November 27, 2007—Discussion items

The Council discussed at length some issues related to the revision of the core curriculum, and makes the following recommendations To the Steering Committee:

1. Use the USG Academic Committees as a resource during the core curriculum revision process. Their input has been a very useful resource to the Council.
2. Transferability of the core curriculum is of prime importance.
3. The process needs to be more transparent. Create an obvious, prominent link to the Core Curriculum Initiative on the System website. Provide a space to leave a comment.

The next meeting of the Council is scheduled for Spring 2008.

The meeting adjourned at 3:00 pm.
