Dr. Bell announced that 325,203 students are enrolled in USG institutions for the Fall 2017 semester, which is 1.1% higher than 2016 enrollment. The System has experienced record fall enrollment three years in a row, well above the national trend of small enrollment gains, as well as a large increase in dual enrollment. Dr. Bell provided enrollment statistics for race and ethnicity, gender, resident status, and online learners.

REGENTS' NOMINATING COMMITTEE

Regent T. Rogers Wade, Chairman of the Nominating Committee, proposed a slate of Board of Regents officers for 2018. The committee proposed that Regents James M. Hull and Don L. Waters be named Chairman and Vice Chairman, respectively. The Chairman thanked the Nominating Committee for their diligent work and announced that the Board will vote on the slate of candidates during the afternoon session of the November 15, 2017, Board meeting.

COLLEGE 2025

Chairman Hopkins introduced Georgia College and State University President Dr. Steven Dorman, Chairman of College 2025, to give an update on the initiative. College 2025 is a working group of faculty, students, and staff from across the University System, as well as representatives from the business community, appointed by the Chancellor to create a five- to ten-year roadmap for the future of higher education in Georgia. Dr. Dorman began by discussing recent changes and disruptions in higher education that have caused many institutions to question formerly enduring practices. Despite these disruptions, the University System of Georgia is at the forefront for adapting to the new realities facing higher education. Dr. Dorman reported on the initiative's work and its three major focus areas of adaptability, lifelong learning, and essential skills. He shared examples of these focus areas currently employed across the University System and how they could be expanded in the future. Dr. Dorman closed by thanking the Board and Chancellor Wrigley for encouraging and supporting this initiative.

CHAIRMAN’S REMARKS

Chairman C. Thomas Hopkins gave his report to the Board at approximately 10:23 a.m. He began by highlighting a number of System’s accomplishments from 2017, including the launch of two new initiatives: College 2025, which creates a roadmap for a 21st century model for higher education, and the Comprehensive Administrative Review process, a system-wide focus on finding administrative efficiencies and streamlining processes. Chairman Hopkins commended the System for limiting tuition increases and decreasing the number of mandatory fees students pay to attend USG institutions. He also highlighted the introduction of campus spotlights to Board meetings. These presentations feature research and academic activities conducted on campuses and provide a greater focus on students and faculty at Board meetings. The Chairman commended the Georgia Institute of Technology and the University of Georgia for being ranked among the top 20 public universities in the nation by *U.S. News and World Report*; Georgia is one of only three states with two or more institutions on the list. Chairman Hopkins concluded his remarks by thanking campus and System Office staff; Ms. Erika Triplett, Executive Assistant to the Board of Regents; and the Chancellor for the privilege to serve as Chairman in 2017.

CAMPUS SPOTLIGHT: DALTON STATE COLLEGE

Chairman Hopkins introduced Dalton State College President Dr. Margaret Venable, Dalton State Sesquicentennial Chair Dr. Marilyn Helms and student Mollie Busie, who gave a presentation showcasing the work Dalton State is doing to meet the needs of regional industry.

CHANCELLOR’S REPORT

The Chancellor began his report to the Board by emphasizing the importance of linking degree programs directly to career paths. He announced that changes are being made to the degree proposal process, and USG institutions are expected to propose degrees that meet the needs of the workforce. Chancellor Wrigley gave examples of new career-focused academic programs from around the System, including a pilot program at Georgia State University for students interested in Health IT jobs, the new financial technology emphasis in the University of Georgia’s MBA program, a partnership between Georgia Southern University and Savannah State University to establish a High-Demand Business Degree Consortium, and five new majors in the Agribusiness program at Abraham Baldwin Agricultural College.

Chancellor Wrigley then shared several highlights and achievements from across the University System. He announced that as of October, all USG institutions have a dedicated space for student veterans. In addition, Georgia is the only state with two public institutions recognized by *Military Times*’ top ten “best for vets” institutions. The National Science Foundation has awarded almost \$20 million to the Georgia Institute of Technology and a consortium of universities, including UGA, to establish a new engineering research center in cellular manufacturing. Also, in October, 22 professionals graduated from an intensive, year-long leadership program, known as PINNACLE, offered by the Georgia Public Library System to librarians around the state. PINNACLE prepares librarians for all aspects of library leadership in the 21st century. It is recognized as the premier such program in the nation and its graduates form the heart of library leadership around Georgia. The Chancellor commended Ray Lee, Director of Information and Web Services for the USG, who is retiring from a 35 year career with the University System. Chancellor Wrigley also congratulated Dene Sheheane, Vice President of Government and Community Relations at the Georgia Institute of Technology, on his receipt of the 2017 “Swede” Johnson Achievement Award from the Council for Advancement and Support of Education. 1. Establishment of a Master of Science in Business Analytics, University of Georgia

Recommended: That the Board approve the request by President Jere Morehead that the University of Georgia (“UGA”) be authorized to establish a Master of Science in Business Analytics, effective January 11, 2018.

Program Summary: The Terry College of Business proposes a one-year (two semester) graduate program in business analytics at the Master’s level. This proposed program is consistent with the Governor’s High Demand Career Initiative. The program would align with UGA’s Double Dawgs strategic initiative that allows students to earn bachelor and master degrees in five years, and potentially benefit from the Hope Scholarship in doing so. The program involves ten months of study and 33 credit hours. It is designed for students holding or in the process of earning a baccalaureate degree who meet the admissions requirements for proficiency in statistics, calculus, and computer programming. The proposed UGA program is differentiated by a year-long internship with a partnering company/project sponsor and the academic and practical preparation it will provide for students to earn industry-recognized certifications.

Need and Demand: With global demand for data analysts and scientists predicted to exceed supply by more than 50 percent by 2018, there is a great need for university programs to educate and prepare students equipped with the quantitative, technical, and business skills required to fill these high-paying positions. While average employment rates at peer and aspirant MSBA programs, also remain very high, at about 94%. Demand for skilled data analysts will persist: “By 2018, the United States alone could face shortage of 140,000 to 190,000 people with deep analytical skills as well as 1.5 million managers and analysts with the know-how to use the analysis of big data to make effective decisions” (McKinsey, May 2011). As more sophisticated analytics automation tools develop over time, the demand for analysts with the business acumen to translate data analytics into strategic advantages for their employers will remain strong. This program directly responds to employer needs for an educated workforce within a fast-growing segment of the state economy.

Fiscal and Facilities Impact:

The program's proposed course of study is currently two semesters. Should UGA consider changing the program's length of study in the future from two semesters to some other length of time, the Board will also reconsider the tuition model rate to maintain affordability.

Assessment:

The Office of Academic Affairs will work with the institution to measure the success and continued effectiveness of the proposed program. The program review is in concert with the institution's schedule of comprehensive program reviews.

2. Establishment of a Master of Science with a major in Cybersecurity Management (online delivery), Columbus State University

Recommended: That the Board approve the request of President Chris Markwood that Columbus State University (“CSU”) be authorized to establish a Master of Science with a major in Cybersecurity Management (online delivery), effective January 11, 2018.

Program Summary: Columbus State University seeks approval to establish a Master of Science with a major in Cybersecurity Management. The thirty semester-hour program will be delivered online to meet the needs of working professionals. The program will be housed in the D. Abbott Turner College of Business, TSYS School of Computer Science. Columbus State University developed the new program in response to the need for qualified cybersecurity professionals across multiple industries to manage and protect infrastructure and informational systems. The city of Columbus is home to several multinational corporations and financial service companies that have a fundamental need for secure technology systems.

Need and Demand: The Cybersecurity Supply/Demand Heat Map developed for the Department of Homeland Security claims that the total cybersecurity job openings at the national level are 348,975, with approximately 12,783 positions in Georgia, and with 597 employment vacancies in Columbus, Georgia. According to the *Chronicle of Higher Education*, dated February 26, 2017, “Cybersecurity job openings grew 114 percent between years 2011 and 2015, with 86 percent of the jobs requiring at least a bachelor’s degree, according to *Burning Blass Technologies*, a job market analytics company. Colleges are meeting only about 24 percent of the entry-level demand for those with four-year degrees.” According to the Bureau of Labor Statistics, “more than 209,000 cybersecurity jobs in the U.S. are unfilled, and postings have increased by 74 percent over the past five years.

List of Similar Existing USG Programs and Productivity: Similar programs have been developed within the university system particularly with the onset of system initiatives and in response to the state’s High Demand Career Initiative.

The maintenance of Columbus State University’s cybersecurity programs will come from a two million (\$2M) dollar endowment from TSYS.

The program will be delivered using existing space as well as technology resources available at the institution. In addition, Columbus State University has used National Security Agency funding and partial gifts from TSYS to purchase current software and hardware to support program content. The new Cybersecurity classroom and lab on the first floor of the CCT Building will be available for collaboration between on campus and online students. The Center is being built with funds from the TSYS gift.

Accountability: The Office of Academic Affairs will work with the institution to measure the success and continued effectiveness of the proposed program. The program review is in concert with the institution's schedule of comprehensive program reviews.

3. **Establishment of Doctor of Education in Higher Education Administration, University of West Georgia**

Recommended: That the Board approve the request by President Kyle Marrero that the University of West Georgia (“UWG”) be authorized to establish a Doctor of Education in Higher Education Administration, effective January 11, 2018.

Program Summary: The Doctorate of Education in Higher Administration focuses on the practical experiences and education through professional development and academic engagement. The program was designed using the Professional Competency and Content Areas for Student Affairs Educators. This program is 60 credit hours and graduates will have the knowledge and skills to address critical issues in higher education administration, higher education finance, advancement and current legal issues in higher education.

Need and Demand: The University of West Georgia has three Ed.D’s and one Ph.D. The Ed.D. degrees are in nursing, counseling, and school improvement. The Ed.D. in School Improvement focuses on K-12 administration and has approximately 80 applications per year for 20-25 slots. The proposed degree would expand the doctoral options for students in post-secondary administrative positions.

According to the Employment Projections by the Department of Labor, Bureau of Labor Statistics, administrative positions in postsecondary education are expected to have an 8.7% growth rate. Among all sectors of education administrators, higher education administrators present the highest rate of growth over the next 8 years. By 2024, nationally it is expected that there will be approximately 66,000 jobs available through growth and replacement.

List of Similar Existing USG Programs and Productivity:

In terms of programmatic expansion, the State of Georgia offers four doctoral programs related to this degree – two of which are at Research Institutions. By offering an online degree at a Regional Comprehensive institution we are providing additional opportunities in the State of Georgia for students who want to remain in the State of Georgia for their education, but may not want the research expectations of a research-intensive institution.

4. **Substantive change and credit hour waiver to Education degrees, Kennesaw State University**

Recommended: That the Board approve the request by President Sam Olens that Kennesaw State University (“KSU”) be authorized to substantively change their education degrees and be approved a credit hour waiver, effective January 11, 2018.

Program Summary: Currently KSU offers a separate Bachelor of Science degree with a major in mathematics education, and Bachelor of Science degrees with majors in biology, chemistry, and physics all with teacher certification tracks. These degree programs are housed in the College of Science and Mathematics and have low student enrollments. Kennesaw State University is proposing to collapse these degrees into a single Bachelor of Science in Secondary Education with content tracks (i.e. biology, mathematics, physics, chemistry) and locate the degree in its Bagwell College of Education. In this new structure, resources would be maximized.

BSEDs were common degrees in Georgia many years ago and have an increased emphasis in education; however, they were dissolved a few years ago in favor of BS degrees. Given new standards and state and national standards that place emphasis on the impact of learning, technology, diversity, preparation in working with ELLs, increased emphasis on the needs of children with exceptionalities, and attention now given to assessment and using data to make decisions, the BOR revitalized the BSED, and many institutions are reinstituting them. The BSED Considerations document from the BOR clearly states that tracks can be converted using a substantive change form: “Institutions with teaching content preparation program embedded in a degree program as a track (or concentration, etc.) can convert these programs to a BSED degree through the substantive change process” (BSED Considerations Document, October 21, 2014).

Degree Credit Waiver: Credit hours in the BSED in Secondary Education will be 120-124, depending on the concentration. KSU is requesting degree credit waivers of up to 124 hours for Chemistry, Physics, and Broad Field Biology:

Concentration	Credit Hours	Waiver Requested
Mathematics Education	120	No
Chemistry Education	121	Yes
Physics Education	123	Yes
Broad Field (Biology Emphasis)	124	Yes

Impact on Current Students:

Students enrolled in current programs will continue to progress toward graduation without disruption.

9. Revision to The Policy Manual, Section 3.7, Regents' Reading and Writing Skills Requirement

Abstract: The Regents' Reading and Writing Skills Test and the related course have been discontinued at all University System institutions. After all institutions demonstrated that their degree-seeking students would achieve the required competence in reading and writing through required coursework, the Regents' Tests were discontinued and are no longer available for administration. Southern Association of Colleges and Schools continues to require institutions demonstrate that students obtaining an associate or baccalaureate degree have competence in reading and writing to maintain accreditation and the requirement is satisfied through the content included in the Core Curriculum that was redesigned in 2011.

In line with the goals of the Board of Regents' Policy Manual Review, the main purpose of the removal of this policy is to simplify policy language, to provide for consistency in policy provisions, and to increase the efficiency of The Policy Manual.

6.5 Freedom of Expression

CURRENT POLICY LANGUAGE:

12.10 Freedom of Expression

The rights guaranteed by the First Amendment, including the right to free speech, free expression, free exercise of religion, and the right to assemble peaceably are of the utmost importance, and the University System of Georgia is committed to protecting those rights.

As public institutions of higher education, USG institutions must promote open ideas and academic freedom on their campuses. While institutions may need to enact policies to promote campus safety, to ensure the proper functioning of the academic environment and institution activities, or to further other important institution objectives, those policies should not unduly burden the free expression rights of students, faculty, and staff. Any parameters placed on the time, place, and manner of expression must not be based on the content of the expression.

To facilitate the free exchange of ideas, institutions may designate accessible, high-traffic locations on campus as public forum areas. The designation of public forum areas may not be used to prohibit individual students, faculty, or staff from engaging in communication elsewhere on campus. Reservation and use of designated public forum areas may only be required in the following limited circumstances: (1) speakers who are not enrolled at or employed by the institution; and (2) students, faculty, or staff who engage in large group demonstrations. Institutions may not consider the content or viewpoint of expression when requiring or assigning use of public forum areas.

6.6 Non-Discrimination and Anti-Harassment

CURRENT POLICY LANGUAGE:

4.1.2 Non-Discrimination

The Board of Regents stipulates that no USG student, on the ground of race, color, sex, religion, creed, national origin, age or handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity conducted by the Board of Regents of the University System of Georgia or any of its several institutions now in existence or hereafter established (BoR Minutes, October, 1969, p. 154; 1979-80, p. 15).

PROPOSED NEW POLICY LANGUAGE:

6.6 Non-Discrimination and Anti-Harassment

The Board of Regents prohibits unlawful discrimination, harassment, and retaliation within the University System of Georgia (USG) and all USG institutions based on any characteristic protected by law.

6.7 Sexual Misconduct Policy

CURRENT POLICY LANGUAGE:

4.1.7 Student Sexual Misconduct Policy

In accordance with Title IX of the Education Amendments of 1972 (“Title IX”), the University System of Georgia (USG) does not discriminate on the basis of sex in any of its education programs or activities or in employment. The USG is committed to ensuring a safe learning and working environment for all members of the USG community. To that end, this Policy prohibits sexual misconduct, as defined herein.

In order to reduce incidents of sexual misconduct, USG institutions are required to provide prevention tools and to conduct ongoing awareness and prevention programming and training for the campus community. Such programs will promote positive and healthy behaviors and educate the campus community on consent, sexual assault, alcohol use, dating violence, domestic violence, stalking, bystander intervention, and reporting.

When sexual misconduct does occur, all members of the USG community are strongly encouraged to report it promptly through the procedures outlined in this Policy. The purpose of this Policy is to ensure uniformity throughout the USG in reporting and addressing sexual misconduct.

Reporting Structure

All Equal Opportunity directors and others having responsibility for coordination of Title IX (“Coordinators”) at USG institutions shall have a direct reporting relationship to both the institution’s President or the President’s designee and the USG System Director for Equity and Investigations (“System Director”). The President of each institution shall determine the organizational and operating reporting relationships for the Coordinators at the institution and exercise oversight of institutional issues relating to sexual misconduct. However, the System Director shall have authority to direct the Coordinators’ work at each institution as needed to address system-wide issues or directives. The President of each institution shall consult with the System Director on significant personnel actions involving Coordinators, to include but not be limited to, appointment, evaluation, discipline, change in reporting structure, and termination.

4.1.7.1 Definitions and Prohibited Conduct

Community: Students, faculty, and staff, as well as contractors, vendors, visitors and guests.

Complainant: An individual lodging a complaint. The complainant may not always be the alleged victim.

Consent: Words or actions that show a knowing and voluntary willingness to engage in mutually agreed-upon sexual activity. Consent cannot be gained by force, intimidation or coercion; by ignoring or acting in spite of objections of another; or by taking advantage of the incapacitation

of another where the respondent knows or reasonably should have known of such incapacitation. Minors under the age of 16 cannot legally consent under Georgia law.

Consent is also absent when the activity in question exceeds the scope of consent previously given. Past consent does not imply present or future consent. Silence or an absence of resistance does not imply consent.

Consent can be withdrawn at any time by either party by using clear words or actions.

Dating Violence: Violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the alleged victim. Dating violence includes, but is not limited to, sexual or physical abuse or the threat of such abuse. Dating violence does not include acts covered under the definition of domestic violence.

Domestic Violence: Violence committed by a current or former spouse or intimate partner of the alleged victim; by a person with whom the alleged victim shares a child in common; by a person who is cohabitating with, or has cohabitated with, the victim as a spouse or intimate partner, or by a person similarly situated to a spouse of the alleged victim.

Incapacitation: The physical and/or mental inability to make informed, rational judgments. It can result from mental disability, sleep, involuntary physical restraint, status as a minor under the age of 16, or from intentional or unintentional taking of alcohol and/or other drugs. Whether someone is incapacitated is to be judged from the perspective of an objectively reasonable person.

Nonconsensual Sexual Contact: Any physical contact with another person of a sexual nature without the person's consent. It includes but is not limited to touching (or penetrating) of a person's intimate parts (such as genitalia, groin, breasts, or buttocks); touching (or penetrating) a person with one's own intimate parts; or forcing a person to touch his or her own or another person's intimate parts.

Confidential Employees: Institution employees who have been designated by the Institution's Coordinator to talk with an alleged victim in confidence. Confidential Employees must only report that the incident occurred and provide date, time, location, and name of alleged respondent (if known) without revealing any information that would personally identify the alleged victim. This minimal reporting must be submitted in compliance with Title IX and the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act ("Clery Act"). Confidential Employees may be required to fully disclose details of an incident in order to ensure campus safety.

Privileged Employees: Individuals employed by the institution to whom a complainant or alleged victim may talk in confidence, as provided by law. Disclosure to these employees will not automatically trigger an investigation against the complainant's or alleged victim's wishes. Privileged Employees include those providing counseling, advocacy, health, mental health, or sexual-assault related services (e.g., sexual assault resource centers, campus health centers, pastoral counselors, and campus mental health centers) or as otherwise provided by applicable

law. Exceptions to confidentiality exist where the conduct involves suspected abuse of a minor (in Georgia, under the age of 18) or otherwise provided by law, such as imminent threat of serious harm.

Respondent: Individual who is alleged to have engaged in conduct that violates this Policy.

Responsible Employees: Those employees who must promptly and fully report complaints of or information regarding sexual misconduct to the Coordinator. Responsible Employees include any administrator, supervisor, faculty member, or other person in a position of authority who is not a Confidential Employee or Privileged Employee. Student employees who serve in a supervisory, advisory, or managerial role are in a position of authority for purposes of this Policy (e.g., teaching assistants, residential assistants, student managers, orientation leaders).

Sexual Exploitation: Taking non-consensual or abusive sexual advantage of another for one's own advantage or benefit, or for the benefit or advantage of anyone other than the one being exploited.

Examples of sexual exploitation may include, but are not limited to, the following:

1. Invasion of sexual privacy;
2. Prostituting another individual;
3. Non-consensual photos, video, or audio of sexual activity;
4. Non-consensual distribution of photo, video, or audio of sexual activity, even if the sexual activity was consensual;
5. Intentional observation of nonconsenting individuals who are partially undressed, naked, or engaged in sexual acts;
6. Knowingly transmitting an STD or HIV to another individual through sexual activity;
7. Intentionally and inappropriately exposing one's breasts, buttocks, groin, or genitals in non-consensual circumstances; and/or
8. Sexually-based bullying.

Sexual Harassment: Unwelcome verbal, nonverbal, or physical conduct, based on sex or on gender stereotypes, that is implicitly or explicitly a term or condition of employment or status in a course, program, or activity; is a basis for employment or educational decisions; or is sufficiently severe, persistent, or pervasive to interfere with one's work or educational performance creating an intimidating, hostile, or offensive work or learning environment, or interfering with or limiting one's ability to participate in or to benefit from an institutional program or activity.

Sexual Misconduct: Includes, but is not limited to, such unwanted behavior as dating violence, domestic violence, nonconsensual sexual contact, sexual exploitation, sexual harassment and stalking.

Stalking: Engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others or suffer substantial emotional distress. Course of conduct means two or more acts, including, but not limited to, acts

in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with person's property. Reasonable person means a reasonable person under similar circumstances and with similar identities to the victim. Substantial emotional distress means significant mental suffering or anguish that may but does not necessarily, require medical or other professional treatment or counseling.

4.1.7.2 Reporting Sexual Misconduct

A complainant of sexual misconduct may, but need not, file a criminal complaint with law enforcement officials; file a misconduct report with a Responsible Employee or Coordinator; or file both. A report may be filed anonymously, although anonymous reports may make it difficult for the institution to address the complaint. Any individual who believes that he or she has been a victim of sexual misconduct is encouraged to report allegations of sexual misconduct promptly.

All reports of sexual misconduct alleged to have been committed by a student must be handled consistently with requirements set forth in Section 4.6.5, *Standards for Institutional Student Conduct Investigation and Disciplinary Proceedings*.

All reports of sexual misconduct alleged to have been committed by a non-student member of the institution community will be addressed and/or resolved through the institution's and the Board of Regents' applicable policies for discipline of non-students.

4.1.7.2 (A) Institutional Reports

Complainants of sexual misconduct who wish to file a report with the institution should notify a Responsible Employee or the Coordinator. Responsible Employees informed about sexual misconduct allegations involving any student should not attempt to resolve the situation, but must notify and report all relevant information to the Coordinator as soon as practicable. Confidential Employees are not bound by this requirement but may be required to report limited information about incidents without revealing the identities of the individuals involved to the Title IX Coordinator, consistent with their ethical and legal obligations. All members of the University System of Georgia institutions' communities are encouraged to report incidents of sexual misconduct promptly.

The Coordinator's identity and contact information shall be published by each institution prominently on the institution's website, as well as in any relevant publication. Each institution may choose to have Deputy Title IX Coordinators to whom reports may be made, as well. Institutions should encourage complainants to report their complaints in writing, though oral complaints should also be accepted, taken seriously, and investigated, to the extent possible. While complaints should be made as quickly as possible following an alleged incident of sexual misconduct, all reports should be accepted regardless of when reported.

The Coordinator shall refer to the System Director any allegation(s) of sexual misconduct that could, standing alone as reported, lead to the suspension or expulsion of the respondent(s). The System Director will work with the institution to determine whether any interim measure(s) are necessary and to assign an investigator who will work under the direction of the System Director

or designee, if directed by System Director. If an allegation is not initially identified as one that would lead to the suspension or expulsion of the respondent(s), but facts arise during the course of the investigation that would require transfer to the System Director, the Title IX Coordinator shall transfer oversight to the System Director or designee. The System Director shall have the discretion to retain oversight or transfer oversight to the institution.

4.1.7.2 (B) Law Enforcement Reports

Because sexual misconduct may constitute criminal activity, a complainant also has the option, should he or she so choose, of filing a report with campus or local police, for his or her own protection and that of the surrounding community. The institution may assist the complainant in reporting the situation to law enforcement officials.

Complainants considering filing a report of sexual misconduct with law enforcement should preserve any evidence of sexual misconduct, including, but not limited to, the following:

1. Clothing worn during the incident including undergarments;
2. Sheets, bedding, and condoms, if used;
3. Lists of witnesses with contact information;
4. Text messages, call history, social media posts;
5. Pictures of injuries; and/or
6. Videos.

4.1.7.2 (C) Anonymous Reports

Each institution shall provide a mechanism by which individuals can report incidents of alleged sexual misconduct anonymously. Complainants should understand, however, that it will be more difficult for the institution to investigate and to take action upon anonymous reports.

4.1.7.2 (D) Retaliation

Anyone who, in good faith, reports what he or she believes to be misconduct under this Policy, or who participates or cooperates in, or is otherwise associated with any investigation, shall not be subjected to retaliation. Anyone who believes that he or she has been the target of retaliation for reporting, participating, cooperating in, or otherwise being associated with an investigation should immediately contact the Coordinator for the institution. Any person found to have engaged in retaliation in violation of this Policy shall be subject to disciplinary action.

4.1.7.2 (E) False Complaints

Individuals are prohibited from intentionally giving false statements to a system or institution official. Any person found to have intentionally submitted false complaints, accusations, or statements, including during a hearing, in violation of this Policy shall be subject to appropriate disciplinary action (up to and including suspension or expulsion) and adjudicated under the student conduct policy.

4.1.7.2 (F) Amnesty

Individuals should be encouraged to come forward and to report sexual misconduct notwithstanding their choice to consume alcohol or to use drugs. Information reported by an individual during an investigation concerning use of drugs or alcohol will not be used against the

particular individual in a disciplinary proceeding or voluntarily reported to law enforcement; however, individuals may be provided with resources on drug and alcohol counseling and/or education, as appropriate.

4.1.7.3 Handling Reports of Sexual Misconduct

4.1.7.3 (A) Support Services

Once a student or employee makes a complaint or receives notice that a complaint has been made against him or her, or the coordinator otherwise learns of a complaint of sexual misconduct. The complainant, respondent and alleged victim (where applicable) should receive written information about support services, such as counseling, advocacy, housing assistance, academic support, disability services, health and mental services, and legal assistance, available at the student's institution.

Information on support services will be provided regardless as to whether an individual elects to go forward with filing a formal complaint of sexual misconduct or with notifying law enforcement. Information on support services will also be provided to students and employees, regardless of where the alleged misconduct occurs.

Available support services should also be listed on the institution's Title IX website.

4.1.7.3 (B) Interim Measures

Interim measures may be undertaken at any point after the institution becomes aware of an allegation of sexual misconduct and should be designed to protect the alleged victim and the community.

Before an interim suspension is issued, the institution must make all reasonable efforts to give the respondent the opportunity to be heard, consistent with the provisions in Policy 4.6.5.

4.1.7.3 (C) Jurisdiction

Each USG institution shall take necessary and appropriate action to protect the safety and well-being of its community. 4.1.7.3 (E) Informal Resolutions

Allegations of sexual misconduct may be resolved informally, without a determination of misconduct, if all of the following are met:

1. When complainant(s) and respondent agree to an informal resolution;
2. When the initial allegation could not result in expulsion;

3. When the complainant(s) and respondent(s) agree to the terms of the informal resolution; and
4. When the investigator concludes that informal resolution is in the best interest of the parties and the institution's community.

The alleged victim(s) and respondent(s) have the option to end informal resolution discussions and request a formal process at any time before the terms of an informal resolution are reached. However, matters resolved informally shall not be appealable.

4.1.7.3 (F) Timeframe

Efforts will be made to complete the investigation within a reasonable timeframe, which will be determined based upon the allegations, availability of witnesses and/or evidence, etc. in a particular case. When the timeframe will extend past the reasonable timeframe, the parties will be informed of the delay and the reason for the delay. The investigator shall keep the parties informed of the status of the investigation.

EDITED POLICY LANGUAGE:

4.1.7 Student 6.7 Sexual Misconduct Policy

In accordance with Title IX of the Education Amendments of 1972 ("Title IX"), the University System of Georgia (USG) does not discriminate on the basis of sex in any of its education programs or activities or in employment. The USG is committed to ensuring a safe learning and working environment for all members of the USG community. To that end, this Policy prohibits sexual misconduct, as defined herein.

In order to reduce incidents of sexual misconduct, USG institutions are required to provide prevention tools and to conduct ongoing awareness and prevention programming and training for the campus community. Such programs will promote positive and healthy behaviors and educate the campus community on consent, sexual assault, alcohol use, dating violence, domestic violence, stalking, bystander intervention, and reporting.

When sexual misconduct does occur, all members of the USG community are strongly encouraged to report it promptly through the procedures outlined in this Policy. The purpose of this Policy is to ensure uniformity throughout the USG in reporting and addressing sexual misconduct.

Reporting Structure

All Equal Opportunity directors and others having responsibility for coordination of Title IX ("Coordinators") at USG institutions shall have a direct reporting relationship to both the institution's President or the President's designee and the USG System Director for Equity and Investigations ("System Director"). The President of each institution shall determine the organizational and operating reporting relationships for the Coordinators at the institution and exercise oversight of institutional issues relating to sexual misconduct. However, the System Director shall have authority to direct the Coordinators' work at each institution as needed to address system-wide issues or directives. The President of each institution shall consult with the System Director on significant personnel actions involving Coordinators, to include but not be limited to, appointment, evaluation, discipline, change in reporting structure, and termination.

4.1-76.7.1 Definitions and Prohibited Conduct

Community: Students, faculty, and staff, as well as contractors, vendors, visitors and guests.

Complainant: An individual lodging a complaint. The complainant may not always be the alleged victim.

Consent: Words or actions that show a knowing and voluntary willingness to engage in mutually agreed-upon sexual activity. Consent cannot be gained by force, intimidation or coercion; by ignoring or acting in spite of objections of another; or by taking advantage of the incapacitation of another where the respondent knows or reasonably should have known of such incapacitation. Minors under the age of 16 cannot legally consent under Georgia law.

Consent is also absent when the activity in question exceeds the scope of consent previously given. Past consent does not imply present or future consent. Silence or an absence of resistance does not imply consent.

Consent can be withdrawn at any time by either party by using clear words or actions.

Dating Violence: Violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the alleged victim. Dating violence includes, but is not limited

to, sexual or physical abuse or the threat of such abuse. Dating violence does not include acts covered under the definition of domestic violence.

Domestic Violence: Violence committed by a current or former spouse or intimate partner of the alleged victim; by a person with whom the alleged victim shares a child in common; by a person who is cohabitating with, or has cohabitated with, the victim as a spouse or intimate partner, or by a person similarly situated to a spouse of the alleged victim.

Incapacitation: The physical and/or mental inability to make informed, rational judgments. It can result from mental disability, sleep, involuntary physical restraint, status as a minor under the age of 16, or from intentional or unintentional taking of alcohol and/or other drugs. Whether someone is incapacitated is to be judged from the perspective of an objectively reasonable person.

Nonconsensual Sexual Contact: Any physical contact with another person of a sexual nature without the person's consent. It includes but is not limited to touching (or penetrating) of a person's intimate parts (such as genitalia, groin, breasts, or buttocks); touching (or penetrating) a person with one's own intimate parts; or forcing a person to touch his or her own or another person's intimate parts.

Confidential Employees: Institution employees who have been designated by the Institution's Coordinator to talk with an alleged victim in confidence. Confidential Employees must only report that the incident occurred and provide date, time, location, and name of alleged respondent (if known) without revealing any information that would personally identify the alleged victim. This minimal reporting must be submitted in compliance with Title IX and the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act ("Clery Act"). Confidential Employees may be required to fully disclose details of an incident in order to ensure campus safety.

Privileged Employees: Individuals employed by the institution to whom a complainant or alleged victim may talk in confidence, as provided by law. Disclosure to these employees will not automatically trigger an investigation against the complainant's or alleged victim's wishes. Privileged Employees include those providing counseling, advocacy, health, mental health, or sexual-assault related services (e.g., sexual assault resource centers, campus health centers, pastoral counselors, and campus mental health centers) or as otherwise provided by applicable law. Exceptions to confidentiality exist where the conduct involves suspected abuse of a minor (in Georgia, under the age of 18) or otherwise provided by law, such as imminent threat of serious harm.

Respondent: Individual who is alleged to have engaged in conduct that violates this Policy.

Responsible Employees: Those employees who must promptly and fully report complaints of or information regarding sexual misconduct to the Coordinator. Responsible Employees include any administrator, supervisor, faculty member, or other person in a position of authority who is not a Confidential Employee or Privileged Employee. Student employees who serve in a

supervisory, advisory, or managerial role are in a position of authority for purposes of this Policy (e.g., teaching assistants, residential assistants, student managers, orientation leaders).

Sexual Exploitation: Taking non-consensual or abusive sexual advantage of another for one's own advantage or benefit, or for the benefit or advantage of anyone other than the one being exploited.

Examples of sexual exploitation may include, but are not limited to, the following:

1. Invasion of sexual privacy;
2. Prostituting another individual;
3. Non-consensual photos, video, or audio of sexual activity;
4. Non-consensual distribution of photo, video, or audio of sexual activity, even if the sexual activity was consensual;
5. Intentional observation of nonconsenting individuals who are partially undressed, naked, or engaged in sexual acts;
6. Knowingly transmitting an STD or HIV to another individual through sexual activity;
7. Intentionally and inappropriately exposing one's breasts, buttocks, groin, or genitals in non-consensual circumstances; and/or
8. Sexually-based bullying.

Sexual Harassment: Unwelcome verbal, nonverbal, or physical conduct, based on sex or on gender stereotypes, that is implicitly or explicitly a term or condition of employment or status in a course, program, or activity; is a basis for employment or educational decisions; or is sufficiently severe, persistent, or pervasive to interfere with one's work or educational performance creating an intimidating, hostile, or offensive work or learning environment, or interfering with or limiting one's ability to participate in or to benefit from an institutional program or activity.

Sexual Misconduct: Includes, but is not limited to, such unwanted behavior as dating violence, domestic violence, nonconsensual sexual contact, sexual exploitation, sexual harassment and stalking.

Stalking: Engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others or suffer substantial emotional distress. Course of conduct means two or more acts, including, but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with person's property. Reasonable person means a reasonable person under similar circumstances and with similar identities to the victim. Substantial emotional distress means significant mental suffering or anguish that may but does not necessarily, require medical or other professional treatment or counseling.

4.1.76.7.2 Reporting Sexual Misconduct

A complainant of sexual misconduct may, but need not, file a criminal complaint with law enforcement officials; file a misconduct report with a Responsible Employee or Coordinator; or file both. A report may be filed anonymously, although anonymous reports may make it difficult for the institution to address the complaint. Any individual who believes that he or she has been a victim of sexual misconduct is encouraged to report allegations of sexual misconduct promptly.

All reports of sexual misconduct alleged to have been committed by a student must be handled consistently with requirements set forth in Section 4.6.5, *Standards for Institutional Student Conduct Investigation and Disciplinary Proceedings*.

All reports of sexual misconduct alleged to have been committed by a non-student member of the institution community will be addressed and/or resolved through the institution's and the Board of Regents' applicable policies for discipline of non-students.

4.1.76.7.2 (A) Institutional Reports

Complainants of sexual misconduct who wish to file a report with the institution should notify a Responsible Employee or the Coordinator. Responsible Employees informed about sexual misconduct allegations involving any student should not attempt to resolve the situation, but must notify and report all relevant information to the Coordinator as soon as practicable. Confidential Employees are not bound by this requirement but may be required to report limited information about incidents without revealing the identities of the individuals involved to the Title IX Coordinator, consistent with their ethical and legal obligations. All members of the University System of Georgia institutions' communities are encouraged to report incidents of sexual misconduct promptly.

The Coordinator's identity and contact information shall be published by each institution prominently on the institution's website, as well as in any relevant publication. Each institution may choose to have Deputy Title IX Coordinators to whom reports may be made, as well. Institutions should encourage complainants to report their complaints in writing, though oral complaints should also be accepted, taken seriously, and investigated, to the extent possible. While complaints should be made as quickly as possible following an alleged incident of sexual misconduct, all reports should be accepted regardless of when reported.

The Coordinator shall refer to the System Director any allegation(s) of sexual misconduct that could, standing alone as reported, lead to the suspension or expulsion of the respondent(s). The System Director will work with the institution to determine whether any interim measure(s) are necessary and to assign an investigator who will work under the direction of the System Director or designee, if directed by System Director. If an allegation is not initially identified as one that would lead to the suspension or expulsion of the respondent(s), but facts arise during the course of the investigation that would require transfer to the System Director, the Title IX Coordinator shall transfer oversight to the System Director or designee. The System Director shall have the discretion to retain oversight or transfer oversight to the institution.

4.1.76.7.2 (B) Law Enforcement Reports

Because sexual misconduct may constitute criminal activity, a complainant also has the option, should he or she so choose, of filing a report with campus or local police, for his or her own

protection and that of the surrounding community. The institution may assist the complainant in reporting the situation to law enforcement officials.

Complainants considering filing a report of sexual misconduct with law enforcement should preserve any evidence of sexual misconduct, including, but not limited to, the following:

1. Clothing worn during the incident including undergarments;
2. Sheets, bedding, and condoms, if used;
3. Lists of witnesses with contact information;
4. Text messages, call history, social media posts;
5. Pictures of injuries; and/or
6. Videos.

4.1.76.7.2 (C) Anonymous Reports

Each institution shall provide a mechanism by which individuals can report incidents of alleged sexual misconduct anonymously. Complainants should understand, however, that it will be more difficult for the institution to investigate and to take action upon anonymous reports.

4.1.76.7.2 (D) Retaliation

Anyone who, in good faith, reports what he or she believes to be misconduct under this Policy, or who participates or cooperates in, or is otherwise associated with any investigation, shall not be subjected to retaliation. Anyone who believes that he or she has been the target of retaliation for reporting, participating, cooperating in, or otherwise being associated with an investigation should immediately contact the Coordinator for the institution. Any person found to have engaged in retaliation in violation of this Policy shall be subject to disciplinary action.

4.1.76.7.2 (E) False Complaints

Individuals are prohibited from intentionally giving false statements to a system or institution official. Any person found to have intentionally submitted false complaints, accusations, or statements, including during a hearing, in violation of this Policy shall be subject to appropriate disciplinary action (up to and including suspension or expulsion) and adjudicated under the student conduct policy.

4.1.76.7.2 (F) Amnesty

Individuals should be encouraged to come forward and to report sexual misconduct notwithstanding their choice to consume alcohol or to use drugs. Information reported by an individual during an investigation concerning use of drugs or alcohol will not be used against the particular individual in a disciplinary proceeding or voluntarily reported to law enforcement; however, individuals may be provided with resources on drug and alcohol counseling and/or education, as appropriate.

4.1.76.7.3 Handling Reports of Sexual Misconduct

4.1.76.7.3 (A) Support Services

Once a student or employee makes a complaint or receives notice that a complaint has been made against him or her, or the coordinator otherwise learns of a complaint of sexual

misconduct. The complainant, respondent and alleged victim (where applicable) should receive written information about support services, such as counseling, advocacy, housing assistance, academic support, disability services, health and mental services, and legal assistance, available at the student's institution.

Information on support services will be provided regardless as to whether an individual elects to go forward with filing a formal complaint of sexual misconduct or with notifying law enforcement. Information on support services will also be provided to students and employees, regardless of where the alleged misconduct occurs.

Available support services should also be listed on the institution's Title IX website.

4.1.76.7.3 (B) Interim Measures

Interim measures may be undertaken at any point after the institution becomes aware of an allegation of sexual misconduct and should be designed to protect the alleged victim and the community.

Before an interim suspension is issued, the institution must make all reasonable efforts to give the respondent the opportunity to be heard, consistent with the provisions in Policy 4.6.5.

4.1.76.7.3 (C) Jurisdiction

Each USG institution shall take necessary and appropriate action to protect the safety and well-being of its community. Sexual misconduct allegedly committed by a student are addressed by this Policy when the misconduct occurs on institution property, or at institution-sponsored or affiliated events, or off-campus, as defined by the institution's student conduct policies.

4.1.76.7.3 (D) Advisors Both the alleged victim and respondent, as parties to the matter, shall have the opportunity to use an advisor (who may or may not be an attorney) of the party's choosing at the party's own expense for the express purpose of providing advice and counsel, pursuant to the provisions of Policy 4.6.5.

4.1.76.7.3 (E) Informal Resolutions

Allegations of sexual misconduct may be resolved informally, without a determination of misconduct, if all of the following are met:

1. When complainant(s) and respondent agree to an informal resolution;
2. When the initial allegation could not result in expulsion;
3. When the complainant(s) and respondent(s) agree to the terms of the informal resolution; and
4. When the investigator concludes that informal resolution is in the best interest of the parties and the institution's community.

The alleged victim(s) and respondent(s) have the option to end informal resolution discussions and request a formal process at any time before the terms of an informal resolution are reached. However, matters resolved informally shall not be appealable.

4.1.76.7.3 (F) Timeframe

Efforts will be made to complete the investigation within a reasonable timeframe, which will be determined based upon the allegations, availability of witnesses and/or evidence, etc. in a particular case. When the timeframe will extend past the reasonable timeframe, the parties will be informed of the delay and the reason for the delay. The investigator shall keep the parties informed of the status of the investigation.

4.1.76.7.4 Investigations

All sexual misconduct investigations involving a student respondent, whether overseen by the institution's Coordinator or the System Director, shall follow the investigation process set forth in Section 4.6.5, *Standards for Institutional Student Conduct Investigation and Disciplinary Proceedings*.

4.1.76.7.5 Hearings, Possible Sanctions and Appeals

All sexual misconduct hearings, sanctions, and appeals involving a student respondent, whether overseen by the institution's Coordinator or the System Director, shall follow the investigation process set forth in Section 4.6.5, *Standards for Institutional Student Conduct Investigation and Disciplinary Proceedings*.

All sexual misconduct adjudication involving an employee respondent, shall be addressed utilizing the institution's employment policies and procedures.

AGENDA

COMMITTEE ON FINANCE AND BUSINESS OPERATIONS

January 11, 2018

1. **Approval of Professional Program Tuition for Master of Science in Business Analytics, University of Georgia**

Recommended: That the Board approve the request of President Jere Morehead of the University of Georgia for a professional program in-state tuition rate of \$8,552 per semester (\$713 per credit hour) and a professional program out-of-state tuition rate of \$16,546 per semester (\$1,379 per credit hour) for the Master of Science in Business Analytics degree program, effective Fall semester 2018, contingent upon approval of the program by the Board of Regents.

The program's proposed course of study is currently two semesters. Should the University of Georgia consider changing the program's length of study in the future from two semesters to some other length of time, the Board will also reconsider the tuition rate to maintain affordability.

Background: The Board of Regents will be considering approval of the establishment of the Master of Science in Business Analytics at the University of Georgia (UGA) during the January 2018 meeting. The new program, if approved, is scheduled to begin Fall semester 2018. UGA has requested that the program's proposed tuition rate be considered for approval at the Board's January 2018 meeting as well. This program will reside at UGA's main campus in Athens with classes taught at UGA's Terry College of Business. The program is designed to be completed in 10 months (2 semesters) with students required, in concert with the program's course curriculum, to participate in an internship where they will work in teams on a real-world, big data problem for a corporate partner and present their results to the client.

UGA developed this proposed degree program in response to the Governor's High Demand Career Initiative (HDCI) along with recognizing several consultant company reports and emerging trends among U.S. universities all documenting the growing demand for trained data analysts. The proposed 33 credit hour program will be offered in a traditional in-class format targeting students with undergraduate backgrounds in business, economics, statistics, science, technology, engineering, and mathematics. Program students will cultivate expertise in the collection, storage, analysis, visualization, and interpretation of data, as well as learn the most predominant computer programming languages in the field. The program's primary objective is to develop students' technical expertise in collecting, analyzing and interpreting big data, as well as to teach students these skills in a business context in order for students to learn how data analyses are used to fashion strategic business insights and decisions.

1. **Approval of Professional Program Tuition for Master of Science in Business Analytics, University of Georgia (Continued)**

UGA is requesting Board approval of the professional program in-state tuition rate of \$8,552 per semester (\$713 per credit hour) and a professional program out-of-state tuition rate of \$16,546 per semester (\$1,379 per credit hour) for the program, effective Fall semester 2018. Assuming students complete the program in the intended two-semester timeframe, this rate is the equivalent of a total tuition cost of \$17,104 for full-time in-state students and \$33,092 for full-time out-of-state students under this 33 credit hour program. The requested program rate is nationally competitive, and consistent with Board Policy 7.3.1.3. The differential tuition will be applied towards funding key program components such as faculty and program coordinator costs, industry software, program marketing and program student career services.

2. **Approval of Revision to Board of Regents Policy Manual, Section 7.3.1.1 Tuition Definitions**

Recommended: That the Board approve the proposed revision to the Board of Regents Policy Manual, Section 7.3.1.1 Tuition Definitions allowing the Georgia Institute of Technology (GIT) to assess undergraduate summer semester tuition on a per credit hour basis as an exception to the “finish in four” flat undergraduate tuition model presently in use for all semesters at GIT.

Further Recommended: That the revision become effective summer semester 2017.

Background: In April 2013, the Board approved revisions to the Board of Regents Policy Manual Section 7.3.1.1 on Tuition Definitions. Included in those revisions was a provision permitting undergraduate students enrolled during the summer semester to be charged tuition on a per credit hour basis at the following USG institutions where a “finish in four” flat undergraduate tuition model is in effect: Augusta University, University of Georgia and Georgia College and State University. Those institutions were granted this flexibility concerning summer semester undergraduate students to address the issue of affordability for summer semester undergraduate students who may only need to take one or two courses during the summer semester to complete their degree requirements or are limited to enrolling in one or two courses during the summer semester due to work and/or other obligations. Though GIT also uses a “finish in four” flat undergraduate tuition model, it did not request at that time to be included with the other “finish in four” institutions regarding the summer semester per credit hour tuition exception to the “finish in four” flat undergraduate tuition model.

Through an ongoing review of its summer semester programs and undergraduate enrollments, GIT has determined it is now appropriate to be included in the Board Policy provision permitting an undergraduate student enrolled during the summer semester at a USG institution using a “finish in four” flat undergraduate tuition model to be charged tuition on a per credit hour basis for summer semester classes. GIT believes this tuition flexibility for undergraduate summer semester classes will encourage additional enrollment, especially for students who have coops or internships and who only wish to sign up for a limited number of hours. The per credit hour tuition model will make those classes more affordable, while allowing GIT to increase both course offerings and enrollment to the end of providing students the classes necessary to graduate.

2. **Approval of Revision to Board of Regents Policy Manual, Section 7.3.1.1 Tuition Definitions (Continued)**

Below is the Board Policy revision recommended for Board approval. Please note, strikethrough text represents a deletion from the current version, and highlighted text represents an addition.

Semester

~~Semester~~ "Semester" is shall be defined for the purposes of this section as the standard term of instruction for each USG institution for fall, spring, and summer. AGENDA

COMMITTEE ON REAL ESTATE AND FACILITIES

January 11, 2018

1. **Renovation of Building 032 for ACC Network Production, Georgia Institute of Technology**

Georgia Institute of Technology (“GIT”) proposes to convert the existing Facilities Administration Building (“Building 032”) into a high definition production facility (“HD Production Facility”) for events to be broadcast on ESPN’s Atlantic Coast Conference (“ACC”) Network. The renovation of Building 032 would occur in three phases: (1) demolition of existing interior walls to allow space fit-up for a central production facility; (2) installation of program production equipment and infrastructure; and (3) development of a new fiber optic infrastructure between the central production facility and GIT’s sports venues.

The HD Production Facility would include control rooms, a small production studio, support spaces and staff offices. The new fiber optic infrastructure would support productions originating from the sports venues and produced in the facility’s control rooms.

Completion of this project would allow GIT to meet the ACC’s requirement to have production facilities on-site and would allow for sharing of revenues generated from the ACC’s contract with ESPN. The total estimated project cost of \$10,000,000 would be funded by the Georgia Tech Athletic Association.

2. **Financing Update, Lockheed South Campus, Georgia Institute of Technology**

Vice Chancellor Jim James will update the Board on the financing secured in December 2017 for the Lockheed South Campus by Georgia Tech Cobb Research Campus, LLC (the “LLC”), a wholly-owned subsidiary of Georgia Advanced Technology Ventures (“GATV”).

3. Authorization of Project No. BR-10-1802, Driftmier Engineering Center Renovations-Phase I, University of Georgia

Recommended: That the Board authorize Project No. BR-10-1802, Driftmier Engineering Center Renovation-Phase I at the University of Georgia (“UGA”). With a total budget of \$5,500,000, this project would be funded from the redirection of savings from the Coverdell Center debt defeasement and indirect cost recovery funds.

Understandings: Since its opening in the late 1960’s, the Driftmier Engineering Center (“Driftmier”) has undergone several narrowly focused rehabilitation projects, but no comprehensive renovation. In order to repurpose the building as the core of undergraduate engineering instruction, UGA’s College of Engineering is systematically moving space-intensive research functions from Driftmier to other research specific facilities on campus. These relocations allow for the planned, multi-phase renovation that would improve the quantity and quality of undergraduate instructional space in Driftmier. Approximately 21,000 of the building’s 81,600 square feet would be renovated in the first phase of the project, which would also involve upgrades to major mechanical, electrical and plumbing components that serve the entire building.

As currently planned, the reconfigured and new instructional space would include two, 72-seat traditional classrooms and nine new wet and dry labs. Core IT support spaces would be renovated to support the new instructional space. New restrooms, student meeting spaces and study/collaborative seating areas would also be added.

The estimated construction cost for this project is \$4,000,000. If authorized by the Board, the University System Office staff and UGA will proceed with design and construction of the project in accordance with Board of Regents procedures.

4. **Authorization of Project No. BR-10-1803, Boyd Graduate Studies Research Center-First Floor Renovation, University of Georgia**

Recommended: That the Board authorize Project No. BR-10-1803, Boyd Graduate Studies Research Center-First Floor Renovation at the University of Georgia (“UGA”). With a total budget of \$5,750,000, this project would be funded from a redirection of savings from debt defeasement and refinancing, along with indirect cost recovery funds.

Understandings: The University of Georgia proposes to renovate approximately 21,500 square feet of space on the first floor of the Boyd Graduate Studies Research Center (“Boyd”) to provide research, office and support space for the College of Engineering’s Electrical and Computer Engineering masters and doctoral programs.

A newly renovated Boyd would offer students increased opportunities to engage with faculty on undergraduate research, experiential learning, and hands-on projects. In addition, the project would provide approximately thirteen new offices for research faculty currently housed in the Driftmier Engineering Center, which is scheduled to undergo a comprehensive renovation, subject to separate approvals by the Board.

The project scope also includes around 30 graduate student workstations and new conference and collaboration space. Some building system components would be upgraded, including the electrical distribution system, air handling unit and ductwork, and fire sprinkler and alarm systems.

The estimated construction cost for this project is \$4,157,000.

If authorized by the Board, the University System Office staff and UGA will proceed with design and construction of the project in accordance with Board of Regents procedures.

5. **Authorization of Project No. BR-50-1801, Science Park Phase III, Georgia State University**

Recommended: That the Board authorize Project No. BR-50-1801, Science Park Phase III, Georgia State University (“GSU”) with a total project budget of \$84,000,000 to be funded from indirect cost recovery funds and reserves.

Understandings: The new building would be entirely dedicated to advanced research with a focus on highly infectious diseases, providing critical information for prevention, treatment and future drug and vaccine development. The building would house highly specialized Biosafety Level 3 (“BSL-3”) and Biosafety Level 4 (“BSL-4”) laboratory space, open laboratories with associated support spaces and offices, and a small vivarium. Extensive mechanical support space and heating, ventilation, and air conditioning systems would be needed to meet advanced filtration and containment needs for the BSL-3 and BSL-4 laboratories. The proposed building would facilitate GSU’s collaborative research efforts and enhance GSU’s leadership in the area of global infectious disease research.

The estimated construction cost for this project is \$66,230,000. If authorized by the Board, the University System Office staff and GSU will proceed with design and construction of the project in accordance with Board of Regents procedures.

6. Ground Lease, Kappa Alpha Theta Sorority, Fifth Street NW, Atlanta, Georgia Institute of Technology

Recommended: That the Board declare approximately 0.27 acres of real property (“Property”) on the campus of the Georgia Institute of Technology (“GIT”), to be no longer advantageously useful to GIT or other units of the University System of Georgia, but only to the extent and for the purpose of allowing this real property to be ground leased to Kappa Alpha Theta Fraternity Housing Corporation (“KAT”), for the construction and operation of Greek housing for the benefit of students at GIT.

Recommended further: That the Board authorize the execution of a ground lease of the Property (the “Ground Lease”) between the Board of Regents, as Lessor, and KAT, as Lessee, for a period up to one (1) year for construction followed by fifty (50) years for operation of Greek housing to benefit GIT students. As compensation for the Ground Lease, GIT would collect annual rent of \$20,304, escalating at a rate of 1.5% per year.

Understandings: KAT anticipates commencing construction of the new house in summer of 2018 with completion no later than July 16, 2019.

At the end of the term of the Ground Lease, the real property and any improvements would revert to the Board of Regents. To preserve flexibility and future uses of the Property, the Board has the right to terminate the ground lease, if needed, after 15 years.

7. Revisions to Policy Section 9.1, General Policy on Real Estate and Facilities

Recommended: That the Board approve revisions to Policy Section 9.1, General Policy on Real Estate and Facilities, and its subsections 9.1.1, 9.1.2, 9.1.3, 9.1.4, 9.1.5, and 9.1.6, effective as of January 11, 2018.

Understandings: In line with the goals of the Board of Regents' Policy Manual Review, the main purpose of these revisions is to simplify Policy language, to provide for consistency in Policy provisions, and to increase the efficiency of the Policy Manual.

The current and proposed policies are shown below, with strikethroughs and highlights to show the proposed revisions.

7. **Revisions to Board of Regents' Policy Section 9.1, General Policy on Real Estate and Facilities (continued)**

9.1.3 Procedures, Standards, and Guidelines

The USG chief facilities officer is responsible for establishing standards and guidelines for Property Activities. A complete list of current standards and guidelines will be accessible on the USG website.

The USG chief facilities officer shall work with the Georgia Department of Law to make available standard forms of agreement, contracts, and other templates of legal documents that might expedite or facilitate Property Activities.

9.1.4 Real Estate Delegation of Authority

Unless specifically designated otherwise, the Chancellor delegates the authority that he or she has under Section 9 of this Policy Manual to the USG chief facilities officer. The authorization may not be further delegated to USG institutions.

When acting with delegated authority for public private venture transactions and USG real property transactions in the name of and on behalf of the Board of Regents, USG officials may execute and deliver documents and take other actions as, in the judgment of such officials, may be necessary, proper, convenient, or required in order to carry out the intent of authority delegated to those officials.

8. Authorization of Budget Modification, Ground Lease and Rental Agreement, Project No. PPV-71-1701, Student Health Center, University of West Georgia

Recommended: That the Board modify the budget of Project No. PPV-71-1701, Student Health Center, University of West Georgia to increase the total project budget from \$4,490,000 to \$5,050,000.

Recommended further: That the Board declare approximately four (4) acres of real property (the "Property") on the Carrollton campus of the University of West Georgia ("UWG"), to be no longer advantageously useful to UWG or other units of the University System of Georgia, but only to the extent and for the purpose of allowing this real property to be ground leased to Tanner Health System or an affiliated special purpose entity created for the purpose of this development ("Tanner"), for the construction of a student health center totaling approximately 14,403 square feet (the "Project").

Recommended further: That the Board authorize the execution of a ground lease of the Property (the "Ground Lease") and the grant of any necessary access and use easements, between the Board of Regents, as Lessor and Grantor, and Tanner, as Lessee and Grantee, for a construction term not to exceed two (2) years, and a primary term not to exceed twenty-one (21) years from the date Tanner obtains a certificate of occupancy for the Project, along with an option to renew the Ground Lease for up to five (5) additional years should there be debt outstanding at the end of the primary term.

Recommended further: That the Board authorize the execution of a rental agreement for the Project between Tanner, as Landlord, and the Board of Regents, as Tenant, with the initial term ending on June 30, 2018 and an option to renew annually for up to twenty-one (21) consecutive, one-year periods. Base rent payment will commence on the first day of the month after Tanner obtains a certificate of occupancy for the Project, and will not exceed \$236,000 per year.

Understandings: In April 2017, the Board authorized construction of the Project as a public-private venture ("PPV") with a total project budget of approximately \$4,490,000. Despite a competitive contractor selection process and collaboration between Tanner, UWG staff and selected contractors to reduce the cost through value engineering and other measures, the estimated construction cost of \$4,002,000 is higher than anticipated.

The project budget includes a \$1,547,600 contribution from UWG auxiliary reserves and institution funds for related site and infrastructure work and removable furniture, fixtures and equipment. The anticipated schedule is for construction of the Project to commence in January 2018, with completion by July 2019.

At the end of the term of the Ground Lease, the real property, all improvements, and any accumulated capital reserves would revert to the Board of Regents.

9. Naming of Sanford and Barbara Orkin Hall, University of Georgia

Recommended: That the Board approve the naming of one of the buildings to be constructed as Phase III of the Terry College of Business Learning Community at the University of Georgia (“UGA”) as “Sanford and Barbara Orkin Hall” in recognition of the philanthropy and service of Sanford and Barbara Orkin.

Understandings: President Jere Morehead confirms that this naming conforms to the UGA naming guidelines and with the Board of Regents naming policy.

Sanford and Barbara Orkin both attended the University of Georgia. Drafted into the military while still a student, Sanford joined his family’s pest control business after returning from the Korean War. Following the sale of Orkin Pest Control to Rollins, Inc. in 1964, Sanford has since contributed his time and talent to UGA in various roles, including emeritus trustee of the UGA Foundation and the UGA Real Estate Foundation. For his longstanding support of UGA, Sanford was honored with the Blue Key Service Award in 2007. Four years later, Sanford and Barbara were recognized as members of the 1785 Society for their commitment to improving lives of others through the University.

The Orkins have pledged a \$5,000,000 gift towards this naming, half of which has been received to date. The remaining \$2,500,000 is scheduled to be paid in 2018 and 2019.

Phase III of the Business Learning Community includes approximately 72,100 square feet in two buildings that will complete the six-building community. Phase III is expected to be completed in 2019.

10. Gift of Real Property, 445 Capitol Avenue, Atlanta, Georgia State University

Recommended: That the Board accept a gift of approximately 5.669 acres of real property (the “Property”) located at 445 Capitol Avenue, Atlanta, from the Georgia Building Authority (“GBA”) for the use and benefit of Georgia State University (“GSU”).

Recommended further: That acquisition of this Property be subject to completion of an environmental site assessment indicating no significant problems or, if environmental problems are indicated, completion of an action plan for mitigation of such problems prior to redevelopment of the Property.

Recommended further: That acquisition of this Property be subject to completion of a recordable survey showing no easements or restrictions that would be considered to adversely affect the use of the Property.

Understandings: On December 12, 2017, the GBA approved a resolution authorizing transfer of the Property to the Board of Regents. As a condition of this transfer, the GBA would reserve a temporary revocable license agreement (“RLA”) with the Gilbane Building Company. The RLA, which was granted for logistics activities related to the construction of the new Judicial Complex, is scheduled to expire on August 30, 2019.

If acquired, the Property, which is currently improved with a small amount of asphalt parking, would be used for future expansion of GSU’s downtown campus and improved connectivity between the campus and Georgia State Stadium.

11. Disposition of Real Property, U.S. Highway 41 North and I-75 Interchange, Tifton, University of Georgia

Recommended: That the Board declare approximately 12.19 acres of real property (the “Property”) located in the southeast quadrant of the U.S. Highway 41 and I-75 Interchange in Tifton to be no longer advantageously useful to the University of Georgia (“UGA”) or other units of the University System of Georgia, but only to the extent and for the purpose of allowing the sale of this real property to 31 North Real Estate Investors, LLC or an affiliated special purpose entity created for the purpose of this acquisition (“31 North”).

Recommended further: That the Board authorize the sale of the Property to 31 North for \$1,700,000.

Recommended further: That the sale of this Property be contingent upon the successful completion of due diligence by 31 North.

Understandings: The Property, which is improved with a shop/barn structure, greenhouse, and two shade hoop houses, was previously used for agricultural research purposes by the UGA College of Agricultural and Environmental Sciences. Recent use of the Property for research has been limited and the Property, which is not contiguous with any other Board-owned property, is now considered a surplus outparcel.

Two independent appraisals of the real property are as follows:

<u>Appraiser</u>	<u>Appraised Value</u>	<u>Average</u>
R. Bryan Almand, MAI, Valdosta	\$1,350,000	
Greg F. Crumley, MAI, Tifton	\$1,195,000	\$1,272,500

Should the Board authorize this sale, 31 North will begin the necessary due diligence to acquire the Property. Completion of due diligence is expected to take approximately nine (9) months. Closing would take place within ninety (90) days of the due diligence period.
