Cooperation in Internal Investigations

Policy Statement
To ensure that the employees of the University System of Georgia are informed of their responsibility to participate in investigative activities.

An employee of the University System of Georgia shall cooperate to the fullest extent possible in any internal investigation conducted by the Board of Regents or any institution thereof when directed to do so by persons who have been given investigative authority by the President of the institution.

Applicability
All employees and units of the University System of Georgia are covered by this policy.

Who Should Read This Policy
All employees within the University System of Georgia should be aware of this policy.

Definitions
These definitions apply to terms as they are used in this policy:

- **Board of Regents (BOR):** The governing body of the University System of Georgia.

Suggested Process and Procedures
*Note: Institutions may determine their own procedures.*

An employee of the University System of Georgia shall cooperate to the fullest extent possible in any internal investigation conducted by their employment unit when directed to do so by persons who have been given the investigative authority by the President of the institution.
Failure to cooperate fully shall be grounds for adverse action, including possible termination of employment.

In conducting an Internal Investigation, the investigator will notify only the appropriate administrators or individuals with a need to know. In addition to acting in the best interest of the institution, the investigator must assure that the investigation provides for due process.

Once a complaint or allegation is received, the investigator should notify the accused as soon as practical. The time frame of the notification will vary depending on the necessity to gather and/or clarify facts prior to the accused being approached. Additionally, the notification could be delayed in order to protect everyone involved, evidence, etc.

The accused should be given an opportunity to present their position relating to the allegation(s). At times, it may be necessary for this to occur in more than one sitting.

The investigator should gather as many facts and other forms of evidence as will allow the investigator to make a reasonable conclusion regarding the allegation(s).
