Policy Statement

The University System of Georgia allows leave under specific guidelines. This policy establishes uniform procedures during the official closure, or delayed opening, or reduced operations of USG Institutions and the treatment of employee absences from work during periods of inclement weather or other emergencies.

In the event of inclement weather or any emergency which may place the health or safety of students, employees or citizens at risk, or conditions or events that prevent performance of regular operations of the Institution, official closure or reduced operations of Institutions of the University System of Georgia (USG) or various locations thereof may be deemed necessary. In such instances, the Institution President may declare the closing or reduced operations of an Institution within the affected area and leave with or without pay. The President will also declare the reopening or return to normal operations of an institution once the inclement weather or emergency has subsided.

When an Institution is declared closed, all academic classes, administrative offices, or other functional areas are suspended and only essential services are maintained, until the institution is officially reopened as declared by the President.

Employees whose job responsibilities require that they work during hazardous or emergency conditions in order to maintain critical institutional functions, e.g. public safety, facility, or information technology employees or employees with critical health and safety responsibilities, may be designated as 'essential personnel' by their institution. Essential personnel will be expected to maintain a normal work schedule during inclement weather or other emergencies unless specifically excused.

HUMAN RESOURCES ADMINISTRATIVE MANUAL
TIME AWAY FROM WORK: INCLEMENT WEATHER OR OTHER EMERGENCIES

When an Institution remains open with reduced operations, the President shall provide direction as to the continued operation of the Institution. The President may implement telework or flexible schedule arrangements in order to continue the required operations of the institution. In situations where work is not available to certain employees, the President may place those exempt and non-exempt employees on leave with or without pay. Absent an extension by the Chancellor, this leave status option shall end no later than 120 days following its availability, and upon the emergency's conclusion or upon the reestablishment of normal operations.

Applicability

All units of the University System of Georgia (USG) are covered by this policy.

Who Should Read This Policy

Human Resources personnel and employees within the University System of Georgia should be familiar with this policy.

Definitions

These definitions apply to these terms as they are used in these policies and procedures:

- **Essential Personnel:** Generally defined as the faculty and staff who are required to report to their designated work location, to ensure the operation of essential functions or departments during an emergency or when a USG Institution has suspended operations.
- **Travel Time:** As defined in HRAP Emergency Call Back Pay and Variant Pay.
- **Unscheduled Closing Leave:** Paid Leave which is due to unforeseen closing of USG Institution locations in the event of inclement weather or any emergency which may place the health or safety of students, employees, or visitors at risk, or conditions or events that prevent performance of regular operations of the Institution as declared by the Institution's President.
- **Non-Closure Emergency Leave:** Leave which is due to unforeseen reduced operations of USG Institution locations where the health or safety of students, employees, or visitors is at risk, or conditions or events that prevent performance of regular operations of the Institution as declared by the Institution's President.

Process and Procedures

The following guidelines apply for the treatment of leave for employees during an official closing due to inclement weather or other emergency situations:

- Each Institution is responsible for creating and maintaining a list of services and employees who are considered essential to running critical functions within their

HUMAN RESOURCES ADMINISTRATIVE MANUAL

operations in the event of a declared emergency. This list is to be updated on at least on an annual basis, employees should be notified that they are on the list and expectations should be communicated by supervisors. The list of essential personnel should be housed in the Office of Human Resources or a department designated by the President or their designee. Supervisors shall have the discretion to add an employee to this list based on the nature of the declared emergency and skills needed in order to maintain critical institutional functions.

- Once there is a decision to close an institution due to inclement weather or other emergency conditions, only those employees designated by the institution as “Essential” to oversee the critical functions during an institutional emergency are required to report to work, if notified. All other employees are to either stay home/away or to leave their work area as soon as practicable after the notice is made. The decision to close an institution will generally be made on a workday by workday basis.
 - **Essential Personnel.** Exempt and non-exempt employees who are required to report to work during inclement weather or other emergency closings may receive Unscheduled Closing Leave for their regularly scheduled hours.
 - In addition, non-exempt employees may be paid at the straight-time rate for all hours actually worked during the inclement weather or other emergency closing, not exceeding 40 hours in the workweek.
 - Unscheduled leave is not counted as hours worked in the calculation of overtime pay.
 - Non-exempt employees will be compensated in compliance with FLSA regulations and HRAP workweek and overtime policy for all hours actually worked over 40 in a work week.
 - **Non-Essential Personnel.** Exempt and non-exempt employees not scheduled or not required to work during an inclement weather/emergency closing event should not report to work unless instructed to do so by their supervisor. Non-essential service employees in the affected area may be excused from duty for the duration of the closure and be placed on Unscheduled Closing Leave, without loss of pay.
 - When a nonexempt employee, who has not been previously designated as an essential employee, is asked to report to work or to the office during a campus closure, that employee will be paid as an essential employee for all hours worked.
 - **Unscheduled Closing Leave** cannot be used for non-exempt (bi-weekly) employees at a future date.

- **Treatment of Compressed Work Week Schedules.** Unscheduled Closing Leave is equivalent to the employee's normal shift. Staff members working compressed workweek schedules during periods of Unscheduled Closings will not be required to take additional leave.
- **Approved Sick or Annual Leave.** A non-exempt or exempt employee who is on approved leave during periods of severe weather/emergency closings, may charge leave as Unscheduled Closing.
- An employee whose work location is not directly affected by the severe weather/emergency closing and is scheduled to work will be expected to report to work as normal. If an employee is absent from duty because of severe weather conditions or other emergencies, which do not cause their office or facility to close, the institution may permit the employee to make up time lost from work within the same workweek or charge the period of absence to accrued leave (i.e. annual or compensatory time off). If none of the options are available, the employee may be placed on leave without pay for the period of absence.
- **Record Keeping.** Unscheduled Closing Leave should be recorded in the following manner and in compliance with HRAP Time and Leave Reporting and Approval policies.

The following guidelines apply for the treatment of leave for employees during inclement weather or other emergencies that require reduced operations without closure:

- **Non-Closure Emergency Leave.** In the event of an emergency that requires reduced operations but not closure, the President may implement telework or flexible schedule arrangements in order to continue the required operations of the institution. In situations where work is not available to certain employees, the President may place those exempt and non-exempt employees on leave with or without pay. If the leave is paid, employees can be compensated for hours not worked up to the equivalent of the hours regularly scheduled per week. Where partial work hours are available, employees will be expected to perform their assigned duties and may be paid non-closure emergency leave for the remainder of the workweek up to the equivalent of the hours regularly scheduled per week. Absent an extension by the Chancellor, this leave status option shall end no later than 120 days following its availability, and upon the emergency's conclusion or upon the reestablishment of normal operations.
