### Introduction to the Financial Aid Reporting System

| Purpose of FARS                  | The University System Office has worked in conjunction with<br>institutional financial aid directors on a new data collection effort to<br>track student financial aid information. The web-based Financial Aid<br>Reporting System (FARS) for editing and submitting data is the result.<br>Previous data collections were survey-based and concentrated on<br>aggregated institution-level data. However, current needs require an<br>analysis of student-level data to answer financial aid policy questions.<br>Research questions include the effects of need and non-need based<br>financial aid on student retention, graduation, and the performance of<br>students receiving various forms of HOPE scholarships. |  |  |  |  |  |

### Create Data Files and FTP to USG Data

Before accessing FARS to edit and submit data, both Banner and non-Banner institutions create data files and send them to usgdata.usg.edu.

- 2. Follow these steps to prepare the data file for your institution:
  - In the Process block enter **ZORFARS** and hit the **Tab** key.
  - Hit Next Block to get to the printer section and type in NOPRINT.
  - Hit Next Block to get to the Parameter Value section.
  - Enter values for the two following parameters:

### Parameter Value

| 01 | Aid Year | Example: | 0001 |
|----|----------|----------|------|
| 01 |          | Example. | 0001 |

02 Do you disburse FFELP Y for Yes or N for No Loans?

**Note:** Institutions that disburse FFELP loans using Banner [RPRATRM\_PAID\_AMT] should select "Y" for this parameter. For institutions that select "N" for this parameter, the process extracts the amount from [RPRATRM\_ACCEPT\_AMT].

- Hit Next Block to get to the Submission section.
- Click the **Submit** option.
- From the file menu or the tool bar, select **Save** to submit. The process automatically names the file **fa\_XXXXX** where XXXXXX is your institution's 6-digit FICE code.

# FTP data file3. When job submission is complete, FTP the data file to usgdata.usg.edu using your FICE code (with the 's') as your ID and your ftp password.

Note: The only time that you use the 's' is when you FTP the file.

If you do not know your password, contact the OIIT Solution Center for assistance.

Additional<br/>InformationTo obtain instructions for translating data on STVXLBL and<br/>SOAXREF, see Creating a Cross-Reference Table in Banner at the<br/>following URL

### Log in to FARS

Once you have created and FTP'd the data files, both Banner and non-Banner institutions follow the same log-in procedures.
