Time and Labor

Institution: 36000 - Georgia College

Set Up Task: Dynamic Group

Navigation: Set Up HCM > Security > Time and Labor Security > Dynamic Group

Set Up Classification: Institution Specific

Sequence: 013.004

Task Description: Several online and batch processing functions in Time and Labor use groups of time reporters that meet selection criteria that you define. Groups can be static or dynamic. Time reporters can belong to several groups simultaneously, depending on your reporting Needs. For example, a Time Reporter may belong to a department group on the fourth floor and also to a group of managers.
