Interfolio

February 8, 2017

# Agenda & Objectives

---

## Meeting Agenda

- ▶ 10:45 – 10:15: Presentation on Interfolio background, what technologies we're striving to provide for higher education and review of platform modules
- ▶ 11:15 – 11:30: Q&A

## This meeting will be successful if...

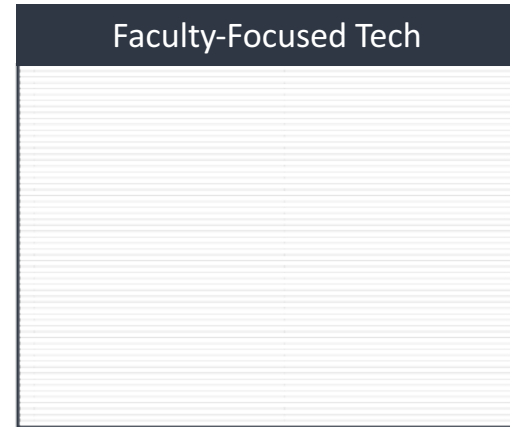

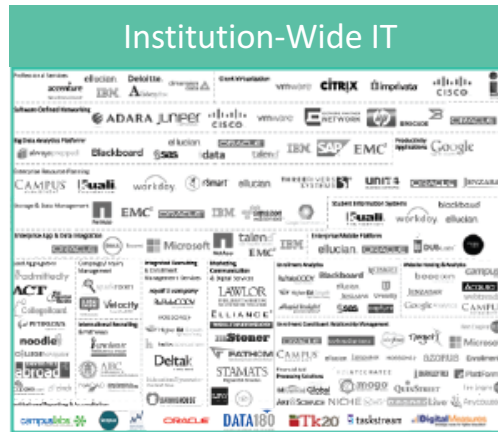

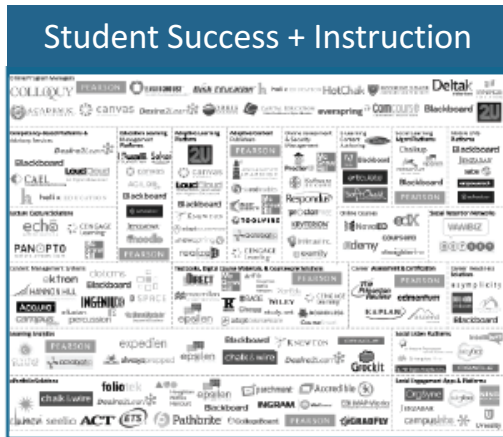

- ▶ Interfolio team leaves conversation with a deeper understanding USG's goals, challenges and solution requirements
- ▶ USG institutions gain further understanding of how Interfolio as a solutions provider can help them address their needs in the areas of faculty activity reporting, faculty recruitment and/or RPT process
- ▶ Interfolio and USG institutions establish enough synergy and excitement to continue the conversation on an individual basis in the coming weeks

**Higher education is undergoing a sea change.**  
It's time to invest in core of academe, faculty.

# The Essential New Category: Faculty Technology

\$25b on EdTech per year, and few providers focus on faculty

“We have disparate systems, tools that address one piece of the puzzle, or that are only being used in one department and we never end up with good results. **We need to make an investment in a tool that addresses our data needs, provides faculty useful tools, and supports shared governance in one place.**”

Head of Faculty Affairs,  
Large Private R1 Institution

# The Solution? Holistic Faculty Decision and Support Coverage

The ideal solution covers every moment in the faculty lifecycle.

## APPLY

Scholars compile their CV and materials for opportunities

## HIRE

Benchmark CV and EEO information

## REVIEW

Annual submission of publications, classes, and activity

## SERVICE

Committee decisions that steer the course of the institution

## TENURE

Career milestone and assessment with lasting institutional impact

## SABBATICAL

Opportunity to check in with advanced scholars

## PROMOTION

Continued engagement in the institutional mission

# Customers at the Center of Our Product Strategy

Interfolio continuously evolves to meet your challenges.

## Continuous Discovery

occurs throughout the year allowing us to form hypotheses around:

- Feature Design
- Quarterly Product Priorities
- Longer Term Vision

## Feedback & Validation

solicited throughout the year from institution leaders and users:

- Interviews
- Product Testing
- Observational Testing
- Advisory Groups

**Product Roadmap** reviewed and refined quarterly and shared through client success and webinars, providing greater transparency to campus guide planning

# What's Needed From The Ideal Faculty Tech System

R&D from 100+ institutions yields 7 key factors for faculty tech success

Give faculty tools to support service, advancement, networking, and grant seeking

Institutionalize processes to promote greater transparency and equity

Streamline reporting for institutional compliance and accreditation

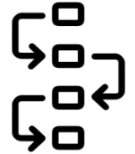

Enable diversity goals, standardize faculty hiring and tenure processes

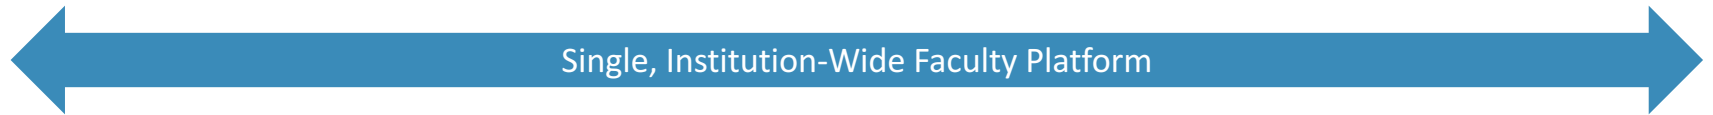

Strategically allocate faculty time and resources through improved access to data

Provide higher quality data for committee and academic decisions

Minimizing manual processes to reduce inefficiencies and financial strain

# A Virtuous Cycle Built Around Faculty

Comprehensive platform brings together disparate systems, data, and processes

## Tools for Faculty

### Showcase

- Fielded and File Based Artifact Collection from Day 0
- Visibility to Review requirements

### Engage, Network

- Discover collaborators
- Get and give feedback

### Submit, Re-use

- Feedback flows across lifecycle moments
- Portable: data and artifacts move with scholar across institutions
- Private to the faculty

# Data180's Faculty Activity Reporting Software

---

Ideal for reporting on the professional activities of faculty

- **Administrators** maintain a central hub of validated faculty data to produce necessary compliance and accreditation reports
- **Faculty** save time without repeated requests for data
- **Faculty** can produce activity reports in the form of CVs and Biosketches for grant applications and reviews
- **Institution** can auto-populate data by integrating with other systems (campus SIS, ORCID, Pub-Med, etc.)

"Data180 helped us develop a complex set of integrations that included **multiple legacy systems, sponsored projects grant data, work history information, and teaching data.** As is inevitable in such complex projects, we faced challenges in mapping the information and displaying it in an intuitive manner. Data180 has been a very responsive and innovative collaborator in addressing those challenges."

**Tom Miller, Ph.D.**

Vice Provost, Office of Faculty Affairs  
The University of Arizona

# Data180's Faculty180 for Faculty Activity Reporting
