the effective date of your enrollment. No setup is required to start receiving credit monitoring alerts and support.
2. **Get to know the service.** Explore additional features in the easy-to-use portal. The more accounts you monitor, the safer you can be.
3. **Real people are on the job.** InfoArmor's human operatives see more — like when your data is sold on the dark web. If you've been compromised, they'll alert you.
4. **They're on call, 24/7.** In the event of identity theft or fraud, InfoArmor's PrivacyAdvocates® are always available.
5. **You're covered.** The PrivacyArmor Plus plan includes a \$1 million identity theft insurance policy, to cover out-of-pocket costs associated with identity restoration.†

Monthly premium

\$8.95 per person/month

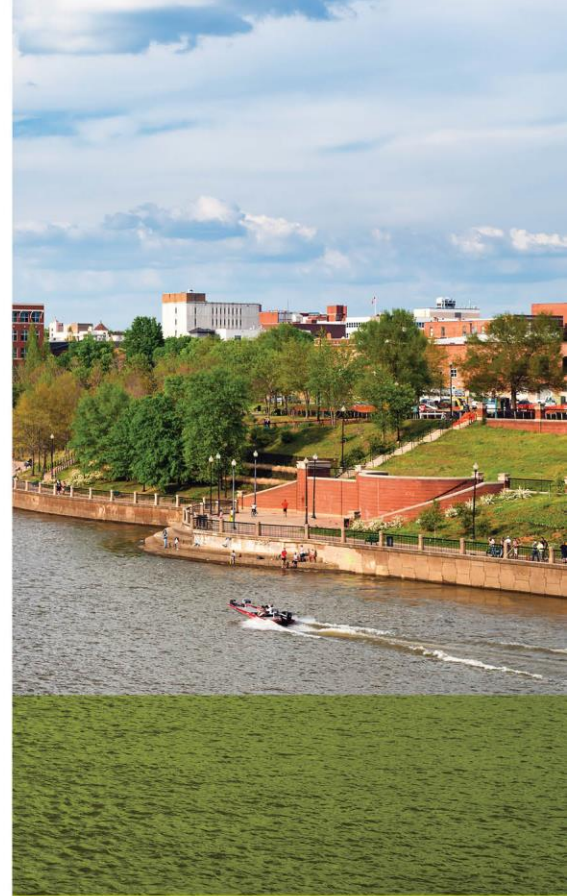

\$16.95 per family/month
